Meadows
A HOLOSONICS COMPANY

Take a look at Bally's

We'd like you to know us inside-out.

You already know Bally as the world's leading maker of coin-operated amusement games. Along with our Midway Manufacturing subsidiary, we're the largest maker of flipper pinball machines and quality video arcade games. We've stayed number one because of innovations like solid-state circuitry, score memory and recall, and celebrity tie-ins.

Through the Bally Group and our international distributors, we do business in all 50 states and every continent except Antarctica. But there's more to Bally that we'd like you to know.

The arcade ace.

Our Aladdin's Castle subsidiary is the largest operator of amusement arcades in shopping malls in the U.S. There are more than 120 Aladdin's Castle family game rooms across the country. In addition to providing wholesome recreation, these arcades serve as a testing ground for every coin game we make, assuring you of maximum play appeal and profitability.

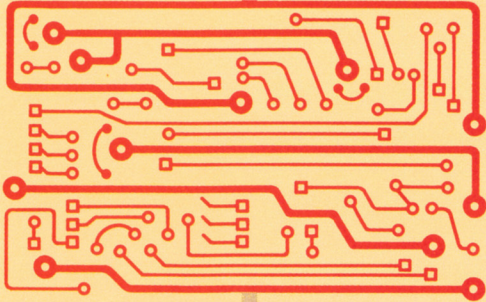

Tops in slots.

Bally is also the world's leading manufacturer of slot machines. We make more than 60 models, including our new "Classic" Silver Dollar Slot. In the European market, we produce wall-type slot machines for Germany and Amusement-With-Prize slot machines for the United Kingdom.

We've also developed an advanced computer control system that allows casino management to monitor every play of every slot machine for improved security, maintenance and cash control.

working parts.

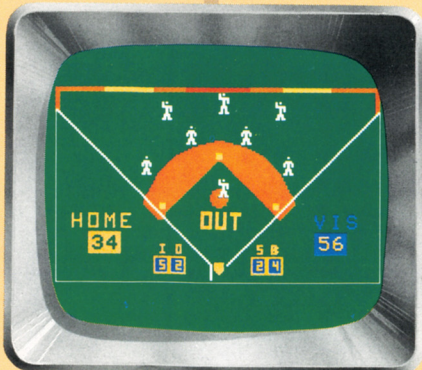

Wizardry in circuitry.

At our Midway Manufacturing subsidiary, we make the state-of-the-art electronic circuits that give Bally machines their competitive edge in the market. We also supply sophisticated subcomponents to several large electronics manufacturers, including Zenith, RCA and Magnavox.

Bally on the Boardwalk.

We recently expanded our operations by purchasing Boardwalk property in Atlantic City to build and operate a resort hotel and casino. Our experience in this industry, gained as the leading manufacturer of gaming equipment, puts us in a unique position in the hotel and casino business.

Bringing it on home.

We've even expanded into consumer products, with a complete video entertainment/home computer system. The Bally Computer System offers color, sound effects, music, and an expanding library of game, educational, and computer-programming cassettes. No other programmable video game or home computer offers anything like it.

For more facts on the workings of our worldwide operations and distributorship information, write Ross Scheer, Director of Marketing, Bally Manufacturing Corporation, 2640 West Belmont Avenue, Chicago, IL 60618. (TELEX 253076)

Bally®

makes the games people play.

VECTOR WHO?

VECTORBEAM is President Larry Rosenthal, who happens to be the inventor and patent holder of the famous Vector Monitor. Larry also brought the Coin Accumlator to this industry. He is a self driven person who pledges to continue to bring even more fabulous games and innovations to this great industry.

VECTORBEAM is Gil Levine, General Manager, (whos' first M.O.A. was back in 1955) believes in only the best. Employ the best, build the best and be the best.

VECTORBEAM is Hal Watner, Marketing Manager, who with five years experience in this industry has established the reputation of only providing the best to the best distributors.

VECTORBEAM is Joanne Anderson, Customer Service Manager, who believes that her job is just that, Customer Service!

VECTORBEAM is fifty other people (and growing daily) who together take pride in their craftmanship and product.

Who is VECTORBEAM? VECTORBEAM is the company that will Light your way to...Dependability, Stability and Earnability.

VECTORBEAM the ABILITY COMPANY

3 THREE NEW WAYS TO... PICK YOUR PROFIT!

1 STANDARD PLAY You can set exactly the right pricing — 25¢, 35¢, 50¢ — for your market, your locations, your own profit requirements.

2 BONUS PLAY Entice your trade with free games. Three 50¢ games for \$1.00; four 25¢ games for 75¢. Or whatever combination you need.

3 TIME PLAY Set your table for one to fifteen minute play to get the rate of turnover you must have to meet your full profit potential.

... YOUR CHOICE WITH VALLEY'S NEW BONUS/TOUCH SYSTEM!

The Valley BONUS/TOUCH System is the most versatile, easy-to-set coin system on the pool table market today. An exclusive option on Valley's Big Cat, the BONUS/TOUCH System gives you dozens of combinations to match your profit to your play. Now, you can put your tables in any location and set them for the biggest and best possible earnings. Just by simple, one-finger adjustment. Standard, Bonus, Time play. In combination, they make your Valley Big Cat table the money-maker you want it to be. Proof of the progress, quality, leadership built into every Valley table.

The **BIG CAT**

Each Valley Big Cat Table — Models 19 DCMB, 29 DCMB, 39 DCMB and 49 DCMB — offers the BONUS/TOUCH option. The standard of the industry, the Big Cat is now better than ever!

**Put your hand
against this page.**

**(Can you feel the
excitement coming through?)**

We just put an entire disco into a jukebox. The Rowe Disco 200.

Check out our new Disco 200 jukebox, and find all the elements of a successful disco.

Lights, lights, lights

To fully appreciate the Disco 200, you have to see it in action. When there's no music playing, the front panel flashes and glows with color. Bathing the area around it in excitement.

But it's not until the music begins that the fireworks really start, and the 200's lights come to life: dancing and pulsating to the music itself. Just like a disco.

Power, power, power

Of course, the essential ingredient of a disco (or a jukebox) is the sound that comes out. And the 200 produces sound in spades. A full 125 watts of it. And those are *honest* watts, producing more real power (and sound) than jukeboxes advertised at over 200 watts!

Profit, profit, profit

All of these features are designed to help the Disco 200,

and you, make more money. In fact, the 200 is packed with money-making features. Like a "Memorec" computer memory that records every selection as a "vote", then tells you the total tally on a digital readout. Just press a button, and you get the exact number of times each record was selected.

Other features include Playmaker (it automatically plays a selection if too much time elapses between paying customers). As well as a host of profit-oriented design innovations.

Unleash the excitement

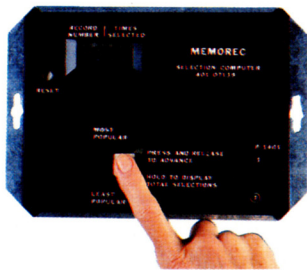

If you want the color, flash and verve of a disco, and want it in a jukebox, we urge you to find out more about our Disco 200. The disco that comes packed in a jukebox. Rowe International, Inc., 75 Troy Hills Rd., Whippany, NJ 07981, (201) 887-0400.

It's part jukebox, part ballot box.

Now every location can vote for their own top 200 favorite singles.

Our new R-83 jukeboxes have a "Memorec" computer memory that records every selection as a "vote", then tells you the total tally on a digital readout. Just press a button, and you get the exact number of times each record in the machine was selected. From the most-played record down, from the least-played record up, or as a grand total of selections since the operator's last visit.

The advantages are obvious. Not only can you tailor individual jukeboxes to specific locations, but you can spot — early, — those records that aren't making it, or have fallen from favor. A feature that not only helps you program your R-83, but all others.

New Disco 200

There are three jukeboxes in our R-83 line: the Fiesta, the

Fiesta

Claremont

Claremont, and our new Disco 200, a unit that captures all the life and excitement of a discotheque in a jukebox. The 200 virtually explodes with light, throbbing and pulsating to the beat of the music.

25% More power to you

Backing up this new R-83 excitement is the most powerful amplifier ever put into a jukebox. Of course, the competition advertises more watts. But our 125 rating is determined by FTC standards and is a true measure of power, actually delivering 25% more power than units advertising 200 watts. (It all means more power, and sound, to more extension speakers.)

The jukeboxes with everything

In short, the R-83's have it all: new Disco 200 model, "Memorec" computer memory, more power, great looks, plus Playmaker (that automatically plays a selection if too much time elapses between paying customers).

Check into our new jukeboxes. We're putting our money into them. We know your locations will too.

666 No. Broad St., Philadelphia, Pa. 19130 • 215/684-1600

Nobody ever dropped a quarter in a wall clock.

An electronic wall game provides "extra" profits by turning existing wall space into a steady money making area. With no loss of valuable floor space. And none of the maintenance problems associated with floor games.

At Sunbird, we pay a lot of attention to making wall games with real profit potential. Because, at Sunbird, making wall games is our only business. And like you, we're in business to stay in business.

For more information on Sunbird electronic wall games, contact your Sunbird distributor (see the listing on the opposite page). Or contact us directly.

Everything You Expect From A Trade Publication...
 And More...

COIN OPERATED POOL TABLES BUILT TO TAKE PUNISHMENT

The UBI coin operated pool table is built to professional standards. But, rarely are our tables found surrounded by skillful gentlemen in tournaments. More often they're surrounded by big guys with ugly tempers and wise guys with little respect for your property. So, what we really designed our table for is *punishment.*

All Pro NY Giant BRAD VAN PELT finds the UBI coin mechanism surprisingly indestructible.

HITTING BELOW THE SLATE

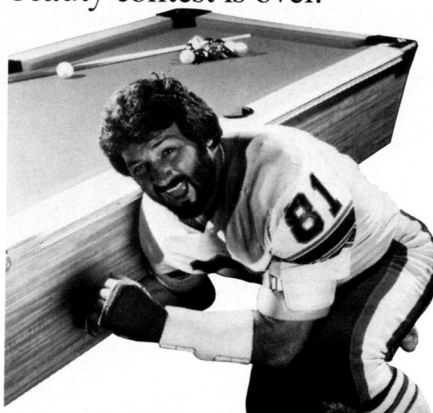

There's no ref in pool. Cue stick attacks on a coin mechanism generally put the table out of action. But the UBI drop chute can take it. We have operator reports of over 100,000 plays on a

NY Giant JON MENDENHALL is "slated" for a painful hand.

single energizer. There's no "pusher" to bend out of shape. All 15 balls release automatically. And if anything does go wrong, the entire mechanism is in a drawer that can be replaced in seconds without costly or time consuming service calls.

BUILT YES, PRETTY NO
Our all plywood bulk-headed construction means more on location than just good looks. Screws hold better. Glue penetrates and holds better. So when push comes to shove, heaven help pressed wood imitations. And while no one ever whistled at our chrome steel legs, UBI's solid construction will stay that way long after the beauty contest is over.

All Pro NY Giant JACK GREGORY proves plywood is stronger than man.

DEBRIS OR NOT DEBRIS
There's always some clown who sinks an empty beer can in the corner pocket. A lot of tables would have to

be dismantled to retrieve our friend's debris. Not the UBI table.

The runways have openings to allow chalk and small objects like bottle caps to fall through. There are four large access openings in the bottom of the table that allow easy removal of larger objects—like beer cans.

NY Giant JON MENDENHALL can't break a leg.

WHY UBI?

The world in which the coin operated pool table must survive is not an easy one. We know that. And you know that. What we make is the most durable, reliable and serviceable table you can buy. What you make is a very profitable investment.

UBI.

John R. Winn—President

Ardac's newest dollar bill changer. Compact. Low cost. Bulk-loaded.

Ardac's newest changer has features you might expect on units twice its size. It has a dollar bill acceptor designed to operate for millions of operations without a lot of fine tuning or adjustments. A dollar bill stacker is available to automatically stack bills in a neat column. Bulk-loaded hoppers can be easily programmed to provide a wide variety of payout combinations. The cabinet provides maximum security with a unique four-point locking system. Capacity up to \$800.00. Modular construction for servicing ease. Simplified electronics. A remarkably low cost.

My 33 years of sales and marketing expertise with a proven record and image second to none for vending, soft drink bottlers, military bases world wide, music and games, parks, malls, shopping centers, attractions, department stores, OCS, fast food outlets, hotels and motels, and all phases of the coin-operated industry speak for themselves.

PETE PETROPOULOUS

Add proven successful sales and marketing techniques. Inquire about our special departments covering shopping centers, malls, game rooms, department stores, distributors, music, game and vending operators and national accounts. Proven sales products suppliers, brokers, dealers and with management of well known companies we have helped many down through the years.

Why?

Why do you suppose more operators read Play Meter than any other industry-related trade publication?

We think it must have something to do with the fact that Play Meter is independently-owned and honest with its readers.

We are, after all, the only publication that evaluates pinball machines.

Not only that, our articles (such as the recent three-part series on business profitability) are thought provoking, useful, and written specifically for the operator.

And we cover more industry news than anyone else, month after month.

Then, of course, there's our "Technical Topics" section, which is written by independent technicians who have firsthand experience in the field.

There seem to be as many reasons for reading Play Meter as there are readers.

PLAY METER

New!

From the leader in advanced high-profit earning amusement equipment.

No A-1 Supply, Inc. games have become available in the used market . . . leadership proof!

- Highest player popularity
- Highest reliability
- Highest money makers

We have a full house of gaming theme amusement games coming your way . . . you can bet on that!

From THE

CORPORATION

— THE ONLY GAME OF ITS KIND IN THE INDUSTRY —

— A MOA SHOW BOOTH 6 WEST ROOM —

THE PROFIT MACHINE

The Profit Machine is here! The fun, the sounds, the excitement of Las Vegas, It's ACE-HI. Resulting from extensive market test trials ACE-HI is developed from a traditional card game with added visual and acoustic dynamics to create suspense and continuous excitement — the game slows down as the suspense increases! Each and every amusement game is different, a game which never loses player appeal and for which you reap the profit. *Get All The Details From Your Distributor Or Contact*

The Zila Corporation At 2103 S. Hathaway, Santa Ana, CA 92705 • (714) 957-9371

IMPROVING YOUR GAME IS OUR GAME.

How? With more new opportunities to increase your return on investment than ever before. With more new Atari video and pinball attractions than anyone else can offer. More choice. More games *designed* to increase your profits *wherever* your location. With winners.

Like the phenomenal Atari Football™, Super Breakout™, and Orbit™ video games. And the excitement of Space Riders™ and Middle Earth™ Wide Action pinball adventure.

With more games that are *proven* leaders. Proven in exhaustive long term location testing that counts quarters, measures reliability, researches player preferences for game play, sounds, graphics, controls; tells us what age groups are most likely to play (and play again); what locations will be best suited to maximize your return. (You don't see an Atari

game until it's passed a lot of critical earnings and reliability tests.)

Improving your game also means responsive Atari sales and service support. Industry activity information, new product and earnings input, maintenance support. The kind of help you can use

every day.

Our distribution and service teams in Sunnyvale, California and Piscataway, New Jersey; a regular program of service seminars, monthly "Coin Connection" industry newsletter, sales literature combine with a worldwide network

of Atari distributors to give you the most thorough backup in the business. And our exclusive *Telehelp™* toll free Customer Service numbers (Western Region: 800-538-1611, Eastern Region: 800-631-5374) means on-the-spot trouble shooting as close as your telephone.

Let your profits rise on a new world of total entertainment. Talk to your local Atari distributor now. Or contact us for referral at 1265 Borregas Avenue, Sunnyvale, CA 94086, (408) 745-2500.

ATARI. THE INVESTMENT.
