*5TH DIMENSION: 6TH SENSE FOR HITS*

# The highlight of the night that Barbra Streisand brought 18,000 McGovern fans to their feet is now a single.

In the few weeks since the concert, Streisand's six-minute performance of "Sweet Inspiration / Where You Lead" has been described in countless magazines and newspapers as a classic, memorable in every way.

Produced by Richard Perry, it features a four-girl finger-popping gospel group and an audience of thousands clapping and shouting and stomping the beat.

For the first time, six minutes become less than three, that is if you can stop rocking to tell time.

## Songwriters Hall: Looking Ahead

The Songwriters Hall of Fame has been a worthy, long overdue addition to the industry's recognition factors. For there is truly meaning to the concept of paying homage to the leading writers down through the years.

Unfortunately, its premise is not completely in tune—particularly for the years that lie ahead—with the facts of-life as they exist in the popular song art. The organization has gotten by its first two annual presentations by a catching-up process in recognizing the genius of writers who, for the most part, are no longer as productive as in their peak years. This is, of course, even more noticeable in the number of posthumous awards given.

The point is where does the Hall of Fame go from here, after making all the key awards and then some? For the association has a 20 year professional songwriting qualification. Except for a handful of theatre composers—such as Jerry Herman or John Kander & Fred Ebb—the pickings seem kind of thin. On the pop front, it's an era of writers who are not necessarily going to have something

to say in the decades ahead. That may be sad, but that's the way it is. Many of them, however, are speaking brilliantly about the present, and their achievements are certainly worthy of recognition. The Hall can give them their due by 1. drastically reducing the qualification period 2. making more awards for particularly fine new songs and/or writers that have emerged between Hall of Fame awards nights.

The awards event, too, might have better sustaining power if it made a point to focus on one particular writer or writing team's output, so that guests receive a truly well-rounded portrait of one's creative efforts. This could even take the form of narrative by the writer himself, explaining many of the interesting anecdotes that often surround the creation of a song.

We think the Songwriters Hall of Fame makes sense, not withstanding numerous song awards made by various industry associations throughout the year. It simply has to come to grips with a more realistic appraisal of its awards making mechanism.

## Atl. Mines Gold In May

NEW YORK — Nine gold records were awarded to Atlantic Records in May by the Record Industry Association of America. Included is the new Rolling Stones album, which was immediately certified gold upon release, two albums and a single for Roberta Flack, an album and single for Aretha Franklin, and new albums by Emerson, Lake & Palmer, Graham Nash and David Crosby and Stephen Stills.

"Exile on Main St.," by the Rolling Stones, is a two record album, the second to be released through Rolling Stones Records, an Atlantic Custom label. The first was "Sticky Fingers," which was also a gold album for the artists. The consumer demand for the new Stones' record has been described as "utterly fantastic."

With the certification of the albums, "First Take" and "Quiet Fire," (Cont'd on p. 19)

## FRONT COVER:

Of course, there's no way of knowing, but given the sound the 5th Dimension creates, they probably would have succeeded by any other name, including "The Versatiles," their original moniker. It was Johnny Rivers who suggested they change it, and on whose label they had their first release, the much honored "Up Up And Away."

Having moved to Bell Records in 1970, they continued to encounter hit after hit. Their current single, "(Last Night) I Didn't Get To Sleep At All" is bulleted at #9, and their latest LP, "Individually And Collectively" (on whose label each of the five members is featured in a solo spotlight) is charted #50.

Marilyn McCoo, Billy Davis Jr., Florence LaRue Gordon, Ron Townson and Lamonte McLemore are the members of the quintet who have already had two network TV specials, performed at the White House for President Nixon and a conference of governors and have become Founding artists of the John F. Kennedy Center for the Performing Arts in Washington. Being booked six to eight months in advance, it's no wonder they don't get much sleep.

# Goody Stores Into South

## 1st Move Outside NY-Phila. Area

NEW YORK — The Sam Goody Entertainment Centers are moving into the south with the opening Aug. 2 of an outlet in the new Crabtree Valley Mall in Raleigh, N.C. This will be followed by four more stores in the south over the next four years.

Move represents the company's initial venture beyond the range of the Metropolitan New York and Philadelphia areas. The Mall contains about 1,100,000 square feet of selling space and houses three nationally-known department stores. It's the largest shopping center in the southeast.

The other stores, Goody told a meeting of shareholders, will also be located in the Piedmont Research Triangle area of N.C., covering the cities and college populations of Raleigh, Durham and Chapel Hill. Lease negotiations for the second unit are nearing completion for a site in an 800,000 square-foot Mall now being planned for Durham.

"This planned program of expansion," Goody said, "is in keeping with the company's policy of opening a cluster of stores in high-income, densely-populated areas in order to expand sales coverage and spread advertising costs." He added that "thoughtful and imaginative expansion, along with cost controls and operating efficiencies, were necessary for continued growth in the retail field, particularly during and uncertain economy where inflation is a serious problem and unemployment persists."

Sam Goody currently has 10 retail outlets and also operates as a distributor and wholesaler of records and tapes. Within the next month, the company will add two new stores to its Philadelphia "cluster," one at the Roosevelt Mall on the outskirts of Philadelphia and the other at the Loehman Strip in Pennsauken. In addition, the company will open another store in Livingston, N.J.

## Goody Re-elects, Votes More Shares

NEW YORK — At its annual meeting here, Sam Goody, Inc. re-elected all nine directors of the corporation and voted to increase the number of authorized shares of the common stock of the company from 1 million to 3 million shares.

# \$100G 'Album Sell' Concert Package Via Groove Merchant

NEW YORK — Sonny Lester's Groove Merchant label is allocating \$100,000—\$40,000 in Chicago alone—for concerts designed to add sales fuel to his catalog of black instrumental and vocal music.

Lester, who started the indie label seven months ago, expects all of his acts to appear during the concert series, which gets underway at a two-show performance Oct. 14 at the 4000-seat Chicago auditorium.

The Chicago event will be accompanied by a "Groove Merchant" week during which has mapped out in-store appearance, window displays, radio spots, press parties, interviews, etc.

Included in the price of admission (\$4.50, \$5.50 and \$6.50) will be a free Groove Merchant LP. Free albums will also be given at subsequent concert dates in Los Angeles, San Francisco, Dallas and Houston. Lester plans a visit to the west coast June 11 to negotiate concert venues.

Following the U.S. dates, the concert package will make a 14-city tour of England and the Continent in Feb.

"I'm already evaluating the loss I'm going to take, since I'm only interested in selling LP's," says Lester. "Most promotional concerts take place in the off-season. I'm going in when LP business is roaring, and

when I walk out of each city, I expect Groove Merchant to be a major entity there."

Groove Merchant currently has 12 albums on the market, and expects a total of 20 by the end of the year. The label is closing out its fiscal year Aug. 10, at which time it expects to have sold \$500,000 worth of albums. The company's network of distributors includes the London Records branch operation in New York, Los Angeles, San Francisco, Boston and Atlanta, and goes with indie distributors in other areas.

# Musicians OK New Contract On Film Work

NEW YORK — Affected members of the American Federation of Musicians have approved by a margin of 330 to 24 a new Theatrical Motion Picture and Television Contract negotiated last month by their union and the Motion Picture Association of America, reports Hal Davis, Federation President.

The 27 month contract, retroactive to May 1, holds the line on basic wage rates and is designed to "revitalize employment opportunities for musicians," Davis noted.

Highlight of the pact is a significant breakthrough in revision of regulations governing musical tracking, musician's guaranteed hours of work can now be applied to unrelated films. Previously, guaranteed hours were cumulative and applicable to any series and/or individual films. Now, 80% of a guarantee must be scored live; only 20% can be applied from another series or film. The union feels that this will mean a substantial increase in work opportunities for its members, and an improvement in the quality of films.

The contract clearly reaffirms that all background music for theatrical motion pictures must be scored live, thus ending the recent trend of producing motion pictures with "canned" music.

## Video Cassettes

Agreement was reached providing payment to the musicians whenever a future film made for theatrical or free television exhibition is applied to a new use such as pay television, cable TV or video tape cassettes. This return adopts the same formula as now exists when motion picture films are exhibited on free TV. Payments will be made annually to all members through the AFM-Employers Pension Fund facilities.

The prior practice of diverting payments from sale of theatrical motion pictures to free television through the AFM-EPW Fund will now result in most payment being paid directly to the musicians once a year.

Additional contract features are: Increase in employer's contribution to the Pension Fund from 5% to 6%; increase in cartage rates; automatic payment of vacation pay; addition of new instruments (saxophone family, organ and celeste when furnished) to the doubling category.

Important gains also were made for members active in music preparation.

Eligible to vote on the new agreement were musicians who worked on at least 12 sessions for motion picture and/or TV films during the calendar year 1971. A total of 690 ballots were mailed. Of the 364 ballots returned, 10 were invalid.

# NARAS Nat'l Office Set; Academy Broadens Scope

NEW YORK — The streamlining of all national operations through the establishment of its first national office, changes in the Grammy Awards voting procedure, the creation of new chapters, and a revitalized public relations program were some of the main topics covered in depth by the 24 members of the national board of trustees of the Record Academy (NARAS) during a three-day meeting, presided over by national president Wesley Rose late in May in Nashville.

With Los Angeles set as the site of the official national headquarters, the trustees voted to install Christine Farnon, currently Los Angeles exec director and a figure in the Academy since its inception, to supervise the operation. In addition, the academy plans to select a national coordinator to work closely with all five chapters and with the National President, who would be encouraged to perform even more actively, in an effort to make the Academy as fully nationalized an organization as possible.

## Five-City Committees

Grammy Awards voting procedure changes revolve around the system of five-city committees selecting the final nominations in specific fields. In addition to the arranging, engineering, album covers and album notes fields, now covered by committee-nominating, the trustees voted to extend this method of selection into the classical music, jazz, and composing fields. Also discussed in detail were suggestions to streamline the first round of balloting, to nominate for Grammys on a semi-annual basis, and to reduce the number of fields in which members will be permitted to vote.

The trustees voted to focus on London, Toronto and San Francisco as future NARAS chapter sites, inasmuch as representatives from these cities have already evinced interest in

# Buddah Group's New Graphics

NEW YORK — As part of its campaign to develop a stronger trade and consumer image, The Buddah Group has introduced new graphic designs for the Buddah and Kama Sutra labels.

Commenting on the new labels that are being put into use on albums and singles, co-president Neil Bogart stated, "These labels are the result of our creative department's efforts to produce graphic designs of unique charm and appeal. But just as important," Bogart added, "is that they emblemize the new direction in which we are moving."

Conceived and designed by art director Glen Christensen, the new Buddah label features the traditional Eastern figure in white on a burgundy field. The Kama Sutra label is an original four-color painting of the Garden of Eden in the "naive" pictorial style of the French painter Henri Rousseau. It was executed by Mona Mark.

In addition to Buddah and Kama Sutra, The Buddah Group presently includes Sussex, Curtom Records, Hot Wax, T-Neck Records, Music Merchant, The Famous Charisma label, and the recently-formed jazz label, Cobblestone.

the creation of their own chapters.

The Trustees reaffirmed the need for a revitalized public relations program and policy, to be extended throughout the year, and to utilize to better advantage the various local activities presented by the individual chapters, such as Chicago's year-round speaker and lecture series and New York's current cooperation in presenting talent and helping to satisfy the musical needs of the State's prison rehabilitation efforts. Inherent in the p.r. program was recognition of the role that the NARAS Institute is playing in regard to educating the young people, both inside and outside the field of recording. Henry Romersa, director of the NARAS Institute, reported on his activities during the past months, emphasizing the desirability of cooperation between the universities and the Academy.

Throughout the meeting, there arose a constant call for the academy to adjust even more actively to the current times and to some of the changes now erupting in the recording field. To bring about an even closer working relationship with all the vital forces in the recording field, the trustees voted to create a national executive advisory board, which would be able to utilize the services of as many of the industry's top personnel as possible.

## Premium Disk

Also arrived at during the session were decisions to pursue plans for the creation of a NARAS premium record, to follow through on a bid to cooperate with the United States Treasury Department in the creation of a NARAS radio series, to create a NARAS membership profile, to follow through on some specific financial proposals as presented by national treasurer John Scott Trotter, and to hold next September's meeting of the trustees in the New York area.

## Mangione On PBS

CHICAGO — Mercury Record artist Chuck Mangione will be seen with the Rochester Philharmonic in a 90-minute special, "Together," at 8:30 p.m. (CDT), June 5 on the Public Broadcasting Service (PBS) network. The show was originally scheduled for mid-April but was pre-empted by a PBS special on the Senate Indo-China hearings.

"Together" was released last year by Mercury Records as a double album. Mangione's latest LP, "The Chuck Mangione Quartet," has just been issued by the label.

**ROCK ON**—As part of the weekly live concert series presented by Ultra-Sonic and WLIR(FM) each Tuesday at 8 P.M., Columbia Records' group New York Rock Ensemble performed at Ultra-Sonic Recording Studios to a 50 member studio audience for broadcast over WLIR(FM), Garden City. Posing with members of the group are Jeff Kracke (third from left) who engineered the concert, and Mike Colchamiro (extreme right), technical director for the series.

We've just set off nine packages of dynamite.

## Tom Jones

MADISON SQUARE GARDEN, N.Y.—We had an opportunity to see Tom only a few weeks ago at the Westbury Music Fair with basically the same show he brought to the Garden, but the difference between the two performances was stunning. The night we saw him at Westbury may have been an off night, but last Wednesday at the Garden was very much on. It must have been the huge 15,000 plus crowd that inspired him. Because he was better than we remember him at the Copa in his earliest performances.

He moved well, was untiring with his body as well as his voice, did an excellent "I, Who Have Nothing," had them cheering all thru his hits medley, especially with "Dalilah;" was super on "Something;" got a good hand for his rendition of his current Parrot single "Young Mexican Puppeter;" and was most pleasing to his fans when he did some bumps and

grinds, held up bras and panties that were thrown onto the stage and kissed the girls from the center stage. Jones was in particularly good voice, and one marvels at the fact that he's always giving his all on every song; which is amazing considering that Tom does so many in-person appearances.

Solid support was offered by the Rock Flowers, who did well as openers. They seemed to do better in Westbury where the contact with the audience is at your toes. The awesome center, raised stage along with the looking into complete darkness when the Garden laser beams hit you, must have been somewhat shocking to these developing performers, especially since they had to play in the round.

Johnny Spence conducting of the Jeff Sturges Universe and excellent comedy from Pat Henry, made the whole evening a very strong one.

## White Cloud George Gerdes Larry Raspberry

MAX'S KANSAS CITY, NYC.—There's always that big beat sound of rock 'n' roll that grabs you in the stomach and hits you right between the eyes—we've all heard that. But then, there's another rock sound—the subtle and rhythmic thump-thump that starts off unobtrusively as it gains control of the hips, knees and feet, and then suddenly captivates your entire being with its between-the-lines potency. This is White Cloud, combining all the magic of an Indian rai dance with the contagious drive of that "backbeat, you can't lose it."

The individual talents present in White Cloud are more impressive, they represent many cornerstones in the foundation of contemporary music. Group leader-vocalist-rhythm guitarist Tommy Kaye produced Judy Garland's last session, as well as sessions for Chuck Jackson, the Shirelles and Captain Beefheart. Drummer Richard Crooks provided the beat for Dr. John and Rhinoceros, while his girlfriend, vocalist Joanne Vent played her dues in Tiajuana bars. Bassist Don Payne played with Ray Brown, Ornette Coleman, Herbie Mann and Stan Getz as well as Tim Hardin, Melanie and Maynard Ferguson. Fiddler Kenny Kosek and pianist Teddy Wender have both done numerous sessions.

But more important than the individual talents is the fact that these creative people (and their egos) can all work together to form a totally cohesive and incredibly imaginative sound. With the aid of guitarist-vocalist Charlie Brown, White Cloud's live set featured dynamic renditions of original material such as "All Cried Out," "Funky Congregation" and "Rocky Roads To Clear."

The spirit of Loudon Wainwright III was in the air at Max's. Not only did White Cloud back up Loudon on his last album, but second bill, folksinger George Gerdes, is an old sidekick who comes from the same school of songwriting. A harmonica and guitar minstrel-propheter with a verbal point on his gospel blade, Gerdes was philosophic with "Sack Of Woe," hilarious with "Ballad Of Neil Young (Disk Of Gold)" and downright lowdown with his wife-stealing song, "Mrs. Lately." This boy is sharp and really knows how to cut through an audience.

Larry Raspberry, a guest performer from Memphis, fit in nicely with his rendition of "Motel Blues" by (you guessed it) Loudon Wainwright III, in addition to Oscar Brown Jr.'s "The Snake" and his original "Laid Back Song." Much promise and more to come from Larry.

## Melba Moore

EMPIRE ROOM, WALDORF ASTORIA, NYC.—If Melba Moore's Thursday night opening here lacked the smashing impact of her original niteclub debut or the grand sweep of her Lincoln Center concert, it sure wasn't her fault. Even perfection gets to be taken for granted these days and the overflow crowd which had flocked to the Empire Room was ready and totally willing to be bowled over by the diminutive Mercury artist. All Melba did was fulfill all their expectations.

Opening with her much requested and fondly remembered "I Got Life," she soon launched into a program which spanned several decades. Not every artist can sing a believable "Blue Skies" and then come right back with a song off today's top forty chart. But Melba moved adroitly from the traditional to the contemporary and her versions of "Rainy Days And Mondays" and "You've Got A Friend" were especially enticing. Several minutes of pure, unadulterated funky pleasure came in the form of her delightful treatment of Joe Tex's current charter, "I Gotcha." Melba ripped through this one with all of the tongue in cheek raunchiness it demanded.

Less inspired though well intentioned was her tribute to great stars of the past. Though it began promisingly enough with Melba dressed coyly in a mantle of white ruffles, it soon floundered into the predictable. It's not that Melba's appreciation for Maurice Chevalier, Bill Robinson, Jimmy Durante, et. al. is questionable—it's simply that her talent lies in her singing rather than her mimicry and the whole segment smacked of just the sort of stylized nightclubby routine which used to be de rigueur in rooms like this but aren't needed by a talent as vocally overpowering as Melba.

The singer closed with an exciting medley of gospel songs. Here she really showed her mettle as she belted out each number with verve, sincerity and dedication. It was easily the highlight of the evening.

## NRBQ

VILLAGE GATE, NYC.—When Frankie Scinlarno and NRBQ throw a party, all you can say is "Mama mia!" Buddah Records' New Rhythm and Blues Quintet really flew the coop at the Village Gate with the most swinging Italian feast to come this way since Columbus discovered the New World.

Besides the feast, there was a new world of music as NRBQ unfurled a live set of tunes from the group's recent album, "Scraps," including "Howard Johnson's Got His Hojo Working" and Jody St. Nicholas' "Magnet." Unfortunately, they didn't perform "Who Put The Garlic In The Glue," which would have been appro-

## Paul Anka

PERSIAN ROOM, NY — Paul Anka combines the innocence of his vinyl successes way back when with the maturity of age to create a nitery act that leaves a lasting impression of a man with immense talent.

A contemporary tone is immediately set by a "Shaft"-like instrumental intro by the augmented and simply great Persian Room orchestra. Then the Buddah recording artist moves in with understanding, well-phrased renditions of such numbers as "Help Me Make It Through the Night," "Watch What Happens," "My Way," "She's A Lady" and "Do I Love You." While the last three songs represent the songster's current composing style, a "nostalgia time" medley reminds one of Anka in another time, another place. The songs include "Puppy Love," back as a hit via the Osmonds, "Put Your Head On My Shoulder," "Lonely Boy," "Diana" and "You Are My Destiny." Another new item, "Gospel Singer," his current single, features a remarkable string-section arrangement.

The only flaw is Anka's penchant for introducing the guest list in rhyme, a novelty that wears thin. That guest list, incidentally, was glittering, including such luminaries as Henry Fonda, Dustin Hoffman, Jane Pickens, Otto Preminger, Cliff Robertson & Dina Merrill, among others.

A knockout performance of "My Sweet Lord" completes an evening of top-drawer on-stage doings.

## Jim Croce

PERSIAN ROOM & BITTER END, NYC — Debuting in New York in conjunction with the release of his first LP for ABC, "You Don't Mess Around With Jim," Jim Croce didn't mess around. Combining a Bill Cosby-esque patter style with a firm hand on his acoustic guitar and sweet/mean voice, he is certainly sure of where he wants to go and he gets there with little trouble.

Jim has basically two forms of music in his songbag—the first is the familiar James Taylor-ish folk ballad, and the second can best be described as the "Frankie & Johnny" school of story song. In the first category, "Operator (That's Not The Way It Feels)" is especially fine, taking the genre of the phone tune to new heights. "New York's Not My Home" is a thoughtful approach to one's immediate social environment and the wish for something that isn't.

But we hear that kind of thing from many people these days. It is not what sets Croce apart from others. What does is his revitalization of the second kind of tune, where low-lives are just slightly romanticized and their doings become the scenario for an action-filled romp. The album's title tune (and also his new single) is a good example of a song in which characters are introduced described and fully developed—and all in under four minutes. Here Jim really gives you what you can't get in too many other places.

Croce is ably assisted by guitarist Mauhy Muehlheisen, whose licks flow like spring water, making Jim's tunes all the more refreshing and welcome.

appropriate amidst the lasagna and eggplant parmigiana.

A slow version of the Everly Bros.' "Bye-Bye Love" was featured as well as a brand new original, "The College Crowd." The show was a family affair, and you didn't have to be a blood relative to be in the family and have a roaring good time.

Another Buddah-Kama Sutra group, Revival, was on the Village Gate bill, but did not play the party. They will be reviewed in an upcoming issue of *Cash Box*.

## The Supremes

COPACABANA, NY—With Lynda Lawrence joining the Supremes to replace Cindy Birdsong, who's having a baby, the thought comes to mind that, perhaps, the trio is working under a burden of simply being named the Supremes. For Mary Wilson is the only remaining member of the original trio.

It's certainly not that the group as it's now constituted isn't making fine vocal music. It just that the original Supremes sound and all that it means to a lot of folks can create a mental barrier with reoccurring thoughts about how "they" might have done this or that song.

Anyway, with Jean Tyrell the pretty center-fold lark, Motown group performed with assurance and vitality. They made "We've Only Just Begun" the sweet thing it is, offered a stirring rendition of "This Land Is Mine" (theme from "Exodus") and brought back "Tossin' & Turnin'" with all its excitement intact. Their new single, "Automatically Sunshine," which reminded me of "Happy Together," is another bright stanza.

The new Supremes have a blend of their own—and can prove to be supreme in their own way.

## Dan Hicks Dan Cassidy

SANTA MONICA CIVIC AUDITORIUM, L.A. — Any act that brings its own stage decor must have something on the ball. When the decor consists of several potted palms and a moon-over-Wiamea-Bay backdrop, you know that the act must be pretty special. And when they're brought on stage following an introduction by (are you ready for this, folks?) George Gobel, you can figure that they're damn well unique.

None of which, admittedly, has anything to do with the quality of the music played by Dan Hicks and his Hot Licks. What it all does have to do with, though, is the kind of professional approach brought by the group to their presentation. An approach that allows Hicks to present a drowsy, spaced-out appearance while all the time keeping about half a step ahead of his audience, with the entire show under perfect control.

Which all puts Hicks ahead of 75% of the competition before a single note is played. When the music does come, though, it's in perfect keeping with the staging. Hicks, abetted by violinist Sid Page, a bassist, lead guitarist and two "Lickettes," brings to his audience a sort of 20's-30's-40's amalgam that comes off as being a cross between the Andrews Sisters and the Sextet of the Hot Club of Mill Valley. In an age of Super-groups, without a bit of hoopla and a minimum of fanfare, this is truly a super group.

Dan Hicks and his Hot Licks have two albums in current release, both on Blue Thumb.

First up was Dan Cassidy, a singer-songwriter from Little David Records. He attempts everything from contemporary pop-type material like "Nothing Stop This Dream" and the pretty "Winter Song" to an Irish ballad-type piece about patriot James Conley to the Socratic "Let's Make a Poet a King." As Cassidy moves into the field of philosophy and social consciousness his reach exceeds his grasp a bit. He was accompanied by an excellent little band featuring saxist Michael Henderson, who must have loved King Curtis.

## 4 Fantasy LP's

**BERKELEY** — Fantasy has released four new albums, one each by Duke Ellington, Jim Post, Redwing and TV star Rudy Ramos.

Duke Ellington's "Latin American Suite" is the second album for the label by the composer, following his "Second Sacred Concert" release of last year. The music was written by Ellington following a tour by his orchestra of several South American countries in 1968, and was recorded by the full band, including the late Johnny Hodges.

"Slow To 20," is Jim Post's second Fantasy album and features the composer's friend, guitarist Jim Schwall of the Siegel-Schwall Band.

Redwing's debut album was well-received by critics in North America and Europe, where they toured last November. The new album is titled "What This Country Needs." Seven of the ten songs are originals and two are Chuck Berry standards.

Rudy Ramos is new to recording but had a regular role in the "High Chapparral" TV series. His band is called Hard Knocks and Bad Times, which is also the title of his first Fantasy album. Pianist Richard Bell, who works regularly with Judy Collins, is also featured.

## Blakey To Prestige

**BERKELEY** — Prestige Records has signed drummer Art Blakey and his Jazz Messengers to a long-term recording contract.

Blakey has recently completed several new original compositions for his first album for the label, now in production at Rudy Van Gelder's studio in Englewood Cliffs, New Jersey.

## Musical Isle Promo Div. Under White

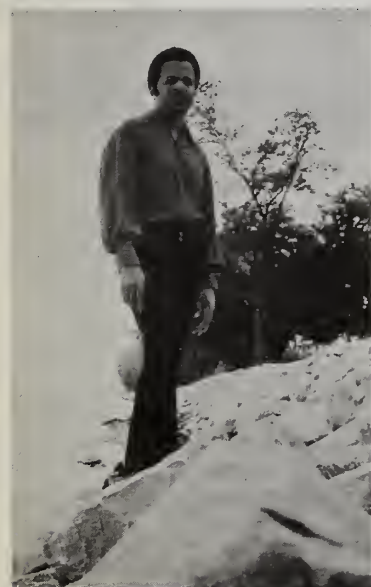

**NEW YORK** — Musical Isle of America has opened its own promo division for the exclusive handling of promotional and budget product in both albums and singles, according to Norm Wienstroer, general manager of MI's St. Louis branch.

Named to head up the promo operation is J. A. (Jim) White, vet of the Mound City disk-scene, who moves into the slot after operating his own budget and promotion disc firm, J. A. White Sales, for the past two years.

The move marks the latest broadening of the MIA base into what Wienstroer sees as "a market with huge potential." Headquarters will be at 1906 Washington Ave., virtually next door to the current MIA headquarters there.

The new 30,000 square foot warehouse will incorporate budget tapes as well as LP's and prepacked singles are also seen as a likely next step. Beyond this, promotion-priced accessory merchandise is on the docket for later.

White is already on the job assembling a staff with June 1st as the target date for full operation. White himself started in St. Louis with Tops Records, a budget firm of the late fifties.

## NEW YORK—REGGAE: ONLY A MOTION AWAY (PART 1)

(There's a new kind of music in the air. And it has reached the States via Paul Simon and Paul McCartney. The Musical form is known as Reggae, and with the summer of '72 just around the corner, it could easily blossom into a major musical happening. Part one of this two part series will endeavor to discuss some of the background elements of Reggae, while the concluding segment will delve into the artists, groups and personalities responsible for developing that musical form. Series will conclude next week.)

It's always difficult to describe a new kind of music. Especially, a kind of music that really must be felt to be appreciated. We're all familiar with Jazz and Blues because those forms had their roots planted in American soil. Because those forms have been around now for years. But Reggae (pronounced reg-gay) is quite different. Reggae music takes root in Jamaica. It is, basically, likened to country music only in that a majority of all the Reggae songs will deal with telling a story or relating a personal experience. Very little time is devoted to philosophy, politics or environment as is characterized by much of our own music.

The tempo of most Reggae songs never vary. One can best get the feeling of the Reggae tempo by thinking of a metronome with the pendulum swinging smoothly and precisely to and fro. Never varying. Always keeping the exact timing-gracefully. And almost mechanical. In fact, Reggae songs, because of their precision, always sound like perfect recordings when in album form. They sound as though great care was taken to produce each track—but in actuality, each group is capable of producing this tightness 'live' by assigning each member of the group a specific musical function.

## HOLLYWOOD—RICHARD NADER: ROCK AND ROLL IS HERE TO STAY

In town for a couple of days, readying things for last week's opening of his Rock and Roll Spectacular at the Flamingo hotel in Las Vegas, promoter Richard Nader was able to devote an hour to Cash Box and breakfast. In, as it turned out, that order. Nader is a busy person. In the process of being polite and informative to us, he spent far too little time on the Continental Hyatt House's kosher bacon and eggs (this is, after all, Hollywood).

The Flamingo engagement is Nader's first excursion into Las Vegas; he feels that the city will attract exactly the right audience for his nostalgia-filled presentations. "We're using the Nevada Room. It's not the main room or the lounge, it's the convention room; larger than either. We're setting up tables and chairs in a cabaret-style arrangement, and will be able to seat 2,200." Featured acts are Chuck Berry, Bo Diddley, the Shirelles and Gary "U.S." Bonds.

Later this year, Nader will have four revival shows on the road simultaneously, including his first European tour. He has certain stars, who will headline, and books the remaining acts accordingly. A show with Chuck Berry or Little Richard topping, for instance, would possibly feature more black acts than one headed by Jerry Lee Lewis, whose show would be more country-rock oriented.

Nader has had his share of problems with the mammoth spectacles; arguments over billing are far from rare, and there's an occasional artist who wants to present new material. "What they don't realize is that the fans have come to hear the old songs. When a performer tries to present his 'new side' to them, they become very resentful. The audience also demands a high degree of professionalism from the acts. If there's a lot of fooling around between numbers, the audience just won't stand for it.

Paul Simon: The new

Richard Nader: The old

To get a more defined analysis of Reggae music, I spoke with Les Harsten of Leslee Productions who had visited Jamaica several times during the past three months to record both Jamaican and American artists. Based on his conversations with many of the top Reggae groups with whom he had been working, Harsten had these comments to make about the nature of Reggae music: "Reggae could be defined as an original form of Jamaican music characterized by an intense, personal and emotional expression and a driving rhythmic force. Though the songs are usually personal, lots of symbolism is used as is evidenced by the song "Meagre Dog" done by Byron Lee and the Dragonaires in which one best friend turns on another—thus, 'meagre dog turn around and bite you. . . ."

"The rhythm of Reggae music," Harsten continued, "is consistently medium tempo, almost swaying, and the driving rhythmic forces are produced by having the group members use lots of simple instrumentation such as striking a break drum with a drum stick. Also effective are their use of the percussion instruments such as tambourine, maraccas and wood blocks."

Though Reggae music is by no means new, its presence will soon be felt in full force during the coming months. Already, three major artists, Paul Simon (Mother & Child Reunion, Me & Julio Down By The Schoolyard); The Rolling Stones (Sweet Black Angel); and Paul McCartney (Love Is Strange) have given us a taste of their interpretations of Reggae.

Next week's story will explore many of the more popular Jamaican Reggae bands and will discuss how Reggae has developed in Jamaica and what future it has in America.

kenny kerner

(Cont'd on p. 29)

We asked Nader the future of the rock revival trend. "It won't last. Something new happens every ten years, and it's always on the fourth year of the decade. Rock and roll came along about that time in the fifties, and The Beatles hit in 1964. I was ready to bring along the Rock and Roll Spectaculars then but had to wait until the British Invasion died down. By the fourth year, people have settled into the decade, and the styles for the ten years can be pretty well set. Fashions, entertainment, everything." Preparing, then, for the 1974 apocalypse, Nader has a number of non-rock revival projects under way, none of which he is in any particular hurry to discuss at this point.

**CASH BOX'S TOP HYPES OF THE WEEK**—Contrary to what you may have read elsewhere, there is more than one female master cutter at work in the U.S. Two here in Los Angeles are the Hersch sisters, Hildegard and Christina. Originally from Germany, where they worked in studios, they came to L.A. to seek their fortunes. Hildegard now works at Capitol, and Christina at United Artists. Christina is the master-cutter of the two. She works on many U.A. projects and does a lot of Ike Turner's custom work, according to Dino Lappas, studio chief. Christina also mixes and is responsible for the current Monk Higgins single.

In an exclusive Cash Box interview, Ochs revealed his plans to become ". . . a professional surfer." When surf's down, Ochs explained, he will continue as west coast editor of Crawdaddy. He is also working to complete a book ". . . on the industry."

## Stax Plays Up Peebles' Show

NEW YORK — On the heels of Melvin Van Peebles' new hit Broadway musical comedy, "Don't Play Us Cheap," the Stax Organization plans an extensive merchandising and marketing campaign in conjunction with the release of the original cast album.

Al Bell, exec vice president of Stax Records and chairman of the board of the Stax Organization, said that the show "delineates a positive ethnic culture for Black people in America and that it will be the orientation of Stax to make the album not only a commercial success but an eventual permanent item for libraries and schools."

"The Stax Organization," he continued, "will not only gear its entire sales and promotion staff to the selling and exposure of the album, but we firmly believe that the music, lyrics and book will become a part of Black culture and history."

Bell cited the past successes of shows on Broadway with an ethnic background and which have since become an important part of various cultures.

"'Don't Play Us Cheap,' in the opinion of Stax," Bell continued, "may be the beginning of an entire new force in cultural Democracy in America."

In line with Stax' program, the company has also rushed 8-track and cassette versions of "Don't Play Us Cheap" into the market place. The album is expected to be shipped this week.

Stax expects to provide a number of point-of-purchase material as well as promo and exploitation mailers to disk jockeys, record stores, rack jobbers, program managers and music critics and writers.

In addition, Stax is currently investigating and developing the Show's feasibility of the African, South American, European and Far East markets.

## Pickwick/33 Movie Theme Promo

WOODBURY, N.Y. — Pickwick/33 plans for an extensive promo campaign, "Movie Themes '72," designed "Shaft" all of which are in national to back up the company's new releases and extensive recent catalog of music from hit movies.

"The Godfather," "A Clockwork Orange," "Flick Themes '72" and "Godspell" are the new additions to an active movie theme catalog that already includes "Bangla Desh," "Fiddler on the Roof," "Love Story" and "Shaft" all of which are in national distribution currently. The 1971 best selling economy LP, "Jesus Christ Superstar" and music from "Hair" are included in the "Movie Themes '72" promo due to the new interest generated by both shows going into movie production. Theme music from "Midnight Cowboy" has been included on the basis of its continuing popularity with buyers.

"Movie Themes '72" includes a black and white 100 unit floor mer-

chandiser designed to capitalize on the high impulse opportunity generated by the film albums. Hard-sell window streamers and specially prepared advertising aides are included in the promo package.

"Our new releases," stated Rick Lionetti, marketing director, "plus a strong film LP catalog, provides opportunity for retailers to prosper along with the excitement of the movie industry today. We intend to give our dealers every aide to that prosperity."

8 LP's, 5 Tapes

WOODBURY, N.Y. — A strong emphasis on hit films and major names highlights the summer album and tape release on the Pickwick/33 label now going into immediate release.

The LP's are "Cabaret" by Sandler & Young, "How About You?" by Shirley Bassey, "Bummin' Around" by Jimmy Dean, The Charley Pride Song Book sung by The Quinn Brothers and albums of Gospel, Clockwork Orange, The Godfather and an LP titled "Flick Themes '72" that includes "Summer of '42," "Fiddler On The Roof," "Theme From Shaft," among other hit themes.

The tapes being released at the same time are "Clockwork Orange," "Godfather," "Flick Themes '72," "Winnie The Pooh" and "Too Hot To Handle" by Ike and Tina Turner. A special floor merchandiser rack holding 100 albums will be part of the in-store display material being utilized by Pickwick for their Summer of '72 promotions.

"We've been coming up with a continuous flow of really excellent product and we intend to maintain a steady level of promotion and in-store merchandising as well," said Richard Lionetti, director of marketing for Pickwick/33.

## Osmonds Sick; Cancel 2 Dates

NEW YORK — Illness has forced the Osmonds off the concert trail for at least a month, causing cancellation of two of five dates—in Montreal and Ottawa—scheduled over the Memorial Day holiday. These would have followed sell-out appearances in Indianapolis, Detroit and Philadelphia, where the group played to an aggregate 38,214 people and grossed a total \$205,788.

Alan Osmond, 22, oldest of the performing brothers, collapsed while leaving the Philadelphia Spectrum stage after the midday show there on May 29. He and brother Merrill, 19, are reported suffering from a low-grade virus, complicated by fatigue resulting from a two-week schedule that included headlining a Royal Command Performance in London and a European debut over French television.

The entire Osmond family was flown direct to its Ogden, Utah, home immediately after the Philadelphia date and will stay there for a complete rest, according to the Osmond's personal manager, Ed Leffler.

THE GANG'S ALL HERE—The Songwriters Hall of Fame second annual awards banquet, held Monday (15) at the Americana in New York, drew a heavy assemblage of names in the popular music world. Most of the 31 major composers elected to the Hall of Fame were present to receive their awards in person. In addition, scores of others, including a number of last year's Hall of Fame entrants, also attended. Some are pictured in the following photos: (Back row:) Mitchell Parish, Harold Orlob, Hal David, Sammy Fain, Sheldon Harnick, Burton Lane, Sammy Cahn, Carl Sigman, unidentified acceptor, Joe Meyer, Harold Arlen; Front row (starting to left of Parish): Abe Olman, Harold Adamson, Stanley Adams, Paul Francis Webster, Dorothy Fields, Andy Razaf (in wheelchair), J. Fred Coots, Ned Washington, Yip Harburg and Irving Caesar. Behind Coots is unidentified acceptor. Kneeling (at left) is Hall of Fame president, Johnny Mercer. Other kneeler is Jule Styne.

## CI Subsid 3-D Flicks

HOLLYWOOD — Tower Pictures, Inc. a Capitol Industries subsidiary, announced the introduction of the Space Vision cinematographic process, a three-dimensional motion picture development.

The Space Vision process incorporates the use of a patented Triopti-scope lens with a standard BNC Mitchell 35mm camera for filming. The projection is accomplished with a standard 35mm film projector and other existing projection equipment utilizing a special prism and lens device. Polarized viewing glasses are furnished by the theater.

The three dimensional effects achieved by the Space Vision process allow for the apparent existence of space and objects between the viewer and the screen, as well as on the screen. People and objects appear to be suspended in mid-air directly in front of the viewer or may float about inside the theater. The company expressed the view that this three dimensional realism exceeds in clarity any former attempts at three dimensional photography and creates new entertainment medium for motion picture viewers.

Currently the process has been demonstrated for several motion picture producers. Tower hopes shortly to announce the licensing of selected motion pictures that will be filmed using the Space Vision process.

A native New Yorker, he began his career with the Society in 1929 as an investigator for the performing rights society. A graduate of New York University, Hoffman became acting comptroller in 1937 and was named comptroller of the Society in 1939.

Also retiring on the first of June is Al Roth, chief auditor of the Society, and ASCAP's purchasing agent Jerome (Jerry) Loeb. Roth, a native of New York, is a graduate of New York Univ. and came to ASCAP in 1942 as a traveling auditor. Mrs. Ethel Robinson, executive assistant to the Society's symphonic committee since 1945, will retire on the same date. ## Consumer Director Seeks Time Listing On Tape Packages

NEW YORK — The International Tape Association received a communication from Frank E. McLaughlin, director for Industry Relations, Office of Consumer Affairs, Washington, D.C., together with a letter that McLaughlin received from Dr. Stewart M. Lee, a member of the White House Consumer Advisory Council, pertaining to printing the running time on each side of a cassette and the total running time of each cartridge.

According to Larry Finley, executive director of ITA, Dr. Lee stated in his letter, "I have been somewhat disappointed and even frustrated that prerecorded cassettes and cartridges do not list the length of whatever has been recorded. I have found that in some cases, there is quite a divergence in the time of music on an album and another on a cassette or cartridge. The consumer should know that when they buy a tape what the running time is. I have found that, especially in the classical area, that the running time of a tape was sometimes less than that on the album. I would like to see the industry be urged to include the total running time of each side of a cassette and the total running time of an 8-Track cartridge as the consumer is entitled to know this fact when they make their purchase."

ITA contacted several of its members pertaining to this problem. Bob Kornheiser, vice president of tape sales for Atlantic Records and chairman of the ITA record committee, replied that they had been listing total playing time on all tape product for the past year and that Atlantic would continue with this practice. Stan Marshall, national sales manager of Elektra Records, stated that they would immediately start printing the total running time on all new product to comply with Dr. Lee's request. Lou Dennis, director of tape operations for Warner Brothers/Reprise, said that their July releases had already been scheduled with labels already printed but they would put the program into effect starting with the August releases. The previous action by Atlantic and the present action by

## Patent Problems Between Motorola And Gates/Lear

FRANKLIN PARK, ILL. — On April 26, 1972, Motorola Inc., filed a declaratory judgment action in the Federal District Court in Wilmington, Delaware against Gates Learjet Corporation. Motorola asks that the court declare patents 3,400,227; 3,403,868; 3,437,762; and 3,560,126, owned by Gates Learjet Corporation and which pertain to cartridge type magnetic tape players be declared invalid and non-infringed by Motorola players.

Subsequently, on May 12, 1972 the Gates Rubber Company brought a patent infringement suit against Motorola Inc. in the Federal District Court in Denver, Colorado involving the same four patents which are the subject of the Delaware action. Gates Rubber Company, who does not manufacture cartridge type magnetic tape players, claims to have recently obtained title to the Gates Learjet patents, according to a company statement.

Warner Brothers/Reprise and Elektra brings the entire Kinney operation into this plan.

Bob Fead, vice president of A&M Records, stated that he felt it was a very justified request and that A&M will incorporate it with its Fall releases.

Hal Neeley, president of Starday-King, deemed Dr. Lee's request one that should be adopted by every record company and duplicator as being in the best interest of the consumer and that he would immediately put the program into effect.

Alan J. Bayley, president of GRT Corporation and a member of the board of ITA, replied with the following. "Some time ago you sent me copies of correspondence relating to request to put the running time of cassettes and cartridges on the individual labels. Some of these came from individuals, others came from members of the Consumer Advisory Council, and one in particular was from Frank E. McLaughlin in the Executive Office of the President, Office of Consumer Affairs.

We are going to respond affirmatively and are starting to put running time on all releases.

## 8 LP's, 5 Tapes In Pickwick/33 Summer Release

WOODBURY, N.Y. — A strong emphasis on hit films and major names highlights the Summer album and tape release on the Pickwick/33 label now going into immediate release. The LP's are "Cabaret" by Sandler & Young, "How About You?" by Shirley Bassey, "Bummin' Around" by Jimmy Dean, The Charley Pride Song Book sung by The Quinn Brothers and albums of Godspell, Clockwork Orange, The Godfather and an LP titled "Flick Themes '72" that includes "Summer of '42", "Fiddler On The Roof", "Theme From Shaft", and many other hit themes.

The tapes being released at the same time are Clockwork Orange, Godfather, "Flick Themes '72", Winnie The Pooh and "Too Hot To Handle" by Ike and Tina Turner. A special floor merchandiser rack holding 100 albums will be part of the in-store display material being utilized by Pickwick for their Summer of '72 promotions.

"We've been coming up with a continuous flow of really excellent product and we intend to maintain a steady level of promotion and in-store merchandising as well," said Richard Lionetti, director of marketing for Pickwick/33.

## Toshiba Releases 4-Channel Cassette

TOKYO — Toshiba Onko Co. Ltd. held a showing of its "Toshiba 4-channel R. M. cassette tape" at company headquarters May 18th. Mr. Sakai, a managing director of Toshiba, explained the history behind the cassette's development while the technical points were illustrated by a clerk.

Up to this time, according to Sakai, no 4-channel cassettes were sold due to difficulties in adopting the discrete-system on such tapes under the patent policies of Philips Co. Ltd.

"Solving these questions, we are now able to release this new product, the first 4-channel cassette tape in the world," Sakai stated.

## Ampex Quad Biz Said "Booming"

NEW YORK — Sales of discrete quadrasonic 8-track tapes should show great improvement by the end of 1972 if the first three months of the year are any indicator, his optimistic picture is being painted by Ampex Stereo Tapes which announced last week that it is "selling Quad tapes almost as fast as manufacturers are entering the equipment race to play the high-quality recordings . . . and business is looking up."

## Pop Picks

### HONKY CHATEAU—Elton John—Uni 93135

The "Rocket Man" serves up a beautifully laid back set sure to please confirmed fans and certain to make many new ones. A nice informal air pervades the proceedings as Elton, his regular companions Nigel Olsson and Dee Murray get down to some outright boogieing. Bernie Taupin once again has contributed superb lyrics—"Mellow" is one of his most delightful word gatherings to date. Jazz great Jean-Luc Ponty shows up violin in hand and Elton gets a real chance to work out on the piano. He makes the most of it. Listen to "Honky Cat," the humorous "I Think I'm Gonna Kill Myself" and the madcap "Hercules." The best Elton John record to come along.

### JAZZ BLUES FUSION—John Mayall—Polydor PD 5027

John Mayall's music has always been very close to pure jazz and on this release he gets nearer than ever before, partially due to the presence of trumpet great Blue Mitchell. Mayall's drumless experimentations have also come to an end as Ron Selico turns up to add his percussive talents. As for Mayall, he is as smooth a blues belter as ever. Album was recorded live in Boston and New York and features seven tunes, most exciting of which is a little opus called "Exercise In C Major Harmonica, Bass And Shufflers." Should become a major chart item before very long.

### THE BEST OF JERRY REED—RCA LSP—4729

From the release of his first LP, it was obvious that "The Unbelievable Guitar & Voice Of Jerry Reed" was more than just some down-home Nashville type. Now, twelve LPs and many Top 40 hits later, it is clear that Reed is an institution that knows no bounds. Here is a country boy who city folk have to listen to—no one has ever figured out how one can ignore this kind of talent. And here is a collection of tunes (10 originals, 1 standard) that have proved the point—including "When You're Hot, You're Hot," "Amos Moses" and "Ko-Ko Joe." Greased lightning, sales-wise.

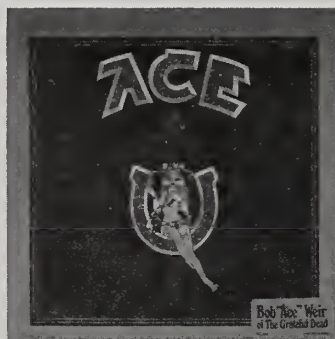

### TONY BENNETT WITH LOVE—Columbia KC 31460

This is a soft-lights-and-sweet-music Bennett, featuring only two swingers ("The Riviera" and "Love"). Accompanied by the arrangements and direction of Robert Farnon, the songster has revived some worthy standards like "Remind Me" and "Easy Come, Easy Go" and brings out the evergreen look of "Maybe This Time," the Kander-Ebb ballad from the film version of "Cabaret." An awfully nice throw-back to the mood era of vocal albums.

### ACE—Bob Weir—Warner Bros. 2627

After being an ace up the sleeve for too many years, Bob Weir is finally in full view with a winning hand. Specializing in kinetic rhythm guitar and soulful vocals, Weir has been the driving force behind the Grateful Dead since the group started. But being a driving force behind a group has not allowed Weir as much exposure up front as he needed to communicate his highly individual set of talents. He gets this exposure in the eight songs on this album, backed by many of the Dead, but within the context of his songs and personalized direction. The mood ranges from the deeply touching "Looks Like Rain" to the Mariachi-style "Mexicali Blues" to the super-rocking "One More Saturday Night."

### REST IN PEACE—Steppenwolf—Dunhill DSX 50124

This is not a greatest hits album but an assortment of cuts from a number of Steppenwolf LP's. Off their revolutionary first record there are "Everybody's Next One," "The Ostrich," "Your Wall's Too High" and "Desperation." The "Steppenwolf The Second" set is well represented by "None Of Your Doing" and "Don't Step On The Grass, Sam." If you subscribe to the second time around theory, you'll want to pick on this album.

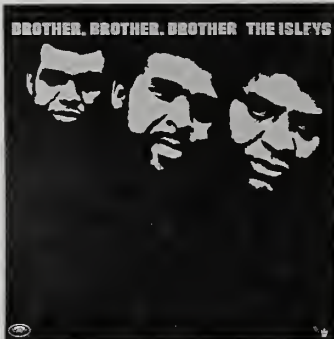

### LOVE THEME FROM 'THE GODFATHER' (SPEAK SOFTLY LOVE)—Ray Conniff And The Singers—Columbia KC 31473

Just the thing for a lazy afternoon is the latest collection of tunes from Ray Conniff and the gang. The title song is teamed with such recent chart items as "Hurting Each Other," "A Horse With No Name," "The First Time Ever (I Saw Your Face)," "A Cowboy's Work Is Never Done," "Precious And Few" and five more. The usual superb production job by Sruff Garrett is deserving of mention. Album just hit the chart and should move upward briskly.

### ALL TIME GREATEST HITS—Johnny Mathis—Columbia KG 31345

Over the years Johnny Mathis has truly established himself as a hitmaker of the highest calibre. This two record set is pretty much the story of how he did it. Twenty great ones here ranging from "Chances Are" and "It's Not For Me To Say" on through to "Love Theme From 'Romeo And Juliet'" and "Where Do I Begin ('Love Story')." Nice to have all these numbers all in one place.

### BROTHER, BROTHER, BROTHER—The Isleys—T-Neck TNS 3009

You can usually depend on the Isley Brothers to come through with a good R&B album and with this release they have not let anyone down. Carole King is well represented here via versions of "Brother, Brother," "It's Too Late" and "Sweet Season." The Brothers also pay tribute to Jackie DeShannon with a solidly swinging "Put A Little Love In Your Heart." Also on the bill of fare: the trio's recent single, "Lay Away" and their latest, "Pop That Thang." Three more tunes round out the show.

### DON'T PLAY US CHEAP—Original Cast Album—Stax STS 2-3006

Melvin Van Peebles is rapidly running out of worlds to conquer. Having achieved success as a film maker, he turned to Broadway with similarly spectacular results. "Don't Play Us Cheap" is a hit and when you hear this double LP you know why. Van Peebles has written a musical which is a genuine affirmation of life. Many musical forms—gospel, rock and jazz are a few—go into the blend which turns out so tasty. An album which is pure joy from start to finish.

## Pop Best Bets

### SUGAR—Original Cast—United Artists 0698

"Sugar" is the successful Broadway re-make of "Some Like It Hot." On disk, it has to depend on the Jule Styne/Bob Merrill songs, which is asking a lot. It's just that Styne's melodies are often hard to find, and Merrill's lyrics add little to his solid career. The boys did far, far better with "Funny Girl." There is, however, a nice old-fashioned musical comedy sound to the Mitch Miller-produced session.

### THE NIGHT IS STILL YOUNG—Sha Na Na—Kama Sutra KSBS 2050

"Greased and ready to kick ass" goes the introduction to Sha Na Na when they appear in person. But who can believe it? This bunch is likeable and pure put-on. Except of course when they get around to doing some of their own material, something they have taken on their last couple of albums. This set is a generous mixture of new things and their patented rock revivals. Try "Sea Cruise" and "Sunday Morning Radio" and for the best of both worlds.

**HOLLYWOOD** (Cont'd. from Page 25)

Etai Island have been scheduled, according to a KVI press release. Columbia is recording a version of "Man of La Mancha," starring **Jim Nabors, Marilyn Horne, Richard Tucker, Jack Gilford** and **Ron Husman**. **Tom Shepard** produced, with **Paul Weston** doing the arranging and conducting. Package is presumably a further step in the series beginning with the **Doris Day-Robert Goulet** "Annie Get Your Gun" of a few years ago, or of the Reprise Repertory Theater, perhaps. . .

We have been promised an exclusive preview of the upcoming **Python Lee Jackson** album by Youngblood Productions' **Micki Dallan**. The answer to that question you're been asking, regarding the single, is "yes." More information, including Python Lee's real identity (he's not the singer) upcoming.

**Don Garrett** phoned us with this exclusive: **Bob Cowsill** and his wife have produced a new hit, "Jason Lloyd Cowsill." Plans for him to join the group are still tentative.

**Lita Eliscu**, with more enthusiasm per pound than practically anyone we have ever met, tells us that the **Eagles** will be touring with **Jethro Tull** and **Jo Jo Gunne** with **Alice Cooper**, both in July. **Jackson Browne** is putting a band together, and the upcoming **John David Souther** LP on Asylum is "really super-beautiful."

And, finally, thanks to Jackie. It was very nice, and much appreciated. t. e.

**NEW YORK** (Cont'd from Page 25)

**PASSING REMARKS**—Capricorn Records has recently released new albums by two new groups. The groups are the **Eric Quincy Tate Group**, whose first album is entitled "Drinking Man's Friend" and **Maxayn** (featuring **Maxayn Lewis**) whose first album is entitled simply, "Maxayn" . . . July will see two more releases, **Captain Beyond** (featuring **Rod Evans, Lee Dorman, Rhino, and Bobby Caldwell**); and **White Witch**. . . The group recorded at Muscle Shoals Sound, and Capricorn Sound, with **Eddie Offord** producing.

**Neil Diamond** has contributed \$3,000 to Phoenix House. The donation, a portion of the proceeds from Diamond's recent U.S. tour, was derived from the sale of souvenir programs. A similar amount has been donated to the Los Angeles Free Clinic . . . **Temptations** set to release a new single entitled "Mother Nature." Disk was produced by **Norman Whitfield** who also produced the Temps "Take A Look Around" single, and "Solid Rock" LP . . . Original film soundtrack to "Hammersmith Is Out" will be released in early June via Capitol. Music was composed by **Dominic Frontiere** with lyrics by **Sally Stevens**. Film stars **Richard Burton, Liz Taylor, Peter Ustinov** (who also directed), and **Beau Bridges**. Film was written by **Stanford Whitmore** and was produced by **Alex Lucas** . . . The new **Osmonds** single, "Hold Her Tight," is being released this week by **MGM**. Tune was written by **Alan, Wayne & Merrill Osmond**.

**Three Dog Night** will begin their next major U.S. tour on Fri. June 16 at the Rubber Bowl in Akron, Ohio. Also appearing on the same bill will be **The James Gang** . . . New single from **Poco**, "Good Feeling" set for release next week. Single is also title tune from group's forthcoming album. **Poco** returns to New York for two dates at Schaffer Central Park Festival on Aug. 26 & 27 . . . **Bette Midler** returns to Carnegie Hall on June 23. Don't miss her . . . **Jethro Tull** after four album releases, have finally earned the number one position on the **Cash Box** charts for their fifth, "Thick As A Brick" effort . . . **Blood, Sweat & Tears** are debuting their new group in Boston on June 16. New album product set to follow shortly . . . Upcoming singles to watch: "Take It Easy," (**Eagles**); "Beautiful Sunday" (**Daniel Boone**); "I'm Comin' Home" (**Stories**); "After Midnight" (**J. **Shoot 'Em Up Photography** is celebrating its half year birthday. The photography company that services the trades includes amongst its many clients, **Lighthouse and Raspberries, The Peer Southern Organization, Poppy Records, The Record Plant and Ultra Sonic Recording Studios**. Happy birthday . . . Interesting interview with **Pete Townshend** appears in current issue of **Guitar Player Magazine**. In it Pete reveals that he's gone through some three thousand guitars in his professional career. Well worth reading . . . Big question of the week is: **Will West, Bruce & Laing** ever get around to recording an album? And if so, with which label?

A party is a party, right?—wrong! In what amounted to one of the biggest surprises of the industry, **The Buddah Group** held a press party for **NRBQ** at the Village Gate on Wednesday evening, May 31, and the turnout was amazing. The Gate was filled to capacity as more than 700 turned out to eat the all Italian food dinner especially home cooked by parents and friends of the band. What's even more amazing was that at least 500 remained to hear the group perform. At most parties, it's usually eat and run.

Rumor has it that **Alice Cooper** will do **Flash** one better. New album set for release is supposedly packaged in a pair of panties! Try that on for size . . . **The Four Seasons** debut album for **Mowest Records** is really fine. Don't turn off to it because of their previous sound. **Motown** studio musicians have added their incredible talents to this package.

**The Where Are They Now Department:** **Alive 'N Kickin', Little Peggy March, J. Frank Wilson & The Cavaliers, The Mermaids, The Midnighters, Randy & The Rainbows, Dee Clark, Major Lance, Every Mothers Son, Diane Renay, The Cyrkle, Toni Fisher, Gayle Garnett, The Rockyfellers, Johnny Burnette, John Fred & The Playboy Band**. Just to let you know that we haven't forgotten!

**BUZZY—Buzzy Linhart—Kama Sutra 2053**

Here we have the essence of **Buzzy Linhart**, but finally in a commercial package. **Buzzy** has been steadily building a loyal following over the years with his own special brand of rock-blues-jazz-folk-scat-Buzzy music, but this following has always seemed to evolve from live performances. Placing his live style on disk did not serve to capture the record crowd who were unexpected to his live sets. But with this album, **Buzzy** has mastered the art of the recorded song, delivering concise and clear capsules that are as digestible as American apple pie. Listen to "You Got What It Takes" and "Tornado" and see what we mean.

**THE FIRST TIME EVER (I SAW YOUR FACE)—Vikki Carr—Columbia KC 31453**

Talented thrush returns with another stunning assortment of contemporary tunes. The beautiful **Ewan MacColl** piece which gives the album its name is rapidly becoming the most covered song of the year but **Vikki** does a nice job on it. Other choice cuts include "Song Sung Blue," "(Last Night) I Didn't Get To Sleep At All," "Help Me Make It Through The Night" and "Gypsies, Tramps And Thieves." **MOR** programmers will have a field day.

**THE JOHNSTONS—Mercury SRM 1-640**

Now a duo and on Mercury, this Irish group now residing in England continues to write and perform a wide range of pleasing and thought-provoking material. They capture a weltanschauung seen through a picture window on a "Continental Trailways Bus" (their current single), the pseudo-hipness of all too many of us on the Weill-ish "Bread And Wine" and the mixed feelings of being a "Border Child" with both musical and lyrical precision. The album was produced by **Adrienne Johnston's** husband, **Chris McCloud** who also wrote much of the fine material. Co-ordination of an artful ensemble of musicians (strings, horns and flute) by the masterful **Don Fraser** add the fine finishing touches.

**THE GREAT AMERICAN SONGBOOK—Carmen McRae—Atlantic SD 2-904**

A doubly-fine double album, not only because we get so much of **Carmen**, but also because it's all up-front. Recorded live at **Donte's** with a piano-guitar-bass drums quartet behind her, she is at her very best on a collection of tunes well defined collectively by the set's title. From the standards like "I Only Have Eyes For You" and "Three Little Words" to more contemporary material like **Michel Legrand's** "What Are You Doing The Rest Of Your Life" and **Leon Russell's** "A Song For You," this is truly **Carmen** coming into her own and staying there. A voice for all tunes and all time.

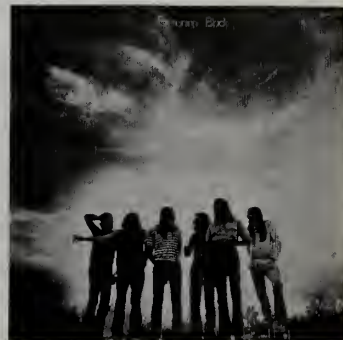

**THE CRYSTAL MANSION—Rare Earth R540L**

**The Crystal Mansion** play a kind of soft rock which is appealing and downright contagious. Just one listen to the items like "There Always Will Be More," "Somebody Oughta Turn Your Head Around" and "Let Me Get Straight Again" is about all it takes to have you humming right along. Horn and string arrangements by **Al Gorgoni** have given an added fullness to the proceedings and this is most welcome. Tasty and tuneful offering all the way.

**GERONIMO BLACK—Uni 73132**

This new six man group fuses elements of rock, jazz and classical music with some extremely exciting results. On the cuts where **Jimmy Carl Black** handles the lead vocal chores there is the additional frenzy of a first rate singer working out. "An American National Anthem" is a controversial piece which packs a punch. "Siesta" is a fascinating instrumental excursion. There's a lot going on in the grooves of this disk and much of it is well worth listening to.

# C & W Singles Reviews

## Picks of the Week

### JOHNNY PAYCHECK (Epic 10876)

Love Is A Good Thing (2:42) (Jack & Bill, ASCAP—J. Foster, B. Rice)

With a melody that is tailor-made for Johnny Paycheck's distinctive and different vocal phrasing, this Foster & Rice tune is given a very tasty arrangement with hot commercial possibilities. Flip: no info available.

### TONY BOOTH (Capitol 3356)

A Whole Lot Of Somethin' (2:27) (Blue Book, BMI—B. Alan)

Tony Booth has a whole lot of somethin' when it comes to talent. Glossy vocals and a bouncy arrangement spell a solid followup for "The Key's In The Mailbox". Flip: "Nobody's Fool But Yours" (2:24) (Blue Book, BMI—B. Owens).

### TEX RITTER (Capitol 3357)

Lorena (2:20) (Sage & Sand, SESAC—C. Williams)

Originally a popular Civil War ballad about a soldier reading a letter from his lover, this song was re-written by Charlie Williams for a potent contemporary version by Tex Ritter which proves that both love and war are truly timeless. Flip: "The Keeper Of The Key" (2:40) (Vidor, BMI—Howard, Devine, Guynes, Stewart).

### JOHNNY RUSSELL (RCA 0729)

Rain Falling On Me (1:54) (Husky, BMI—J. Peppers)

The bright energy that Johnny Russell puts into this uptempo tune should command considerable airplay, even on sunny days! Flip: "I'll Cry To That" (2:23) (Glaser, BMI—J. Russell, L. Watts).

### THE KENDALLS (Dot 17422)

Everything I Own (2:57) (Screen Gems-Columbia, BMI—D. Gates)

The Kendalls forward a smooth country version of the pop hit by Bread's leader, David Gates. The family harmonies and steel guitar could make this a hit all over again. Flip: "Big Silver Jet" (2:39) (Tomake/Famous, ASCAP—J. Kendall).

### BILL RICE (Epic 10877)

Something To Call Mine (2:28) (Jack & Bill, ASCAP—B. Rice, J. Foster)

This is a very strong sound, from many different angles—the melody is unforgettable, the arrangement is immaculate and the vocals put the top on a very effective lyric and mood. Flip: no info available.

### CHARLIE WALKER (RCA 0730)

I Don't Mind Goin' Under (If It'll Get Me Over You) (2:09) (Hill & Range/Blue Crest, BMI—D. Owens, D. Frazier)

This Doodle Owens-Dallas Frazier song has a strange viewpoint of the blues, which receives empathetic and enjoyable interpretation from Charlie Walker. Flip: "Honky Tonk Heart" (2:48) (Hill & Range, BMI—R.C. Smith).

## United Talent Expands With Griff, Jones, Phillips & White

NASHVILLE — One of country music's youngest booking agencies, United Talent, Inc., based in Nashville, has announced the addition of four new artists to their roster. Joining the Loretta Lynn/Conway Twitty owned agency are Ray Griff, Anthony Armstrong Jones, Stu Phillips and L. E. White.

Ray Griff, a Canadian, is a songwriter, artist, and business executive. His songs have been recorded by many artists; as an entertainer he has been seen on syndicated tv shows, the Grand Ole Opry and is co-owner of Blue Echo, Blue Band, and Blue Mist publishing companies. As an artist, some of his hit recordings are "Patches" and "The Morning After Baby Let Me Down."

Anthony Armstrong Jones, a Chart Records artist, is one of the best examples of the new movement in country music. Some of his top rec-

ords are "Sweet Caroline," "Sugar In The Flowers," and his current "It's A Crying Shame."

Stu Phillips, also from Canada, a regular member of the Grand Ole Opry, has been called "the Traveling Balladeer." Sometimes compared to the late Jim Reeves, one of Stu's biggest hits, "Juanita Jones," was recorded for the RCA label.

L. E. White, a country songwriter, penned "I Love You More Today," "To See My Angel Cry," and "After The Fire Is Gone," all #1 hits for Conway and Loretta. L. E. has had approximately 75 songs recorded—27 by Conway Twitty in the past two years, and manages Twitty Bird Publishing Co.

The agency, which is less than a year old, was formed by Loretta and Conway in order to be able to oversee their own bookings more closely, is managed by Jimmy Jay.

## Kitty Wells' Surprise Lunch

NASHVILLE — Nashville's music industry, city officials, and civic leaders gathered recently at the Commerce Union Bank to honor Kitty Wells, with a surprise anniversary luncheon and award presentation.

Currently celebrating her twentieth year as a recording artist with Decca Records of MCA, Kitty was overwhelmed when Vince Cosgrave of MCA's west coast office presented her with a gold record in appreciation of selling over one million copies of "It Wasn't God Who Made Honky Tonk Angels."

Miss Wells, who has a lifetime recording contract with Decca, came out of an early retirement in 1952 to record "It Wasn't God Who Made Honky Tonk Angels," which was an "answer song" to Hank Thompson's version of "Wild Side of Life." Recorded at the Castle Studio, located in Nashville's old Tulane Hotel, the record sold over 500,000 copies the first six months after its release and remained the number one selling record throughout the world for over one year.

"Honky Tonk Angel" was produced by Owen Bradley, an assistant A&R man for Decca at that time, and featured only four musicians—Paul Warren, Shot Jackson, Johnny Wright and Jack Anglin. Since then, Bradley has produced every Kitty Wells record made. (During the past

## Linton Benefit For McGovern

GRAND ISLAND, NEB. — The Sherwin Linton Show, featuring Sherwin Linton, traveled to Grand Island, Nebraska on Saturday, May 6, where the entire show's cast played a special benefit performance for the 'whistle-stop' rally at which Senator George McGovern appeared before the thousands of Nebraskan voters who turned out in a chilling rain to hear Senator McGovern speak along the 'whistle-stop' route.

Sherwin was personally greeted by Senator McGovern, who was deeply moved by an original McGovern campaign song which Sherwin had written especially for the occasion, and one which Mr. McGovern had requested of Sherwin to record for possible national use.

Sherwin Linton, a South Dakota born recording artist, is based out of Minneapolis, Minnesota . . . and is the owner of his own record company, Black Gold Records of Minneapolis, where he operates his own publishing company and talent agency, Linton Music and Rustic Royalty Talents . . . Which, when formed together, make up the combine of the Sherwin Linton Entertainment Enterprises.

twenty years, Kitty Wells record sales have averaged over one million a year.) A gold record was also awarded to Bradley at the luncheon by Decca officials.

## Country Artist of the Week:

### FERLIN HUSKY

PRIDE OF FLAT RIVER—Since Terry Preston, the pride of Flat River, Missouri, dropped the pseudonym and hit it big with "Gone" under his real name of Ferlin Husky there's been no stopping his string of hits. Even his alter ego, Simon Crum, cartwheeled up the charts with his disk of "Country Music Is Here To Stay". Every performance, whether in a recording session or on stage, must be a polished one, which accounts for his many hits which include "Wings Of A Dove", "Timber, I'm Falling", "White Fences and Evergreen Trees", "Just For You", "One More Time", "Sweet Misery", "Open Up The Book", and his present chart climbing hit, "Just Plain Lonely" and many others. Ferlin has sold in the neighborhood of 20-million disks worldwide.

For many years Ferlin was a regular of the Grand Ole Opry, but demands on his time became so great he gave up the Opry to devote more time to road shows, television, and motion picture work.

Husky and his show have traveled around the world, performing in Germany, England, Japan, the Orient, and all fifty states. He has appeared in more than eight motion pictures with stars such as Zsa Zsa Gabor, Jayne Mansfield, Mamie Van Doren, Joi Lansing, and John Carradine.

During his tv network shows, Ferlin has shared billing with such personalities as Ed Sullivan, Steve Allen, Mike Douglas, Arthur Godfrey, Patti Page, Perry Como, Roger Miller, Eddy Arnold and Jimmy Dean.

Simon Crum, Ferlin's alter-ego, is boisterous, impish, a definite "hay seed" type whose slow talking fashion is exceeded only a tad by excessive laziness. Crum is the epitome of country bumpkins. Ferlin uses Simon for comic relief in his act—and it is usually Simon who ends up with the blame for an occasional missed cue or an out of tune guitar string. When Simon and Ferlin "get into it"—which is just about every performance—there are no holds barred.

Ferlin Husky is produced by independent producer Bill Walker for Capitol Records, with personal management by Van Barker.

Tammy Wynette says, "Reach Out Your Hand" . . . Sunday, June 11 will find the Porter Wagoner Show with Dolly Parton at the Buck Lake Ranch, the home of Country Festival USA, in Angola, Indiana . . . Familiar names to country music fans for years, the husband-wife duet of Carl and Pearl Butler have joined Buddy Lee Attractions in representation for bookings. Following an early career in Knoxville, Tennessee and the east Tennessee area, Carl and Pearl experimented with their first duet recording, "Don't Let Me Cross Over," which was a smash million seller that launched an impressive string of hits on Columbia Records and brought the pair to the Grand Ole Opry and Nashville. Carl and Pearl have recently signed with Chart Records.

Roger Jaudon, booking agent for Buddy Lee Attractions, Inc. in Nashville, has recently been assigned the position of executive vice president of

the talent sales organization. Jaudon will manage sales operations and activities of the eight booking agents at Buddy Lee Attractions, and act as liaison between artists and agents . . . Bobby G. Rice, young talent in the Nashville music community, has been welcomed as a new artist for Buddy Lee Attractions. Bobby earned a solid country music background with his own band in the Wisconsin area before coming to Nashville to improve his writing and singing opportunities. Immediately after signing with Royal American Records, Bobby's recordings of "Sugar Shack," "Hey Baby," and "Lover Please" reached high national chart positions making Bobby G. Rice an "in-demand" act for bookings.

The Colorado Country Music Festival will celebrate its tenth year in celebration of Colorado Country Music Week, June 5 thru 10. Headquarters will be the Four Seasons Club,

14-401 E. Colfax, Aurora, Colorado. Gladys Hart is founder and director of the Colorado Country Music Assoc. . . . A joint announcement by Tom T. Hall and Margaret Patterson, his fan club president, revealed the imminent publication of a newsletter for his fan club members. Mrs. Patterson was selected as president of the new Tom T. Hall Fan Club just prior to the opening of the First International Country Music Fan Fair held in Nashville this past month at the municipal auditorium. The club is already nearing a hundred members.

Missing from the Hee-Haw show this season will be "The Culhanes," which Sam Lovullo, producer, said was being shelved, despite its tremendous audience appeal, until Lulu Roman gets her court problems solved and comes back to the cast. At that time, the Culhane skit will be reinstated . . . Two syndicated gospel music television shows are now taped

in Nashville in the studios of WSIX-TV with the Blackwood Family Show being the newest to be produced in Music City. Show Biz owns and distributes the Gospel Singing Jubilee, winner of two Dove Awards, which has been televised since 1960. Les Beasley of the Florida Boys is producer with Robert Hafner, director. This "team" has produced the show for the past five years. Gospel Singing Jubilee features the Florida Boys and the Happy Goodman Family with most other major gospel groups appearing as guests. The show is currently presented on more than 70 stations, according to Show Biz officials. The show is 60 minutes in length.

Charlie McCoy, Monument artist who is currently enjoying hit status with his single and album, "Today I Started Loving You Again," played the National Anthem on his harmonica when the Pittsburgh Pirates played Philadelphia Friday night, May 26.

### White Lightnin' Sets Euro Tour

**NEW YORK** — White Lightnin', the country trio from Ashville, North Carolina, are set for a major European tour beginning Aug. 5 at London's Wembley Stadium. Byard Ray, Obray Ramsey and David Shelton, who are White Lightnin', will go through France, Sweden and Germany playing several major festivals and concerts in each country. Their appearances will be filmed for use in a special feature on American country music in Europe.

The tour arrangements are being handled by Tony Hayes of Anglo-American Attractions in London in conjunction with White Lightnin's manager, Arthur Gorson. All foreign publicity material and information will be coordinated through Mac McIntire of M.G.A. Publicity in London.

White Lightnin', who have recorded several albums together, received attention last year with the release of its Polydor album, "Fresh Air," playing with such artists as Paul Harris Harvey Brooks, and Judy Collins. As a result of the release of "Fresh Air", Byard and Obray were offered roles acting as well as playing in the rock western "Zachariah" and are featured on the film's soundtrack album.

Immediate plans for White Lightnin' are to record its next LP before the tour begins.

**SINGLE FOR TRIO**—CBS staffers Paul Merry, Mike Altshuler and Lon Goddard greet guests at reception to launch New Riders of the Purple Sage via a single "I Don't Need No Doctor" (no comment) and album "Power Glide". Needless to say, the setting was the London Zoo.

### Hallyday Sets English Album Out Of H'wood

**LONDON** — French star Johnny Hallyday will spend a month in Los Angeles from the end of Sept. recording his first LP in English. Ike Turner will be its co-producer and is writing some songs for the album.

Hallyday, in London recording with his new singing protege, Mississippi-born Nanette Workman, said that the album may be released in the States by A&M if negotiations on a contract release for the LP with Philips are successful. He may be starring in a film with Dennis Hopper next year.

Hallyday stars an 86-show touring stint in France on June 17, heading a package called "The H Village Circus," running through to Sept. 15, playing one show per venue and moving on in traditional circus style. Nanette Workman will star in the first half of the concert part of the package, and then will be joined by Madeline Bell to back Hallyday's second half showcase.

He is recording Nanette as a solo act for his JH Production venture.

Following the concert, there will be a special reception at Place des Arts. Canadian media will be invited to this event.

On Tuesday morning, the guests will proceed to Toronto in two special coaches attached to the Lakeshore train.

A cocktail party will take place in Toronto prior to Maple Music Spectacular No. 2 at Massey Hall. The talent lineup consists of Gary Buck, Bruce Cockburn, Perth County Conspiracy, Fergus, Christopher Kearney, the Mercey Brothers and Murray McLachlan.

A continental breakfast will be served at Manta Sound Studios on the morning of June 7, to be followed by a buffet lunch tour and film showing at Ontario Place.

The official Maple Music Junket dinner will precede Maple Music Spectacular No. 3, with appearances by April Wine, Chilliwack, Crowbar, Edward Bear, Fludd, Lighthouse and Mashmakan.

On the day of departure, the guests will have the opportunity of meeting Maple Musicians and Composers at a special cocktail party. In the afternoon there will be time for shopping prior to boarding the CP Air charter for the flight back to Europe.

Each guest will take back copies of latest recordings by Maple Music Spectacular concert artists, along with photos and biographies and general information concerning the Canadian music scene.

All publicity material will be directed through the Maple Music Junket office, and no record companies will make direct promotional contact with the guests through the use of printed material during the course of the Junket.

The aim of the Junket is to make European media and audiences aware of the recent upsurge in Maple Music production and its success in the U.S. market.

Europe represents almost as large an export market for contemporary Canadian culture as the United States.

# Holland

Not many Dutch popgroups produce such an impressive and international sound as CBS-topgroup Topaz, their first LP "Wisse Scheper—Topaz" has just been released by CBS. The album was produced by Chris Hinze and contains unique, romantic popmusic with classical overtones, songs about love and songs about hate, songs of an exquisite poetical nature. All ten songs were written by leader, vocalist and multi-instrumentalist Wisse Scheper. Topaz certainly has all the qualities to become the next supergroup to emerge from the low countries (the first and very enthusiastic reactions from radio, tv and press-people have already confirmed to a number seven hitposition and one week later number two in the Dutch charts with their smash-hit "Hello A". The duo's superrecording was also released in Germany, (where it sold 15000 copies in two days), Switzerland and Austria. Belgium, Scandinavia and France will soon follow with this sure-number-one-hit. In the meantime Mouth and McNeal received a platinum record for the present USA-hit "How Do You Do?", sales of which exceeded the 250.000 figure in Holland.

At this moment marketing discussions about the possibilities of centralizing the total production of audio-visual systems and 8-tracks for the Benelux and France, in Weesp-Netherlands with Dureco. In this case it means the total production of the so-called "pelgrims"-concern. One will also make a set-up for the supplies of french-speaking areas in Africa, which are also controlled by the same pelgrims-concern. Some representatives from a.o. the Congo were already in Holland to talk about above-mentioned subject.

Associated Artists International acquired the representation for Holland of Ed. Musicales Start S. A. This young and fast growing company has several hits in Belgium's Top Ten, a.o. Paul Severs and Ricky Gordon. Masters of Start will be released a.o. by Dureco's "Elf Provincien" label. Hubert Terheggen of Radio Luxem-

burg made a deal with Dureco re. the release in Germany of records by Think tank.

An expansion in the classical repertoire of the French label Musidisc, which releases its records for only fl. 8,90 (appr. \$2.70), is attended with a big action for the dealers. All the possible publicity and display-material has been produced to make musidisc well-known with the public. The Chess label now will be distributed by Negram. From the repertoire of Chuck Berry and Muddy Waters Negram released two "The Best Of" records for only ten guilders (appr. \$3). The releases of the WEA labels, especially "Another Band From L.A." of the Mothers, "Bare Trees" of Fleetwood Mac, and "Sailin' Shoes" of Little Feat are showing very good sales results. Dureco's label Pink Elephant will release Polydor's Scandinavian number one hit "People In Motion", and through Disc AZ Dureco got the rights for "Kiss Me" by C. Jerome.

Promotor Lou van Rees has booked Meil Diamond for one concert in Amsterdam on June 16th. Phonogram rush released Diamond's newest single "Song Sung Blue", which is at number 6 in the Dutch charts now. British group Manfred Mann's Earth Band will be in this country from 1-3 June. This tour will be supported by a heavy press campaign. Impresario Paul Acket will organize Joe Cocker's concert in Holland on 1st July in the huge "Oude RAI" building in Amsterdam. Jerry Lee Lewis' long awaited performance at a sold-out Concertgebouw in Amsterdam proved to be a highlight in the Dutch popseason up till now. After arriving in Holland's capital Amsterdam, Phonogram's press-officer Nol van Fenema threw a well attended press-conference at the Hilton Hotel where "The Killer" joyfully greeted some 50 journalists. America and the Beach Boys both appeared in the famous Dutch tv-show "Eddy Ready Go", America with their song "I Need You" and the Beach Boys with "You Need A Mess Of Help To Stand Alone".

# Canada

Advance sales for the Jethro Tull concert at Toronto's Maple Leaf Gardens (June 4) would indicate a capacity house for the Reprise group. Kinney have launched a massive national promotion campaign to coincide with the release of the album. Kinney have also proven they can break through with Canadian product. The Whiskey Howl album on the Warner Bros. label, has become one of the hot sellers for the label. The group have stepped up their bookings which has created strong word of mouth sales for their album.

RCA have made their novelty single of the year pay off with strong album sales for "Farewell To The Greys" from which "Amazing Grace" was culled as a single. Timothy Eaton will be the next Canadian artist to release under the RCA banner. The label's a&r chief Barry Keane believes the Montreal native has much potential with his "Riverboat Ladies" deck which he wrote and is published by Dunbar Music/Mary Logan-Bmic. Dick Nolan, father of Bonnie Lou (one of RCA's youngest recording artists) has been signed to a recording contract. The Newfoundlander's first album release is entitled "Fisherman's Boy" and is expected to be released by mid-June. RCA recently hosted a party at their studios to introduce Milan Kymlicka to the radio and press. His Canadian Talent Library album, "Music By Milan" is already receiving heavy exposure on the CTL member stations.

Polydor has certified as Canadian Gold (Gold Leaf Award) the Donny Osmond set, "To You With Love". This is Osmond's second Canadian Gold for an album. The Osmonds move into Montreal (May 30); Ottawa (31) and Winnipeg (June 1). Allan Katz, the label's publicity chief, took a chance on the release of "Charlebois" on the Barclay label and

early indications have it making headway in Anglo Canada. The label's classical manager, Vas Pollakis, reports a resurgence of interest and sales in classical music in Canada. While classical represents about 7% of the Canadian music market, Deutsche Grammophon accounts for 12% of all business done by Polydor. Canadian talent is also high on the list for DGG. They have made plans to record the winner of the Montreal International Violin Competition to be held in Montreal the end of May. The big Canadian news for Polydor is the album release of "Reflections Of My Childhood" by Frank Mills. The album is now considered a top selling item and contains his current single winner, "Poor Little Fool".

Capitol have put much muscle behind their current Canadian single releases. Top of the heap is "Robbie's Song For Jesus" by Anne Murray. Christopher Kearney is beginning to show with "Loosen Up" and Edward Bear have shot ahead with "Masquerade". Aarons & Ackley are trying hard with "N.F.S." and Fergus has one of his strongest entries in "Here With You".

Pinky continues to break through in many markets with his United Artists' single "Tell Me Who". The label, working closely with their national distributor, Capitol Records, have pulled all stops in getting Pinky nationally known.

The Maple Music Junket is still showing signs of being a success in spite of the apathy of some of Canada's medium. There is however, early indication that many of the top forty radio stations in Montreal and Toronto and surrounding areas will be high on the MMJ and launch promotion campaigns to welcome the foreign reviewers and disk jockeys coming to Canada to catch, first hand, some of Canada's top talent.

### The Used Equipment Dilemma

As most machine distributors will tell you, there's a terrific shortage of good used equipment on the market today. The only answer can be that operators are holding onto their machines a great deal longer before trading them in. The problem is particularly irksome to distributors who export used merchandise overseas because the foreign buyers are pretty picky and will not take anything but first-class merchandise, even tho the shortage exists, and have no use for old equipment at all.

It's axiomatic that the longer an operator holds onto his machines, the less he'll gain at trade-in time. And today, conditions being what they are, the operator can get top-dollar for good used merchandise, so we ask: why isn't it coming in?

Perhaps the habit of holding equipment for abnormally long periods is a hangover from the recent recession but now with the return to prosperity, the practice is an economic falacy. Consider the established principles: fresher equipment on the location brings 1. higher coin; 2. better good will from customers; 3. less down-time due to worn merchandise; 4. increases the overall value of the route should a sale be on the mind. In addition, by exercising the right financial and depreciation plans, it all makes sounder economic sense to update the route equipment faster rather than slower.

Therefore, the message is that keeping machines on the route or in the shop until they die of old age helps no one, hurts everyone.

### Gottlieb Hospital Holds Elections

Scott, who is vice president and director of manufacturing and facilities for Motorola, has served on numerous committees at the hospital over the last decade. In addition to serving on the Joint Committee and the Personnel Committee, he became a member of the board in 1961, and functioned as board vice president for the past nine years.

Commenting on the future of Gottlieb Memorial Hospital, Scott stated, "Our major thrust is to maintain and improve the service the hospital provides to the surrounding communities. Our goal is to give the best patient service at the lowest possible cost. Vice Presidents elected or reelected to the Board of Governors include Dr. Milton D. Ratner, Robert H. Skamfer, and Judd A. Weinberg.

### United Shipping 'Gateway Arch' Shuffle Alley

United GATEWAY ARCH

CHICAGO — Williams Electronics, Inc., is now shipping their new United, 6-player shuffle, 'Gateway Arch'. In announcing shipments to local Williams distributors, sales manager Bill DeSelm stated, "although this standard location piece has a symbolic setting of the gateway to the old west, (Gateway Arch named after the famed St. Louis arch) this new shuffle is loaded with many exciting features; and operators will discover that it's a profit producer regardless of the location area."

There are 5 exciting ways to play, 'Gateway Arch' including, Roto—Strike 90—Regulation—Red Roto and Flash. Beer Frames are optional and frames are adjustable (3rd, 5th & 8th).

This sleekly styled and colorfully designed shuffle is 2½' wide, 8½' long and an instruction manual is included in each game. Although the game is available in many coin combinations, Bill DeSelm suggests that 2/25¢ play is the profit way. And, all the popular easy-service features exemplary of United's shuffles are incorporated to provide the ultimate in on-location performance.

The highly polished alley surface is highlighted by the scoreglass in coordinated colors and features the arch. The 6-players scoring reels are clearly indicated; also a 10-frame bowl again box centers the river and the skyline background.

"'Gateway Arch' earns more now and at trade-in time is worth much more," stated DeSelm.

**MCI Adds 10,000 Sq. Ft. to Plant**

MILWAUKEE — Dave Nutting, president of Milwaukee Coin Industries (MCI), announced the completion of a new factory wing, adding 10,000 sq. ft. to its production facility

here. The following photos of the MCI plant give us a peek into the home of the 'Desert Fox' novelty game:

Dave Nutting (seated) reviews new designs with MCI vice president Dan Winter. At right, a few of the Desert Fox's bevy of expert wiring ladies at work in their spacious new quarters.

A corner of the line where 6,000 sq. ft. are allocated for assembly and production, at left. Creating an integrated circuit system in the kind of demanding task Dewayne Knudtson, project engineer, handles with ease. Dewayne's shown at right using an oscilloscope as he "breadboards" a system.

**Wurlitzer Schools Rolling Along**

NORTH TONAWANDA — Wurlitzer music operators and their service representatives attended service seminars this month in Greenville, South Carolina; Albany, New York and Calgary, Alberta, Canada. Wurlitzer Field Service Engineers Harry Gregg, Hank Peteet, and Robert Harding were the busy instructors who acquainted those operators using the new Model 3600 Super Stars of all of the phonograph's features.

The Calgary service seminars marked another occasion this year when Wurlitzer factory personnel expert in field servicing and engineering have traveled to Canada. Since the introduction of the Model 3600 in October, Wurlitzer Field Service Engineers have been in the Vancouver, Toronto, Montreal, and Quebec City areas.

NORTH BRANFORD, CONN. — A new low-cost coin counter and sorter (shown above) has been introduced by Multi-Counter Mfg. Co., Inc. of this city. Its "fully adjustable base assures normal 300 coin a minute sorting, despite varying coin dirt conditions," the manufacturer contends. The unit is priced "under \$35.00."

**Deadline for MOA Nominations Nears**

CHICAGO — Earlier in May, MOA mailed a notice to all its members that the deadline for recommendations of candidates for their board of directors is June 16, only a couple of weeks off. Each board candidate must be a member in good standing and sponsored by five members in good standing. There will be no exceptions to the deadline so all interested parties are urged to send their recommendations to the MOA office here before the 16th.

## EASTERN FLASHES

**THE BROOKLYN BEAT**—We had a pleasant chat with **Nat Hockman**, Wurlitzer's eastern sales manager, on a recent afternoon at Musical Distributors Corp. The discussion centered mainly on the new Wurlitzer coin operated music system, a jukebox that plays tape cassette recordings, and it is called the Wurlitzer Carousel. There are several location possibilities now open to the operator, Nat says; especially in the area of background music systems and because of the flexibility of the Carousel, selling to the location should be simpler from the operators position. For example, an operator can lease the machine on a straight fee basis, and generally, the Carousel appears to be more profitable, says Nat; programming is easy and selective ranging all the way to classical music. Play pricing is easily adjusted by the operator, all he has to do to change the play per coin is simply insert pegs into a pricing keyboard inside the machine, explains Nat. Other suggested spots that previously would not have been considered are: College dormitories, barber shops, beauty salons, boutiques, laundrettes, and record shops where tapes are sold. But, again it's up to the operator to use the initiative and imagination in seeking out locations for this innovative machine, says Nat.

**TRAVELERS**—Genial Florida operator **Sol Tabb** and his charming Missus **Irene** jetted off to Israel week before last, fulfilling a dream both have shared for many years. The Tabbs will be overseas almost three weeks and will count Sweden and Italy on their itinerary, in addition to the lengthy tour of the Holy Land. Sol says business on his wide Florida route is extremely brisk. Between tourists jamming in for Disney World and the constant flow of folks resettling to the sunshine state, Tabby's buying plenty of new equipment these days to outfit new locations and beef up his existing ones. He even gave us the lowdown on a new type of location he's into—camp parks. Seems quite a few parks for the folks who dig tenting or just plain vacationing in their camper trucks are going up, and each sports a service building in the park's center, replete with laundromat, food shop and mini-arcade area. Sol normally installs several pins a table and music box in each and the campers love it. . . . Allied Leisure's sales manager **Gene Lipkin** just returned from week's sales swing to the Coast where he visited his distributors and introduced them to the hot new Sea Hunt flipper game. Gene says Advance (San Francisco) chief **Lou Wolcher** really likes the piece and sees big things in store for the ALI line. Lou is feeling fine these days and knocking down a full day's work, says Gene. . . . We finally made the trek up to Niagara Falls over Memorial Day weekend, stopping three-quarters of the way up to visit with **John and Maxine Bilotta**, dine at the legendary Zappia's Restaurant and then toured Johnny's enormous office-shop-warehouse complex on Murrey St. With all due respect to Niagara Falls, Johnny's building was the most spectacular thing we saw on the trip.

**AMICO** International chief **Morris Nahum** recently returned from a European sales trip during which he signed on as exclusive distributor for the South American territory for the world famous amusement ride manufacturer SOLI of Reggio Emilia, Italy. Morris also gained exclusive distribution, again for South America, of the Pinfari roller coaster ride. Pinfari is reputed to be world's largest makers of the fabled ride. Morris also revealed he's been elected to the Bnai Zion (Manhattan region) board of directors. Congrats.

**Mondial International's Dick Sarkisian** proudly notes the firm is celebrating its 20th year in the amusement game export business this year. Firm, founded by **Suren Fesjian**, is one of the industry's most influential exporters of new games to the foreign markets. . . . U.S. Billiards sales manager **Len Schneller** putting in lots of road mileage visiting his distributors across the land these last couple of months. Len likes to join the distributors in their visits to operate companies and talk about the coin table business. He also advises that both Pepper and Aristocrat table lines are moving briskly. . . . American Shuffleboard chief **Nick Melone** advises that important distribution announcement will be forthcoming, noting exclusive sales of his coin and recreation product line in Europe thru the offices of one of our big jukebox factories. Meantime, at home, sales on their coin-tables and shuffleboard's with coin-control mechanism are still "fabulous", with plenty of back-orders staring the production line guys in the face.

**Rowe International**, we learn, is now making a limited run of electronic dart games at its Grand Rapids plant, exclusively for the use of their distributors in this country. . . . **Shirley Werner**, secretary of the New York State Operators Guild, advises that the organization's June meeting will take place June 21st at the Woronock House on Rt. 376 in Wappingers Falls. Usual 7:30 PM start-mark. . . . Couple of new table soccer games are about to come onto the coin market from two of our biggest coin table manufacturers. Samples are already out to certain distributors.

## CHICAGO CHATTER

**Williams Electronics Inc.**, this past week, officially unveiled the new United 6-player shuffle alley called "Gateway Arch" which operators can see at their local Williams' distrib showroom. It's a beautifully designed piece of equipment offering players "five exciting ways to play"—and it's available for immediate delivery!

**THE RECENT MEMORIAL DAY** weekend marked the traditional opening of some 400 American amusement parks from coast to coast. It was reported by the International Association of Amusement Parks & Attractions that more than 200 million patrons visited these centers during last year's season! . . . IAAPA further notes that a new, multi-million dollar amusement complex opened on May 27, just north of Cincinnati in Kings Mills, Ohio. Called Kings Island, the center offers the traditional parks fare plus many extras including a hotel, campsites, golf courses and a theater. Attraction's outstanding landmarks are a 33-story replica of the Eiffel Tower and a huge animated fountain, The Royal Fountain, which is considered to be the largest in the country.

**SPOKE BRIEFLY WITH Chuck Arnold** at the busy Chicago Dynamic Ind. factory where hot and heavy action continues on "Twin Rifle" and "Super Bowl"! Chuck said they'll be wrapping up their final run on the "Monte Carlo" big ball bowler at the end of the month.

**ROCK-OLA MFG. CORP.'s George Hincker** returned to his office last Tuesday after a hectic week of covering the National Restaurant Show and attending the North and South Carolina vending convention in Myrtle Beach. He was joined at the latter event by the firm's southern field service rep **Bill Kirk** . . . The Rock-Ola factory, of course, is concentrating on current hit models, the "447", "448" and "449"!

**FROM THE DAILY PAPERS:** A recent edition of the Chicago Sun-Times has a feature story on a new vending machine which dispenses stereo tapes. Called, logically enough, the Stereo Tape Center, the machine is manufactured by Chicago-based International Automated Marketing Co. According to the article, about 400 of these machines are presently distributed across the country for placement in such locations as banks, department stores and drug stores. Article further states that the machine holds up to 220 tapes, accepts dollar bills and will eventually be equipped to accept credit cards also.

**THE LOCAL IAAPA OFFICES**, formerly at 203 N. Wabash Ave., moved June 1 to 1125 Lake Street Building, Suite 204-206, Oak Park, Illinois. Phone number is (312) 524-1012.

**PRODUCTION SCHEDULES AT THE Midway Mfg. Co.** Schiller Park plant center on "Bulls Eye", firm's latest (and very hot) entry, and "Flash Baseball". **Larry Berke** tells us the factory will very shortly conclude its run on "Dune Buggy".

**THE FOUR-DAY CONSUMER ELECTRONICS SHOW** will open in McCormick Place June 11, to run through the 14th. More than 300 exhibitors will utilize about 300,000 sq. ft. of space to show the various audio and video products.

# OUR NEW MINIATURE MUSICAL MINT COINS MONEY IN TIGHT PLACES.

In locations where space is a problem, the Rock-Ola 449 fits right in.

Only 31 $\frac{7}{8}$ -inches wide, the slender 449 can turn previously unusable corners into real money makers.

But just because it's slender, don't think the 449 is short on features. It's got every feature that's made Rock-Ola the industry standard.

Plus these brand new 1972 features: An all new 10-Key Numbers-In-Line Selection System and Computer Play Status Indicator that make this machine easier and more fun to operate than any previous phonograph.

A Rock Power Amplification Switch that lets you turn on booming double volume without a trace of distortion.

And just look at the styling. The sloping angles and graceful contours of the 449's daring new profile have their basis in a very practical concept called Sightline Programming. It entails getting the program deck up top where it grabs the eye and stimulates action. And slanting the deck to the optimum reading angle.

Then, the 449's design was executed in gleaming chrome, rich wood tones, and a compelling blend of light, animation, and color.

We didn't sacrifice anything in designing the 100-selection 449. It's got every feature you need to coin money in tight spots.
