# Merry Xmas and a Happy New Year

Without any doubt this past year has been one of the most eventful in the history of the coin machine industry.

Everywhere in the field changes have been made to meet with the new general conditions of all business.

And just as changes were made, many found themselves slowly reaching new business understandings and arranging for better business methods.

This was the year, 1947, when all came to the very definite realization that the hectic and flush war years were over, and that business men had to once again settle back to doing business on a more normal basis, arranging for better methods in every business regard.

As the year went on, coinmen all over the nation adopted proposals and suggestions which had long been advanced by this publication, but, which didn't take definite hold until all began to feel the impact of the post-war era and its inflationary and recessionary periods.

But, all things considered, the coin machine industry, in all of its divisions, did move on ahead. It progressed thru the very reactionary effects of its own business laxity. It is now adopting better and more streamlined business methods and arranging to come to a more equitable commission percentage understanding with its locations.

It has settled down. It has overcome the first rush of those who believed that they could instantly capture the field with one product or another. It is now looking at itself with the haze of the war

period removed and sees itself in clear-eyed understanding of what it needs.

Therefore, from every standpoint this is the time when the entire industry needs but to review its past year's events to have a better understanding of the forthcoming year and what it can best do to help itself to prosper and progress.

And that is today made available by *The Cash Box* for all those students of the coin machine industry who desire to have historical data at their finger tips with the "Review-Of-The-Year" which appears in this issue.

This is one Christmastime when all this field can calmly, clearly and intelligently celebrate the fact that it has at last become sufficiently clear-eyed to understand what it must, and what it can do, to better help itself.

And for that very, very important fact — this is the time of the year — this grand holiday season — when all the industry can celebrate the awakening of a new era.

When all know that this field will strive for greater and better public understanding in 1948. When more equitable commission methods will be adopted. When all organizations now in the field, and those yet to come, will work to benefit the entire industry and will, with the help of all their members, celebrate this holidaytime in the grand and good and wholehearted spirit of Christmas.

# REVIEW - OF - THE - YEAR

## In Explanation . . .

For a long time now there has been a demand from the coin machine industry to have a "Review-Of-The-Year" which could be searched out at regular intervals by all in the field for data on news events, editorials and equipment.

This is the first attempt ever made by any publication in the field to compile such a review. It offers week to week information of the most outstanding events in the field during the year 1947. It will act as a reference encyclopedia for all who want to have facts at their finger tips when recalling any events of the past year.

The following pages are therefore the first real reference work ever offered to the coin machine industry and will become, beginning with 1947, a regular annual effort of *The Cash Box* to benefit the entire trade.

## JANUARY 13, 1947

Talk about the convention was still the main topic thruout the trade. It was reported that the "convention was a sell out" and that there were "very few rooms left in the Chicago Loop" district. All foresaw the biggest attendance in history with 5,000 expected to register the very first day of the show.

It was rumored that the nation's distributors would try to create a "Credit Bureau" at the forthcoming convention. Distrib leaders stated, "Issuance of credit to jobbers and ops will be biggest problem for '47". Also interesting to the trade was the opening of the first Police Dept. Canteen in Cleveland, O. with the juke box donated to the cops by the Cleveland music machine ops.

CHICAGO—Mills Industries, Inc. advised the trade to watch for their new phono, the "Constellation".

CHICAGO—Manufacturers here urged ops to attend their "open house" parties.

DETROIT, MICH.—Edelman Devices of this city introduced a new bowling game, "Bang-A-Fitty".

## JANUARY 20, 1947

Excitement grew thruout the trade as the convention approached. Everyone seemed to be planning to be at the big show in Chicago in February. There was much conjecture as to what would result with distributors smashing prices, in many cases it was reported, actually below cost, to move out merchandise before the big show. Bootleggers went on a rampage. Distribs were upset as machines flooded into their territories at 5% and even less above cost. The manufacturers seemed helpless against this huge wave. Leading distribs were clamoring for a national meeting to bring a halt to bootlegging. One glimmer of good news came from a national survey among operators who reported that the holiday season slump was over and that collections were going up again.

OAKLAND, CAL. — The California Music Operators Assn., was fighting for tax revisions.

TULSA, OKLA.—The city commission passed a law permitting seizure of coin operated music equipment if the machines weren't registered and did not bear license stickers.

NEW YORK—Amusement Enterprises, Inc. introduced the "Whirl-A-Ball" counter game.

## JANUARY 27, 1947

This was the big convention issue of *The Cash Box*. One of the biggest issues ever yet presented to the trade. Coinmen were in Chicago two, and even three weeks, before the show. All were enthused and all looked forward to seeing many new products. There was a plan afoot by amusement game ops to create a national association and many believed that Samuel (Curley) Robinson should head this organization. More mixed routes were forseen as a result of the

convention. It was believed that music and vendor ops would add games to routes. The distributors, too, were eager to create a national organization. They believed that such an association would eliminate price cutting, bootlegging and help solve the credit situation. This issue also featured a complete listing of every exhibitor and just what products he would have in his booths.

The new machines, when the doors of the 14th annual convention opened on February 3, actually stunned the crowds. There were special showings at various hotels aside from the Sherman. Aireon showed their new "Fiesta" phonograph at the Congress Hotel. Rock-Ola and Bell-O-Matic held showings at the Morrison Hotel. Mills Industries, Inc. presented their new "Constellation" phono at the Hotel Continental.

Among the new products which were seen were: Genco: "State Fair", pinball; Gottlieb: "Miss America", pinball; United: "Rio", pinball; Williams: "Show Girl", pinball; "Mirror-tone" cabinets for music mechanisms by Solotone; Pantages' "Music Mirror" for music mechanisms; Amusement Enterprises "One World", rolldown and "Bowl-A-Strike" bowling game; Gottlieb "Daily Races", one-ball; Firestone Enterprises: "Bonus Roll", bowling game, "Santa Anita Handicap" upright game and "Rolloball" rolldown game; Personal Music had a new music box called "Melody Lane"; Pico Sales showed "Pinch Hitter" rolldown game; The "Telequiz" got attention; "Strikes 'N' Spares" clicked big at this show; Esquire Games showed "Spotlite" upright game; there were dozens of others.

All the industry's leading manufacturers featured articles in *The Cash Box* welcoming the nation's operators to this big 14th annual convention of Coin Machine Industries, Inc.

## FEBRUARY 10, 1947

The convention was big, but the tempo was slow. The floors were crowded day and night but the "real action" didn't seem to be there, according to coin machine leaders. The CMI adopted three more suggestions of *The Cash Box*: 1) National Tax Council; 2) National Credit Bureau and 3) National Distributors Organization.

## FEBRUARY 17, 1947

An editorial entitled, "STOP CLUCKING—START WORKING" appeared in this issue and was acclaimed thruout the country with many coinmen asking for reprints. There was lots of talk about big "buys" thruout the trade but ops who tried to find these reported there was no such thing. The manufacturers were acting to smash bootlegging on the insistence of leading distributors. Again *The Cash Box* warned the trade "Watch ASCAP". ASCAP was already preparing legislation to change the "Copyright Act of 1909" and wanted every juke box to pay them a fee for playing their copyrighted music, aside from the fact that they were already collecting from the

It was suggested that all operators buy now while distributors were smashing prices. An editorial stated that the public was swinging to low cost entertainers and ops were advised that this was one sure sign of better games action. "The Best Things In Life Are Free" (3:02)

"I Never Loved Anyone" (2:58)

GEORGE PAXTON ORCH.

(MGM 10107)

● It's the mellow tones of the George Paxton ork that echo here on a wax duo music ops may take a liking to. Titled "The Best Things In Life Are Free" and "I Never Loved Anyone", maestro George showers piper Dick Merrick to the fore to wail the pleasing wordage. Dick's tones echo fragrantly, and stack up with loads of possibilities. Top deck from the MGM flicker "Good News" should come in for some heavy play once the pic breaks across the nation. The flip is the oldie that went so well years ago. Both sides deserve your listening time.

"Oooh! Looka There Ain't She Pretty" (2:57)

"Sweet & Lovely" (2:50)

BENNY GOODMAN ORCH.

(Capitol 15020)

● That star isn't hanging there to look cute. This latest release by the old King of 'em all shines as bright as a beacon as maestro Benny Goodman and gang step out to offer "Oooh! Looka There Ain't She Pretty". With chirp Emma Lou Welch to the fore to pipe the hypo wordage, and a highly favored spot on the stick by Mister Gee himself, the wax shows as a must for phono ops. The gal's rendition is really grade A, as her tricky tonsils sweep the wordage out in highly favorable tones that count. On the flip with the oldie "Sweet and Lovely", Benny and the boys combine to show their top instrumental styling weaving in slow fashion. It's a blue ribbon package and a real gift to music ops at Xmas time — wrap it up for your fans and Santa — but pronto! (\*see page 21).

"Let's Be Sweethearts Again" (2:40)

"Mama, Mama, Mama" (2:57)

BILL JOHNSON

(RCA-Victor 20-2591)

● The top musical styling of Bill Johnson and his Musical Notes spill here on a pair bound to be in your race spots pronto. Weaving in perfect harmony on the top deck with "Let's Be Sweethearts Again", Bill and his boys show with wonderful tone on this slow, delightful hunk of wax. The wordage makes you wanna listen — you will once you hear this ditty. Flip has Bill wailing behind a mellow piano, with the title giving off the Bill of fare. Top deck for the coin.

"Montuno In G" (2:40)

"Junglro" (2:50)

NORO MORALES SEXTET

(Majestic 1192)

● You've gotta go a long way to beat the Latin styling of Noro Morales. A pair your rhumba spots should go for are these offered in very fast styling, with maestro Noro tickling the ivories throughout. Labeled "Montuno In G" and "Junglro", Noro displays his brilliant rhythm in top notch fashion, with the beat offered bound to attract loads of attention.

**DISK O' THE WEEK**

"Pianissimo" (3:03)

"What Do You Want To Make Those Eyes At Me For" (2:40)

MINDY CARSON

(Musicraft 527)

MINDY CARSON

● Ya just gotta get next to this cookie — 'n faster than a jack rabbit at that! Bowing into the disk spotlight with a smash hunk of wax if there ever was one is Mindy Carson, ex Paul Whiteman chirp. Mindy's tonsils, gilded with silver all the way, spill this so pretty ballad in such fine manner, to set off a spark of sighs across the nation. With her pipes echoing in fragrant, tender tones and some wonderful string backing by the Glen Osser ork, "Pianissimo" rates like a spade flush. They'll play, hum and sing this piece in any spot in the land. Especially suited for the crowd that loves to get up close. "Pianissimo" (soft and low) is just the way the cookie sounds, with a dash of spice thrown in. On the flip with "What Do You Want To Make Those Eyes At Me For", Mindy once again shows her splendid wares to come in for more coin. "Pianissimo" — a must in your machine!

\* "I Can Dream, Can't I" (2:45)

"The Things You Left In My Heart" (3:00)

JIMMY SAUNDERS

(Rainbow 10038)

● Once you hear his hunk of wax, you're sure to want to hear it time and again. Not only is this cookie unique — it's a tremendous coin culler. Jimmy Saunders bows into the disk spotlight in a big way via his rendition of "I Can Dream Can't I", with the tone and pitch of his tonsils lending an air of beautiful simplicity to this sweeping ballad. Jimmy baritones his way to a fragrant mood as he sings in soft, intimate tones. The unique portion of this cookie comes in with the orchestral accompaniment. Backing the choir boy in full measure all the way is — of all things — a full mandolin orchestra under the direction of the famed Joe Sgro. The way the music comes out makes you wanna set awhile 'n take it all in. The flip, "The Things You Left In My Heart" shows Saunders with another top notch cookie. Don't let this one slip away — grab it but quick. (\*see page 21).

"Wabash Blues" (2:47)

"Have You Ever Been Lonely" (2:32)

LE MONTI'S TU-TONES

(Aristocrat 505)

● The brand of music this crew puts out rates with the best of 'em. Pair of sides that are sure winners for tavern spots are these offered by Le Monti's Tu-Tones. Titled "Wabash Blues" and "Have You Ever Been Lonely", the combo show with loads of finish as they go instrumental for the oldie and weave in slow styling for the flip. Both sides rate that spot in your machines — get next to 'em.

"So Long" (3:00)

"Blue & Sentimental" (2:50)

LESLIE SCOTT

(RCA-Victor 20-2571)

● Make no mistake about this one! Music operators looking for a bit of blue solitude building toward a slew of coin play will find it in this cookie by Leslie Scott. Wailing the popular "So Long" and "Blue & Sentimental", Leslie shows his tremendous vocal powers with this duo way down deep in the blue refrain. Top notch orchestral backing builds the disk all the way with Leslie's pipes grabbing all the glory. Take a look-see here — you'll like what you find.

"People Are Funnier Than Anybody" (3:02)

"My Old Flame" (2:58)

SPIKE JONES

(RCA-Victor 20-2592)

● Zany isn't the word for this disk — it's mad enough to draw a ton of attention. Spike Jones and his City Slickers combine to knock out a pair of novelty sides that will have you rolling with laughter. Offering "People Are Funnier Than Anybody" and "My Old Flame", Spike shows his choir boys in a circus on this pair. Top deck spills with a calypso beat with wordage replete. Flip starts straight only to have a Peter Lorre vocal fill in for the kicks. A great side for the light spots.

**THE CASH BOX****Record Reviews****\*\*"At The Candlelight Cafe" (3:04)****"The Best Things In Life Are Free" (3:02)****DINAH SHORE****(Columbia 37984)**

● Always a coin culler, chirp Dinah Shore comes thru for music ops again with this dinking bound to be featured on many a phono in the very near future. It's "At The Candlelight Cafe", more gypsy music that should set the phonos hopping. Dinah's sweet voiced wax message rings true as Sonny Burke backs the lass in fine meausre. On the flip with the popular "The Best Things In Life Are Free", Dinah keeps the brand riding high. They fit your phono like a glove. \*(see page 21).

**\*\*"What'll I Do" (2:43)****"I Feel So Smoochie" (2:58)****KING COLE ORCH.****(Capitol 15019)**

● By far one of the best platters ever made by the King Cole Trio springs up here. It's an old magic Irving Berlin tune to set the stage for a slew of coin play. With Nat to spoon the charm of "What'll I Do", the deck stacks up as a sure winner for the machines. Tempo is gaited and slow and easy, as the combo blend for some rave music. The flip is the rapidly rising "I Feel So Smoochie", with Nat tonsiling the cute lyrics in top fashion. "What'll I do" is a cinch. \*(see page 21).

**"Too Fat Polka" (3:00)****"If I Only Had A Match" (2:59)****LOUIS PRIMA ORCH.****(RCA-Victor 20-2609)**

● Pair of novelty sides by maestro Louis Prima echo here with the tint of coin about them. Top deck currently riding heavily in the boxes is "Too Fat Polka", and shows the maestro in nasal tones behind some grade A polka background. On the flip, Louis joins with Cathy Allen to wail the hypo lyrics to "If I Only Had A Match." The many Prima fans are sure to go for this coo-kie in a big way.

**"Fine And Dandy" (3:00)****"The Day You Came Along" (2:38)****MEL TORME****(Musicraft 530)**

● Subtle voice of Mel Torme and the oldie "Fine And Dandy" show as a comer for the many Torme fans rapidly gathering. Coming thru in slow, light tones, Mel gets up real close with this smash hit of yesteryear. It's the hush-hush treatment that get's 'em — this deck has plenty to spare. On the flip with "The Day You Came Along", Mel once again displays his talent in adequate style to continue to egg coin. We like the toposide.

**SLEEPER OF THE WEEK****"Gone" (2:48)****"Luke The Spook" (2:40)****LEE RICHARDSON****(Apollo 1086)****LEE RICHARDSON**

● You can bet your boots phono fans throughout the nation will be howling, yowling and beating the drum like mad for this cookie! Utilizing more depth, feeling and sincerity than we've heard in many a moon, Lee Richardson offers a side that really is "Gone." Lee pipes the heavy sugar coated wordage with tremendous vocal range to shine brilliantly throughout. Aply suited for any spot, this deck is bound to be appreciated by a zillion kids from six to sixty. With the mood of the song way down low and off the deep end, maestro Luis Russell gives balladeer Lee terrific instrumental backing, building toward a beautiful crescendo topped off by Lee's vocal charm. The flip shows the Luis Russel ork in top notch instrumental styling, spotted by some beautiful sax work on "Luke The Spook". You're a cinch to get next to "Gone" — a truly great recording.

**"Pass That Peace Pipe" (3:05)****"I'm Waiting For Ships That Never Come In" (3:00)****ART MOONEY ORCH.****(MGM 10112)**

● Pair of sides which music ops might latch on to and use to good advantage as filler material are these offered by the Art Mooney ork in pleasing style. Titled "Pass That Peace Pipe" and the oldie "I'm Waiting For Ships That Never Come In", Art shows his wares in effective styling on the duo. The Galli Sisters grab the lime on the top deck, wailing in unison to the hypo wordage. Piper Bud Brees on the backing, crooning in sweet metro behind some fair instrumental backing.

**FIGURES SHOWN FOLLOWING SONG TITLES, INDICATE PLAYING TIME OF RECORD.**

**"Throw It Out Your Mind" (2:50)****"My Fate" (2:46)****PRINCE COOPER TRIO****(Aristocrat 1202)**

● Pair of sides for ops with race spots is this offering by the Prince Cooper Trio, with the refrain spilling in typical Kng Cole manner. Prince himself to the fore for the wordage in soft, sweet tones which go a long way toward culling coin. Top deck labeled "Throw It Out Your Mind" shows the maestro in top manner wailing this cute affair. Flip equals the performance of the toposide, with Prince shining all the way. Latch on!

**"And It All Came True" (2:46)****"All Wrapped Up In A Dream" (2:50)****DON REID****(Metrotone 1009)**

● Don Reid, of "Remember Pearl Harbor" shows with a cookie here to make you remember Don Reid. Labeled, "And It All Came True", Don's flowing passages glow brilliantly as he pipes in rich, warm phrases. Wordage offered in smooth dulcet tones beckons a load of coin. On the flip, Don matches the splendor of the toposide ditty by adding a little bounce to "All Wrapped Up In A Dream". Chet Howard and his lads spike the disk immensely to bring it up to a blue-ribbon coin winner.

**"Just Fine" (2:59)****"The Answer To My Prayer" (2:42)****JACK OWENS****(Tower 1262)**

● More mellow music from the coffers of Jack Owens, this time to a pair titled "Just Fine" and "The Answer To My Prayer". Both sides show the piper in top-notch fashion, with the Eddie Barentine ork giving the piper a hearty sendoff. You'll go for "Just Fine", weaving with a bounce beat, while the flip slows down a bit to fit the cupid tempo. Both sides for the asking — take it from here.

**\*\*"It's Kind of Lonesome Out Tonight" (3:06)****"Oh! What I Know About You" (3:02)****SAMMY KAYE ORCH.****(RCA-Victor 20-2558)**

● It must be the Yuletide feeling. Here's another deck bound to cause loads of attention among music operators and the trade. It's Sammy Kaye and his boys — and — a mystery gal that grabs the spotlight to set the stage for some heavy phono play. With the gal's pipes spilling the lyrics with great force and meaning, the disk shines heavily here. Offered in brilliant styling, the thrush pipes her way to a beautiful peak with the Kaye crew blending excellently. On the other side with "Oh! What I Know About You", Sammy shows Don Cornell and Laura Leslie with some wax that may fit your phono neds. FREDDY MARTIN ORCH.

(RCA-Victor 20-2590)

● The large following maestro Freddy Martin has are bound to go for this pair. It's Freddy Martin and his boys for "Don't Call It Love" and "Sierra Madre", a pair of ballads that beckon coin from these orbs. Top deck, from the Paramount flicker "I'll Walk Alone" shows piper Stuart Wade wailing in top notch fashion, with the soft phrases coming out fine. On the flip with a Latin affair in slow ballad styling, Wade comes thru with The Martin Men once again for another cookie looking up. Both sides will make excellent filler material for your machines.

We don't know what it is, but nevertheless the diskers weren't sleeping this past week. Owing to the unusually large amount of record releases this past week, and also the unusually large amount of records deserving special mention, *The Cash Box*, as a service to music operators throughout the nation herewith devotes this page to continue to cover the field. Records listed above might have garnered the *Disk and Sleeper* spots, and because of their extreme value and quality, they are listed below.

"Oooh! Looka There Ain't She  
Pretty"

Benny Goodman Orch.  
(Capitol 15020)

"What'll I Do"

King Cole Trio (Capitol 15019)

"I Can Dream, Can't I"

Jimmy Saunders (Rainbow 10038)

"Loaded Pistols, Loaded Dice"

Phil Harris O. (Victor 20-2575)

"At The Candellight Cafe"

Dinah Shore (Columbia 37984)

"It's Kind Of Lonesome Out  
Tonight"

Sammy Kaye O. (Victor 20-2558)

"Hot Sauce! Boss"

Earl Bostic (Gotham 155)

"You Are Never Away" (3:00)

"All Dressed Up With A Broken  
Heart" (3:02)

BUDDY CLARK

(Columbia 37985)

● The stylish tones of beautiful rapturous music and the vocal splendor of Buddy Clark have this cookie way up there this week. Offering the cute, bounce tempo to this light affair labeled "You Are Never Away", from current "Allegro" score, Buddy shows top ton-siling to make this disc a coin winner. The flip is rapidly rising as a pop hit on the phonos, Buddy's rendition makes it more pronounced.

"Gotta Get To Oklahoma City"  
(2:49)

"Lone Star Moon" (2:59)

TEX BENEKE ORCH.

(RCA-Victor 20-2566)

● Shades of old Glen Miller—that's with this platter! Maestro Tex Beneke shows with a pairing bound to start the old flame for the sweetness of this crew glowing again. Titled "Gotta Get To Oklahoma City" and "Lone Star Moon", Tex whistles, hums and plays his way for a merry ride on the machines. You'll go for the light, happy wordage on the pair, touched with some mellow tones of the band boys. Both sides stack up heavily—we're sure you'll go for them.

TIME OF RECORD.

"1280 Special" (2:38)

"Everything Is Cool" (3:02)

BABS 3 BIPS & A BOP

(Apollo 776)

● Pair of be-bop sides for the hep jazzophile crowd that goes for this stuff is bound to cause a load of attention, once this platter gets around. You've got to go a long way to match the Three Bips bouncing tones. Both sides spin in fast tempo with the wordage cute as a bug. If you have the spots—get next to this one.

"Come Back To Sorrento" (2:59)

"Now Is The Hour" (3:04)

GRACIE FIELDS

(London 110)

● More hypo London platters with chirp Gracie Fields to the fore to offer the always popular "Come Back To Sorrento". Altho this version won't stop traffic, it nevertheless shows Gracie and her high caliber of vocal styling in adequate fashion. Pitch is way up in the air here, while the flip is the oldie "Now Is The Hour." Take a look-see, huh?

"My Sin" (3:08)

"Forever Amber" (2:56)

TONY MARTIN

(RCA-Victor 20-2576)

● Pair of heavy ballads building on the romance angle spill here by Tony Martin, bound to put the crooner back into the phono spotlight once again. Top deck gets all the glory as "My Sin" shows Tony attaining a rich peak throughout. You're bound to go for the mood of the son, blended beautifully by the magic charm of Earle Hagen's music. The flip is the theme from title flicker of the same name, "Forever Amber." Tony displays his wares in excellent fashion, with the cookie getting spiked by the orchestral accompaniment.

"I Hate To Lose You" (3:00)

"They're Mine, They're Mine,  
They're Mine" (2:59)

SAMMY KAYE ORCH.

(RCA-Victor 20-2538)

● More teeming tones from the Sammy Kaye ork, this time with "I Hate To Lose You" and "They're Mine, They're Mine." You can expect the Kaye fans to latch on to Don Cornell's version of the top deck, weaving in slow fashion with cute cupid wordage to match. On the flip it's the oldie, "They're Mine, They're Mine, They're Mine" with the Kaye boys coming thru for the ops once again. Both sides for the asking.

\*"Loaded Pistols, Loaded Dice"  
(3:04)

"Now You've Gone & Hurt My  
Southern Pride" (3:02)

PHIL HARRIS ORCH.

(RCA-Victor 20-2575)

● Another topper this week, this time by the famed Phil Harris and his crew. Ditty labeled "Loaded Pistols, Loaded Dice" shows Phil egging heavy coin play with this fast riff bouncing all over the place. It's Phil's double-talk vocal that get's 'em, with the title giving off the bill of fare. On the flip with more burlesque material, the maestro comes thru once again. Both sides seem sure winners on the phonos—get next to them. (\*see Disc Extra's, this page).

## BYRDE'S EYEVIEW 'ROUND THE WAX CIRCLE

by  
Byrde Gore

We were completely stumped, flabbergasted and dumbfounded by the reports our reviewers brought back this past week. Not only was there a choice of our weekly Disk and Sleeper song hits, but several records were found to be of such exceptional value that we just had to blow our horn about them. Add to that the fact over 100 releases were received this past week. The songs and recordings our reviewers deemed of such high value get extra special mention this week on page 21. We're sure you'll agree.

\* \* \*

Talk about song hits brings to mind the current click disk by Rose Murphy. Reports coming in from Majestic Distributors throughout the nation indicate the largest advance sales ever in this history of the Majestic plattery. We hear you can't even talk about records in Minneapolis without mentioning Rose Murphy. Lou Suritz, prexy of Majestic Brands discloses that reaction to the record in New York is nothing short of sensational. (Memo to Lee Savin: You prayed—we picked—it clicked).

\* \* \*

A recent survey made by a prominent diskery shows that altho offering title strips to music operators, the strips were not used in the machines. The plattery checked a sample territory to find strips scrawled in every form of handwriting imaginable. Altho a great many operators were using the title strips supplied by the manufacturer with every purchase of a record, there was still a great many who did not use the printed strips at all. What about this music operators—we'd like to know.

\* \* \*

We hear that Sam Donahues' recent "Red Wing" and "The Whistler" has passed the quarter-million mark . . . that Sarah Vaughn's Musicraft disk of "The Lord's Prayer" is being acclaimed very highly in clergy circles . . . Sid Prosen of Hometown Music Co., expects a banner year for his firm, with a flock of hits on the way . . . Mel Torme flies into New York from Chicago this week to prepare for his opening at the Hotel Commodore next Tuesday (23) . . . that they'll have capacity crowds bigger than ever when Stan Kenton and Vic Damone bow into the New York Paramount . . . Lonzo and Oscar's "I'm My Own Grandpa" kicking up a storm throughtout the nation . . . Louis Prima's "Civilization" to pass his famed disk of "Angelina" . . . Gladys Palmer has another smash disk in "If I Didn't Have You" on Miracle Records.

\* \* \*

We'd like to thank all our dear friends in the industry for the wonderful cooperation they've given us this past year. We'd need a full page to enumerate them, there are that many. Nevertheless thanx by the ton go to all music operators, diskery folk, artists, music publishers and disc jockeys. Here's wishing you a very MERRY CHRISTMAS AND A HAPPY NEW YEAR!

your years be as

# WHO SAID A RECORD MUST PLAY THREE MINUTES?

## No Reason Why Diskers Can't Produce 2 Minute Records and Open Flood Gates to Big, New Market in Juke Box Field.

**"PEG O' MY HEART" BY THE HARMONICATS (VOTED THE BEST RECORD OF 1947 BY THE JUKE BOX INDUSTRY) WAS A TWO MINUTE RECORD!**

NEW YORK—Who said a record must play three minutes?

Who established the precedent, decrying other ways and means for record manufacturers and juke box operators to increase their revenue?

Who said phono patrons must sit and listen to three choruses of verse, a band break and then a repeat chorus on most recordings?

WHO?

Juke box operators throughout the nation have found another means — available to record manufacturers to establish a new high in potential record sales.

The answer — TWO MINUTE RECORDINGS!

Music operators continue to storm *The Cash Box* with wires, letters and telephone messages applauding the stand taken on this new mode of marketing.

Operators have proven that their revenue per juke box has been increased tremendously during the peak play hours by using two-minute disks.

Record manufacturers can share in this large, potent sales medium by producing two minute recordings and flooding the market with more than 25 million records; thus replacing the recordings now in the hands of the music industry.

Music operators point to the present

commission basis between themselves and locations as one of the major factors involved in their crying need for a method to improve and boost the "take" in the juke boxes.

As one well noted music operator recently stated, "Location owners themselves are yelling because there isn't any real money in the machines during peak play hours. By producing and using two minute recordings, both the operator and location owner are pacified. I've got several two-minute disks in my machines and find they bring more revenue. The "doubting-Thomas" need only look at the example of "Peg O' My Heart" and find the answer."

The more than 500,000 juke boxes in the nation eagerly await two minute recordings, as evidenced by the large amount of independent record manufacturers who are coming to the fore and are producing two minute disks. One independent disker was astounded by the amount of business he did with music operators after he issued a two minute record.

"Not only did I reach a market I had been trying to concentrate upon," he said, "but I found my sales booming in other recordings. I attribute this only to the fact that the juke box people bought those two-minute records."

There is absolutely no reason why record men must adhere to old practices that have caused them loss of profits.

This is the age of progress — the age during which the wheels of industry continually turn to better our standard of living. The age in which men with foresight are seeking new methods to open the doors to greater prosperity and income for all.

The automatic music industry has shown the way — despite the many pitfalls incurred in their business.

You discard your clothing, your automobile and your household items when they become shopworn, obsolete and of no use to you.

Do away with the likewise obsolete records in use today. The answer—TWO MINUTE RECORDINGS!

As the fall season set in, music men across the nation experienced the expected boom in the record market. Artists were reported cutting hours on end, with reports coming forth that platteries were building up a backlog of records that would last them several years. "Near You", "I Wish I Didn't Love You So", "I Have But One Heart", "Feudin' and Fightin'", "That's My Desire", "When You Were Sweet Sixteen" and a host of other tunes were firmly entrenched in the minds of juke box addicts throughout the nation. October was the month in which the "American Weekly" published their now infamous article "Who Gets Your Juke Box Nickel?". The article, which slurred and erroneously pictured music operators as "racketeers" brought a storm of thunder and protest by coinmen throughout the nation. The writer of the article evidently didn't know much about juke box men, and even less about the automatic music industry, as witnessed by his statement "an operator gets 200 plays per record".

The "American Weekly" obviously paid no attention to the great contribution coinmen were making to the Damon Runyon Memorial Cancer Fund. The Coin Machine Industry had turned over \$120,000 to the trustees of the Runyon Fund. Runyon Dinners were being planned throughout the nation. Walter Winchell hailed the Coin Machine Industry's contribution (thus far) as the most impressive and cooperative showing any group of businessmen had made.

All looked forward to 1948 as a year in which the industry would attain higher goals, a year in which the industry would contribute more to the general wealth of the nation; and a year which would see the recording industry emerge as a pioneer group among all forms of business in the nation.

HAPPY NEW YEAR!

Bill Gersh, our publisher flew into town from New Orleans this past week to present Eddy Howard with his two awards for *The Cash Box's* Second Annual Music Poll. The presentation was made at the south side Trianon Ballroom where five thousand people watched Eddy receive two "Oscars", one for the best orchestra of 1947, the other for the best hillbilly recording by a popular artist. Eddy is a very happy and grateful boy these days. Happy because of his great success and popularity and grateful to the many operators and to *The Cash Box* for helping him to achieve this success . . . Bill Gersh who stopped in at the beautiful Blue Room of the Roosevelt Hotel while in New Orleans, to listen to Vic Lombardo and his ork, tells us Vic is doing one grand job and really packin' in the crowds.

Sam DiCara, press man for the Harmonicats, very pleased over the fact that their "Peg O' My Heart" is catching on in England and in seventh place on the Hit Parade there. We hear that Al Fiore, a member of the "cats" will announce his engagement to Mary Miossky on Christmas Day when they open at the Oriental Theatre. And that reminds me, be sure and give a listen to the Harmonicats new release, "My Wild Irish Rose", playing time two minutes. Disk jockeys peg this one as another "Peg" . . . Louis Prima, now appearing at the Oriental, will be presented with a scroll from *The Cash Box* by Eddy Hubbard, disk jock, on Wednesday, December 17, for runner up in the poll for the leading orchestra of 1947. Louis makes a big hit with such numbers as, "Civilization", "Too Fat Polka" and "I Can't Give You Anything But Love" . . . Dorothy Shay left for New York this past week to cut some wax for Columbia Records. Dottie will then return to Chi to open at the Continental Room of the Stevens Hotel . . . Chick Caradale, song plugger for Burke & Van Heusen, phones in to tell us about their new release "But Beautiful", waxed by Bing Crosby, Frankie Laine, Art Lund, and several other well known artists. Chick says this one is really a beautiful number with no buts about it.

## Capitol Sets Extension Sales Co-op Program

### Name Stabler Assistant National Sales Manager

HOLLYWOOD — "During 1948, Capitol Records dealers will have the most extensive sales assistance and service the company has ever offered."

Such was the declaration of Floyd A. Bittaker, Vice President and General Sales Manager for Capitol, at the conclusion of his regular meeting here with regional managers from all parts of the nation.

"This means simply that we have completed plans to help Capitol Dealers achieve greater sales and greater profits during the coming year," Bittaker explained.

Listed among items for immediate attention were.

1. New procedures designed to simplify ordering.
2. New methods for handling factory-to-dealer distribution, thus assuring smooth, fast service.
3. Specialized application of advertising funds to achieve greater sales results.
4. New activity in sales promotion for dealers and music operators.

"Despite the proposed union ban on recording after the first of the year," Bittaker said, "we have a healthy reserve of new and different material. This will be released to dealers on our established regular schedule. Dealers will be given realistic assistance designed to bring them additional sales throughout the year."

Bittaker said the 1948 program would also include a well coordinated consumer relations program, active artists' relations work in the field and closer personal contact with dealers.

Listing the series of appointments as a step in its program for greater dealer service in 1948, Capitol Records announced a number of key personnel changes to be made in January.

Floyd A. Bittaker, vice president and general sales manager, announced the appointment of Robert W. Stabler to the newly created position of Assistant National Sales Manager.

With his headquarters in Hollywood, Stabler will be charged with responsibility of maintaining liaison between Capitol's executive offices and its distributing organization serving dealers. Stabler is thoroughly familiar with Capitol Records organization and services, having been both a branch manager and a regional manager. He has been Eastern Regional Manager during 1947, with offices in New York.

William R. Hill, currently mid-west regional manager at Chicago, goes to New York replacing Stabler. Ray Marchbanks, Southern Regional Manager at Atlanta will go to Chicago for the mid-west assignment.

Victor E. Blanchard, who has been manager of the local Atlanta Branch of Capitol Records Distributing Co., Inc., is being promoted to regional manager for the Southern territory.

## Ravens Click Disk Hits Half Million Mark

Green, president of National Records, announced last week that sales figures on The Ravens hit recording of "Ol' Man River", are nearing the half-million mark, setting an all time sales record for the company. Green further stated that The Ravens "Summertime", released recently is currently getting phenomenal play on coin machines and threatens the mark set by "Ol' Man River".

Green also announced the appointment of two new distributors; the M-S Dist. Co. of Chicago and the Mercury Dist. Co. of Los Angeles.

# PETRILLO SAYS HE WILL COLLECT ROYALTIES DESPITE RECORD BAN

## Insists Expiring Contract Covers All Future Sales; Diskers Indicate Court Action Looms

CHICAGO—James C. Petrillo, president of the American Federation of Musicians, struck an altogether unexpected note today in discussing the coming recording halt affecting the nation's disk manufacturers, when he asserted that the American Federation of Musicians would continue to receive royalty payments despite the recording ban, which goes into effect December 31.

Under the terms of the contract which will expire at the end of the year, the union receives royalty fees from the various companies on sales of records. Last year, these fees amounted to more than \$2,000,000. Under Mr. Petrillo's interpretation of the existing contract, the union will continue to receive these fees on all records made during the life of the contract, regardless of when the records are sold.

"We won't make any more records after this year," Mr. Petrillo said in his office this week, "But we will continue to collect money so long as the master records my boys make are alive. I don't know how much we will collect but it may go as high as \$10,000,000 because we will be collecting cash for many years to come."

Officials of several recording companies here expressed astonishment and several indignation, at the manner in

which Mr. Petrillo interpreted the contract.

These officials indicated that a court battle on the question was a certainty, but they preferred to make no public comment until they have discussed the matter further with Mr. Petrillo.

The contracts covering the point provide that fees ranging from a quarter of a cent on a record selling for 35 cents to 2 cents for a record selling up to \$2.00 be paid directly to the union. The acceptance of the contract four years ago marked the first time in history that an entire industry agreed to the principle of paying to a union for each piece of merchandise produced.

Mr. Petrillo gave no indication that he is seeking a solution to the recording ban or that he would be willing to accept any legal compromise that might be offered by the recording companies. Under the terms of the Taft-Hartley Law, such royalty payments as Mr. Petrillo declares will continue to be paid, are prohibited.

"Even if the companies could find some way to pay us, Congress probably would pass another law," he added. "No, the boys once and for all stop recording after December 31. That's one New Year resolution we have made and one we will keep."

# Empire Record Co. To Handle H. R. S. Platters

NEW YORK—Mr. Jack L. Caidin, president of the Empire Record Corporation revealed that his firm would handle the manufacture and distribution of H. R. S. Records. The deal, concluded this past week, provides for the complete control of H. R. S. by Empire.

In taking over the line, Mr. Caidin disclosed that the platters, formerly listed at \$1.00 would now retail for 75c.

H. R. S., one of the oldest platteries in the nation devoted to the field of hot jazz was founded in 1935 and has since continued to flourish in this field. H.R.S. was one of the first labels to reissue rare disks of the old New Orleans style of music.

Among the many outstanding artists who have been recorded on the H.R.S. label are James J. Johnson, Pee-Wee-Russell, Max Kaminsky, Dicky Wells, Zutty Singleton, Rex Stewart, Barney Bigard, Brick Fleagle, Sid Weiss, Earl Hine, J. C. Higginbotham, Dave Tough, Sarah Vaughn, Johnny Hodges, Cozy Cole and many others.

Empire has long been known to independent diskers in this area as disk manufacturers. The Empire firm handles a great many of the pressings for disk units in the east.

# Columbia Waxes Godfrey On Air Show

NEW YORK—Radio listeners throughout the United States were treated to a recording session this past week, when Columbia Records joined with the "We The People" radio show to present a "backstage" disk session with Arthur Godfrey.

Godfrey, whose current click platter "Too Fat Polka" is spinning merrily on juke boxes across the land actually cut a session ("Slap Her Down Again, Pav") with full studio complement on hand, including studio engineers, musicians, and even the usual studio kibitzers. Mitchell Ayres, Columbia's musical director assisted Manie Sacks, Artist and Rep chief at the diskery.

The disk session and novel manner in which it was offered, marks the first time in the history of the trade that a "behind-the-scene" glimpse of the intricate and meticulous task of making a record was presented to the public.

# CHIRP CUTS COOKIE

NEW YORK—Caught at the mike is the well known Connie Haines cutting some hot Signature wax. Connie, well known to coin men throughout the nation recently inked her Signature contract and invited juke box operators to visit with her during her engagement at the New York Paramount Theatre.

# REP. KEARNS SAYS JUKE BOX & RADIO SHOULD PAY ROYALTIES TO AFM

States Settlement of Recording Ban Would Be Possible if Juke Box Biz Pays AFM Royalties. Claims Radio Stations Using Records Should Also Pay. Brings Back Fact Record Label Reads, "For Home Use Only" Not For Free Commercial Use. Urges a Change in Copyright Act of 1909 so that Jukes and Radio Will Pay Musicians Royalties. Juke Box Leaders Fear This Will be Additional Fight to Expected ASCAP Battle.

(Editor's Note: For many weeks now *The Cash Box* has been warning the automatic music industry that there was legislation being prepared by certain protective music organizations for the bitterest battle which the industry will ever have to fight to be presented in this forthcoming Congressional session. This news opens another battlefield for the industry to overcome and verifies the warnings which have appeared in this publication. It also brings to the fore the fact that there is a highly concentrated drive against the juke box business, as well as all users of recordings, such as radio stations, to force these industries to pay royalties in many and varied directions.)

WASHINGTON, D.C. — Rep. Carroll D. Kearns (Rep. Pa.) who was investigating Petrillo and the AFM generally while the Scott and Fellows Bills hearings were under way the early part of 1947, and who contacted many of the automatic music leaders who were present in Washington at the Scott-Fellows bills public hearings for opinions regarding his investigation, has now come forth with a statement that he believes the juke box business, which he says is reported to him to have over 450,000 juke boxes in operation bringing annual return of over \$500,000,000, in

addition to the nation's 1,000 radio stations which use recordings, should pay royalties to AFM (American Federation of Musicians) and that this would probably lift the recording ban which goes into effect on December 31.

Rep. Kearns is Chairman of the Labor Sub-Committee investigating James C. Petrillo. He issued a report calling for legislation, as well as an anti-trust probe, to stop the American Federation of Musicians. He also declared that the musicians deserved returns from the juke boxes as well as the radio stations which, he claims, get big profits from the work of the musicians.

Rep. Kearns has gone beyond the demands of the last Scott-Fellows Bills which wanted royalty payments for the publishers and song writers. He urges that since the Taft-Hartley Act eliminated AFM from getting royalties from the record manufacturers that the juke boxes and radio stations should now be made to pay those royalties.

Rep. Kearns made the following statement, "As I look at the picture, it would seem that it could be possible for some ruling to be made whereby revenue could be derived from the coin machine industry. This industry is of large proportion and has been continually a point of contention with Petrillo. It has made

great profits by capitalizing on the playing of recordings made by AFM members."

He also reports, "I am informed that there are over 450,000 juke boxes in the United States with an annual income totaling near \$500,000,000.

"The significant issue here," he continues, "is that the 450,000 juke boxes as well as the over 1,000 radio stations in America, may play the recordings that are now made, most of which are labeled, 'for home use only'. I understand that they are within the law for the Copyright Act which was written and passed in 1909 does not prohibit recordings being used for commercial purposes even tho they are labeled 'for home use only'."

He also says, "I think it is only fair that Congress consider this recording problem in all seriousness. First, we must consider the radio stations thru-out our nation which form a great and profitable industry, giving employment to thousands of people. Their very existence depends upon recordings—without music recordings they would lose their listening audiences and go out of business. The same can be said of the coin machine industry, yet their development and flourishing existence has also been the outgrowth of recordings labeled 'for home use only'."

# Cleveland Ops Peg Large Turnout At Hit Tune Party

## City Officials Laud Ops For Aiding In Fight Against Juvenile Delinquency

JACK COHEN

CLEVELAND, O.—Jack Cohen, president of The Cleveland Phonograph Merchants Association disclosed that they expect their largest turnout ever at their next Hit Tune Party.

The December Hit Tune Party, held at the Victory Room of Chin's Golden Dragon Restaurant, this city was reported to have catered to over 1000 teen-agers. Altho reports of the voting could not be learned of at press time, the music operators trade group disclosed that the voting was unusually heavy.

Disc-jockey Howie Lund, WJMO, introduced the new recordings to the audience and broadcast the show over WJMO. The chosen tune, designated at the Hit Tune of the Month for January, will be placed in the number one spot of the 3000 juke boxes throughout the greater Cleveland area, during the month of January.

Special guest of the program was Eugene Baird, currently appearing at the Victory Room.

Also guesting with the phonograph merchants were several city and educational leaders, who expressed their thanks to the music operators for aiding in combatting juvenile delinquency. One official pointed out that "by taking the youngsters off the streets and having them participate in a program of national prominence and importance, the merchants have instilled in the youngsters a feeling of cooperative planning."

## De Luxe Sets Coast Pressing & Distribution

LINDEN, N. J. — Dave Braun, president of the DeLuxe Record Co., this city, announced that he has set up pressing facilities and distribution channels on the West Coast.

By allowing for pressing of his records on the coast, the plattery will be able to effect early shipment of all releases to that era. Distributors were named to handle the Los Angeles, San Francisco and Denver areas.

Mr. Braun, disclosed that Guy Ward, former trade paper executive has been retained to handle promotion for the plattery on the coast.

While Dave Braun was on the coast setting the aforementioned deals, brother Jules signed jazz artist Sylvia Sims. Miss Sims has already waxed several sides, scheduled for early release.

# Indie Diskers Click Strongly With Disks Throughout 1947

NEW YORK — Evidence of the independent record manufacturer's strong hold and potent force in the recording industry was revealed this past week, upon the conclusion of a survey made by *The Cash Box*.

Independent platteries showed stronger than ever this past year, and the report shows the possibility of a repetition of their power being wielded in 1948.

With the indies coming forth this past year with such hits as "Peg O' My Heart", "That's My Desire", "Near You", "How Soon" and "Old Man River", they established themselves in the forefront of this highly competitive industry. At the same time, they tore down the long supposed barriers and belief that the majors only were the "hit labels."

One well noted independent disker points to a trade publication as one of the forces involved in the belief that a major recording company rates more than an independent.

"They rate a song not only on the quality and appeal the material might have, but also on the basis of distribution, name value and the like. On that very basis how do you account for such hits as "Near You," "That's My Desire" and "Peg O' My Heart?"

Trade members also point out that altho the indies cannot hope to cut as much material to offset the recording ban, they nevertheless have already cut many masters to tide them over in the event that the recording ban is drawn out.

# Philly Mercury Distrib Hypos Laine Wax

PHILADELPHIA, PA.—A sample of cooperation between an artist and a coinman was displayed here recently when David Rosen, Philadelphia distributor for Mercury Records threw a party on behalf of Mercury Records star Frankie Laine.

Inviting hundreds of music operators, Rosen opened his doors to the huge throng for the personal appearance of Laine himself.

A recent letter from Frankie Laine to Mr. Rosen is reprinted below:

"Got your wire and sure was glad to hear from you—and I was very happy to hear about "Two Loves."

Yes, I know you boys are directly responsible for the success of "Desire" and please believe me, I'm properly grateful. From the looks of things tho', "Two Loves" might pass it — I hope so. I know you're going to have a string of hits in the near future, because we've been finding some songs that are really killers. Wait till you hear them.

Say hello for me to all the guys and gals who have been helping me and doing me so much good. They'll never know how much I appreciate it."

Gratefully,  
(s)Frankie Laine

## Wha' Hap'n' Baby?

NEW YORK—The spotlight on chirp Rose Murphy became brighter this past week after her appearance on the Arthur Godfrey "Talent Scouts" program CBS, coast to coast hookup.

Murphy participated in the regular format of the show, with her recording of "I Can't Give You Anything But Love" growing by leaps and bounds in sales.

Cute twist here is that Murphy was not selected as the winner of the air-show. A local baritone walked off with the glory.

Nevertheless her Majestic platter continues to zoom with plattery officials predicting her disk the biggest ever — from the point of sales. The Murphy platter even had one juke box operator nearly hysterical. He dropped a slew of "chi-chi" records shattering them to pieces.

# Mercury Records Sign Jan August

CHICAGO—Settlement of the Jan August recording contract dispute brought forth the disclosure that the famed "Miserlou" artist has signed a Mercury Records contract.

August inked the contract this past week, after being informed by his attorney that he was free to sign another contract after conference with the American Federation of Musicians made him a free agent.

Mercury Records officials disclosed that the artist had signed a three-year contract, and is preparing to cut some 16 sides before January 1st.

Meanwhile it was reported that Irving Gwartz, prexy of Diamond Records, had filed breach of contract suits here. August was under contract to Diamond prior to his present Mercury affiliation.

## DISKERS READY PLANS FOR CMI CONVENTION

### Exhibitors Expect Heavy Music Op Turnout

CHICAGO—Record manufacturers, music operators and artists throughout the nation have already started pointing for the coming Coin Machine Industry 1948 Convention.

With booth space for the show all sold, those record manufacturers who will be represented at the convention are already planning huge promotional pieces for the expected thousands of operators who will jam the convention floors.

Many diskers, unable to obtain space for the show have already indicated a desire to exhibit in vast suites being readied by convention headquarters here.

One well noted disker in pointing to the many benefits derived from being represented at the convention stated, "It is the one chance we have to greet and thank music operators for the sensational job they have done with our recordings. I'll venture to say that we, in the long run, will actually reap more profits from the show than we do in a week's business."

Music operators will be eager to see the many new pieces of equipment and at the same time are eager to learn just what the record manufacturers will show with at the convention. *The Cash Box* learned recently that several diskers have surprises in store for many a music op — surprises that will aid the music op in merchandising his music.

Bound to be of importance to music operators across the nation is the new low price label Signature Records plans to unveil at the CMI Convention. Present plans call for a 50c list platter, directly aimed at the music operators. Signature plans on using their feature artists on the label it was learned, with an announcement regarding title strips and return privileges forthcoming.

Representatives of the convention committee disclosed that a long list of the finest choice of entertainment will appear at the show and annual banquet. Many recording executives are at this date planning artists schedules for appearance in Chicago during the show.

Scheduled diskers to exhibit at the show are:

Apollo Records, Inc., Booth 174; Capitol Records, Inc., Booth 199; Columbia Records Inc., Booths 164 and 166; Decca Dist. Corp., Booth 72; King Record Co., Booth 172; Majestic Records Inc., Booths 204 and 206; Mercury Record Corp., Booth 69; and RCA-Victor Records, Booths 154 and 156.

# Ops Call For Hit Tune Parties By Trade Organizations

NEW YORK—Music operators throughout the nation this past week called for their trade organizations to follow the example set by the Philadelphia Music Machine Operators Association and the Cleveland Phonograph Owners Association, to sponsor Hit Tune Parties.

Pointing to the tremendous strides both trade groups have made with civic, official, and charitable organizations, the operators claim that only thru direct representation with the public can they hope to attain the goals for which they strive.

One well noted music op stated "Only thru contact with the people who play our music can we expect to effect better public relations for the industry. The recent attack by the "American Weekly" proved to me that the general public were unaware of the pitfalls in the operation of our business. Certainly the people and youngsters of Philadelphia do not think of the industry as "racketeers". The Philadelphia group each week donates a juke box to a local high school. City officials have long praised the work being done by the music operators association in combatting juvenile delinquency. I'm quite sure if the city fathers thought of the Philadelphia operators as men with questionable character, they would not permit their children to be associated with the group."

In addition to the Philadelphia and Cleveland groups, coinman Hirsh De LaViez of the Hirsh Coin Machine Co., Washington, D. C., has sponsored juke box parties. Hirsh runs a weekly "record of the week show" in cooperation with Washington disc jockey Eddie Gallaher, WTOP.

## Spike Jones Revue Adds To Runyon Fund

CHICAGO — Caught selecting one of Spike Jones' latest RCA-Victor platters on the new model 1100 Wurlitzer phonograph is Ray Cunliffe, president of the Illinois Phonograph Owners Association.

Spike, in zany attire, and his musical depreciation revue recently added immensely to the tremendous jackpot being built up by the coin machine industry for the Damon Runyon Memorial Cancer Fund. Spike and the juke box ops association charged double-price admission to the revue recently, with the difference going to the Runyon Fund.

Recording artists throughout the nation are cooperating with trade groups to build the industry's contribution past its goal of one-quarter million dollars by the time the CMI Convention rolls around this coming January 10.

## The Way Of All Flesh —

NEW YORK—The juke boxes can take a bow for this one.

Songwriters Buddy Kaye and Carl Lampl got together one night in Cleveland to bat out a little ditty they tagged "Thoughtless." They proceeded to take the song around to several big music publishers in the biz with the result winding up as all misses, no hits.

Buddy and Carl said the devil with it, we'll cut the thing ourselves. They grabbed a pick-up combo in Cleveland, cut the song and floated a few dubs around to the jukes and jocks.

Locations began getting calls, operators were besieged, the jockey's phonos wouldn't stop ringing and Buddy and Carl knew they had a hit on their hands. A long distance phone call to Harry Link and presto, Leo Feist Inc., had a new No. 1 plug on their hands.

Mr. Link is not only wild about the tune — every disk in the nation is. MGM bought the master from Buddy and Carl, Mercury set Vic Damone on the tune, it's a toss-up between Buddy Clark and Sinatra on Columbia; Capitol has Gordon McRae cutting it, RCA-Victor has it assigned but won't tell who —ditto Decca and we'd probably need a page to give you the other artists working on it.

Yes siree, the juke box is the way of all flesh!

Many Thanks Ops

## Orksters Quit Due To Heavy Road Schedule

NEW YORK—Following on the heels of the recent announcement by Jimmy Dorsey that he would disband his orchestra temporarily, Glen Gray and Tony Pastor likewise disclosed this past week that they too would disband their units due to the heavy road schedule.

The difficulties of working the road, which begin with long jumps between dates and involve a great many personal appearance shots with music machine operators, disc jockeys and flack hounds have caused the pair to split.

Tony Pastor quits this week and will enter a Hartford, Conn. hospital for a thorough check-up. Glen Gray follows suit and will enter a Boston Clinic for examination.

It was learned that the Glen Gray orchestra had been on the road for almost a year. Dorsey and Gray experienced practically no difficulty in cancelling their engagements; whereas Tony Pastor, it was learned, is undergoing complications.

It was the same sort of schedule that forced maestro Stan Kenton to break down this past summer and disband his unit for well over four months. In all cases, the bands were completely inactive and only the juke boxes of the nation kept their names in the forefront of the industry.

## King Records Sign Folk Artist Team

CINCINNATI, O.—Syd Nathan, president of King Records, this city, announced the signing of Curly Fox and Texas Ruby, widely known folk music team.

The couple who formerly recorded for Columbia have already cut a number of sides in King's Cincinnati studios. The discs are scheduled for early release.

Both artists were signed to a long-term recording contract, Mr. Nathan disclosed.

The signing of the popular folk team, marks another step King Records have taken to firmly establish themselves in the folk and western music field. King, long known as one of the major and more successful recording companies in this field, have continued to hold a prominent position in the industry.

King recently entered the race record field in addition and have shown with its current hit recording "I Love You Yes I Do" by Bull Moose Jackson. The tune currently is a featured record on automatic music machines throughout the nation.

# MUSIC PUBLISHER DONATES ALL PROFITS TO DAMON RUNYON FUND

Dubonnet Music To Bypass All Royalties On Plug Tune. Instructs All Recording Companies To Send All Royalties Direct To Runyon Fund. Industry Calls For Other Publishers To Follow Coinmen's Contribution.

NEW YORK—Dubonnet Music Publishing Co., Inc., this city, disclosed to *The Cash Box* this past week their plan for contributing to the Damon Runyon Memorial Cancer Fund.

This contribution by Dubonnet represents the expected start of many in the business to strive for an all out industry wide campaign to bolster and add to the Damon Runyon Fund.

Dubonnet, in heeding the call for the music publishing industry to donate in some manner, has shown the lead. Perry Alexander, president of the firm stated, "We are instructing all recording companies to pay all royalties directly to the Damon Runyon Cancer Fund. All royalties earned by the writers and all profits earned by us (Dubonnet) from the sale of sheet music will be turned over to this great cause. We will do our share to cooperate with you in putting over this great cause—you know and I know it could be us."

"You are to be congratulated", he continued "on your fine efforts to keep this cause before the eyes of the people who are in such an enviable position to the ears of millions. Keep this great cause rolling!"

The tune, "It's For A Good Cause Brother", is scheduled to become the number one plug tune for the publishing firm.

Many in the industry point to the great strides that the coin machine industry has made in their contribution to the Runyon Fund. Mr. Alexander, in showing the way for other publishers to "start the ball rolling" stated, "The tremendous contribution of the automatic music machine industry is something to marvel at. I would like to see every recording company in the business get behind the song. We're not making a penny—every cent goes to fight this deadly killer—Cancer!" It's about time the publishing industry started thinking of ways and means to save their lives and the lives of their loved ones."

Get behind Dubonnet—get behind the Runyon Fund. Have your industry represented in the greatest fight ever!

Greetings

### IT WAS A GREAT SHOW

#### NAMA Convention Attracts Record Attendance. Believe Big Crowds Definitely Indicate Opening of New Merchandise Machine Era for Coming Year.

CHICAGO — Beginning Sunday (December 14) at 9 A.M. the crowds began to register at the Palmer House here as the NAMA show opened its doors.

This proved to be the largest exhibit and meeting ever yet sponsored by NAMA. Automatic machine operators from every division of the industry were present.

Distributors of amusement machines and phonographs were prominent.

It was also noted that the operators were swinging over to the automatic merchandising machine industry and that many were of the belief that this was the field which would predominate in 1948.

The exhibits on the fourth floor of the Palmer House attracted great attention from all who attended. The crowds grew larger each day. It is believed that a record was set. As yet officials haven't released complete figures of all who attended this meet.

As predicted, and dominating the exhibits, were the beverage dispensers of all types. These ranged from fresh orange drinks to all the well known soft drinks and to coffee and even hot soup venders.

The new cigarette machines also attracted attention with many claiming that these were the greatest ever yet produced by the manufacturers. Each machine had special features and each one seemed to win many followers.

In addition to the fourth floor exhibits, there were also exhibits on the seventh

floor of suppliers and manufacturers of equipment.

The men who attended were kept busy going from floor to floor and room to room seeing the newest in automatic merchandising equipment and supplies.

Among some of the new products which were seen on the exhibit floors were new small style cigarette dispensers, also the newest ideas in orange and other fruit juice vending machines, the new Coca-Cola, Pepsi-Cola, Dr. Pepper and other soft drink dispensers.

The new electric cigaret vending machines, the manually operated machines, new and more attractively lighted than ever before, with features which have never been seen on any of the cigarette machines which have ever appeared in the industry.

Chocolate, candy and gum being vended in the most outstanding machines ever yet to be shown to the trade. Some of these units were absolutely of the finest precision construction which has ever appeared in the field. These clicked with almost all who saw them.

In addition to this glittering galaxy of new equipment and the huge crowds which entered the exhibit floors were the many fine meets which were conducted at this show and met with great approval of all who attended.

It is definitely believed here that the automatic merchandising division of the industry is now well on its way to open a new era for all in the field and many are also of the belief that this division of the field will lead the way for the entire trade during 1948 and for some years to come.

#### Candid Camera Clicks At NAMA Show

CHICAGO — The Cash Box candid camera man clicked these pictures at the NAMA show, Palmer House, Chicago, this past week.

## THE CASH BOX Candid Camera Keeps on Clicking Automatic Merchants at NAMA Show

CHICAGO—Never before in the history of the automatic merchandising machine industry were there as many smiling and happy faces and such huge crowds as attended this Second Annual Meeting and Exhibit of NAMA.

All day long and far into the evening hours *The Cash Box* candid cameraman shot about the entire exhibit, as well as in the meeting rooms and reception parlors, to catch many automatic merchants and their wives enjoying themselves immensely at this convention.

Picture No. 1 (left to right) Robert Z. Greene, President of NAMA (as well as president of the Rowe Corp.) with Mr. and Mrs. F. L. Brandstrader, legislative counsel for NAMA, enjoying the festivities and meeting with many friends.

Picture No. 2 (left to right) Sidney Kronenberg of the Alamat Co.; Neil Mitchell of Lehigh Foundries, Inc.; Mrs. Kronenberg; Mrs. Strauss and Jules Levy all partaking of refreshments.

Picture No. 3 (left to right) Bern Bernard, Dick Gluck and Alan Remly talking over the many new automatic merchandisers they had seen and all acclaiming this exhibit "the greatest yet, but", they stated, "just watch us next year".

Picture No. 4 (left to right) A gathering of the California delegation with the candid cameraman so busy that he just didn't have time to catch the names as they were given to him. "They were tremendously enthused", our cameraman reports, "over the convention and all the fine, new equipment which they had seen, as well as the great crowds that turned out to view the exhibits and attend the meetings. California's delegation was a very prominent one", our cameraman says.

Picture No. 5 (left to right) B. W. Scheuer, Vendomat Corp. of America; Mrs. Sidney Kronenberg and George Seedman of Rowe Corp. who was also Chairman of this meet. All three very much interested in the big cocktail party, the many, many people they met and also the interesting new machines which were shown at this convention.

(There are still dozens of pictures in our possession at *The Cash Box* office, but, due to press time being almost upon us as these arrived from Chicago, we have been forced to withhold the rest from this issue and will feature them, from time to time, in future issues of *The Cash Box*.)

# THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. From the first settlers to the present day, the nation has evolved through various challenges and triumphs. The early years were marked by exploration and the search for new lands. The American Revolution led to the birth of a new nation, one that valued individual freedoms and democratic principles. The 19th century was a period of westward expansion and industrialization, which transformed the country into a global power. The 20th century brought significant social and political changes, including the Civil Rights Movement and the space race. Today, the United States continues to shape the world through its economic, cultural, and technological influence.

# King-Pin Equip. Co. Holds Showing Of Wilcox-Gay Recordio

J. R. (PETE) PIETERS

KALAMAZOO, MICH.—J. R. "Pete" Pieters of King-Pin Equipment Company, this city, played host to between fifty and sixty coinmen from the state of Michigan on Sunday December 7, who braved unusually bad weather to attend the "Open House" and showing of the Wilcox-Gay Recordio.

"We had a small but enthusiastic turn out" reports Pieters. "On hand to greet the ops were officials of Wilcox-Gay Corporation, who explained the history of the development of the machine. In addition, as usual, we entertained our guests with the best of food and liquid refreshments."

On display at the King-Pin showrooms, in addition to the Recordio, were the latest games of Bally Manufacturing Company and Williams Manufacturing Company.

Instead of the usual form of invitation, Pieters sent his friends an invitation on the "Recordio" disc. When it was pointed out that there was a chance of the operator not being able to hear the record, "Pete" snickered, knowing that most of the operators have music machines out. The resultant attendance, even tho the weather was very bad, proved Pieters to be right.

"The operators were very interested in the 'Recordio' and we booked some very fine orders" stated Pieters.

### Williams Mfg. Co. Plans Outstanding Display At Booths

FULTON (SKEET) MOORE

CHICAGO—Fulton (Skeet) Moore, sales manager of Williams Manufacturing Company, this city, altho he's being kept exceptionally busy at this time with the demand for the firm's two hit games "Box Score" rolldown, and "Bonanza" five-ball, he's making big plans for the forthcoming Coin Machine Show at the Sherman Hotel on January 19 to 22.

We are enjoying quite a nice run on our current games, and they and others will be on display. Our entire staff, including Harry Williams, will be at the booth to greet our many friends."

### Tacoma, Wash. Ops Gross \$1,490,000 On Pins

TACOMA, WASH. — Controller Lyle Lemley reported that the gross revenue in this city on pin ball machines was approximately \$1,490,000 for the first ten months, of 1947, based on the tax reports to the city paid by the operators.

The controller's reports from thirty three operators for the September-October period showed 1,081 machines in operation, gross revenue of \$275,073.60 with a tax amounting, at five per cent, to \$13,753.98.

Lemley said this was an increase of 21 machines, \$32,750 in gross revenue to operators, and \$1,619 in tax over the previous tax period.

Operators are required under the 1947 ordinance to report their revenues and pay taxes to the city bi-monthly, just as they do to the state tax commission.

The controller figured that on the basis of the taxes paid, the public played 29,800,000 nickels into the machines.

# NIAGARA MUSIC ASSN. SETS COMMISSION DEAL WITH LOCATION AS PARTNER

## Deduct Depreciation And Operating Costs — Then Split Balance

NIAGARA FALLS, N. Y.—The Niagara Music Association, with practically 100% membership in their territory, have put into effect a new arrangement for operating its machines on a more equitable commission set-up.

After studying all the various plans, some of which were suggested by *The Cash Box* for these many months, A. A. Bradt of Frontier Novelty Company, and president of the association, stated "We feel that there are some disadvantages in each of the plans thus far offered, and as a result have spent considerable time discussing many proposed schedules. As an association we are agreed that the plan devised by Frontier Novelty Company is the soundest basis for an operator to follow, especially under today's conditions of changing costs and inflated prices.

"The proposed commission schedule is, in effect, an actual partnership proposition for the location and operator. And as in all partnerships, our plan is worked out where the business must first pay its own way, and then the profits divided."

A. A. Bradt, after a great deal of consideration and analytical study on his own operation, discovered certain facts, came to certain conclusions, which we reprint below:

1. The average gross play per installation (New Equipment) was \$23.40.
2. The average installation investment was \$1086.00 (in locations

with new equipment). This includes remote wall boxes, auxiliary speakers, etc.

3. Depreciation on this equipment is as follows:
  - 40% the 1st year
  - 30% the 2nd year
  - 20% the 3rd year
  - 10% the 4th year
4. Operating cost per week per machine is \$6.45. (This includes records, parts, wages, taxes and insurance, fixed overhead, and car and truck expense.
5. From this we had compiled the figure that we must get from each installation on our route in order to break even as shown on the enclosed music cost record. That is, the weekly operating cost of \$6.45, plus the depreciation on the amount and value of equipment installed in each individual location, in hundreds of dollars invested. This figure, whatever it happens to be in each instance, is used as the front money figure and deducted first from the gross weekly play. The remaining net profit of the phonograph is divided 75% to the location and 25% to the operator. (This is the particular division of net profit we are using. However, it could be divided 60% to the location, 40% to the operator, 50-50 or any such plan depending on the circumstances of the operator.
6. It may be readily seen that this

plan protects the better locations and gives them the break they deserve, for any location grossing a figure three times his particular minimum figure on his phonograph receives a commission which compares with 50% of the gross play, and the operator is also able to show a fair profit. This is not true on a straight 70-30% basis or 75-25% basis where the better locations are really being penalized because of the poorer ones.

7. This plan automatically controls the amount of equipment to be installed in any location because the location can see that auxiliary equipment unnecessarily installed and paying its way is costing him money as well as the operator.
8. The equipment and value of same installed in each location is listed on the enclosed "Music Installation Card" and placed in each machine showing the weekly minimum to be deducted in each location.
9. The enclosed charts are mailed to each location in order to try to explain just why a change in commission rates are imperative if the phonograph operator is to survive.
10. When current model equipment becomes one year old or becomes a second-latest model due to a new release by the manufacturer, the depreciation figure is moved 40% down to 30% and the minimum front money figure is derived from

CIRCLES REPRESENT GROSS PLAY

HERE'S HOW IT LOOKED IN 1911 STRAIGHT 50%

In 1911 at straight 50% commission to the location, the operator was able to show a profit of 11% on the gross take of the phonograph because the gross average profit was 61%.

HERE'S HOW IT LOOKS NOW STRAIGHT 50%

Today on a commission of straight 50% to the location and with the operating costs at 62%, the operator is sustaining a loss of 12%, because the gross profit is only 38%.

the operating cost of \$6.45 weekly plus the 30% depreciation figure and so on down the line. In this way, the location can have whatever type equipment he desires as long as the money in the cash box will stand the traffic.

11. This commission schedule is now being put into effect by other operators in this locality as well as the Frontier Novelty Company and we are encountering much less opposition from dealers than was anticipated.

Compiled by Robert F. Bradt and Ardon A. Bradt, partners, Frontier Novelty Company, Niagara Falls, New York.

### Heres How Phonograph Commissions Must Be If the Phonograph Operator is to Survive.

CIRCLE REPRESENTS GROSS PLAY ON PHONOGRAPH

ON THIS PLAN THE ACTUAL OPERATING COSTS AND DEPRECIATION ARE DEDUCTED FIRST FROM THE GROSS PLAY IN THE PHONOGRAPH. THE BALANCE OR ACTUAL NET PROFIT IS THEN DIVIDED 75% TO THE LOCATION AND 25% TO THE OPERATOR.

# Edelman To Feature New Amusement Games At Show

I. EDELMAN

DETROIT, MICH. — I. Edelman, Edelman Amusement Devices, this city, is preparing once again for the January Coin Machine Show. His skee ball game "Bang-A-Fitty" which he displayed at the 1947 convention attracted considerable interest, and Edelman was busy most of the year supplying the demand.

Right now Edelman is producing "Flash Bowler" a bowling game and "Tin Pan Alley" a roll down game. These games will be displayed in Chicago, but Edelman has some additional surprises for the trade.

"Having had my initial training in the coin machine business as an operator" claims Edelman "I know just what will make money on location. And that's the type of games I'm building. "I'm looking forward to the Coin Machine Show to once again see all my friends — and to make many more."

## Offers Suggestions To Eliminate Ops Service Calls

BRATTLEBORO, VT.—Hal L. March, operator in this city for many years, writes that one of the best ways to help operators to conduct a profitable business is to have the manufacturers of amusement games test them on location before shipping them out with award cards that show wrong scores.

"A few days ago" relates March "I put out a machine with a factory score card reading 1,600,000. Before we finally arrived at some figure, we set the card at 3,400,000. During this time we had two service calls forty miles from home. Any fool could beat the machine at the original figure.

"While I'm at it, I might as well suggest one more improvement," continued Hal. "The manufacturers should have some of the parts that really wear 'case hardened', and make some of the contacts so that they last longer. Service calls are very expensive for every operator, and one of the worst conditions the operator has to contend with. By giving the operator better material, the manufacturer could eliminate a great many of these calls for us."

# "Papa" Passes Away

**JULIUS (PAPA) PACE**

NEW ORLEANS, LA.—Julius (Papa Pace, one of the most beloved men in the history of the coin machine industry, head of Dixie Coin Machine Co., this city, passed away Saturday afternoon, December 13, 1947, after a lingering illness. The funeral was held on Monday, December 14, 1947.

"Papa" Pace will long be remembered by all who knew him, and all who came in contact with him, during his long career in this industry. He was one of the most outstanding men in the nation defending the rights of the members of this trade. He will long be recalled for the grand work he did in behalf of the coin machine industry in this area. And, by so doing, helping all coin machine operators everywhere.

Those who even met him casually at the many coin machine conventions and meetings he attended, immediately came within the spell of his charm

and, it is stated, there were many coin machine men who travelled to this city to visit with him, after meeting him but once. He was one of the warm hearted men in the trade.

He loved the opera and, many times, would entertain friends with renditions of noted arias. Small in stature, and almost as wide as he was tall, he was instantly remembered by all who, after meeting him but once, would instantly call him "Papa".

(Wherever you are "Papa", there is no doubt that the angels will join in singing your favorite operatic arias with you and they, too, will be as charmed, and made as happy, as you made so many, many of us while you were here. You're not gone, "Papa", not gone from our memories, not gone from our hearts, and not gone from our long remembrances of your many kindnesses, your charm, your love for all of us, and your leadership. So long, "Papa", but, not goodbye.)

## CMI's Contribution To Give Underprivileged Children A Day At The Circus

CHICAGO — James A. Gilmore, CMI secretary-manager, reports that Coin Machine Industries has donated \$60 to be used for tickets to bring a large group of underprivileged children to the International Circus at the Coliseum being held during the week of December 27 to January 4.

The yearly donation went to the Underprivileged Children's Circus Fund, sponsored by the Society for Underprivileged Children. Three church leaders head this Society — Rabbi Richard C. Hertz of Temple Sinai, Monsignor William McNichols of St. John's Cathedral and the Rev. William Clyde Howard of the Second Presbyterian Church.

In making the donation to the Society, which will bring 100,000 boys and girls to the circus, Gilmore specified that it should be divided equally among Catholics, Jewish and Protestant children.

CMI's 1946 contribution was used to buy circus tickets for children afflicted with polio.

"Not only does the contribution from the coin machine industry make it possible to bring holiday cheer to a number of underprivileged boys and girls," stated Gilmore, "but the industry is presented in a very favorable light by cooperating in a public charitable function."

# Posters & Stickers Boosting CMI Show Now Available

HERB JONES

CHICAGO—Wall posters and stickers boosting the January Coin Machine Show are now available to all exhibitors, according to an announcement by Herb Jones, chairman of the publicity committee.

"Posters and stickers are furnished free of charge" Jones said, "and we hope that exhibitors will send copies of the poster to all of their distributors for display in showrooms all over the country. Stickers should be put in every piece of mail to remind operators and distributors about the great combined amusement-music-vending-equipment show."

Supplies of posters and stickers may be obtained by writing or phoning Jim Gilmore, secretary-manager, Coin Machine Industries, Inc., 134 N. La Salle St., Chicago. Exhibitors are also urged to use show slugs in their advertising in *The Cash Box*, which are on hand.

"Every indication points to a tremendous 1948 show" reports Jones "with hotels jammed, and all exhibit booths sold. However, it is important that every coinman attend the showing to see the new equipment, meet with their friends and the representatives of the factories. Every factory, distributing and jobbing organization should display one of the large posters on their walls. Every letter that is sent out should have a sticker pasted on it. It is thru the complete cooperation of everyone that we can boost the CMI show to the greatest heights ever attained."

## Open Letter: To "The Cash Box" and Music Operators All Over The United States

The CALIFORNIA MUSIC OPERATORS ASSOCIATION wishes Bill Gersh and the staff of the Cash Box magazine a very Merry Christmas and may the new year be even more prosperous and successful than it has been in the year past to repay them for the very wonderful job that they have done regarding the operators' businesses for the year of 1947.

And by wishing the operators success and good will for the coming year, it seems to the writer that the music operators all over the United States should be doing something about their business to assure themselves of such a prosperous year. We have talked about tax councils and representation at the next session of Congress, but it seems that very little is being done about it. We have probably been just as negligent as any other association in the United States, but the time has come when something concrete must be done. We know that certain groups and elements are preparing to disrupt or tax the business beyond our means to pay. At least that is the way the writer sees it.

Now, as a suggestion to get a plan started, the writer would like to propose that the very capable attorneys who represented the music operators at the last session be employed by a tax council which can be set up or one that has already been set up at the last Coin Machine show. The C.M.I., which is a national organization, has a tax council which the writer is a member of. If my memory is correct, there were five men from various parts of the United States who represented the music operators associations appointed for the purpose. Let's make this tax council function as it should have been doing for the past year.

I think under the leadership of James Mangan and the representation presented by Sidney Levine we had the makings of a very strong national organization to combat any group or groups who would like to move in on the automatic phonograph industry. I propose that a mammoth meeting of the music operators be called in Chicago some time during the coin machine show and that each association be assessed \$250 to \$500 apiece to accumulate the necessary funds needed by the tax council. This is just one man's opinion, but it certainly bears fruit of thought.

## Philadelphia Games Assn. Asks Lower Pin Game Prices

### Manufacturers Answer

PHILADELPHIA, PA. — In a letter sent to all games manufacturers, the Amusement Machines Association of Philadelphia, thru its business manager, Joseph Silverman, outlined the poor business conditions in their city, and asked that the price of pin games be set at a maximum of \$175.

"We are writing to all the manufacturers with the thought in mind that YOU ALONE can bring the price down to the point where we can obtain these games at the aforesaid price from the Jobbers and at the same time give them a fair margin of profit from which to work" Silverman wrote.

Most of the Chicago manufacturers stated that they had received the letter and answered the association, pointing out that they were unable to turn out good games at the price requested. It was pointed out that their costs of labor, materials and overhead had risen in the same proportion that has manufacturing costs in all other businesses.

Silverman reported that his associates desires to meet with the manufacturers at the forthcoming Coin Machine Show in January, sit down and discuss the problems involved, and perhaps come to some solution.

# PROFITS DETERMINE DEMAND

By **BILLY DESELM**  
Sales Mgr. UNITED MFG. CO.

Cost of Games, although high today, is not all important providing the Operator can realize a Fair Profit.

Coin Operated Games sell at a price determined by the cost of Labor, Material and Overhead plus profits in keeping with the risk but the Demand is based on the Operator's Profits which are determined by what is in the Cash Box less the Cost of Operating or Servicing, how long the Equipment will earn top Dollar without moving it to a New Location plus the Resale Value as used Merchandise.

In the eyes of the Operator Games should have sustained Player-Appeal—Mechanical Stability and Command a good Price on the used Market.

Several of these Factors can be controlled. Player-Appeal and mechanical stability can be predetermined to a great extent by extensive location tests before starting mass production and also by turning an attentive ear to all complaints and acting on them promptly.

Under selling the Demand by a considerable amount usually builds up a high resale value.

It is the aim of the United Mfg. Co. to build Equipment that will make the Operator Money. All policies of the Company are aimed toward this Goal.

It's got that magic that's making it . . .

## Texas Juke Box Operator Owns Two Record Stores; All Phonos In Territory; And Arranges Record Programs For Two Radio Stations

HEREFORD, TEXAS — E. J. Pepper, this city, music machine operator, who was the first coinman in the industry to call attention to the advantages of using two minute records in juke boxes, is quite a factor in the record business in his territory.

The two radio stations in Pepper's area are continually in touch with him for information about songs and records, which they feature on their programs. He operates all the automatic machines in the territory, and in addition has two retail record stores. Thru the fact that he has control of the three major outlets for records, Pepper has it in his province

to put over those songs he feels the public will accept.

Pepper began operating machines in New Jersey, and is known to many of the coinmen in the East. He later migrated to Texas, where he spent many years as an operator. Having spent quite a few years in the armed services during the war, Pepper states he practically had to learn the business over again upon his return to his town due to the many changes in the operating field. Pepper plans on attending the CMI convention in January, and will be willing to present his argument for two minutes to the trade.

# ROCK-OLA FACTORY, SALESMEN AND DISTRIBS WORK AT TOP SPEED FOR NATIONAL ROCK-OLA DAYS

**January 3, 4, 5, to Find Rock-Ola Factory Reps Speeding Around Country Covering Distrib Showings. Enthusiasm Runs High for New "Magic-Glo" Phono. Factory in Full Speed Production With Shipments Under Way Thruout Nation.**

CHICAGO — Visitors to the Rock-Ola Manufacturing Corp. plant here are amazed at the speed production now under way for the firm's new 1948 "Magic-Glo" phonograph which will be shown to the automatic music industry thruout the nation on "National Rock-Ola Days" January 3, 4, and 5, 1948.

A tremendous number of new features are incorporated into this new machine which has won the warm praise of all who have seen it. The firm is doing practically every bit of raw materials and finished product processing work on this new juke box. It is believed by all those who have visited this huge plant these past weeks that this is, without any doubt, the greatest automatic phonograph which has ever yet been produced by Rock-Ola.

As an example of the speed with which the factory is working, J. A. (Art) Weinand, Salesmanager, Phonograph Division, will cover four cities, meeting with operators at the showrooms of the firm's distributors in Kansas City, Mo., Omaha, Neb., St. Louis, Mo. and Memphis, Tenn. during the days of the showings.

Other representatives of the Rock-Ola factory will, at the same time, be covering as many other cities, and will be hard at work contacting everyone of the nation's operators to have them view the new "Magic-Glo" phonograph of the firm.

Mr. David C. Rockola, president has been one of the busiest men in the automatic music industry these past weeks arranging for one of the finest and speediest production lines in juke box history. Carload lots of this new 1948 model are already under way. Some are reported to be in the warehouses of the firm's many distributors from coast to coast.

Those who know Mr. Rockola believe that this is one of the most outstanding production achievements in the history of the coin machine industry. He has, many times in the past, surprised the trade with the speed production of which his factory is capable, but it is claimed by many distributors, "This time Mr. Rockola absolutely outdid himself and has actually performed a miracle of speed and precision production in producing the new 'Magic-Glo' phonograph for his distributors on such short notice and with such neat dispatch."

The firm's distributors have also been busy these past weeks and have been notifying the operators in their respective territories to make sure and visit with them at their showrooms during the "National Rock-Ola Days" - January 3, 4, and 5.

Most impressive to all the personnel at the factory have been the many compliments which they have heard from visitors.

Some of the coinmen who have gone thru the plant and have seen the new "Magic-Glo" phono in production have been loud in their praise of the fine craftsmanship displayed by the employees.

DAVID C. ROCKOLA

*President, Rock-Ola Mfg. Corp.*

J. A. WEINAND

*Salesmanager, Phonograph Div.*

"It seems", one distributor stated, "that this is really a work of love as far as the Rock-Ola employees are concerned. They are all proud of the great job they are doing and are all watching very carefully to see to it that each one of the new 'Magic-Glo' phonographs that they help to produce will be the best precision work they have ever yet done."

It is also stated that, "Rock-Ola's new 'Magic-Glo' will win great compliments from all who will see it for it is a great advancement in automa-

tic phonograph engineering."

With distributors coming and going thru the factory each day, even after the distrib showing that took place a few weeks ago, it is believed here that Rock-Ola will be far ahead of the sales mark which has been set.

J. A. (Art) Weinand, salesmanager of the phonograph division, stated, "There is no longer any doubt, at least as far as our distributors are concerned, of the success which the 'Magic-Glo' has achieved almost overnight."

# Idaho Got \$210,000 for Salesboard Licenses First 2 Months and Over \$221,892 on Bells for 6 Months in 1947

BOISE, IDA. — Interesting revelation here is the fact that this state collected \$210,000 from licenses issued for salesboards the first two months. The boards being used here are all money boards for 5c, 10c and 25c play.

Also of interest to the trade is the report of the state treasurer, Mrs. Lela D. Painter, that the state received \$221,892.05 from bell licenses for the six months period. This is expected to be doubled during 1948 when the ops here will have to buy a full year's license for each bell beginning on Jan. 1.

Under the law passed here the minimum for each bell in the state is a yearly license fee of \$500, without regard to denomination. The law went into effect on June 6 and therefore the license had to be prorated, which means that the state received only about half of what it expects to obtain in '48.

The one point in the law which brought many cities here large fees was the fact that no "maximum" was stated, even tho the "minimum" went into the writing of the law. Many cities have therefore placed a yearly license fee of as high as \$600, \$725 and even \$750, instead of the \$500 minimum allowed by the law.

For example, in Lewiston there is a graduated license. There is a \$250 occupational tax for any man who decides to install a machine. In addition to a 5c machine he pays \$500 per year; 10c the fee is \$600; for a 25c machine \$750; a half dollar bell \$1,200 and for the silver dollar \$2,000.

The following cities reported income from bells as follows: Boise \$17,029.79; Pocatello \$19,926.89; Twin Falls \$17,604.27; Idaho Falls \$13,260.29; Wallace \$6,427.09; Kellogg \$7,260.45.

Many of the smaller communities haven't as yet made any reports as to their license income for the half year of 1947.

Of the minimum \$500 per year bell license: \$125 goes to the state; \$125 to the county and the remaining \$250 to the community where the bell is operated.

Towns like Weiser, Ida. have placed a percentage of the gross receipts tax amounting to 50%, with a proviso that the keys for all machines were to be impounded in the hands of the city treasurer, who would be the sole person authorized to open the cash boxes. This meant the employment of extra clerks who would hustle over to fill up the tubes when someone clicked with a jackpot.

The first time the Weiser city treasurer came around to collect he brought along a pad on which he kept a record of what was taken out of the machines. These pads were in quadruplicate with copies for the operator, treasurer, U.S. Internal Revenue Rept. and also one for the state tax department. This brought out howls and the filing of a suit which was later settled before it went to the Supreme Court of the state.

What is most interesting at this time thruout this state is whether there will be over \$500,000 paid the state in license fees for bells and whether, because of the first two month's license take on salesboards, the state can expect to obtain about \$1,000,000 from these. Ops await the report of the state treasurer after the licenses have been purchased.

# Trenton, Mo. Op Fights High Tax Ordinance In Court Action—And Wins

TRENTON, MO.—A music machine and game operator, William Moots of this city, stood up against a high, arbitrary tax ordinance in a court action—and was victorious.

Late in October, months after passage of a business license, Moots refused to pay the tax because it was unreasonable, and was arrested. The war veteran operator made application for a temporary injunction against the city, and was granted a restraining order. Moots charged that the state laws did not empower a city such as Trenton to impose a tax on machines, and asked that the section of the ordinance containing the provision be declared null and void.

On November 10, Moots was granted a permanent injunction against the city, police the police judge and the mayor by Grundy County circuit court.

Moots in stating his position has pointed out that he does not object to paying a reasonable license fee, but feels that the present \$30 per year license is unreasonable.

A motion for a new trial was promptly denied by Judge Rose, and then the notice to appeal to the state Supreme Court was filed by the counselor.

The local Trenton newspaper, in an editorial, pointed out that in order for the Supreme Court to reverse the decision of the lower court, it would also have to reverse previous decisions by the high court itself. Most observers, states this paper, think the high court will not, in such a minor matter, reverse its own decisions.

If the Supreme Court affirms the circuit court ruling, the city will have to strike out the part of its license ordinance taxing music machines and "marble" machines, which are not provided for in the Missouri tax statutes.

It was stated that it would seem that the city would have been better off to have followed the advice of some persons who earlier suggested that the tax be lowered to that charged by other towns. Moots did, in fact, offer to pay "a reasonable tax." Now, however, it appears as though the city would lose all revenue from machine operators.

"The city's actions all through this controversy over the new tax ordinance" concluded this editorial "have struck us as being somewhat arbitrary as well as unwise. The tax under discussion was slapped on the music and marble machines without any investigation as to the earnings for such machines; or at least, without any such investigation ever being mentioned."

## Sam Mendelson Appointed Sales Mgr. By Dynamics

NEW YORK—Dynamics, Inc., this city, announced this week that Sam Mendelson has been appointed as sales manager.

Sam is well known, having spent the past twenty years in the selling of coin operated equipment. For many years he represented J. P. Seeburg Corporation in this territory, and then was sales manager for other distributing companies. Recently he directed the sales for a local manufacturer of roll down and amusement games, and ran up record sales.

Dynamics, Inc., who will display some new games at the forthcoming CMI Show, have been quite successful in their current roll down.

# Washington, D.C. Music Ops Hold Organizational Meet

## La Viez Elected Chairman

HIRSH DE LA VIEZ

WASHINGTON, D. C.—Forty music machine operators from this city and the immediate vicinity met at the Hotel Hamilton on December 16, Tuesday evening, and agreed to form a music operators association.

Following a lengthy discussion as to the whys and wherefores of the merits and advantages of forming an association, the operators agreed unanimously to the immediate necessity of combining their efforts and cooperate for the benefit of all.

Five men were elected to organize the many matters necessary to the formation of a real strong association. They will set up the mechanics of the organization, write the by-laws, and bring in the nominations for the officers.

"This new association will be 100% music operators" stated Hirsh de la Viez, chairman of the organizing committee, "and will have no connection with the present pin game group. We will cooperate with the pin game men in any tax or legislative matters. We will employ an executive to run and handle the affairs of the new group. There are about sixty boni-fide music operators here in Washington, and we feel that 85% of these men will join before the next meeting.

"One of the points all present agreed upon" continued Hirsh "was the need for a National Operators Association."

The group listened to addresses by Evan Griffith, Al Lockhart, Roy Chapman, Teddy Crawford, M. F. Schravensand, Charles Bowles, Harold Klein and Hirsh de la Viez.

The five men selected to handle the organizational matters were: Hirsh de la Viez, Hirh Coin Machine Corp.; John H. Phillips, Phillips Novelty Co.; Charles Bowles, East Coast Music Co.; Simon Davis, Washington Music Co.; and Harold S. Klein, Silent Sales Co.

# THRU THE COIN CHUTE

## CHICAGO CHATTER

This was one of the most outstanding weeks in the Windy City's history with the NAMA show attracting huge crowds of coin machine men from all over the nation. It seemed that every noted distributor of coin machines was in town. The boys were all enthusiastic over the future of the merchandising machine division of the field and many stated that they believed automatic merchandisers would lead the way in '48. In fact, the distribs seemed to be holding meetings at the various booths of the NAMA exhibits on the 4th and 7th floors of the Palmer House discussing this and that and pointed out that the trend was most definitely to vending machines once again. Looks like the venders will have plenty of buyers among former amusement and music distribs.

Barnet (Shugy) Sugerman and Abe Green of Runyon Sales Co., N.Y.C. in town and talking all about the grand job they did with Keeney's latest games . . . J. R. (Pete) Pieters tells of the operation he has conducted with the Wilcox-Gay coin operated Recordio machine. Pete's from Kalamazoo and the Wilcox-Gay firm are right in his back yard . . . R. R. (Rudy) Greenbaum of Aireon met with two of his regional managers here, Ben Palastrant from the east and Fred Mann from this area . . . Wm. (Bud) Parr of Los Angeles in town and scooting about here and there for some days advises, after certain visits, that he believes he will soon make some important announcements in regard to new distributorships . . . Joe Brilliant of Detroit, Mich. in town and smiling happily . . . Ted Bush of Minneapolis looking his handsome self and relaxing on a couch at the NAMA show . . . Irv Sandler of Omaha looking things over and believes that when it all ends he will be just where he is anyway, "So", so-so-sos Irving . . . M. M. Rutherford of Amarillo, Tex. and "Hi-Ho" Silver of San Francisco talking things over . . . Art Bouterious of Mills Sales Co., Ltd., Oakland, Cal., in town and busy seeing what he can see while in the Windy City. Art pleased at some of the great advances which have been made in machines.

Nick Carter of Los Angeles seen hereabouts this past week looking over new equipment around town . . . Harry Williams planes away to Arizona this past week and may continue on to California . . . Pat Buckley comes up to town from a very successful showing of his '48 line in New Orleans and leaves the very same evening for Reno, Nev. where he is holding another showing at the new Mapes Hotel . . . Si Lynch of Dallas, Tex. in town and looking chipper . . . Harold Klein of Milwaukee around and advising a surprise very soon with a new rolldown machine he's building . . . Irv Sommer, the tanned gent from Miami, talking things over with the vending machine boys . . . Dan Cohen of New Orleans smiling happily all over the NAMA show . . . Sam Mannarino of Pittsburgh in town meeting with many friends . . . Harry Brown of American Amusement spotted in the Palmer House lobby waiting for a friend . . . Bernie Weinberg of Philly, Pa. in town.

Ray Moloney entertaining as only he can in the Bally suite, with the help of George Jenkins, Stuart Lyons, Bill O'Donnell, Ray, Jr., Otis Murphy, et al, and meeting with all those interested in Lion's Pepsi-Cola beverage dispenser . . . Jim Stewart being greeted by many of the old timers in the vending field . . . R. Z. Greene of Rowe advising that he leaves the presidency of NAMA this term. By-Laws only allow for two terms . . . And with Dave Gottlieb also not running for president of CMI next term, looks like a new set of officers for the organizations this forthcoming year of 1948 . . . Art Weinand of Rock-Ola a very, very busy man these days with National Rock-Ola Days in the offing and distribs calling from all over the nation to advise how enthused they are over the new 1948 Rock-Ola phono . . . George Lewis of ABT seen here and there about the NAMA show and very enthused over the future of venders . . .

Jack Keeney getting a nice reception for his new ciggy machines . . . Al Sebring and Harry Salat busy with the Beacon Coin Changer . . . Al Silberman talking with Howard Pretzel and Ken Wilson, Jackie Rosenfeld and some others.

Art Fried now associated with Chicago Simplex gets calls from many friends here . . . Gene Bates over at Pace Mfg. Co. on the go every minute and from the looks of things will have something to announce very soon . . . Ben Coven is probably one of the busiest men in town these days . . . Gil Kitt of Empire Coin on the phone almost constantly talking with everyone and advising of the many new machines the firm have on hand . . . Morrie and Eddie Ginsberg walking thru the aisles at the NAMA show . . . Lyn Durant and Billy DeSelm busy meeting with distribs who came to the NAMA show and rushed right out to United Mfg. Co. plant . . . Lee S. Jones of P & S busy as a bee contacting the many distribs of the firm . . . George Ponser reports his new rolldown clicking extra big with shipments going forth every day . . . Sam Gensburg of Chicago Coin down in his Florida home and Sam Wolberg of the firm home with a bad throat . . . Jimmy Martin busy talking cig machines again.

Al Douglis of Daval talking Postmaster . . . Roy Bazelon all tanned and back in town after a Florida visit . . . Busiest man I've ever seen in many moons is Al Stern of World Wide who simply sells 'em and sells 'em and enthusiastically reports a marvelous reception for Keeney's newest . . . Jimmy Johnson of Globe all pepped up over the reception his coin counter is getting and Vince Murphy advising that more ops are calling for the machine . . . Jack Nelson scooting past at the NAMA show . . . John Haddock of AMI in town and visiting at the NAMA show . . . Myer Gensburg of Genco all smiles because of the way their new rolldown is going over with more orders coming thru every hour of the day . . . So many, many visitors around that it's almost humanly impossible to remember all their names and still more coming in every day NAMA kept the exhibit open . . . New names on one of the Bally office doors, "Garvey, O'Donnell, Murphy & Weinstein" — like a law firm . . . And Herb Jones one of the busiest men in the business these days.

According to info received there will be many new machines presented long before the CMI show and many mfrs. may not show anything but what they are building at the time . . . Hot deals on one-balls being made by Sam Yaras, up here from Dallas, Tex. to look things over . . . Nate Gottlieb keeping plenty busy answering all those phone calls for games . . . and advising that the phone company is doing a land office business everytime a new game is announced . . . Phil Weisman reported to be doing a grand job . . . Oscar Schultz back from bird hunting in New Orleans and reported to have wet feet from the experience . . . Ted Rubenstein is working harder than ever these days . . . Gerald Haley at Buckley Mfg. Co. very much pleased with the way those orders are coming in for the new Criss-Cross Bell and the new Buckley Track Odds.

And now a very Merry Xmas and a Happy New Year to everyone in the big coincenter of the world—Chicago—as well as to all of our friends thruout the nation. Here's wishing you health, wealth and happiness and also every wish that you have wished for yourself this forthcoming year.

And, more important than anything else, as '48 slowly enters the scene—is for everyone in this business to get out there with courage and a smile on his face and work harder than ever to put this grand industry away over the top—to prove that this is one business that can't and won't be licked and that will go on ahead forever progressing regardless of what conditions may be generally. This is the spirit which made the coin machine industry great and will make it even greater in the years to come.

# THRU THE COIN CHUTE

## EASTERN FLASHES

With the Christmas and New Year holidays approaching, coinmen are hustling like mad to get their music and games set to take advantage of the spending spirit that will prevail. Many music operators have commitments to deliver machines for both Christmas eve and New Year's eve at factories and offices thruout the city. Music operators, whose business has been improving the past month, are hoping that it continues on the up swing from now on.

\* \* \*

Coinmen are beginning to look forward to the forthcoming Coin Machine Convention in Chicago, January 19 to 22. Frank McAuliffe of the New York Central Railroad has been able to assign a few cars for a special train for New York coinmen. Due to a scarcity of railroad equipment, Frank advises that reservations should be made immediately to secure passage. The train, "Commodore Vanderbilt," will leave New York City from Grand Central Station, Saturday, January 17, at 4:45 P.M. McAuliffe can be reached at Murray Hill 9-5000, Extention 86, 87 and 88. It is also important that room reservations in the Chicago Hotels be confirmed, as at this time it is practically impossible to secure sleeping accommodations.

\* \* \*

January 3, 4 and 5 are the dates of the National Rock-Ola showing of the new phono. Harry Pearl, Dave Stern and Tom Burke of Seacoast Distributors, will host the music ops at their New York City, Newark and Elizabeth, N. J. offices. Meanwhile the boys are kept on the jump supplying the games ops with Williams' "Box Score" and "Ponsler's "Pro-Score" . . . Harold Van Kirk of George E. Briggs Company, music machine operators, returns to the office after being away the past two months due to a heart ailment . . . Jack Ehrlich, one of the most popular coinmen here, opens a games jobbing office in Brookiyn . . . Mike Munves, who had the best looking games display at the recent Parkmen's show in Chicago, reports that he was well satisfied with the orders booked for spring delivery.

\* \* \*

Barney (Shugy) Sugerma and Abe Green of Runyon Sales Company, away the past week seeing the manufacturers in Chicago . . . Jack Mitnick, just back from a vacation, is so busy he's practically forgotten he's ever been away . . . Sam Mendelson, handling sales of equipment for some of the best manufacturers during his twenty years in the business, becomes sales manager for Mac Pollay's

and Nat Goros' Dynamics, Inc. The firm manufactures amusement games . . . Ben Becker, Ben Becker Sales Company, regional sales representative for Bally Manufacturing Company, grieving that he can't get together with his "Gin" contributor, Art Garvey. With the sale of "Hy-Rolls" going so big, we're sure Ben don't need Garvey's dough for Christmas presents. Hymie Rosenberg, H. Rosenberg Company (local Bally distributor) would play Ben some "Gin", but he hasn't the time.

\* \* \*

John Connolly, Connolly Vending Company, is beaming over the arrival of his son, John, Jr., who was honorably discharged from the Marines this past week. John, Jr. joins up with his dad in the music operating business. The boy was signally honored recently when he was assigned to President Truman as a personal orderly during the President's trip to South America . . . Coinmen here shocked by the news of the death of Julius "Papa" Pace of New Orleans, La., whom they all knew and liked . . . Ben Chisofsky, Ben-Ray Music Company, back on the job after being hospitalized for a minor operation . . . Phil Mason and Dave Lowy, Dave Lowy & Company, report that the orders for their roll-down conversion, "Champions" is keeping them busy . . . Nat Cohn, Modern Vending Company, returns from the N.A.M.A. show in Chicago, and was tremendously impressed by the display of automatic merchandising machines.

\* \* \*

Murray and Bill Weiner of U-Need-A Vendors, Inc., Newark, N. J., report that their electric cigarette machine was a sensation at the N.A.M.A. show at the Palmer House, Chicago, last week . . . Dave Feldman, Kingsboro Music Company, prefers the cold weather sports, so leaves for a two week vacation at Grossingers, Fallsburg, N. Y. . . . Jack Semel and Jack Rubin, Esso Manufacturing Corporation, Hoboken, N. J., report their "Esso Arrows" still getting a big play locally, and the demand from out of town territories getting brisker . . . Bert Lane and Meyer Parkoff, Atlantic-Seaboard New York Corporation, return from a trip to Chicago, and hear from Harry Schneider that the ops are buying Genco's "Bing-A-Roll" in good quantities.

## CALIFORNIA CLIPPINGS

Climaxing a wonderful, and no less amazing come-back to the entertainment world, southland leaders last week tendered a testimonial dinner to Al Jolson for "his unselfish devotion to humanity". Civic and political leaders head by Judge Stanley, Mosk attended the ceremonies as well as such entertainers as George Burns and Gracie Allen, Bud Abbott and Lou Costello, and Red Skelton. The entire affair was sponsored by the Beverly Hills Lodge of the B'nai Brith, whose members recently voted Jolson "man of the year". Judge Mosk, speaking on behalf of the Lodge, told of Jolson's unceasing efforts on behalf of charity and racial and religious tolerance, and presented Al with a chest of silver inscribed: "To Al Jolson for his unselfish devotion to humanity" . . . Chicago Coin's Phil Robinson is one of the Lodge's officers, and Phil invited other coin folks to attend as his guests. Al Armos of the Golden Gate Novelty Co. of San Francisco and Ray Proctor of Sacramento and their wives both attended with Robinson . . . Phil was pretty excited about the event, but he did confide to this reporter that he's anxiously awaiting Chi Coin's new pin game, due shortly.

\* \* \*

SCAMOA held a meeting last week under the leadership of E. Jay Bullock. Association business was discussed, and among the more salient points aired at the meeting were open discussions regarding some of the cut-throat tactics being employed by some ops in town . . . such as giving locations 70% of the take for being "allowed" to replace another op's machine in that particular spot . . . Sez Jay, "such unfair practises must be stopped immediately if we are to continue to make a living in this town" . . . Bullock handed out copies of the Taft-Hartley Bill to all ops present, and explained to them the legal aspects of such paragraphs as the one explaining and forbidding coercion by any labor union. Again states Jay, "under this law, no one can force you to join a union if you don't want to, and you cannot be discriminated against by any employer for refusing to join one". An interesting visitor at the meeting was a Marine Captain who talked up the Marine Hymn recording as a juke box favorite to aid the Navy recruiting drive. An important point brought out by the captain was the fact that many ex-marines would plunk those good old nickels into the jukes to hear the Hymn.

\* \* \*

Had a nice visit with Nels Nelson of the M. S. Wolf Distributing Co. Nels tells me that the boss-man "Bill" Wolf was up north on biz last week, but is expected back in town for the holidays . . . We hear that the new forty-selector AMI counter boxes are due in this week . . . take a look ops!! . . . Paul

Laymon wants to remind all of the coinbiz folks in the southland that the Runyon Cancer Fund is by no means wound up, and that it would be wonderful if all of you would pitch in just once more and wind up the year at the CMI convention with the biggest donation yet . . . Laymon tells us that Bally's "Hy-Roll" is interesting more ops every day . . . that basket shot is a really terrific feature . . . Bud Parr of General Music is back in town after a week in the windy city on biz . . . partner Fred Gaunt has been doing a nice bit of business on roll downs lately.

\* \* \*

Solotone president Forrest E. Wilson has returned to Los Angeles after taking a two-week's trip through the middle west . . . "Mac" McCreary tells us that some brand new items are in the hopper, and that Mr. Wilson will give out with an announcement in the near future . . . watch for it . . . Al Bettelman of C. A. Robinson's emporium is traveling around Nevada picking up some nice Xmas biz . . . especially on roll-downs and slots sez Charlie Robinson . . . Elky Ray, Gold Coast Coin Machine Exchange enjoying some fine repeat biz on "Humpty-Dumpty" . . . W. R. Happel, Jr. of Badger Sales Co. informs this writer that the increased business on roll-downs is extremely gratifying . . . Southern California and surrounding territories seem destined to become national headquarters for roll-down games . . . they're that hot.

\* \* \*

M. C. "Bill" Williams of the Williams Distributing Company, this city, is very much satisfied with the way that the sensational new Williams roll-down "Box-Score" is being put out on routes by the ops, and for out of city business, that five-ball with the 5,000,000 high score, "Bonanza" is meeting with fine success . . . At Sicking, Jack Simon informs us that roll-downs of all sorts are really out front in demand from ops.

\* \* \*

I would like to take this opportunity to thank all of the coin row and record folks in Southern California for helping me "break into" the coin game . . . it is extremely gratifying to have been so well received by all of you, and may we close this week's chapter of California Clippings with our most hearty wishes for a very merry Xmas, and an extremely prosperous New Year.

\* \* \*

Operators seen along coinrow: Stanley Little, Lakewood Village; Claude Sharpensteen & Son, Yuma, Ariz.; Niles Smith, Oildale; L. Berlinghoff and E. A. Jerome, San Bernardino; Lee Walker, Gardena.

Louis Boasberg a busy boy with tickets for the Sugar Bowl game; his wife expecting twins; and Louis rushing off to Chi to the NAMA show . . . John Bertucci and Bill Holifield visiting around.

\* \* \*

Vince Shay and Midge Ryan of Bell-O-Matic; Sam Mannarino of Pittsburgh; Oscar Schultz of Chi and Mickey Green of Warsaw, Wis. hunting birds in the rain and Mickey crawling under fences instead of just walking around 'em . . . Jack Young of Lafayette will trade his route for a good crap table.

\* \* \*

Ben Robinson planning to put out about 1,500 drink dispensers and talking nothing but Coca-Cola these days . . . Andy Monte showing some of the boys a line of imported pocketbooks at wholesale prices with shoes to match . . . Dan Cohen home sick . . . Ward Peters in town doing some buying . . .

\* \* \*

Dave Martin thinks he'll be the Daddy of twins any day now . . . Ray Bosworth at the track . . . Les Griffin up in Jackson this past week . . . Everyone waiting for the election.

\* \* \*

A reminder — state license on pin balls (50 bucks) due in Jan. City license (50 bucks) due in March and Federal license \$10 due in July . . . But it's a gay life in New Orleans anyway.

Houston Coinmen had, at the end of November contributed \$3142.24 to the Damon Runyon Cancer Fund. This amount represented one days gross receipts for every contributor.

\* \* \*

Steering committee for the drive was composed of: A. H. Shannon, M. R. James, Coin Machine Sales Co. (Bally Distributor); A. A. Sage, S. H. Lynch & Co. The new Drink-O-Mat vending machine got a big hand at the two day showing on November 8th and 9th at a prominent downtown Houston hotel. Albert Cole, President of Drink-O-Mat and Sam Kressberg, Executive Vice-President officiated. Others who helped make the show a success were: Fred M. Cogan, factory Representative; Max McCotter, State Sales Manager; Miss Sue Harmon, Houston office secretary.

\* \* \*

Texas Drink-O-Mat Corporation, a recently organized Houston concern, was appointed exclusive State Distributor and will appoint franchised Drink-O-Mat operators over the entire State of Texas. 300 locations have already been secured in Houston.

\* \* \*

John B. Saragusa is President of Texas Drink-O-Mat Corporation. Included on the board of Director is R. E. Paine who is also President of one of the largest liquor distributing firms in the State. Secretary is Miss Sue Harmon.

\* \* \*

Mr. Cole went from Houston to the NAMA show in Chicago. Mr. McCotter and Mr. Kressberg moved on to other Texas cities for promotion work. Mr. Cogan remained at the Houston office in capacity of Factory Representative.

\* \* \*

One noticeable fact about the Drink-O-Mat show was the interest displayed by business groups not ever indirectly connected with the coin machine trade. Eighteen prominent business leaders representing seventeen district business, industrial and professional lines, were present.

# THRU THE COIN CHUTE

## MINNEAPOLIS ST. LOUIS

The Twin Cities and the Northwest are still in the grips of below zero weather, which doesn't make it very good for traveling, and therefore, operators throughout the great Northwest are staying very close to home.

However, Chris Schmidt and his wife, of Moberg, South Dakota took time out to drive into Minneapolis and spent several days sort of on a buying and vacation trip . . . C. W. Anderson of Minneapolis, is getting ready to take a nice long vacation at New Orleans, Louisiana. C. W., known as Andy, is leaving right after first of the year.

Hank Krueger, of Fairfax, Minnesota, in Minneapolis just for the day, stopping to see several of the distributors . . . Charles Rusnak of Grand Rapids, Minnesota in Minneapolis for a few days with his wife, taking a little holiday . . . A Streyle of Hazelton, North Dakota spent several days in Minneapolis visiting the distributors.

Marty Morosnick, of the Winnipeg Coin Machine Company, Winnipeg, Canada stopped off in Minneapolis for a few days after having attended the Vending Machine Show in Chicago . . . Billy Cohen, and Bennie Friedman of the Silent Sales Company, Minneapolis, attended the Vending Machine Show in Chicago . . . Ted Bush, of the Bush Distributing Company, Minneapolis drove into Chicago for the show after spending two weeks vacationing in Hot Springs, Arkansas.

Max Moses, of the Atlas Sales Company, Minneapolis, is getting ready for his winter sojourn to Phoenix, Arizona, where he generally spends at least three months . . . Bill Riebhoff of the firm Riebhoff and Kopp, spent a few days in Minneapolis visiting several of the distributors . . . F. J. Eichinger, St. Paul operator back on the job again, after being laid up at home with a very bad cold.

Art Johnson, in town for just the day. His first visit in several months. It seems as if Art is going back into the operating business a little at a time . . . M. A. Cayo of Chippewa Falls, Wisconsin drove into Minneapolis just for the day . . . Fred Rooney, of Plankinton, South Dakota, in Minneapolis for a few days making a few calls.

Chicago claimed many of the St. Louis coinmen during the past week as Carl Tripp of Ideal Novelty, Del Veatch of VP Distributing Company and Bill Torino all hiked up for the vending machine show. A lot of expansion seems planned for the vending machine routes on this side of the river.

Mike Ogilvy, veteran operator, was snuffling around his route a bit grumpily this week as the temperature hit 22 degrees. Mike claims that from long experience, he will get two service calls extra for every degree the thermometer drops below 32.

John Gazzoli of Star Novelty is crowing around with pix of John J. Jr., who was born the 30th of October. We expect him to be walking and talking within a few weeks.

The end of the year is still "slow business" say hibernating distributors such as Bill Betz of W. B. Novelty, and John Murphy of Murphy Distributing Company. Hardly a phonograph was dusted off in the warehouses, but a rush is expected after the first of the year.

Much kidded for the last ten days has been Gladys Bauman, bookkeeper at Ideal Novelty, who showed up with a shiner four inches wide early last week. It wasn't a door, said Gladys, but a weird variety of cold which settled around her left eye.

The Missouri Amusement Machine Association will start the new year with about a 30% membership increase, reports Lou Morris, head of the group. Many more meetings are scheduled for next year, with business at least temporarily ironed out, and more than a dozen new operators planning to join the fold.

The firm of Baum-Gummersheimer dropped suddenly from sight early in December, when Walter Gummersheimer joined up with Universal Distributing Company and Barney Frericks. The Locust Street headquarters of Dan Baum's distributing business are ghostly and empty, but we couldn't reach either man for an explanation.

Everybody's mailing Christmas gifts these last few days. Olive Novelty's Ben Axelrod and Al Hanecklau won a lot of good will with handsome gift packages contained a silvered metal scratch pad clip and a copper letter knife, while Del Veatch distributed leather folders with telephone memo pad and four daily-memo pads for all four seasons of the year. Gifts are bigger and better this year.

Tempers are hot over on Locust St., where somebody threw a brick through the windshield of Carl Trippe's new Buick, and a bit later Ed Randolph tangled his new Studebaker with somebody "who wasn't looking."

Visitors notable this week include Barney Neal, Harry Siegel, Art Anderson, from Waynesville, Mo. and H. R. Collinsburger from Stonington, Mo.

Sure, you've given to the Damon Runyon Fund for Cancer Research.

And you've given to plenty of other good causes in 1947.

But you know in your heart you can afford another five, ten or twenty dollars . . . maybe another hundred, if the holiday spirit is strong within you. You'll feel better

Christmas day . . . happier, more satisfied with life,

more hopeful for the future . . . if you sit down now and write another check

for the Damon Runyon Fund and mail it today to Ray Moloney.
