SEGA™

SEGA OF AMERICA, INC.
Consumer Products Division

Dear Sega Gamers & Friends,

1992 was the best year ever in the video industry. Now a \$5 billion industry, Sega has been at the forefront of this growth, creating dramatic technology and challenge. Our efforts have introduced new levels of portable and 16-Bit game play, not the least being the advent of CD-ROM for home entertainment.

Sega kicked off the Genesis new year with a bang. X-Men, released in March, is on its way to a million unit seller, thanks to Magneto, Wolverine and you. We've got even more big hits up our sleeves -- Aladdin, Jurassic Park, Eternal Champions, NFL Football '94, and many others.

Game Gear software will also be explosive. We've got Surf Ninjas in time for the movie's July release; Genesis favorites Streets of Rage 2 and X-Men; and several lifelike Sega sports titles. Expect more than 150 new titles from Sega and our great third party licensees in 1993.

On the Sega CD front, we will be showcasing more titles with more action and more Tru Video. Imagine running from the T. Rex in Jurassic Park. Or catching a touchdown pass from Joe Montana. Or swimming the ocean depths with Ecco, the dolphin in his quest to save his family.

And don't worry, we'll also have something to keep Sonic fans even happier.

Earlier in the year Sega introduced The Activator, the first full-body controller for Sega Genesis. "Smart Beams" of infrared light read a player's kicks, punches and jumps, and turn them into on-screen video game action. Also available for Christmas will be the ultimate video game experience, Sega Virtual Reality. It is truly the next level.

We will keep you up-to-date on all our great products with informative and hopefully enjoyable advertising and promotional activity.

Thank you for making it such an exciting time for us at Sega.

Sincerely,

A handwritten signature in black ink that reads "Thomas J. Kalinske". The signature is written in a cursive, flowing style.

GENESIS

RESTYLED GENESIS AND SEGA CD!

The new Genesis still comes with the standard, reliable three-button joystick.

Welcome to the wonderful world of Sega video games! Known for being a leader in technology, Sega has many new surprises in the works and that's what Sega Force is all about!

In an effort to reduce prices of their leading hardware units, Sega has taken the initiative to restyle the Sega Genesis and Sega CD. These new units offer more style for the serious 16-Bit gamer!

Although the first thing you notice when looking at the Genesis is its smoother and smaller shell, if you look closely you'll notice that there is no headphone jack on the front of the unit. Instead, the sound is routed through the rear with the AV cables. There will still be two models available. The Sonic 2 System comes with a Sonic the Hedgehog 2 cartridge and one controller while the Core System will have no cartridge but comes with one controller.

The Sega CD has also undergone a styling makeover. Gone is the cool, but expensive, motorized door, which has been replaced by a less expensive flip-top lid. Opening the unit is accomplished by pressing the open button on the lower-right side. Also, the new CD-ROM can be used with the older Genesis system by

using an extender plate which fills the extra inches needed by the smaller system. These units could retail for a lower price.

The new Genesis has a slim look but with all the same hardware as before.

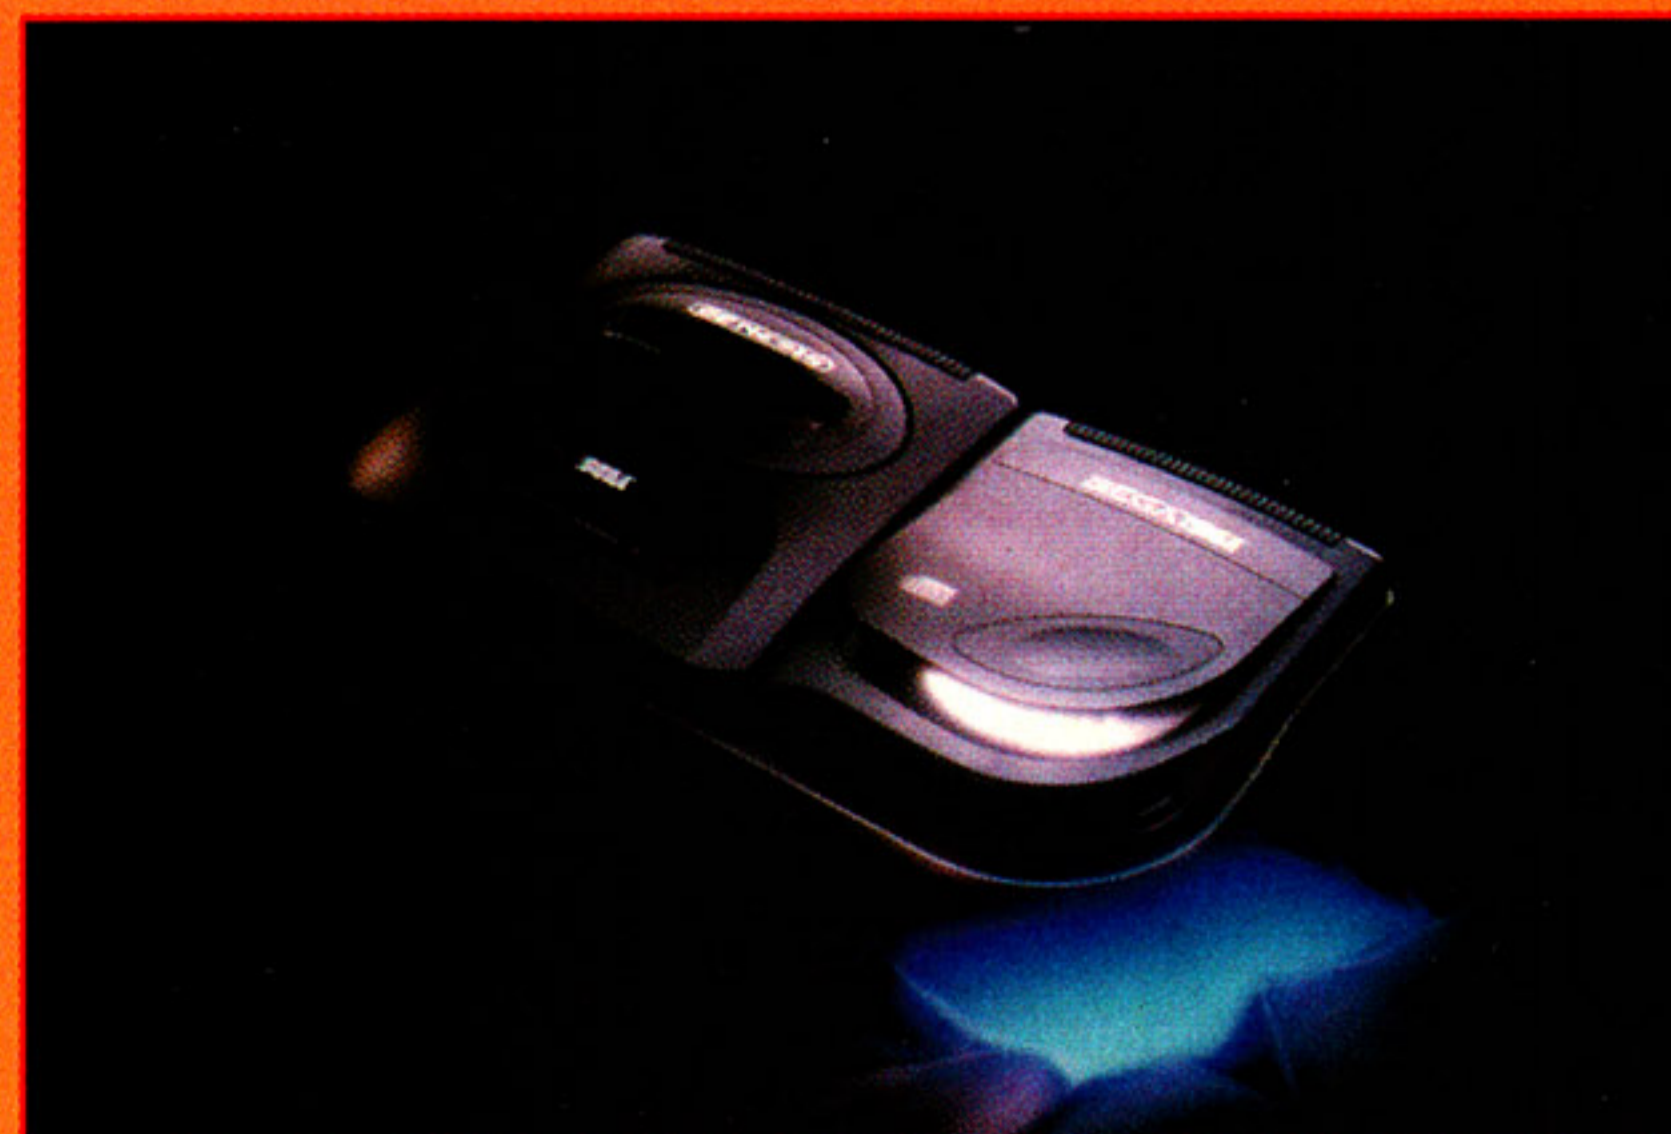

Look for this new box on the shelves!

Night Trap is the new pack-in disk!

The new CD-ROM player features a flip-top lid and an eject button which in turn lowers the cost of the unit.

The Sega CD-ROM is a more compact unit that features a sleek new design with less complicated electronics.

ACTIVATOR AND MENACER TAKE OFF!

ACTIVATOR™
FOR SEGA GENESIS

Sega's peripheral lineup is really beginning to catch on with a lineup of some great new titles! The Activator, Sega's solution to boring hand controllers, *really* puts players in the action! Every jump, punch, and kick is easily controlled by moving your body around the circular ring. The Activator comes with an Action Pack cartridge that includes Bounty Hunter and Air Drums. The upcoming Eternal Champions will also be Activator compatible.

The Menacer has been quiet for a while, but with the release of the 6-in-1 cartridge and the available Terminator 2, players have been quite busy! Now, Sega has a new game in the works called Monster Hunter where players assume the role of a big-time game hunter in search of raging beasts!

MENACER
FOR SEGA GENESIS

GAME GEAR STORMS THE PORTABLES!

The best selling portable machine just got better! A winning lineup of incredible titles reinforces the fact that the Game Gear is THE portable system of choice! It's still available in two formats: The Sonic 2 System that comes with a Sonic 2 cartridge, or the value-minded Core System without the cart. X-Men is destined

to be a winner with all the same characters and moves as the 16-Bit counterpart. Also be on the lookout for Jurassic Park and Land of Illusion Starring Mickey Mouse. Streets of Rage 2 puts three brave warriors at your control in search of a missing pal. It looks like a great year for the best color portable on the market!

THE JUNGLE

POWER STATION

PUMP STATION

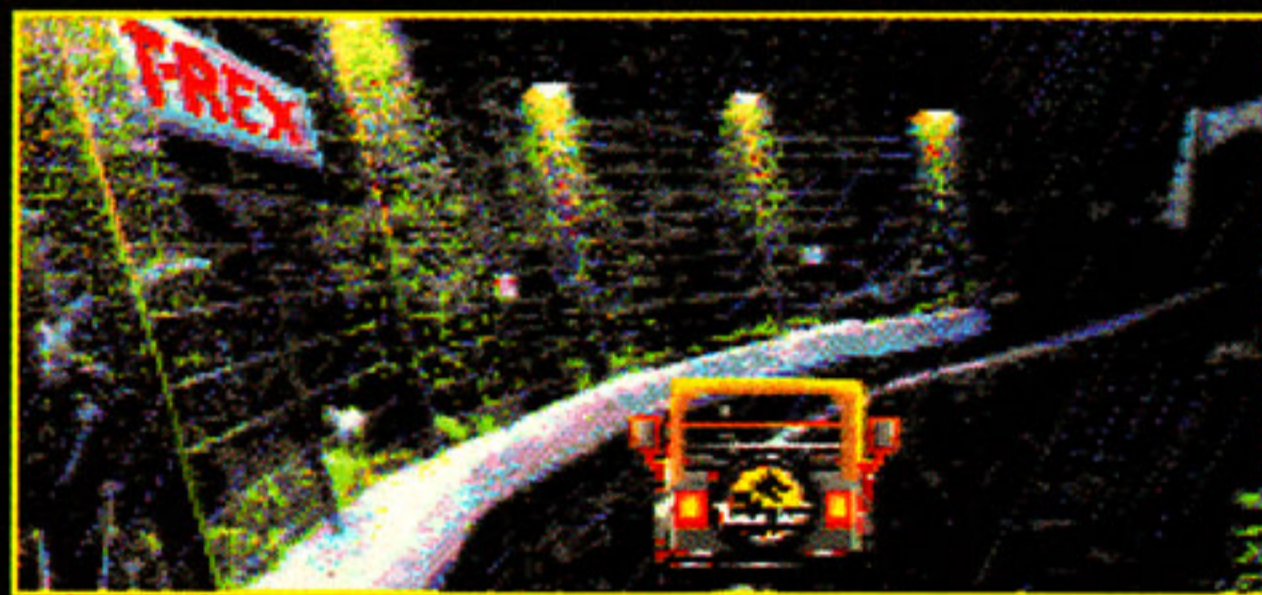

THE JOURNEY...

Grant must work his way through the jungle, then to the power station to get the electricity turned back on. Then it's an exciting trip down the river to the pump station. The dangerous canyon and the volcano areas are also full of action.

THE DINOSAURS...

All sorts of dinosaurs will be roaming the park. Certain ones will immediately attack, while others are quite docile. After you play for a while, you'll notice the behavior patterns in the dinosaurs.

THE RIVER

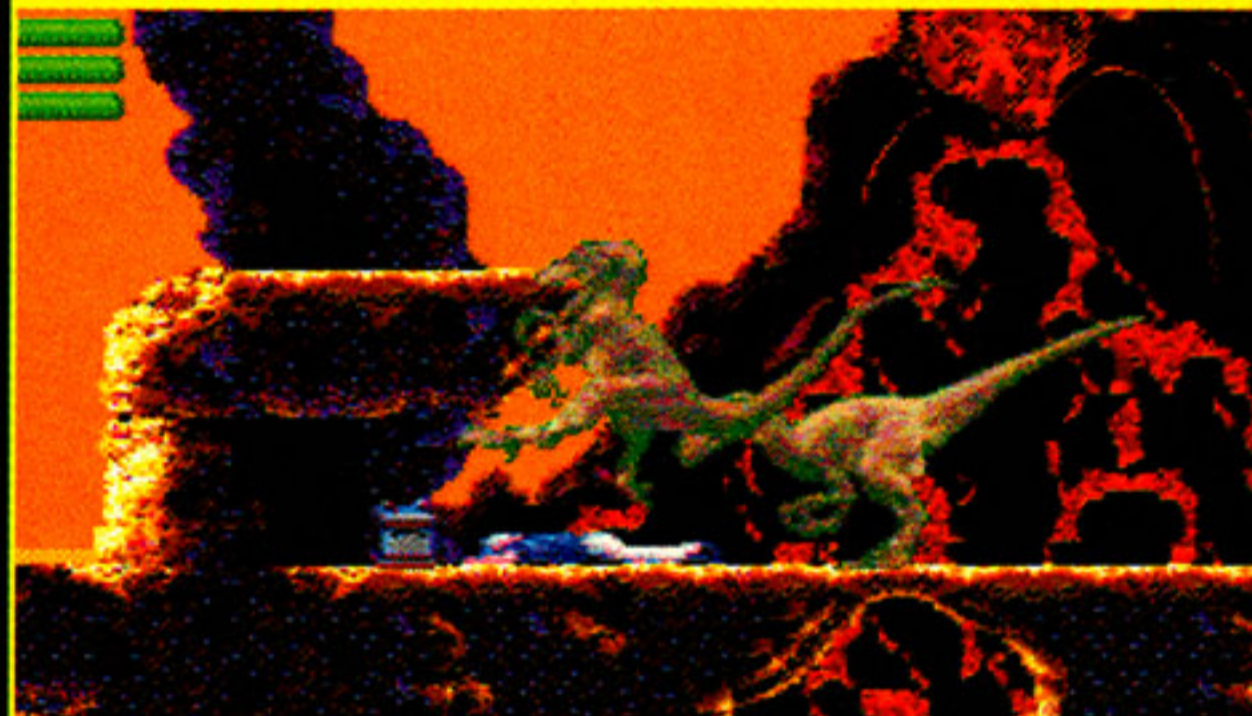

WHEN DINOSAURS RULED THE EARTH...

Welcome to Jurassic Park, the world's most unusual zoo. What makes it so different is the type of animals here. Dinosaurs, straight from the past, created with the latest in genetics technology.

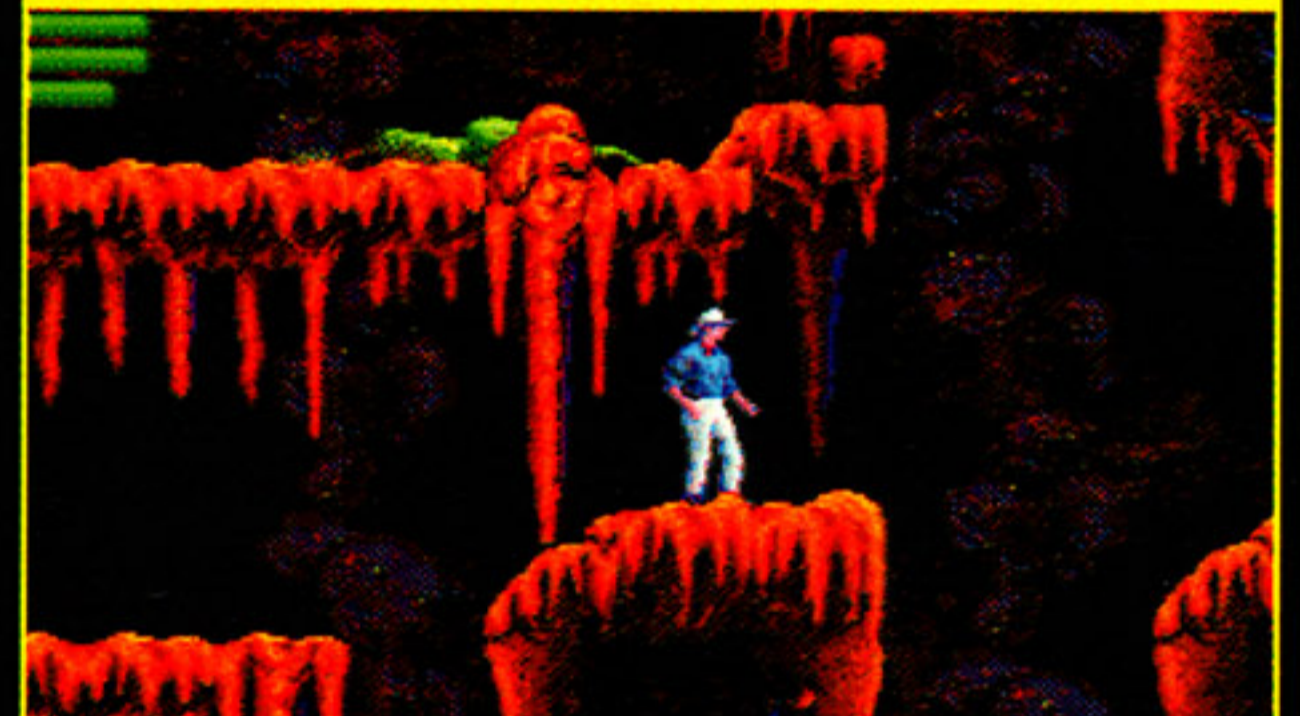

Just like in the book, and the movie, the dinosaurs have broken loose all over the island. The ferocious Tyranosaurus Rex is on the rampage, and even more fearsome, the Velociraptors are free as well. Raptors, as they're called, are vicious hunters who feast upon human flesh.

In the game you can choose to be either Grant, the heroic paleontologist, or a blood thirsty Raptor trying to leave the island. No matter which way you look at it, you have a great adventure on your hands. Are you ready to visit Jurassic Park?

CANYON

VOLCANO

VISITOR CENTER

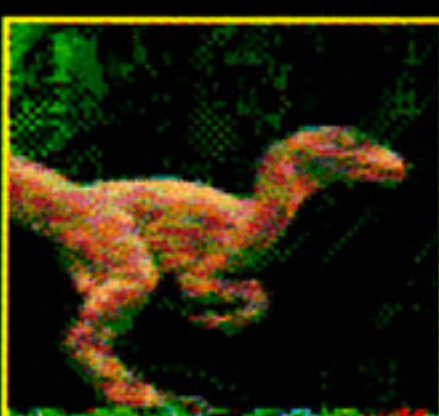

When playing as a Raptor, you must fight the humans who want to slay you before you can get off the island. Will they stop you?

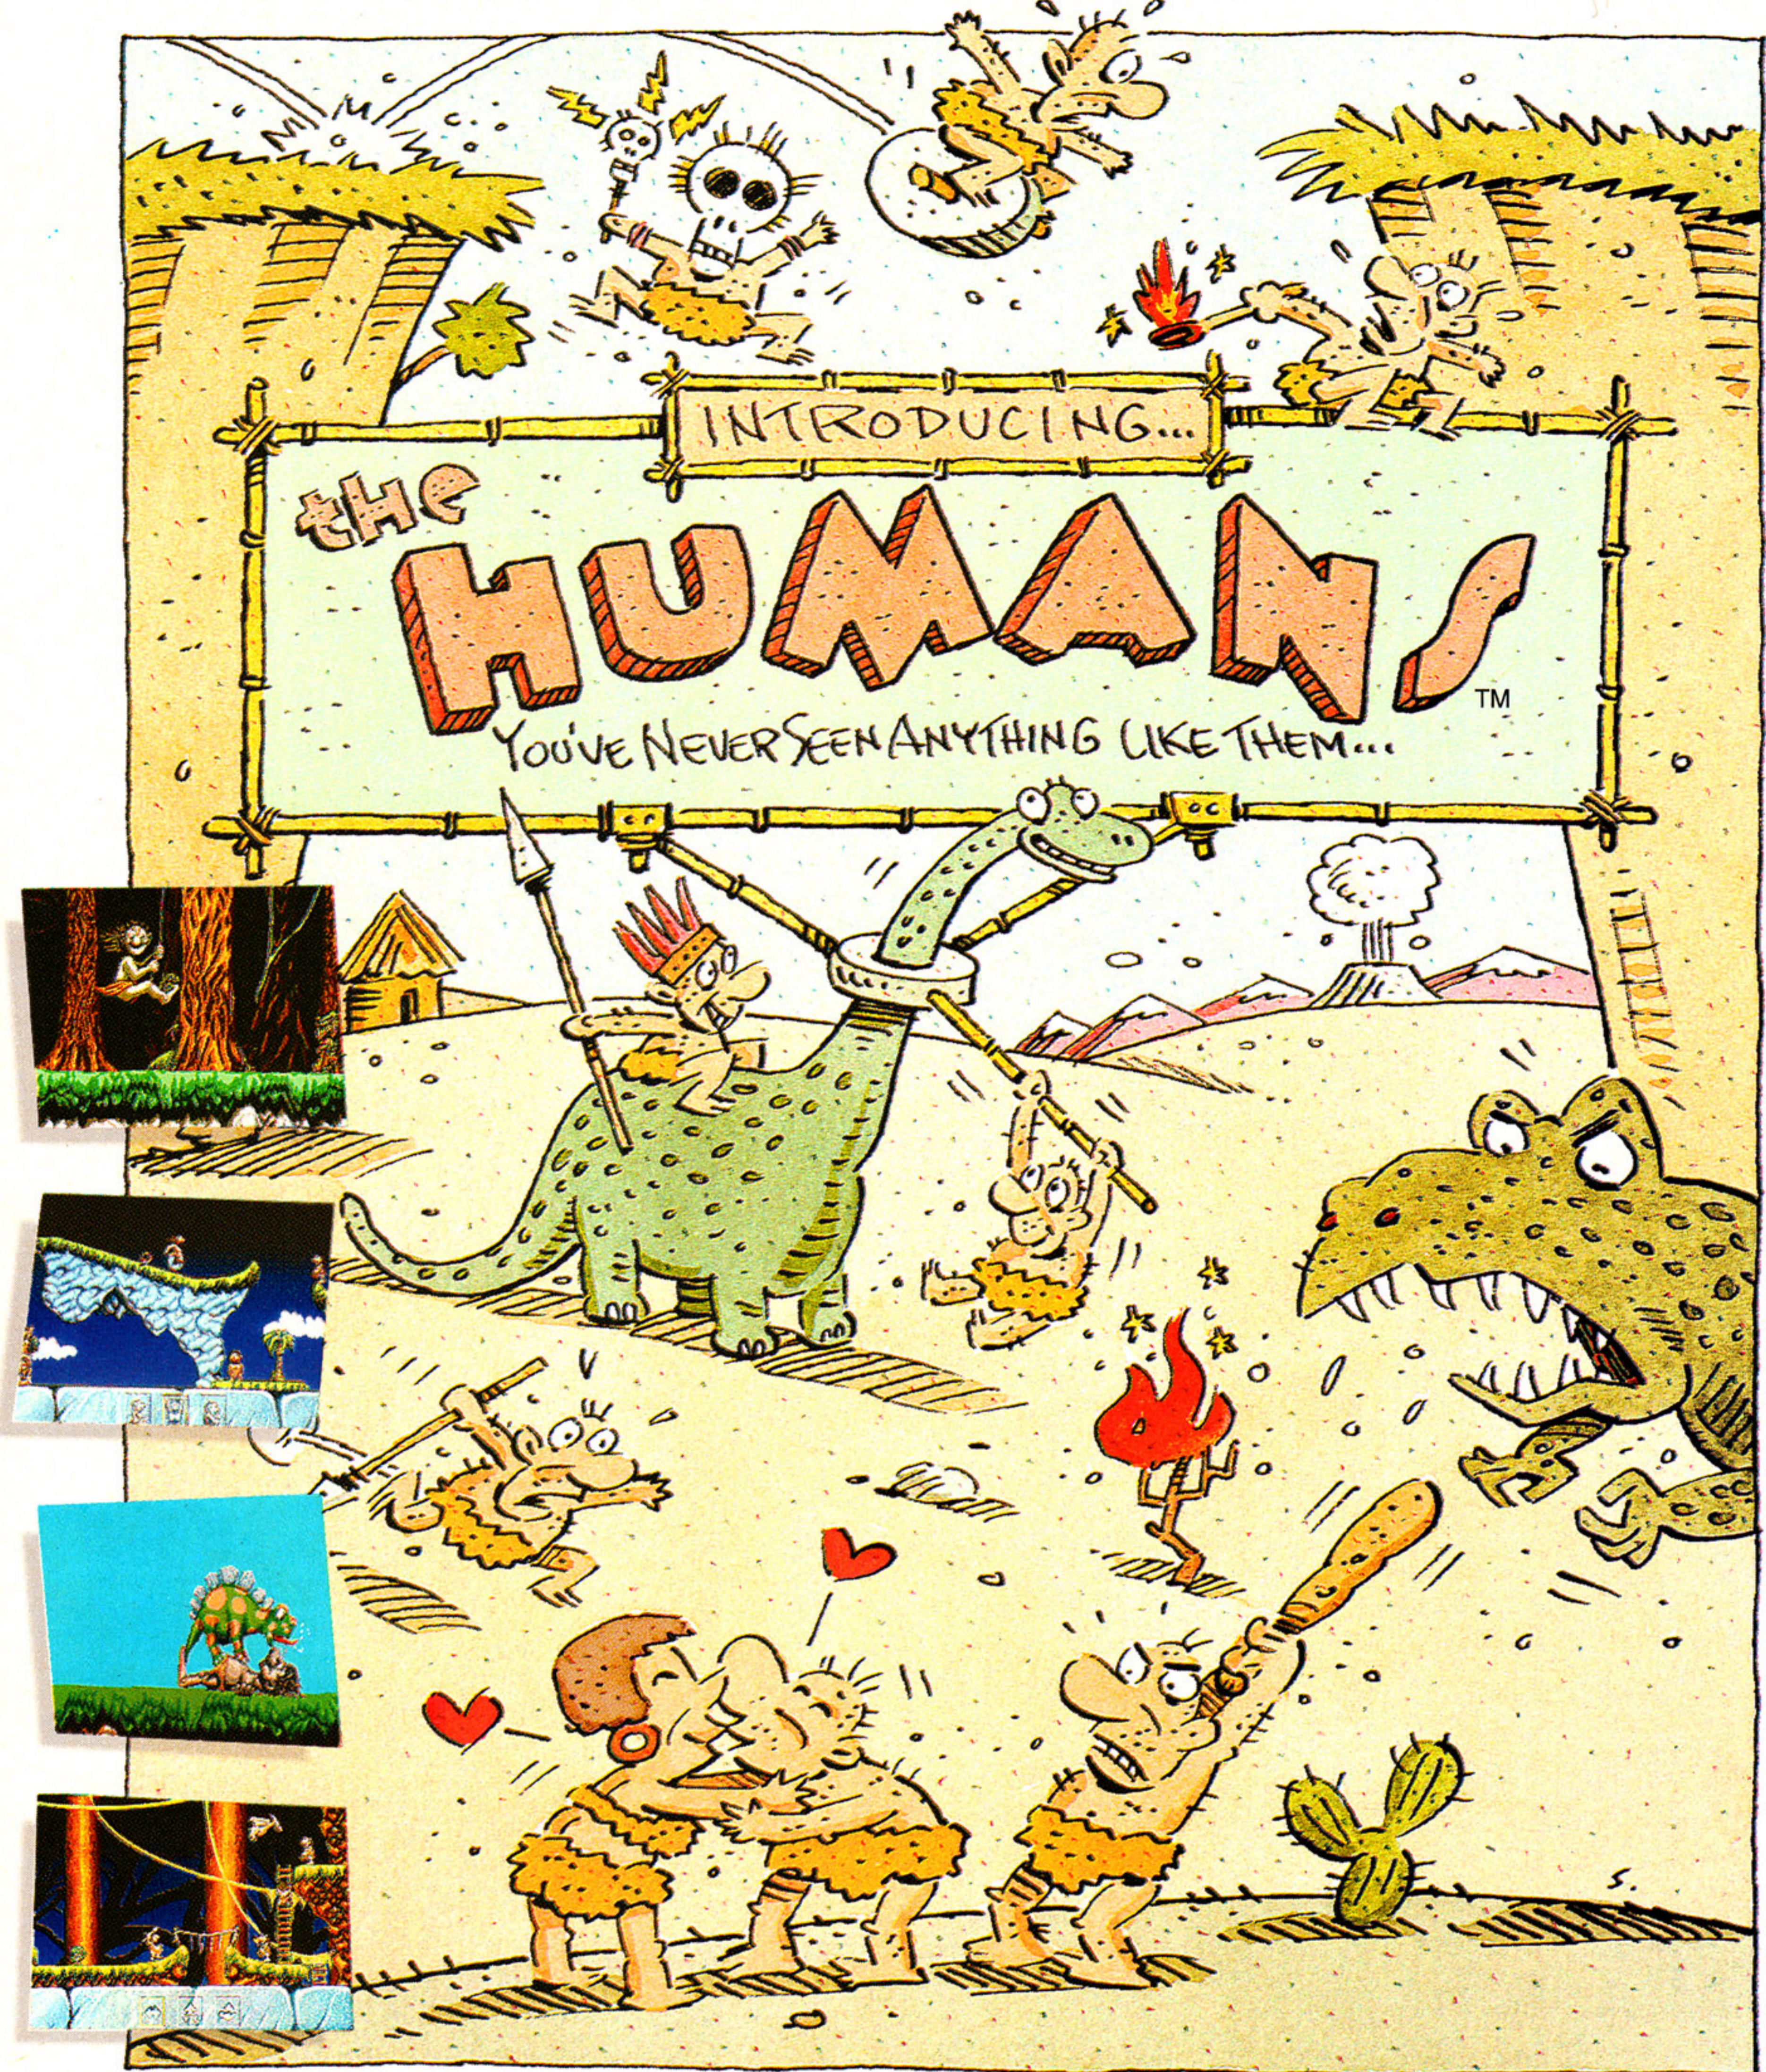

GRANT

RAPTOR

EVOLUTION...To paraphrase Darwin, it's the survival of the hippest. One wrong move and you're dino-meat, one wrong step and you're a fossil, one fashion faux-pas and you're the laughing stock of the gene pool, baby. Discover tools, survive and multiply or these HUMANS are a time-line footnote. In this world of chaos and carnivores...

...Keep the tribe alive.
