HITMAN: BLOOD MONEY

HITMAN: BLOOD MONEY

Welcome to our *Blood Money* guide. Stick with us and we'll turn even the clumsiest would-be killers into ice-cold, silent assassins. What follows is a slick route to success in every level, but it's not the only way to succeed. Explore, experiment, and you'll discover a world of alternatives.

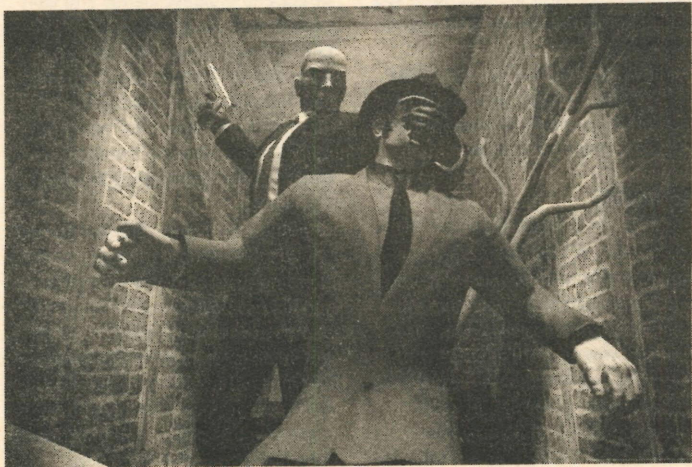

EXPERT TIPS

It's not good enough just *knowing* the basics; you have to *master* them.

SNEAKING

This is much easier than it was in the last two games. Guards and civilians

seem less suspicious in general and 47 sneaks much faster than before. As you draw near an enemy you want to stealth kill (when 47 raises his fiber wire, or whichever close-quarters weapon you're using), slow down to a crawl by tipping the analogue stick forward as lightly as possible. Make a sudden movement and your victim will spin around, scuppering your attempt at a silent kill. If another guard sees you sneaking towards one of his mates, or even if you accidentally press the sneak button without a disguise, they'll get terribly suspicious, so make sure the area is

HITMAN: BLOOD MONEY

clear of prying eyes before you start skulking about. Sneaking is a must. It allows you to creep behind and past people. The difference between sneaking and moving while crouching, is that 47 will move while bending his knees while sneaking, while in crouch movement, he slides his feet while moving very low to the ground. If you crouch behind a person, they might hear you.

If you are walking on stone, this won't cause as much noise as snow will. In other words, be aware of the surface you are walking on.

DISGUISES

Disguises are a bigger help than they were in the last game, mostly because, while wearing one, enemies don't automatically open fire if the suspicion meter moves into the red. The best way to avoid detection is to use a little common sense. So, stay as far away from enemies as possible (don't bump into them) and walk rather than run. If you saw a milkman

dashing past at full pelt you'd suspect something other than spilt milk was up, right? Imagine that you're *actually* a conspicuous bald man trying to pass off as a simple workman or a guard, and behave as normally as you can while walking in the open. In just about every level, you'll have to use a disguise to progress silently and gain certain access to restricted areas. To get a disguise, knock out a target, approach the unconscious/dead body, and select the new outfit when prompted on-screen. Just note, that you can't take female clothing and certain clothing belonging to key male characters.

Note, that not all disguises involve killing or knocking out people. You can always search rooms for a disguise. Obviously, the less interaction you have with people, the better it is for you. Remember, each disguise works differently when the suspicion meter is in the red. Try to blend in with the predominant uniform in a particular area and you'll usually be okay.

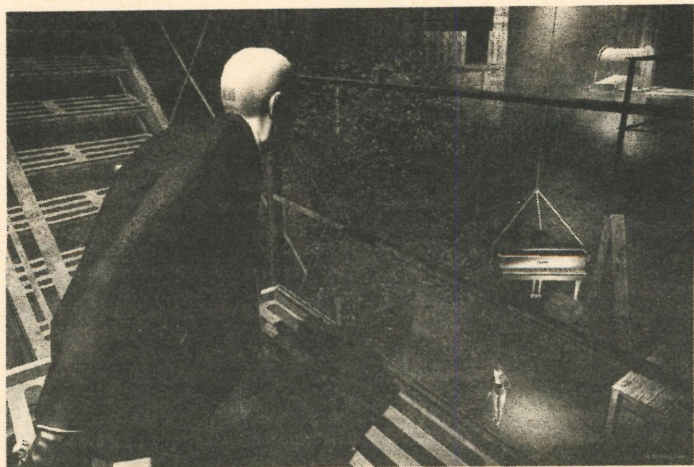

HIDING

Hiding is a major factor in this game. Even a dark corner of a room can be enough to cloak a sneaking Agent 47 from prying eyes. Look for things to hide behind on levels, like crates or dumpsters. You can also hide in cupboards, which is helpful. While inside, wait for a guard to turn his back then pounce from the closet, taking him out swiftly. Shadowy areas work as they would in real life, so creep around the edges of levels to avoid detection. Obvious, really. As for hiding bodies, there are numerous bins, crates and laundry baskets hidden around levels in which you can dump corpses or tranquilized bystanders. To do so, drag them towards the object, press **X** to flip open the lid, **X** again to throw him in and then close it before you go. If a guard sees you doing this there's very little point in continuing – it's the most suspicious of activities and will render even a cast-iron disguise absolutely useless.

TIMING

The patrolling guards in *Blood Money* have routes that take different lengths of time. If you can reach a good vantage point, enter first-person mode and watch their movements. The game has been designed so that pretty much every patrol in the game has a weak/blind spot, so take your time and take advantage of them. Also, if you're disguised as a guard, venturing away from your patrol route may raise your suspicion meter a little, so try and keep to where the other guards are.

Before making a strategic kill, it is vital to know what weapon you are going to use. Are you going to use the slow but silent fiber wire, or take out your target with the silenced pistol and hide the body? Or are you going to pacify him instead of harming? All these questions should be answered in your mind before you decide what to do. A decision like this can affect what ranking you obtain as a fiber wire kill doesn't have as high an

HITMAN: BLOOD MONEY

aggression rating as, say using a gun or a nail gun to the head.

KNOCKOUTS

In this game knock-out attacks can last as little as a minute, but since your default kit includes a generous amount of sedation syringe shots, you don't have to be sparing with them. When someone wakes up, they *will* blow your cover if they catch you wearing their clothes. Whenever you knock a guy out try to make sure you've changed into something else before he wakes up, or stay out of his area of the map. In *Hitman* you can complete many new stealth kills. Some are more creative than in the previous games (like opportunistic shoves off balconies). However, to perform a basic stealth kill, take out the fiber wire, a knife or syringe, sneak behind a target's back, and press the **R1**.

DIVERSION

Stationary guards will turn to face

footsteps they hear, and will sometimes stay facing that way for ages. Use this to your advantage to divert enemy attention away from the scene of future crimes. You can throw items too, like coins and rocks, but eventually guards will return to their original patrol route. Of course, you'll be gone by then, right?

Exploit the AI this way as much as possible. This is a useful technique when you want to pass guards by a low wall. Gently push the analog stick to crouch, while holding the **R2** button. Note that this technique isn't useful for sneaking behind targets to perform stealth kills since they'll be alerted already and will hear you.

WALKTHROUGH

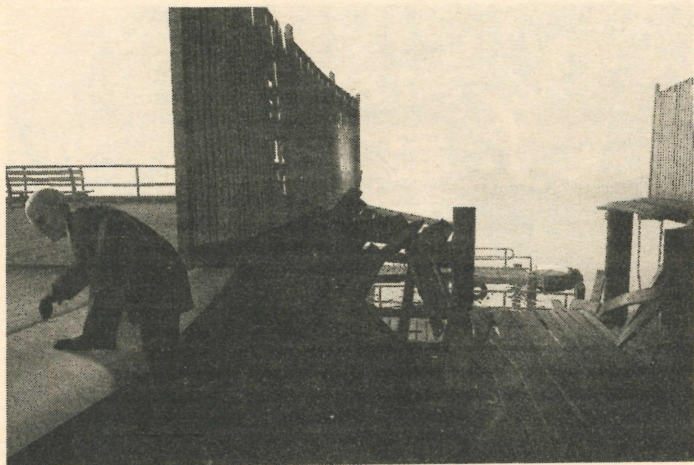

The quickest, deadliest way to get through all of 47's new missions.

MISSION 01

DEATH OF A SHOWMAN

Once you reach the front gates wait in front of them until the guard walks up

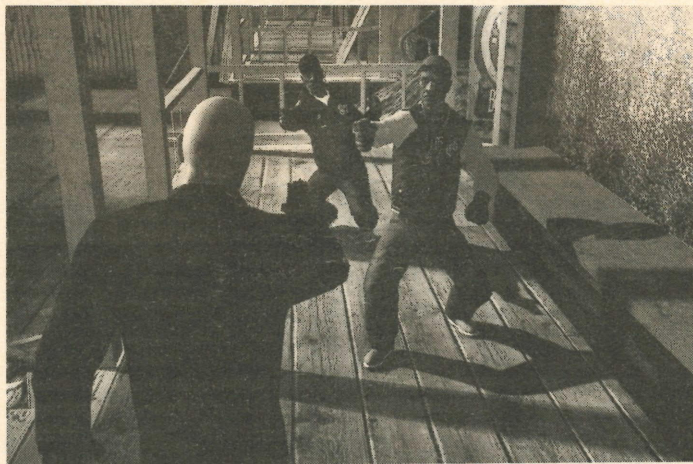

to talk to you. One head-butt later you'll have entered the gates. Go into the gift shop door to 47's left. As you enter this building head to your right and go around the corner of the wall in front of you near the counter before equipping the coin. You should see an open window here with a sign just outside of it that has a target on it. Throw your coin at that target to distract the guard just outside the window. Quickly exit the gift shop and enter the door of the theatre up ahead. Now you have a choice here: Use the fiber wire on the gangster tormenting the lawyer at the other side of the theatre before using the red trellis, or just climb up, ignoring his yells for mercy. Once you reach the top of the trellis climb over the railing in front of you to jump to the balcony across the way. Pick up the shotgun near the far wall of the small room in front of you. Shoot the closed door of this room to open it or pick the lock. Once the door is open quickly shoot the two guys counting money at the

table. Once they are both dead go over to one and drag him over to either of the big trunks in this room to dispose of the body. Close the lid on the trunk and then do the same again dumping the other body in the second trunk. Now head over to the closet at the corner of the room and hide. Exit the closet and shoot the chemist when he enters.

Once he is dead go over to the body and change into his clothes. Quickly go through the doors he entered by and use the keycard on the keycard reader that is nearby. Go through the opened door and slowly walk along this walkway past the guard up ahead. Be sure that you've holstered any weapon before starting along this walkway. Once you get past the guard go into the first opened doorway to 47's left. Pick up the gun on the box to add to your ammo and then face the crate on the floor to your right. Place your weapon into it and then pick up the crate. Walk out of the doorway and continue down the

walkway. Walk up to the guard standing by the double doors ahead to let him use his metal detector on you. After he has cleared you go through the double doors he is guarding.

Take the pistol out of the crate after you put it down and then equip the fiber wire. Enter the lift and climb up onto the roof. Wait for a guard to enter the lift and strangle him from above. Now drop down into the lift car. Exit it and go over to the power box on the wall to your right. Move along the edge of this room towards the gents. Go over to the opened window at the far side of the room and exit via it. Go over to the case between the cardboard boxes to 47's left and take the remote bomb from it. Follow this walkway to the open window at the other end of this walkway and re-enter via it. Place the remote bomb on the winch you see at the far side of the balcony to 47's right. Now you can kill the target, and stealthily make your exit. Well done.

MISSION 02 A VINTAGE YEAR

Since this is your first proper mission it's fairly easy to complete. Just stay away from the main party area initially. It may be tempting to go mingling with the guests, but once you're in the courtyard you're enclosed there with pretty much no way of escape, or reaching one of your targets. So, enter the complex through the gate on the wall to the west and climb up the crates directly in front of you. Wait for the gardener to leave or he'll run and sound the alarm.

Cross the grassy garden area with the abandoned fountain. There's a sleeping guard here, snoozing in the shade directly behind you. Quietly kill the poor blighter and nick his clothes. Clamber up the drainpipe ahead of you and shimmy across to the brown door. Go through the door to your left and you'll find yourself in the guards' dormitory area. It's swarming with heavies, but thanks to your sleepy friend's uniform you can walk among

them freely. Although be sure to *walk* because if you start running about they will sound the alarm. Got that? Good. At the top of the stairs there are two doors at the far end. Keep your eyes peeled for guards, sneak along the corridor and pick the lock. It only takes a few seconds but if you get spotted your alert bar will flash red almost instantly. Inside you'll find Don Fernando Delgado, completely oblivious to your presence. Kill him however you like, but make sure you do it quietly. We recommend the fiber wire or poison syringe. The good thing is, you don't have to hide his body because the guards wouldn't dare go into his room without express permission. It might help to stick him in the corner, behind the door, just in case a guard hears your footsteps and gets nosy. This is just a precaution, though, because the game's AI is so unpredictable. One down, one to go.

Your last target is Fernando's brother Manuel. You need to get to the wine cellar, so go down the stairs

into the main party area and walk through the wine-sipping crowds to a door at the back. Go inside and head downstairs and you'll find the cellar. The target is, stupidly, strolling around on his own to the west. Use your guard costume to wander past security and kill him with the fiber wire. Unlike his brother, you *have* to ditch his corpse, so toss him in the wine vat near where you wasted him.

To escape you have to find a subterranean hangar, which is hidden behind a secret door and a drugs lab. Don't worry though 'cause the secret door is pretty obvious. It's shaped like a barrel, so go up to it and press ⊗ to

HITMAN: BLOOD MONEY

make it swing back, leaving your escape route wide open. The good news about this early mission is that the AI isn't *that* sharp and can be exploited relatively easily. But as the game goes on you can get away with less and less, so don't get used to it.

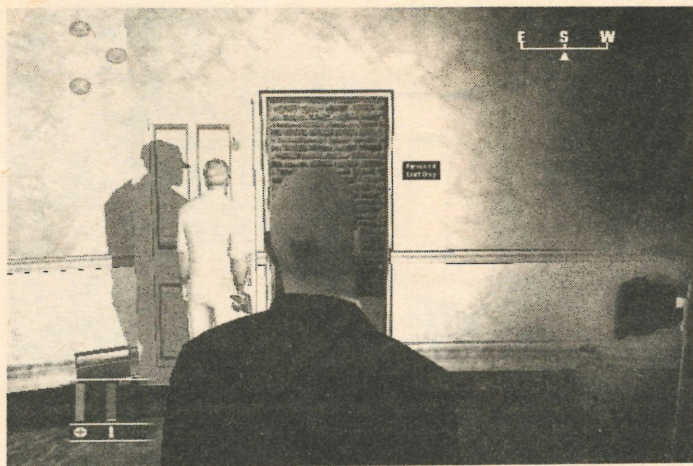

MISSION 03 CURTAINS DOWN

This mission can be fairly complex and the layout of the opera house is pretty confusing, but stick closely to the route we're outlining here and you'll be fine. First thing first; search your inventory for the coat ticket and approach the coat check-in booth to

your left. Go up to the attendant and press **X** and a cut-scene will play. 47 will take the jacket and sneak out a genuine WW1 pistol. You'll find out why later. After the scene has finished, go to the right of the booth into the toilets. Ignore the tourist in there and hang around for a bit. Wait for a maintenance worker to pop in for a slash and fiber wire him. Take his uniform and stick his body in the laundry basket nearby. Make sure you close the lid before you leave. With this disguise you'll be completely unchallenged by anyone from the dressing rooms to the basement, which is a pretty wide area. Just don't go near the stage or the *main* entrance to the dressing rooms or your cover will be blown. Oh, before you find another route into the dressing rooms, plant a remote mine in the toolbox and leave it in the main gangway of the auditorium (accessed down the steps opposite the entrance to the theatre). You'll see why later.

There are armed guards

everywhere, protecting the actors, so wait until the coast is clear before entering the dressing room to the far north. Once inside, shoot the mirror with your Silverballer pistol. Hide in the cupboard and wait for the actor to come in. While he's looking at the shattered mirror trying to figure out what happened, pop out from the cupboard and kill him. Take his costume and head towards the stage area, being sure to equip the WW1 pistol on the way. You now have the starring role in an opera. It's just lucky you don't have any lines. All you have to do is stand around a bit.

Take the actor's place on stage on the white cross and watch the scene play out. When the music reaches a crescendo, shoot your co-star (the first real target) with the WW1 pistol. It should've been a replica, but because you got the *real* one at the coat check you'll score a kill and it'll all be a terrible, terrible mistake. Yeah, right.

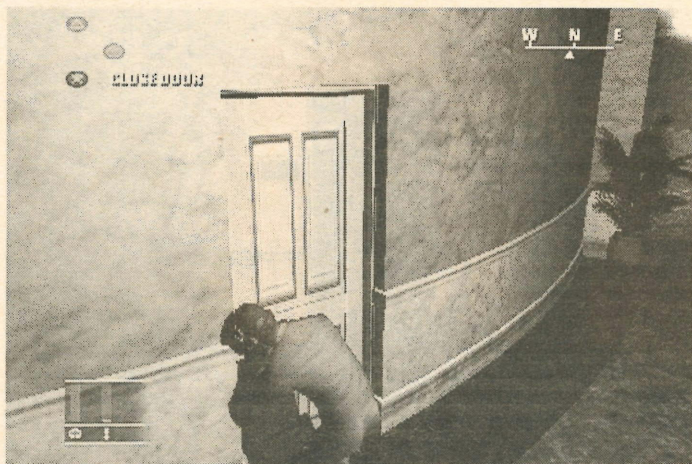

Pretty quickly though, your other target Delahunt will smell a rat and

run on stage, wailing and cursing the humanity of it all. By now you should have skulked off in the confusion. Wait until Delahunt storms into the auditorium and detonate the bomb you planted earlier. Job done.

Alternatively, you can plant a mine on the lighting rigging above and crush everyone on stage. To get there, enter the backstage area from the corridor with the dressing rooms on it. Go through to where the workmen are nail-gunning a piece of set decoration and climb the wire mesh directly to your right. You'll be able to set the mines and blow the rig. Either way, you'll have killed both your targets and you can escape through the front entrance in the disguise of your choice, as proudly as you like.

A good thing to remember in this mission is that, because the place is being renovated, your workman/maintenance worker disguises can get you pretty much anywhere. Just make sure you snag another toolbox to complete the look or the guards will

HITMAN: BLOOD MONEY

get sniffy and start to follow you around. There are two types of guard; regular security guards and suit-wearing heavies. The heavies are a lot more cautious, but the security guards can be easily fooled and don't mind too much if they see you snooping around in strange places.

MISSION 04 FLATLINE

This is the hardest mission so far and you need to be as careful as possible with your disguises, because the guards can be very temperamental. The layout of the level can also be confusing, so make a habit of checking your map to keep your bearings. Note, for instance, that the morgue is located right beside the start point.

Okay, first thing's first; getting inside. To the west near the medical wing of the clinic you'll find a drainpipe you can climb up to reach the roof. Drop down to the right and take out the guard silently. He's pretty

dense and shouldn't notice you falling to the ground behind him. Nick the keycard he's holding and, to get rid of the body so other guards don't stumble across it, ditch it in the bin outside. Textbook stuff. With his uniform on, walk forward and through the gates to the medical wing area we mentioned earlier. Being as quiet as possible, sneak up on the guy sitting in the office near here and take care of him with the poison syringe when the area is clear. Put his robes on as a disguise, drag the body to a dark corner somewhere and go across the rickety-looking gangplank to the ward area. Stroll through the ward and look

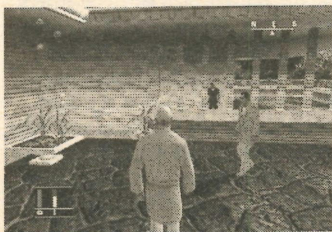

in each room. Eventually you'll find your target, Smith, in a door to the left at the end of the hall. You need to 'kill' him with the experimental serum Diana from the agency gave you. He'll appear to be dead. Leave, and his 'body' will be discovered and taken to the morgue. You can revive him on the way out at the end of the mission.

Now it's time to get rid of the three gang members, which is easier than it sounds if you're a little creative with your kills. For the first one, make your way into the 'globe' room in the main clinic with the high ceiling. See that pointy chandelier above the globe? Head upstairs and set a remote mine on it and then detonate. The gangster should be killed instantly and you won't be spotted.

To get rid of the next one, set off the gas cylinder in the kitchen area by pressing ⊗ next to it. The ensuing explosion should see to your target, leaving one left who can be found in the gym, working out. When you find him, press ⊗ and drop the weights

on his neck, choking him. Now it's time to escape via the morgue.

For an alternate route in to the clinic, at the start of the level there's an easy way to get a patient disguise. Along the starting path you should see a security guard. When he walks away, move towards the dumpsters. There should be a patient having a sneaky last drink before entering detox, so – making sure the guard is looking the other way – snuff him out and toss him in the bins. Further up the path you'll see a patient having a cigarette. His entry papers to the clinic are on the bench. Swipe 'em, and you're all set for the rest of the mission.

HITMAN: BLOOD MONEY

MISSION 05

A NEW LIFE

Lovely. The safe, peaceful suburbs of America. As if. In this mission it's important to remember that if you cause any fuss around these leafy streets, a passing jogger or another civilian will start to panic, which in turn alerts the suit-wearing armed guards. It's very easy to get a full red suspicion meter here and any weird behaviour shortly escalates into you being caught and shot into chunks.

Head south down the street, past the clown's car. Hook a right and wait in the vet's room in the back of the house opposite your victim's to pick off the garbage man when he arrives. Waste him, nick his clothes and pick up the tranquillizer darts. You can now casually wander through the back yard of the house to the north, climb up into the treehouse and shoot the irritating guard dog in the target's garden. If you don't it'll attack you if you try and get anywhere near your victim. With the path to Sinistra's

(your target) cellar clear, wander in and a deadly FBI agent will be waiting. Take him out (however you like), get his clothes, and grab the lighter fluid before you move on.

Use the cellar to access the house above where both your victims are waiting to be killed. Go straight upstairs, and stay away from the entrance where other FBI agents are hanging around.

Find Sinistra's office at the top of the stairs and look around for a little alcove area draped in shadow. You can nestle yourself in here and wait for him to bumble past. When he does, pop out and finish him off with the fiber wire, or any weapon of your choice – the guards are too far away to hear anything. There are no bins nearby so drag his body to that alcove you were hiding in, just to keep him away from prying eyes. Next up you need to get rid of his wife. You can find her next to a barbecue in the garden. Remember that lighter fluid you picked up earlier? Tip it into the

barbecue and wait at a safe distance. The wife will be set alight and die in the pool. Now, out of mock concern, enter the pool and search her body. You'll find the necklace you need to complete the mission. You simply can't leave without it.

An alternative way of killing the wife, if the last method was too sadistic for you, is to dress as the pool attendant (who can be easily ditched, binned and defrocked) and flirt with her – she'll take you to a quiet place which gives you ample opportunity to murder her. To escape, just head back to where you started. Another good disguise is Bozo The Clown, who wanders back and forth to his colourful van parked near the victim's house. You can kill him when he's near the back of his van when nobody is around and ditch his body in it, taking his silly clown suit as you do.

MISSION 06

THE MURDER OF CROWS

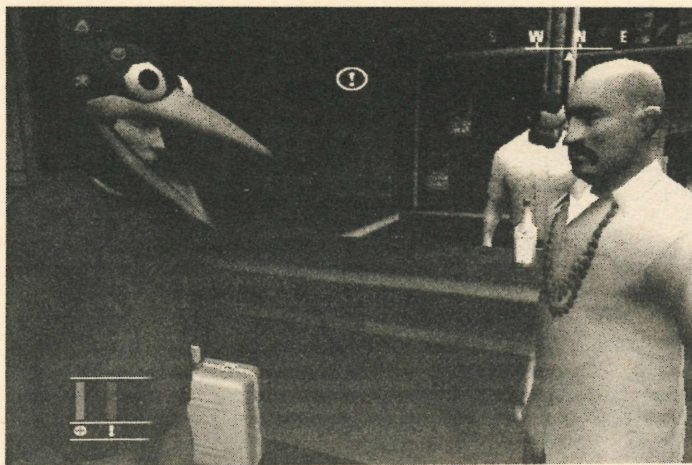

Now it's time for the famous Mardi

Gras mission. In the streets outside there are thousands of people wandering around, enjoying the festival. Not only does this look amazing but it serves a practical purpose; you can use the crowds to get the slip on curious guards, or to escape from tricky situations. But don't pull a weapon because the crowds will panic and scatter, leaving you out in the open.

Now, let's start the mission. Purayah's office can be found to the northwest, so make your way there through the busy streets. Thugs in bird suits are blocking the entrance. You can't get in without a proper costume,

HITMAN: BLOOD MONEY

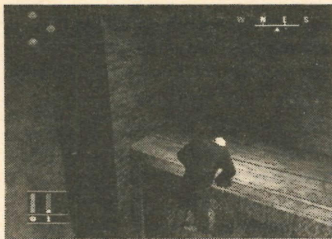

but duck (eh? Bird, duck?) down the nearby alleyway (through the wooden fence) when their heads are turned and you'll find one facing the wall near the bins, having a slash. Kill him (noise isn't an issue because of the fireworks and crowds outside), leave his body in a dumpster and don the bird suit. With it on, use the door opposite to reach Purayah on the top floor and end him. You can kill him however you like, but make sure it's quiet. Steal his walkie talkie before you leave the scene of the crime and get out as fast as you can because his gang start to get a bit edgy and soon discover the body. Run through the

streets and head for your next victim, Mason, who you can find to the west.

Climb up the bins in the small courtyard and you can follow the balconies to a piano suspended in the air, which your target helpfully stands beneath. Attach a remote mine to the piano and detonate it. It'll come crashing down and kill the target instantly, and the best thing is, it looks like an accident.

The last target, Kulinsky, will be on the third floor in a building to the northeast or the southeast. He alternates between the two so check both. It's pretty much random where he'll be. For both areas find the back way in by clambering up in the alleyways nearby - if you try to go in the front way with your bird costume the guards will kill you. Men in bird suits aren't welcome in a joint like this. Perhaps they're worried about avian flu. Who knows. When you get inside you'll have a clear shot at Kulinsky, so kill him and drag his body somewhere dark.

Another way to infiltrate Kulinsky's place is to steal the red bird suit from the guy with the suitcase at the start of the mission and walk in the front way. He wanders around outside, so whenever he moves away from the crowds and the eyes of the guards, murder him and steal his clothing. You'll be unchallenged if you have this disguise, but if you sneak in then any strange behaviour will send your suspicion meter high into the red.

MISSION 07 YOU BETTER WATCH OUT

This Christmas party may look festive, but the place is swarming with armed

guards with itchy trigger fingers. Walk down the jetty and go around the corner to the right to the security room and quietly kill the guard while he struggles with a faulty coffee machine. There are barely any people around here so you can kill with impunity. Just make sure you tuck the body away just in case anyone comes wandering past.

Now, flick the lasers off and go around the corner to the lift. You'll be picked up on CCTV, but that doesn't matter. Take the lift up. On the staff floor there's a fuse box, and you know what to do with a fuse box in *Hitman*, don't you? Press \otimes and destroy it. When the lights go off it should attract the attention of a miffed FBI agent.

That's your disguise sorted out. Perfect. Knock him off quietly with the fiber wire, dump his body in the bin (where would we be without body bins?) and take his threads as your own. You're now a suited-up agent and can move freely around the party. Next you have to get up onto the rocky

HITMAN: BLOOD MONEY

outcrop with a vantage point of the underside of the glass bottomed Jacuzzi. From here you can shoot Bingham from below. He'll be sucked away and nobody will know it's you, scoring you a perfect take down.

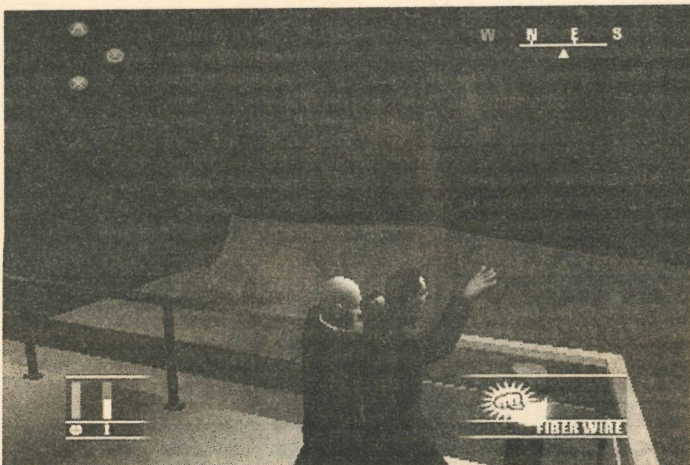

Your next target is De Havilland. Unfortunately, getting to him involves more than climbing. He's upstairs at the studio level. Go up the lift that's off a corridor in the main party area. It's easy to miss so keep your eyes peeled. It's heavily-guarded but you have the FBI costume from earlier on so you should be okay to go through without any hassle. Hang around in his bedroom to the east and murder him when he shows up.

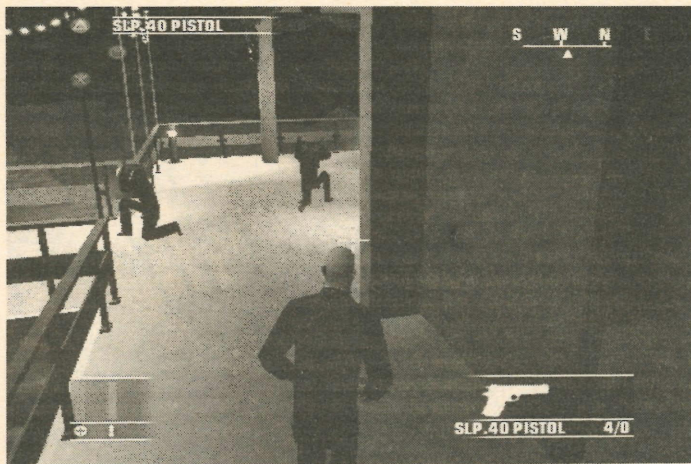

Another way to snuff De Havilland out is to attach a mine to the lighting rig above the porn shoot and crush him. Also, sometimes he will appear on a balcony viewable from where you killed Bingham, so wait around there if you like and snipe him from afar. This only works if you brought the sniper rifle, obviously. You'll have a

time getting it there though as the suitcase will compromise your FBI disguise. When you've dealt with both targets, head back to where you started in order to escape. The FBI costume should see that you remain unnoticed as you wander back through the party. If the guards find the body, don't sweat it. You're safe.

MISSION 08 DEATH ON THE MISSISSIPPI

This mission takes place entirely on a paddle steamer, so there are very few hiding places, especially on the upper decks. Immediately after the level starts, when a sailor strolls past to your left, whack him and steal his rather fetching costume. Ditch his body by tipping it into the water. There's another sailor ambling around here, so make sure he's well out of the way before you kill his buddy. Head towards the engine room (centre of the ship, below the bridge) and crack the lock when the coast is clear, or find the key in the opposite room.

Your first target is in here and walks around on a set route. Watch his movements carefully and wait until he stands facing the nearby giant piston. There's a shovel nearby, so pick that up and smack him over the head with it to kill him and knock him over the railing in one swift move. That's him dealt with, and there's no need to dispose of the body, obviously.

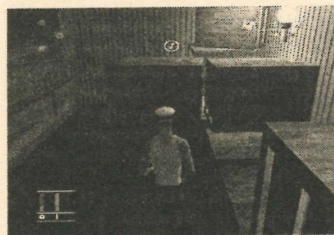

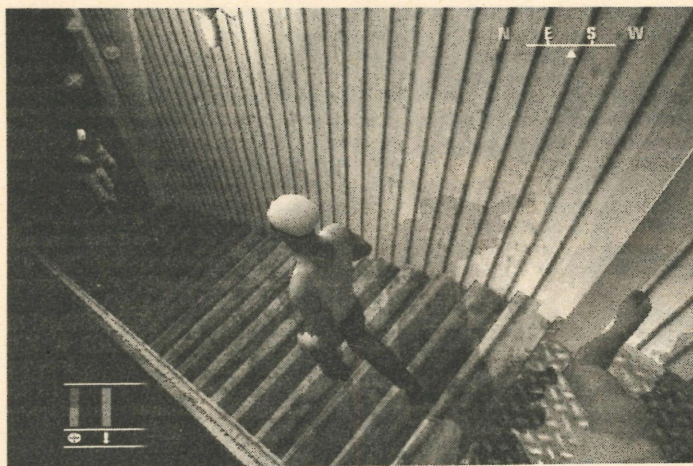

When you're done in the engine room, go back the way you came and climb the wooden stairs. Go up until you reach the third deck and wait for gang member two's girlfriend to leave his room. If you're quick on the draw you can keep the door open to stop it

locking. Inside, murder him and close the door on your way out.

Run to the north and double back up the stairs to the rear area of the fourth deck. The last gang member is wandering around here. When the nearby sailor turns away, kill him and, again, ditch his body in the drink to avoid detection. Stand by the stairs leading to the fifth deck and the purser will appear. Murder him too and, as is becoming routine, toss him into the river. The rest of the gang members are a cinch (just choke them with the fiber wire when nobody's looking) and Muldoon, your main target, is in his bedroom, unguarded. Crash in, take him out and just leave his corpse lying around. Don't miss the pictures in the safe and make your escape using the life boat located at the rear of the ship.

Another way to kill Muldoon is to poison a cake found in the kitchen on the fourth deck. Just keep an eye out for the chef, eh? When he goes off into the small pantry area, press **X** to

taint the cake, then just sit back and wait for the info bar to tell you that Muldoon has been snuffed out thanks to your poisoned icing. Because the boat is so confined and there's no immediate escape route, being spotted doing anything out of the ordinary will almost always result in you being caught. There are very few hiding spots and there are loads of guards, civilians and sailors milling around the place. The sailor suit from the start of the level will work on the lower levels but to access the crew's private deck, you'll need to cap the purser and steal his threads.

MISSION 09 TIL DEATH US DO PART

This mission takes place at a wedding. Don't panic if you hear gunfire – there are a group of crazy rednecks having a gator shoot on the jetty near your starting point. Ignore them though, because there's a sick guest staggering around on the lawn. He has the outfit and the invite you need to get inside the party, so deal with him quietly, tuck his body away somewhere then head towards the house. You can saunter through the front door with the invite. Inside there are plenty of tight spots to slip in and out of, which is helpful since it's a good idea to get yourself an outfit from a shotgun-wielding guard now you're in the mansion. Try the stairs up to the attic – there's a guard near there separated from the others who'll be easy to get a disguise from. Make sure you equip the shotgun – it completes the costume and you'll stick out like a sore thumb without it.

Move north in the house and go

up the stairs, to the very top. Enter the attic and find the mine hot spot on the wall to the right. You may have trouble finding it, so just hug the wall until the  appears. Detonate the mine and stay back. The roof will fall on the groom's head. The guests will think it was an accident, scoring you a perfect hit. That's one dealt with. Now for his father. Head back outside to the rear the house. Head towards the cemetery. Pappy will visit a grave to the west routinely and there's a shovel nearby. Knock him around with it, kill him and dump his body in the nearby open grave. You can then make your escape with impunity.

Alternatives? You can steal the wrapped gift the far end of the jetty, stick a remote mine in it, detonate it and blow the groom into tiny, well-dressed pieces when he stands by the dance floor firing his gun into the air. If you're quick off the mark, you can also find Pappy upstairs in the mansion, watching a little TV alone. Use the poison syringe. No fuss.

MISSION 10

A HOUSE OF CARDS

You're in Las Vegas for this mission, but there's no time for gambling. Head across the front area and go through the main doors. Check in at the desk to the east. You receive a keycard to room 701, giving you access to floor 7. Remember, room cards are floor specific. Now head along the corridor to the casino area. Walk past the slot machines, go east and through the large open area. Now go into the gents off to the side of the casino and pick the lock when nobody is around to see you. In the corridor here a waiter will appear from time to

HITMAN: BLOOD MONEY

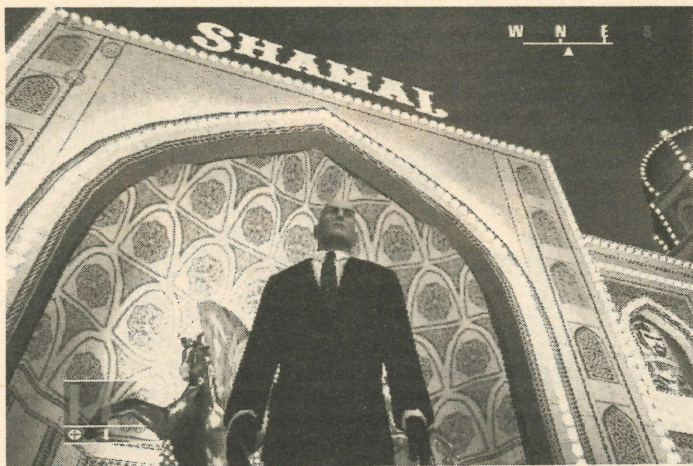

time, making deliveries. Kill him immediately, nick his clothes and dump his body in the handy laundry basket. Do this as quickly as possible because you'll need to enter the lounge area to the northeast of the slot machines and stay there. Wait a while and your first two targets will hold a meeting in this area. When one of them puts their suitcase down, stick a mine in the thing, stand well back and detonate. Easy money. Make sure you're a good distance away though.

If you're spotted hanging around mysteriously while the two targets die someone will see through your disguise and try to stop you. Dotted

around this level are men in red waistcoats. These are casino staff and, for some reason, they're massively edgy. If they see you do *anything* out of the ordinary they'll start following you around, trying to case you out. If one does, lure him away to somewhere quiet then do what you must. To the right of the lifts and around a corner there's a lone security guard wandering around. This is a good opportunity to get his costume. Directly opposite there's another guard, so wait until his back is turned before offing his mate. Nobody ventures up this little side area, so you can just leave the body lying around. Tuck it away in the corner though, just in case an arm is poking into the view of passing casino staff. If they find a body the casino will erupt in panic and your chances of getting the best rating will be void. Anyway, time to kill your final target.

Head up to room 701 (flashing your door card to the guard on the way), then climb over the balcony and

shimmy along, then climb up a wall to the next floor. You can then sneak your way into the window of your target's room. It's quite narrow up here so be careful you don't fall off. He's inside on his own, helpfully. Finish him off, take his briefcase and leg it. You need the case to complete the mission so don't forget it.

You can also booby-trap the suitcases in the lobby, near where the tourists are having their pictures taken. To do so, go up to them and slip in a remote mine. When the cases are delivered to your target's room (check the info bar) you can detonate them and take him out.

MISSION 11

A DANCE WITH THE DEVIL

This is the hardest mission in the game and there are masked guards everywhere. Immediately in front of you there's a building with glass doors. Walk inside and approach the front desk where the guard is sitting. Chat to the security guard by pressing

⊗. 47 will talk about a lost briefcase and the guard will go back into the lost and found room to try and locate it. Follow him when he goes to check. Murder him and leave his corpse in the small room out back. Another guard will come in moments after you off his buddy, so take his clothes sharpish. His uniform gets you inside the guarded garage and a trailer to the east with a 'heaven party' guest outfit inside, complete with face mask. Leave your guns here and take the right-hand lift to the east. If you're quick enough, when you reach the party, Martinez will be having a slash in the toilet to the north. Use the poison syringe for an easy kill. Disguise yourself in his clothes and access the computer on this level by pressing ⊗.

Eve is next, the singer with the red hair/dress. Go through the corridors, take the door to the left and go past the blue area. Ignore the guards – your disguise is rock solid – and head into Eve's elaborately-decorated

HITMAN: BLOOD MONEY

chamber. Talk to her and she'll tempt you back to the office, supposedly for some 'action'. Get inside, kill her, steal her stiletto knife and finish the job by tucking her body away. Sometimes she puts up a fight and will open fire, but no guards will come running. To counteract this, press **R1** and head butt her a few times to knock her unconscious.

Now take the other garage lift to the basement party. Go east, take the stairs to the south and wander along a bit until you reach the brown double doors. Find Ketlyn first, the curvey one, and repeat the flirting tactic from before. Press **X** to trigger a cut-scene and she'll tempt you away to a secluded area, presumably for more 'action'. Kill her to strike another target off your list. A quick pop to the brain with the Silverballers should do the trick.

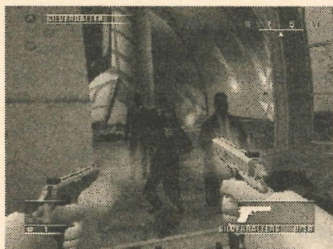

There's one target left now, Maynard, the leader of the mask gang, and owner of the scariest of all the masks. It's a red devil thing, so look

out for that. Meet Maynard at the torture chamber. You can't take this guy out using stealth so get ready for a firefight. It helps if you bring one of your collected weapons with you, such as an MP7. Duck behind the screens whenever he opens fire and wait for him to reload. This is your window to pop out and fire at him with the MP7 or your customised Silverballers. He'll take a few shots but eventually he'll go down. Aim for his face for extra damage. When he's dead you can make your escape. Hopefully the guards won't have noticed anything. Head back the way you came, go up the stairs and take the lift to the parking lot. Stroll past the line of goons and back to the glass building where you offed the security guard.

MISSION 12 AMENDMENT XXV

Another rock hard mission, but this one is more manageable than the last if you follow a precise routine, which we'll outline here. This being the

WALKTHROUGH

White House and all, any venturing beyond tourist areas initially will result in you being hunted down and dealt with brutally, so be careful. Find the tourist having a cheeky smoke behind the blue coach to the right. When she isn't looking stick your Silverballers in her suitcase. When she's finished she'll pick the case up and head for the entrance to rejoin the tour group. Stroll through security (the metal detectors would have gone off before, had you kept your guns). When the woman enters the case will start beeping and she'll be detained by security. One of the soldiers will argue with her then take her suitcase away

into the security room at the back. At the rear of the entrance room, go into the toilets at the back, where a cloakroom guy has an outfit you can use. This lets you into the security room, where you can retrieve your guns and an important keycard. Oh, and keep the suitcase with you from now on – it's important. Kill the solitary marine who's patrolling in the courtyard to the north and take his clothes. You're now fully equipped to wander the halls unchallenged. Follow the map west to the main building, and follow the Vice President until he's walking his yappy little dog outside. Slow him up by hovering

HITMAN: BLOOD MONEY

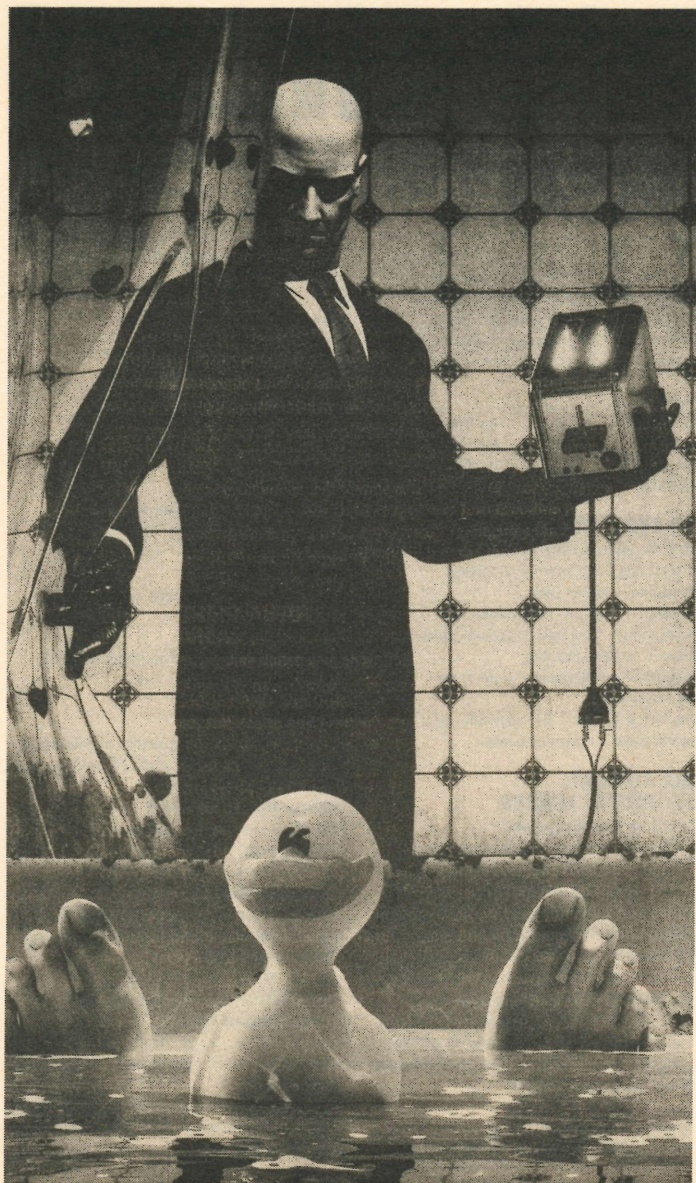

nearby and the FBI agent nearby will disappear. Kill the Vice President and drag his corpse to the edge of the lawn out of the sight of the agents. Well done. You're halfway through the mission already.

Now, before you enter the West Wing of the White House and look for Parchezzi, you're going to take a useful little detour. Climb the vines near to the door you entered the lawn area by, and, once on the roof, pop a mine in that suitcase of yours (told you it was important) and leave it near the top where you climbed. Done that? Good. Now walk across the roof, an FBI agent will eventually emerge from the West Wing. Kill him, steal his suit and hide the body. Now enter the West Wing and head downstairs and follow the maze of office cubicles to Parchezzi, who's waiting in the Oval Office. After a brief chat, he'll run away, and with confusion breaking out – sprinklers gushing, staff running around in total panic – you're supposed to gun him down. However, this is where that remote mine you placed in the suitcase comes into its own. Forget about chasing after Parchezzi and stroll back and along the corridor to the northeast, and onto the lawn. Meanwhile, Parchezzi will be making his way to the roof and, as luck would have it, right to the spot beside your suitcase. Check the map, and when he gets there, casually detonate the mine and stroll out through the White House tourist entrance. Nice work.

start to wiggle the left analogue stick and the scene will slowly come into focus. After a few more wiggles 47 will rise to his feet and all hell breaks loose. You have targets here, but really it's just an excuse for a big shootout. And that white suit is *cool*. First, take out the FBI agents directly in front of you. They're packing heat, but you'll knock them off fairly easily. Run to one of the low walls and crouch behind them for cover, popping off each enemy as they head towards you. Go to the garden area outside when you've cleared the church and your targets – the priest and the ultimate bad guy – will be powerless to stop you. Kill every single last witness on the map and your job is done. Revenge is sweet. ■

HOW TO GET ALL THE BLUE ORBS**Secret Mission 1: Critical Hit**

After defeating Phantom in Mission 3, return to the broken bridge and jump down. Shoot the Sin in the face with the shotgun to make her drop the scissors. Get as close as possible and shoot her in the face again. It must be a critical hit to complete the mission.

Secret Mission 2: Phantom Baby

At the beginning of Mission 4, go through the Cathedral doors. Use Holy Water to kill the 100 babies within the 30-second time limit.

Secret Mission 3: Phantom Baby 2

After completing Secret Mission 2, go to the Time Statue room (the starting point of Mission 4). Use your feet to stomp 100 babies within the 30-second time limit.

Secret Mission 4: Three Beasts

After defeating Shadow in Mission 4, go to the arena beneath the room containing the aeroplane. Defeat the Shadows by being quick on your feet and attacking whenever you can – which is obviously harder than it sounds. The

A-Z of PS2 Cheats

fact that the auto-aim often focuses on the wrong targets doesn't make this tough mission any easier.

Secret Mission 5: One-Eyed Demon

During Mission 7, go to the Pipe Room (where you found the Old Key during Mission 6). Jump on the pipes and keep jumping so the two Cyclops can't hit you, but instead hit each other. Continue to do this until one Cyclops has killed the other.

Secret Mission 6: A Bunch Of Ghosts

During Mission 11, go to the Garden Courtyard (near where Mission 10 ended). Jump, wall jump and jump on the heads of the Sin Scissors until you reach the piece of Blue Orb.

Secret Mission 7: Water Prison

After Mission 13, go to the Captain's Room on the Ghost Ship and check his skeleton. Use the Needle Gun to defeat the eight Blades.

Secret Mission 8: Treasure Guarded By The Death God

During Mission 15, go to the Spike Room (the starting point of Mission 14) and check the picture on the wall. If you've got it, use Nightmare Beta to defeat the three Shadows. Otherwise, use any means necessary.

Secret Mission 9: Shadows In The Dark

After defeating Nightmare in Mission 16, go to the room containing the aeroplane. Find and kill four Shadows. Two of them are in the room containing the aeroplane, one is in the Hall and the fourth is in the Bridge Room.

Secret Mission 10: A Lonely Staircase

After defeating Nightmare in Mission 16, go to the Coliseum. Jump up the stairs to reach the piece of Blue Orb.

Secret Mission 11: Blue Stone In The Sky

It's a good idea to save before attempting this difficult Secret Mission. During Mission 17, go to the broken bridge. To activate the Secret Mission jump from the end of the bridge, back to the door end without falling in the water. To do this, jump on the first platform, Air Raid to the last platform and jump to safety. Avoid the Death Scythes' attacks and use the jump-pools to reach the piece of Blue Orb.

Secret Mission 12: Hidden Bracelet

During Mission 21, check the wall opposite the Time Statue and enter the hidden room. Cross the long stretch of road and pick up the piece of Blue Orb. Follow the path to a large room containing a fireless dragon. Defeat the dragon by hitting it on the head with one of your swords. Once defeated, take care of the Frosts before jumping to the Time Bracelet.

Get More Orbs

Kill all the monsters in a mission, save the game and then reset by pressing **Start**. Now go back, start the mission again and re-kill all the monsters. Keep doing this until you've got loads of Orbs. It takes a while, so do it on a mission where there are lots of monsters.

An Easy Solution For Most x2 Puzzles: The second half of Puzzle mode involves clearing the same figure twice – the figure is cleared as soon as the timeline passes over the end of it. But only blocks you've completed after the timeline passes will actually be deleted. If you wait until the timeline has passed over most of the figure before placing the final block, you'll accomplish the first clear, but only the edge at the far of the figure will be deleted. For most x2 Puzzles, this makes it incredibly easy to complete the figure a second time and clear the whole stage.

Mini-game (Greece): Get onto the large ship and you'll easily spot a route that goes to the bottom of it. Go in either direction, but don't go on the lift. Instead, head towards the other side of the ship and you'll see a teleporter that takes you directly to the level's hidden mini-game.

Mini-game (Big Blue Stadium): In one of the corners is a glass window, which you need to shoot out and enter. Inside it are more windows – shoot them all out and you should easily spot the teleporter to the mini-game.

Mini-game (Egypt): Blow up one of the statues and a secret passageway is hidden behind it.

Follow it to the mini-game teleporter.

Mini-game (LA): On the West side of this stage is a teleporter pad in one of the buildings.

Simply shoot the doors and then stand on the pad to unlock the Solom mini-game.

Mini-game (Monaco): Drive off, with the lake behind you, and head to the right. You'll come to a grassy area to your right and the teleporter should be right there.

Mini-game (Paris): Go to the building that looks like a museum near the centre of the level and shoot the doors off. The teleporter is in there.

Mini-game (Rome): Climb right to the top of the building, turn right and go all the way to the end and you will find a teleporter that'll lead you right to another secret mini-game.

Mini-game (Russia): Locate the large bell and keep firing at it until it opens. Go in and you'll find the teleporter to the mini-game inside.

Mini-game (Tokyo Rooftops Level): The mini-game teleporter can be found in the building that's behind the 'TOKYO LTD' sign.

Mini-game (Tokyo Streets Level): Head straight on from the starting point, and when you get to the hill, take your first right you come to and the teleporter for the mini-game should be in the middle of the road.

Extra Weapons (Pairs Level): Take the teleporter to reach the top of the Eiffel Tower, and then leave a remote bomb near one of the beams at the top. Then jump clean off, and blow the bomb up. This will destroy the tower, giving you access to some extra weapons.

Extra Health And Weapons (Tokyo Street Level): Go to the big red Tokyo Tower and use a remote-controlled bomb on the side of it. It'll happily blow up the tower, revealing a bridge that'll take you to the dojo – inside is health and other weapons.

UNTOLD LEGENDS: BROTHERHOOD OF THE BLADE

Reveal Bosses In Dungeons: Start off by holding down **Ⓜ** and then hitting **Ⓢ**. You'll notice that the map zooms in, and if you do it again, it disappears completely. If you now hit **Ⓢ** once more, the map comes back, but the game neatly refits it to normal size. In the tiny amount of time that it does this, you might be able to see the Boss's icon on the map – you wouldn't be able to normally do this with the zoom function. This gives you a very good idea of where the boss is and how to reach him. You can also do this as many times as you need to keep checking on his location.

Reveal Presence Of Enemies Off-screen: If there's an enemy that is close to you off-screen or invisible, let your character stand still and his position should change to an attacking stance. This neat little tip lets you know that there are enemies ahead.

Halt Kamikaze Attacks: If a Kamikaze monster (one who explodes when it hits something) is charging at you, start flicking between Weapon and Bow by pressing **Ⓜ** and **ⓧ**. Doing this fast enough will halt the beast for just a brief second while he's right at you, giving you a decent chance to block the attack.
