Better wear gloves for this one. Junior's back with Ken Griffey Jr.'s Winning Run™ baseball.

There's bone-crunching wall crashes, super-human slides, turf-eating dive 'n' grabs (without those unsightly grass stains). Plus, there's a trading feature and new 3-D rendered ACM graphics. All served up with Ken's real-life swing (digitized for your protection).

It's as close as you can get to being Ken without having to deal with The Mariner Moose.

So put those other weak baseball games on the permanent disabled list. 'Cause this time, Ken's playing hardball.

Only for SUPER NINTENDO ENTERTAINMENT SYSTEM.
So you got robbed in the God-given-talent department. But don’t let that stop you. You have PlayStation’s 3D realism that delivers all the pressure and intensity of playing in the Big Show. You can take the field in all 28 stadiums. In arcade or simulation mode. And experience every angle of the game from the most dynamic perspectives. You’re up against 700 big leaguers playing to their real abilities based on their actual stats. So you get to whiff on Jack McDowell’s sliders.
Corkscrew yourself into the ground on Tim Wakefield's knucklers.

And hit pathetic nubbers off David Cone's split-fingered fast-balls. Then you take the hill against sticks like Albert Belle, Mo Vaughn and Cecil Fielder, who'll send you packing on the first bus back to Pawtucket. You can even track your embarrassing stats over the entire season. But no matter how many times you take a called third strike, no matter how many of your hanging curves are jacked into the next zip code, always remember: You're still loved. And that's all that's important.
No Pain, No Game!

All new mayhem moves like the shocking "hand buzzer"!

No ring can contain WWF® WrestleMania®!

More realistic wrestling action than ever—reversals, piledrivers and bodyslams!

WRESTLEMANIA®

The Arcade Game

Take wrestling to the extreme!

Be careful what you say to her, she’s hiding a crossbow under that dress.

And for the few who aren't impressed, let's not forget Shadow’s black belt in Ninjitsu, Ph.D. in computer science, and the two other X-PERTS fighting alongside who can do just as much damage.

And all three of these trained government specialists are just waiting for you to control them... pounding terrorists, torturing the ones who won't cooperate.

hacking Aqua’s computer system. All for the sake of National Security. And while you wield your X-PERTS against the bad guys, you'll be doing so with motion captured SGI rendered graphics, which means saving the free world will look better than ever... after all, just look how she turned out.

X-PERTS

Are ya tuff enuff to help the U.S. defeat the elite in soccer?

Do amazing scissor kicks.

This time soccer goes world-class at the Olympic Summer Games.

Blast bodacious banana shots.

Make unbelievable saves.

All the great national teams, including the U.S.

But if you can't beat the best in the world...

Plezzzz don't kick in the TV.

Don't be left on the sidelines.
You step on the field.

Olympic Summer Games

Feel the goosebumps???

Yer goin' for greatness in 15 Olympic events including the 100 M sprint, javelin, discus, weightlifting, archery, fencing, pole vault, swimming...and much, much more.

A giant step forward in sport with 3D 361 graphics.

A true test for the best.

Can you be the world's fastest?

for the biggest games of the year.

It's not some wild dream. It's the Olympic Summer Games.

Coming this summer to Atlanta and a video game store near you.

USGOLD SPORTS
No body’s happy about Nintendo’s springtime announcement that the Nintendo 64 (formerly the Ultra 64, formerly Project Reality) is going to be delayed until the fall. Gamers such as those whose letters appear on this page don’t want to wait another three minutes, much less another three months, after being promised that the system would be ready by the end of 1995, then by April 1996, and now by September 30. This should’ve been the summer of the N64. Instead, it’s three more months of waiting.

Gamers aren’t the only ones frustrated. Editors have been fascinated for two years with sneak peeks of the N64 and its games. We’re just as ready to review those games as you are to play ‘em.

Nintendo itself isn’t happy, either. Following two earlier delays, this postponement worsens Nintendo’s reputation as the company that can’t meet a deadline. And Nintendo can’t be pleased that many potential N64 buyers, like “Tly7672821” and “The Upset Gamer” at right,

 aren’t waiting anymore. What would’ve been Nintendo dollars now belong to Sega or Sony.

Nintendo has two compelling defenses when gamers express frustration about the delay. First, the system’s never wavered in price. The $250 figure is so tantalizing that everybody’s willing to wait a little longer, even though Sega’s running for that advantage with the new $250 Saturn price tag.

In addition, by delaying the launch, Nintendo will have more games available when the system finally does come out (up to a dozen titles by Christmas). Everybody’s willing to wait for great games, right? If you build it, they will come, won’t they?

That’s what Nintendo’s counting on. The company has already gotten encouragement from retailers, who expect the N64 to be the biggest-selling system in years. Boosted by this vote of confidence, Nintendo expects to ship more than a million N64s in the United States in 1996 (a number that dwarfs the Saturn and PlayStation launches). Remember also that September is a bigger month for sales than April because of its proximity to the holidays. Nobody likes to play the waiting game, but Nintendo figures it’s a game it’ll still win.

The Nintendo 64 Delay

I can’t believe what Nintendo did – another delay! By the time it comes out, either Sega or Sony will dominate the video game market. I’m really sorry, Nintendo, but after waiting for such a long time, I think that I will finally buy one of the other next-generation systems.

“Tly7672821”

Internet

The Unknown Gamer replies:

Nobody’s happy about the delay, but so far no other company has stepped in to dominate the market as you suggest. Read our adjacent editorial for more discussion about the wait.

I’m upset that Nintendo delayed the Nintendo 64 again. I can no longer wait until September 30. My money is now going to Sony.

“The Upset Gamer”

Seattle, WA

I will still wait for the N64 no matter when it comes out. Given Nintendo’s track record, you simply must believe that the games will be excellent, and it won’t let any low-quality games slip through. So everyone who is going out now and wasting money on a PlayStation, Saturn, or Jaguar should wait. Just give Nintendo a chance!

Dallas Reeves

Internet

The Super NES and Game Boy came out basically on time, even with some hardware flaws, but they sold great, and were (and still are) very popular. So why the Nintendo 64 delay? I’m afraid impatient gamers will go ahead and shell out the money on a Saturn or PSX. I myself am trying to be faithful, but I’m starting to believe the N64 isn’t what it’s cracked up to be.

“MadVega”

Internet

Games ’n’ Gear

In your March issue, the “Letter from the GamePros” suggested that Doom and Mortal Kombat were the two biggest forces in video games today. I believe that the popularity of MK games is an anomaly, like when bell-bottoms were popular in the 1970s. In the future, people will look back at the MK phenomenon with bewilderment. The games are just plain rubbish. Doom is the best game ever made. Its superiority is not even debatable.

S.K. Lister

Montreal, Quebec, Canada

About your “King Doom” editorial in March, I think games like Doom are much better than fighting games like MK 3. I mean, would you rather have an environment in which you are limited to jumping and attacking, or an environment like Doom’s where you can explore a virtual universe? I’ll go for a virtual universe anytime!

Geoffrey Johnson

Internet

I really liked the James Bond movie Goldeneye, and I was wondering if there would be any games based on it.

Jareem Abou-ali

Brooklyn, NY
Air Hendrix replies:
Rare, the company that developed Donkey Kong Country, is working on three Nintendo 64 games, including GoldenEye (the other two are Killer Instinct and Donkey Kong Country 3).

The Magazine Biz

I can't understand why people get so upset over the advertisements you listed in your April "Letter from the GamePros." These ads are merely trying to get your attention. If the ads don't catch your eye, they didn't do their job. Companies that make gross ads are only trying to get you to talk about them.

Ryan Sirianni
Internet

Complain Center

Have you tried selling back your old equipment to stores that deal in used merchandise? I have. I walked into Funcoland with my Sega CD and 32X, including manuals and packaging, plus 17 games, adding up to a grand total of about $900 worth. But Funcoland refused to buy back my 32X and offered me only $50 for my Sega CD! The store then set ridiculous prices for my games ($4 for Doom 2). They offered me $64 for everything with the explanation, "Well, these systems are outta style, kid. We're actually doing you a favor by buying this stuff." I'm tired of being ripped off! A related complaint: When I bought the PlayStation for $300, I then had to buy a memory card ($25), a second controller ($25), and a game ($70), bringing the grand total to $445.20 with tax. Old systems are new, I feel taken advantage of. Something must be done.

"MadMrFreeze"
Internet

Reader Report

In April we asked readers to tell us the most they'd spend on a great new game for their current system. The votes break down like this: 80 percent said $90 as their limit, and 20 percent say they'd spend $100 or more! Here's how your votes were spread out:

GAMEPRO 13 July 1996
By The Watch Dog
July already? The dog days of summer are almost here! It makes my fleas jump to think of all the work I gotta do around here during the next couple of months. Enough of my barking - let's see what we got in the kennel today from Interact and Sony.

Q: When I play a season in NBA Shoot Out, I follow the directions to save the season to my memory card, but when I go back to continue, the season is never saved. I've already returned the game three times, and none of them will save season games. What should I do? How could Sony bring out a game if they know a bug like this exists?
Wallace Hale, Columbus, OH

A: Ron at Sony's Customer Support states:
There seems to be a problem with the way the game NBA Shoot Out loads the previously saved seasons. As with NFL GameDay, you must start the game without the memory card in the the Player One slot, then go to the Season option, and select Load Season. Then insert the memory card above the Player One slot, and load the season (this is the opposite of what you're supposed to do for NHL Faceoff).

A: The Watch Dog states:
Sony never answered the question of why these things happen. It should print a disclaimer on the box that says special handling is needed.

Q: I recently bought a Game Shark for my PlayStation and it stopped working after I used it only three times! After that I couldn't get past the intro screen. Does my Game Shark have a defect, or did I do something wrong?
DeathEternal via Internet

A: A representative from Interact's Customer Service responds:
Whenever a company makes a large quantity of any item, it's bound to have a few defective units. There haven't been an abnormal amount of complaints regarding the Game Shark, but if it does arise that you have a defective Game Shark, please return it (with a letter explaining the problem) to:
Customer Service
Interact Accessories, Inc.
10945 McCormick Road
Hunt Valley, MD 21031
We will research the problem and replace any defective Sharks.

Q: In your awesome April issue, you featured a review of Resident Evil. I got the game the first week it came out and it was everything I expected it to be, but when I read your review many ProTips and strategies that pertained to the beginning of the game were wrong. What's the deal? Did Capcom change the game, or did you do this to sabotage all us gamers looking for hints to teach us all lessons? (just kiddin')

XZInca via Internet

A: The Watch Dog says:
We got a lot of questions about this review, probably because of our impeccable record for giving informative ProTips. We reviewed the copy of the game Capcom sent to us for review, which was a beta version, and the tips did change in the final boxed copy.

Other magazines, however, did strategy pieces on the game which were wrong because they also used the beta version. We did a 14-page strategy guide in June using the final boxed version of the game, and it's 100 percent accurate.

At GamePro, listening is what we do best. When you have a problem with a product or feel you've been ripped off, we want to know. If you have a complaint about a product, write to:

GamePro's Buyers Beware
P.O. Box 5828
San Mateo, CA 94402

E-mail us your product complaints through America Online or at this Internet address:
buyers_beware.gamepro@iftw.com
Last year I bought a Saturn, and enclosed was an offer for a Panzer Dragoon and music sampler CD. It's been five months since I mailed the card and I never received anything. What's going on? What can I do?

BibbD — via Internet

Sega's Customer Service spokesperson says: The sampler CDs were delayed last August, but all should have been sent by Christmas at the latest. Call 1-800-SEE SATURN (1-800-733-7288) to verify.

A:  

A week after I bought my 3DO, the PlayStation came out. The 3DO has no good games. The PlayStation and Saturn have better ones. Even the Genesis and the SNES are coming out with better games than the 3DO! Did I get ripped off?

BGhandi via Internet

A:  

The Watch Dog barks: Did you get ripped off? My question to you is: Why did you buy the 3DO if you knew there were no good games for it? In our opinion, there are some great games for the 3DO, like Return Fire and Captain Quasar, but even if those aren't your style, why buy the system?

Readers: You need to research a system and its software before spending money on it. Go to the stores and play the available games. Play a friend's games. Don't make purchases until you're sure about what you're getting, especially with systems costing up to $300.

Be sure to check "ProNews" in this issue for a story on Studio 3DO's decision to not support the 3DO platform with more titles.

A:  

You listed the music test code for Donkey Kong Country 2 (see "SWATPro," April). If you keep pressing Down when the music test option appears, you also get a menu of cheat codes. My complaint is that while you can get into the music test screen, you can't get into the cheats screen. Did Nintendo throw in that menu just to annoy gamers?

Patrick Nance via Internet

A:  

The Watch Dog states: Nintendo doesn't go out of its way to annoy gamers (unless you count the delays with the Nintendo 64). Two cheats go along with the cheat codes option that you mention, and we printed them (see "SWATPro," May). The cheats give you 50 lives and no DK barrels. According to Jen Pierce at Nintendo, these are the only cheats in DKC 2.

Q:  

Pucked up

I just bought NHL '96 for the Genesis. The back of the box says there's a special ceremony if you win the Stanley Cup. Well, I won the Cup and all I saw was just a picture of the trophy, and it tells you who won. Is this the special ceremony they were bragging about?

Jason Palmer, Pales Heights, IL

A:  

Rich Rodgers, EA Sports' associate producer on NHL '96, says: If you start the game in the standard playoff mode, you won't see the special ending. You must play a complete season, and then play through the playoffs to see the "special ceremony" (which involves the red carpet rolling out, and the players skating around with the cup).

A:  

The Watch Dog replies: Adding the words "you must play through an entire season" to the information on the box would have cleared up any questions here. Also, on EA's help line, counselors have been telling callers that the trophy screen is the ending ceremony, so this information should also help out the counselors! Thanks to Tommy Clide for researching this question through his "special" contacts.
3DO's Downhill Slide Begins

Now that 3DO sales have been surpassed by the PlayStation and Saturn, concrete signs of the 3DO's demise are emerging. Studio 3DO, the in-house software division of The 3DO Company, announced that it would no longer make games for the 3DO. "We've gone through a cycle of titles for the platform," said a 3DO spokesperson, "and given the size of the market, it doesn't make sense to continue to make 3DO games right now."

Continuing this trend, other long-time supporters of the 3DO, including Crystal Dynamics, Electronic Arts, and Interplay, also indicated that they currently had no plans to produce 3DO games. "After we release Casper for the 3DO in May, we don't have any plans at present for further 3DO products," said Genevieve Ostergard, communications manager for Interplay.

Only Panasonic Interactive Media, which is owned by Matsushita, the company that purchased 3DO's 64-bit M2 technology (see "ProNews," February), still has 3DO titles in the works. The company has five games due out over the summer, including Ultimate MK 3 and three Olympic sports titles.

In addition to the lack of software support, there's another ominous sign regarding the 3DO's future. In April, Panasonic dropped the price of its 3DO console to $199, a remarkable cut considering the system was originally offered for $799. The move comes after Goldstar made a similar price reduction on its 5DO and announced that it was abandoning the 5DO market (see "ProNews," June). This new hardware-pricing strategy uncomfortably resembles the rock-bottom prices that Atari announced for the Jaguar in a last-ditch attempt to clear inventory (see "ProNews," May).

Next-Gen Systems Sales Comparison
(April 1996 in North America)

<table>
<thead>
<tr>
<th>System</th>

<td>300,000</td>
</tr>
<tr>
<td>Jaguar</td>
<td>150,000</td>
</tr>
</tbody>
</table>

With plummeting hardware prices and rapidly fading developer support, the 3DO seems headed the way of the Jaguar and the NES. Diehard 3DO gamers do have a light at the end of the tunnel, however: an M2 upgrade that would essentially make the 3DO a 64-bit machine. Although Panasonic had no news at press time on when or even if an M2 add-on or standalone game console would become available, its spokesperson said, "We're hoping to know before the Electronic Entertainment Expo in May."

As for Studio 3DO, Snowjob and 3DO Games: Decathlon will be

N64's Price Is Right

When the Nintendo 64 is released in Japan on June 23, it will cost about $250. It will come with one controller (though there are ports for four controllers), one AC adapter, and no game. Three games will be available for purchase, all at about $95: Super Mario 64, Pilotwings 64, and the chess game Habu Shogi. Additional accessories, also available June 23, will be priced as follows:

- RF Switch: $15
- RF Modulator: $10
- Monoral A/V Cable: $12
- Stereo A/V Cable: $18
- S-Video Cable: $25
- Controllers (black, blue, green, red, and yellow): $25 each
- Controller Pak (memory cartridge): $10
- AC Adapter: $25

There's still no official word on what the pack-in game will be when the N64 launches in the U.S. in September, but don't be surprised if there is no game. Keep in mind, however, that the NES and SNES both launched first in Japan with no game and then in America with a pack-in Mario game, so perhaps the N64 will follow suit with a bundled Super Mario 64. What is certain is that there will be some extra peripherals available with the launch. InterAct Accessories is making new controllers and joysticks due out in September for the N64, and it's also working on a Game Shark and cleaning kits for Christmas.

Merger Madness Continues

Count Ocean International Ltd. as the latest software company to submit to merger madness. By merging, Ocean and Infogrames Entertainment will now become the world's fifth-largest publisher of interactive software worldwide, with sales in 1996 topping $100 million. Together they will form the largest video game company in Europe. Ocean of America, a subsidiary of the new company, is the publisher of such titles as Worms, Jurassic Park, and The Addams Family; among Infogrames' major titles is the award-winning alone-in-the-Dark.

Blizzard Entertainment, makers of Warcraft and Warcraft II, has acquired Condor, Inc., the California software developer behind Acclaim's Justice League and NFL QB Club games. Condor's name will change to Blizzard North as it finishes up Diablo, an eagerly awaited RPG due next month.
its last releases for the 3DO before it turns its attention to other endeavors, including the development of M2, PC, and Internet games. The company’s currently preparing ten M2 games for a possible full release and is focusing on porting over its top 3DO titles, such as Starfighter, to the PC. Although it’s working on other original PC titles, they aren’t slated for release until fall ’97. Finally, if one of the next-gen systems becomes the clear market leader, Studio 3DO plans to begin producing games for that system as well.

Acclaim Abandons Cartridge Games
The 18-month slump in the video game industry has claimed one of its biggest victims, Acclaim Entertainment, famous for the X-Men, Mortal Kombat, and NBA Jam games, has quit the cartridge business. The surprise announcement means that Acclaim will turn its back on new games for the SNES, Game Boy, Genesis, 32X, and Game Gear, five systems that had generated more than $1 billion in gross revenues for Acclaim in the ’90s.

Robert Holmes, president of Acclaim, attributed the decision to recent losses that totaled almost $56 million for the fiscal quarter ending last February. “We had anticipated that the 16-bit and portable-games markets would show greater resilience during Christmas and the first calendar quarter. That has simply turned out not to be the case,” said Holmes, who might’ve been thinking about recent Acclaim debates like Cutthroat Island, Judge Dredd, and the Itchy and Scratchy games. “Full-priced software sales have declined nearly 40 percent in the first few months of 1996. We see that deterioration accelerating through 1996 as more advanced CD-based systems gain momentum, Nintendo’s N64 is introduced, and the PC market continues to grow.”

Acclaim is not abandoning game making altogether. The company will now focus its efforts on next-gen systems, PC games, and its coin-op division. Upcoming titles include Frank Thomas “Big Hurt” Baseball for the PlayStation, Saturn, and PC; Turok Dinosaur Hunter for the Nintendo 64; and Batman Forever and NBA Extreme for the arcades. But these new titles will be small consolation for fans of Alien 3, True Lies, Stargate, Wolverine, Bart’s Nightmare, MK II, NBA Jam T.E., and other Acclaim cartridge games. Like it or not, 16-bit games have just taken one more step toward extinction.

Prizes Announced for Blockbuster Video Games of Summer Sweepstakes
After announcing the Blockbuster Video Games of Summer Sweepstakes last month, Blockbuster’s now announcing the prizes it’s offering for the biggest video game sweepstakes ever. The sweepstakes is part of Blockbuster Video’s new rental program that runs June 17 through August 18 in participating Blockbuster Video stores. Customers who rent four video games will get an additional video game rental free, plus automatic entry in the sweepstakes. Although the entire prize pool hadn’t been finalized at press time, Blockbuster will be awarding these prizes listed below:

- Ten Ultimate Game Rooms, including a big-screen Sony TV, Saturn, PlayStation, VCR, gaming chair, soda vending machine, ice chest, lava lamp, and GamePro gaming attire
- Trips for two to GamePro magazine, including an editorial tour, game testing, gaming apparel, and a free subscription
- Sega Saturn; Sony PlayStation
- Acclaim video games; GamePro Paks (subscriptions/T-shirts/watches); free Blockbuster Video Game rentals for one year (each prize equals 24 free rentals)

Check any participating Blockbuster Video store for more details.

Hot News from GamePro Online

**Making Metal**  Over a year in the making and nearing its final stages, Marvel Comics' IRON MAN and Valiant Comic's X-O MANOWAR appear in HEAVY METAL, one of Acclaim's most ambitious video game endeavors to date. By utilizing the full capabilities of their Motion Capture Studio (the same studio used in the making of the Batman Forever video game, and other games such as Frank Thomas Big Hurt Baseball and Alien Trilogy), Acclaim is bringing IRON MAN and X-O MANOWAR's comic book universes to revolutionary digital life and bringing the metal titans together for the first time.

Located in their Glen Cove, NY headquarters, the Motion Capture Studio is the jewel in the crown of Acclaim's technological empire. The black rubber stage with its four high-resolution, black-and-white cameras was the scene for the human modeling of HEAVY METAL'S punching, kicking, running, flying, and jumping movements. Captured on film via reflective sensors on actors' black rubber suits, hand-drawn comic art, by veteran artists Bart Sears and Dave Johnson, was wrapped around the digital framework of the fighting movements. The end result is movement so lifelike, so fluid, you'll be running for cover. The same treatment was applied to YELLOW JACKET, BLACKOUT, ABSORBING MAN, GLADIATOR, the SPIDER ALIENS and a galaxy of other villains.

Through the use of completely rendered CGI and SGI computer graphics, both the characters and backgrounds have a highly-detailed, 3-dimensional appearance. HEAVY METAL takes this revolutionary technology to previously unreachable levels of realism. You'll never look at video games the same way again.

**Sparks Will Fly**  Out of all this technology comes the meat of any self-respecting video game — the gameplay! From the small but riveting demo that I played, I can tell you that IRON MAN / X-O MANOWAR: HEAVY METAL delivers. You'll get to rampage your way through seven levels ranging from the R&D lab of Stark Industries to the South American rain forest and the New York subway (not to mention Arnim Zola's living...
castle)—each with its own different environmental effects. But you'll need more than just a quick trigger finger and a hard right cross to make headway in HEAVY METAL. Only by using strategy to complete your missions will you be able to reach the secret final bonus level: an apocalyptic, one-on-one battle between IRON MAN and X-O MANOWAR!

It's a given that heavy weaponry is a crucial element of IRON MAN / X-O MANOWAR: HEAVY METAL. IRON MAN's arsenal includes Laser and Proton Blasts, Visible Light Beams, Repulsor Blasts, and Force Fields, while X-O MANOWAR relies on his Ion Cannon, Cellular Disrupters, Iron Sword, Armadillo Mode and Illumination Omni beam. And on top of this fearsome firepower, each metal warrior will be able to punch, jump, speed-run and soar through the danger-laced skies!

FORGING AHEAD IRON MAN has completely new armor exclusive to this game (also featured in the crossover comic book from Marvel and Acclaim).

HEAVY METAL also features full-motion computer animation, similar to the groundbreaking technology featured in the movie, Toy Story, and a hard-driving rock music soundtrack.

The game is going to hit PlayStation™, Saturn™, Windows® 95 Game Boy® and Game Gear™ this summer.

BOTTOM LINE This game may well set a new standard in Super Hero action video games. Until then, you'll just have to be content to know that IRON MAN / X-O MANOWAR: HEAVY METAL will be simply the most thrilling, immersive and technologically astonishing game of the year.

Think you can handle that?

The Best of GamePro Online

By The Net Nut

GamePro Online races along on America Online every minute of every day. For anyone who's yet to boldly go into cyberspace, here's a sample of what's happening in our cyberworld.

Online Options

Some areas you can explore in GamePro Online:

- Chat rooms (live conversation with other gamers)
- Talk with GamePro editor (weekday afternoons at 4:30 p.m. PST in the chat room)
- Message boards (posted comments and tips)
- File Vault (game-related info, including FAQs)
- Archives (current and back issues of GamePro)
- Guest conferences (talk with experts like MK 3's Ed Boon)
- Hot News (posted daily, this is industry news as it happens)

Battle Arena Toshinden is one of the latest PC demos to make its way into GamePro Online's File Vault for download.

NetPro

The biggest news on the Web this month is the debut of GamePro's new Web site, GamePro Online. Here are some other cool Web sites worth a look:

- DigiPen: http://204.174.42.103/. Remember the big story we wrote about DigiPen, the video game programming school, in our December '95 issue? Here's the Web site. It includes application information and students' home pages.
- The FBI: http://www.fbi.gov/. OK, so technically it's not game related, but this site's still pretty cool. Check out the status of current investigations and the famous Ten Most Wanted list.
- Game Shark Codes: http://www.gameshark.com. Surfing with the Sharks is a new Web site for PlayStation and Saturn codes that can be used with the Game Shark. Codes are updated weekly.

Acclaim has launched D: The Awakening, the company's first interactive online adventure, at http://www.acclaimnation.com. A complement to the game D, this Web site enables you to fully explore the minds of Laura Harris and her father, the lunatic Dr. Richter Harris.

Glossary of Online Terms

Polling - Sometimes people in chat rooms ask other chat room members to cast a vote on some topic by hitting a number. This practice, called polling, wastes lots of time, because the screen will fill up with numbers instead of with meaningful conversation. Polling is a violation of America Online's rules and could be punished by permanent expulsion from the online service.

Online Conferences

GamePro Online held several exclusive conferences during the spring. One of the most popular was with Mark Turmell, Sal DiVita, and the rest of Williams/Bally/Midway's NBA Jam design team as they prepared to unleash their new NBA Hangtime for the arcades. Here's how they answered questions from the audience:

ICS Sparky: How is NBA Hangtime different from NBA Jam?
Williams/Bally/Midway: We've increased the scale of the court and players about 50 percent. The animation is much smoother, moves are much cooler, and there are lots of new features, such as create-a-player. Plus we have a secret code to allow gameplay on top of a skyscraper!

DanAmrich: How many secret characters can we expect this time around?
WBM: Not determined just yet, but over 50.

ABTLR: Is there an all-star team?
WBM: Yes, there are several types of all-star teams.

Buzzard: What significant changes have you made to the gameplay?
WBM: We've incorporated alley-oops (finally), spin moves, fadeaway jumpers, lean-in jumpers, and double dunks, which is where two teammates go up for a dunk simultaneously and the player in front passes off the backboard to the player behind him!

Reece: Are Shaq, MJ, and Barkley in the game?
WBM: Not officially, but with the create-a-player feature you can create whoever you want!

Buzz: How soon before NBA Hangtime appears in a 32-bit format?
WBM: Christmas!

The NBA Hangtime conference also explained how the game's trivia contest works and what kind of exciting prizes await those who answer correctly.

E-mail us your comments through America Online or at this Internet address:

GAMEPRO ONLINE
Against a dark and shifting 3-D landscape, the warriors of the twisted underworld known as BATTLE ARENA TOSHINDEN 2™ await your return. How do they know you'll be back? Let's just say it's a gut feeling. As in the first 360° go-round, the moves are lethal, the stages visceral and the characters, wicked. And this time, the original avengers are joined by a new crew of fighters. Like Tracy, the sexy cop gone bad; Gaia, merciless madman; and Chaos, a friendly fella who happens to swing a sickle. All of 'em real keen to get to know you better. On every level.

So welcome back. And plan to stay awhile. Because here in Battle Arena Toshinden 2, these forsaken foes aren't just out to take you down. They're down to take you out.

http://www.playmatestoys.com
The Pippin Atmark

Tempted by the heavy action online and in console-game systems and computers, Bandai and Apple byte a little one.

By The Whizz

To development for nearly two years, the Pippin Atmark has finally surfaced in Japan. Formerly called the Bandai Power Player, the Pippin is basically a Macintosh computer customized to function as a network computer, a game system, and a home-productivity machine.

Bandai (yes, the Power Rangers people) has created a new division, Bandai Digital Entertainment (BDE), to promote the Pippin Atmark, which is built and designed by Apple Computer. (The “Atmark” refers to the symbol “®,” made famous by the Internet.)

The system went on sale in Japan in March, but according to Bandai Digital Entertainment, it’s destined for the U.S. in September and Europe in ’97. The Japanese version costs 64,800 yen (about $548), which includes a 14.4-baud modem and four software titles. BDE hopes to bring it home here at around $500.

Mac-in-the-Box

At Pippin’s core is a PowerPC 603 processor and a stripped-down version of the standard Macintosh operating system. That means Pippin software will be fully playable on any PowerMac. As with video game cartridges, each Pippin CD will pack the complete system software to run an application or a game. No draw-out start-up sequences for this streamlined computer.

Additionally, the unit packs a quad-speed CD-ROM drive and 6 megabytes of RAM that can be expanded to 13 megabytes. Since the Pippin sports neither a built-in floppy drive nor a hard drive, on-board memory will wheel and deal all software functions.

The back panel reveals Pippin’s mission. For display, the A/V, S-Video, and VGA ports connect to either a standard TV or a computer monitor. According to Bandai, graphics design in software will be optimized for display via television. For online connectivity, there’s a standard-issue Mac-style serial port and a GeoPort.

That Familiar Feeling

Using the controls should be a breeze because the interface is so simple—it’s practically Spartan. A handful of buttons handle basic system functions: stop, start, power, volume, open CD tray, and skip track. A video game-style controller is the input device, but there’s also an optional keyboard. A mouse can’t be far behind.

Two controller ports are located on the front of the unit. The Pippin’s boomerang-shaped controller will present a familiar layout to gamers: nine action buttons and a circular directional pad like the SNES controller’s. Mounted between these, however, is a mini trackball.

Games, Anyone?

Gamers should note that the Pippin isn’t a straight-ahead games machine, but a computer that will play games via software or online sources. It has no dedicated graphics or sound processors.

The Pippin’s Position

Although the Pippin Atmark may not have the hardware muscle to stay with dedicated 32-bit game machines, for the uninitiated it serves as a painless entry to the online world. In the evolutionary scale from computers to video game systems, Pippin is looking like the missing link.

The Lowdown

| Price: | Approximately $500 |
| Memory: | 6 MB, expandable to 13 MB |
| Drive: | Quad-speed CD-ROM |
| Dimensions: | 3.2 inches high, 10.4 inches wide, and 10.6 inches long |
| Video output: | A/V, S-Video, VGA |
| Other output: | Serial port, GeoPort |
| Notes: | An external floppy drive is available, and an external hard drive is in development. |

The Pippin measures 3.2 inches high, 10.4 inches wide, and 10.6 inches long. Slightly larger than a Saturn, it weighs 8 pounds.
Ultimate Mortal Kombat 3

The wait is over.

The biggest Mortal yet is now on Sega Saturn.
Memory... Not Memories

Are you a save junkie who doesn't want to erase any saved level of Magic Carpet on your Saturn or PlayStation? Well, now you can score more memory with InterAct’s new Memory Card Plus, available for either the Saturn or PlayStation.

InterAct’s Memory Card Plus for the Saturn has double the normal memory of Sega’s Back-up RAM Cartridge (see “GamePro Labs,” October 1995), providing eight times the storage space of the Saturn’s internal memory. With two memory banks that you can toggle between, this cart does all the Sega cart does and more for twenty dollars less.

The PlayStation Memory Card Plus offers quite a bit more for your money than standard memory cards, with eight times the memory for only double the price. The Card Plus works like a regular memory card, but it utilizes an LED display and a toggle button to switch between eight pages of memory, with each page storing the standard 15 blocks.

Players, however, must pay close attention to which page they save their game on, as most software looks only for games stored on the current page. Toggling between pages can be a hassle and takes a few seconds. InterAct recommends writing down the page location of your saved games and, with a total of 120 storage blocks on this card, we do too.

All-in-One RF

If your TV doesn’t have the composite-cable compatibility necessary to connect to the 32-bit systems, or you’re looking to make quick switches between game systems, look no further than the Automatic Advanced RF Converter from Mad Catz.

This RF converter works like a normal RF, but gives you three cable adapters: one for the Saturn, one for the PlayStation, and one that works with the Genesis (Model II only), Sega CD, and 32X. This converter enables you to quickly switch systems by unplugging one cable and plugging in another. You also get a three-foot coaxial cable to run to your TV. At $30, the converter’s not cheap, but it’s a better deal than buying singular RF adapters for each system you own.

this SUMMER...
This summer, playing inside will be much, much cooler than going out. Because the more you play, the more chances you'll have to win amazing prizes. Every four video games you rent earns you a fifth one, free. And you'll automatically be entered in the Blockbuster Video Games of Summer Sweepstakes. Just ask for a game card at participating Blockbuster Video stores.

Clip here for A HEAD START!

Trade in this coupon for a Blockbuster Video Games of Summer Sweepstakes card and you'll earn one free punch toward your first free rental and Sweepstakes entry.

Just look what you can win!

GRAND PRIZES - 10 Ultimate Game Rooms including Sony Maximum TV system with 41" big-screen TV, Surround Sound speakers, and hi-fi VCR, Acclaim NBA Jam Extreme Arcade game, Sega Saturn, PlayStation, gaming chair, PlayStation and Sega Saturn games from Acclaim, one year free Blockbuster Video game rentals and more!

FIRST PRIZES - 4 Trips for Two to GamePro Headquarters in the San Francisco Bay Area, including round-trip airfare, two nights' hotel lodging, airport transfers and a special Team GamePro merchandise pack.

SECOND PRIZES - 300 PlayStations with four games each.
300 Sega Saturns with four games each.
Not to MENTION...

THIRD PRIZES - 3500
One-Year Free Blockbuster
Video Game Rentals:
your choice of any two every
month from the great selection of
video games at Blockbuster Video.

FOURTH PRIZES - 2000 Team GamePro
Merchandise Packs, including a one-year subscription to GamePro Magazine, sports watch, T-shirt and sports code book.

FIFTH PRIZES - 6000
Great Games from
Acclaim, Sega and Sony:
1000 for Super Nintendo, 1000
for Genesis, 1600 for PlayStation,
2400 for Sega Saturn.

SIXTH PRIZES - 200 PlayStation Merchandise
Packs, including PlayStation cap and T-shirt.

The more you PLAY, the MORE chances YOU have to WIN!

With your Blockbuster Video Games of Summer
Sweepstakes card, every fifth video game you rent
is FREE. And every free game earns you another
automatic entry in the Sweepstakes. Enter as often
as you like. But start now. The Sweepstakes only
runs from June 17th to August 18th.

NO PURCHASE NECESSARY TO ENTER SWEEPSTAKES. To enter
by mail, send your name, age, name of parent/legal representative
(if under the age of 18), address, and telephone numbers (daytime
and evening) on a 3 1/2 x 5 1/2 postcard to: Blockbuster Video Games of
Summer Sweepstakes, P.O. Box 324, Lombard, IL 60148-0324.
Mail-in entries must be postmarked by 8/18/96 and
received by 8/23/96. You may enter by mail as often as you wish, but
each entry must be mailed separately. Mechanically reproduced or photo-
copied entries are void. For complete Official Rules, by which all entrants are
bound, see participating BLOCKBUSTER VIDEO stores or send a request
and a SASE to Blockbuster Video Games of Summer Sweepstakes
Official Rules, P.O. Box 1403, Lombard, IL 60148-0143. WA &
VT residents omit return postage. Open to legal U.S. resi-
dents. Prizes will be awarded in the name of the
Blockbuster Video account holder for all
automatic entries. Prizes for winners
under the age of 18 selected from
mail-in entries
will be awarded in the name of the parent/legal representative. Void
where prohibited. Estimated prize
values: Grand Prize, $13,000 each,
First Prize, $5,000 each, Second
Prize, $500 each, Third Prize, $50
each, Fourth Prize, $50 each, Fifth
$50 each, Sixth, $30 each.
Shooter's Dream: Robotech for the Nintendo 64

Warm up your thumbs! Gametek is readying Robotech: Crystal Dreams, a hard-hitting action/shooter for the Nintendo 64. By The Feature Creature

After years of developing 16-bit cartridge games such as Jeopardy! and Brutal, Gametek has graduated to the biggest cartridge system of all: the Nintendo 64. Even in its early stages of development, Gametek's new Robotech: Crystal Dreams for the N64 already looks like a pilot's dream.

Tentatively scheduled for an October release, Robotech is a futuristic outer-space shooter with a first-person cockpit view and large, detailed vehicles. You move in a true 3D environment, meaning you can fly under, over, and behind the objects ahead of you. But there's more than impressive graphics to this game. Robotech has an impressive past, too.

Robotech Redux
The Robotech saga began in the early '80s when a popular Japanese cartoon show called Macross first appeared. It told the story of a 21st-century invasion of Earth by an armada of evil Zentraedi warriors. When the 85 episodes of the show began running in America in 1985 as Robotech, they gained a cult following and helped popularize Japanese animation. Matchbox toys, more than 40 novels, and comic books followed, and by Christmas Robotech will be available for the Nintendo 64.

Gametek acquired the license from Activision for a series of next-generation games, and soon the company was pitching its game ideas to Nintendo. Fortunately some of Nintendo's key decision makers were already Robotech fans. Gametek quickly became one of Nintendo's 'Dream Team' developers, and Robotech was green-lighted for development.

In mid-1995, Tom Reuterdahl, Gametek's vice president of product development, brought ten people he knew from other projects to the company's headquarters in the northern California seaside town of Sausalito. His experienced team had contributed to everything from old Atari 2600 games to the more recent Jurassic Park for Sega. For the last year the team's been working exclusively on Robotech.

Gametek's Game
Gametek's designers began studying all previous incarnations of the Robotech story so they could fit their new material smoothly into the original story. Hardcore fans will recognize our game. We're not just slapping familiar characters into standard game...
play," says Mimi Doggett, art director. Adds designer Doug Lanford, "Essentially Robotech is a flight sim, but there’s a definite story line that fits into the whole Robotech chronology, giving this game a soap opera feeling and making it enjoyable for fans of the cartoon."

Gametek has added plenty of new features to the familiar Robotech universe. For instance, you can string the 30-40 missions together in any order and can even bounce back and forth between several missions at once, because background missions are running in real time. Added replay value comes from the occasional randomly generated missions and the interactions with other characters that change the game each time you play.

This is also one of the first flight sim/shooters where you can change the physical shape of your ship, thus changing the gameplay. Your Veritech jet fighter undergoes three transformations as it becomes a bipedal mech: the flight sim "Fighter mode," the combination "Guardian mode," and the free-shooting "Battloid mode." Each mode has its own control pad configurations, and each brings its own weapons to the fight.

Working with Nintendo

Gametek began working on Robotech with some lofty goals in mind. "When we started, we wanted to take advantage of as many features of the Nintendo 64 as we could, even though we didn’t know at the time what that would mean," says Reuterdaahl. Nintendo provided necessary help. "Nintendo’s biggest concern has been that the N64 games are of good quality. They’ve come down here a couple of times to help us. They know we’re just getting used to this new hardware, so they’ve been patiently supportive. They’re not pushing us to get the game out – they’d rather we take our time to make sure that it’s good," says Doggett.

The Gametek team is unanimous in its praise for the new system. "What we’ve discovered is that the Nintendo 64 is much better than any other dedicated hardware out there, especially when you’re talking about 3D graphics," proclaims Reuterdaahl. "There’s also a real opportunity for Nintendo to offer peripherals that’ll really broaden what the system can do. It’s clearly the best platform to work on."

Future Dreams

After Robotech, Gametek’s planning seven other games, including a Road Warrior sequel for the PC, and untitled football and basketball games for the Saturn and PlayStation. Gametek is also considering Robotech sequels.

But for now, the dreams are all Crystal.

"We’re animating the main characters with lots of details. You’ll see their eyes blink and their subtle facial expressions," says Mimi Doggett, art director.

The Officer’s BattlePod comes at you brandishing powerful guns on each arm.

In biped mode, your Veritech fighter walks softly and carries a big gun.

In Control

Tom Reuterdaahl is confident the unique N64 controller will handle Robotech’s transforming fighter ships.

"The controller is great. Without a doubt it’s the best I’ve seen. You wouldn’t think it would be comfortable because of the three ‘legs,’ but it is."

And how does he describe the fast shooting action in Robotech? "It’ll be a great ‘sweaty palms’ game."
First there was GamePro magazine, then GamePro Online on America Online (AOL), and now we're launching a Web site. Here's our new address: http://www.gamepro.com.

Like the AOL area, the Web site is also called GamePro Online, but this new address functions very differently. This brief overview shows you what you'll find when you start to explore our new Web world.

**Maximum Experience**

**PROTIP:** To get the most out of GamePro Online, you need the Shockwave graphics application. This program will enable you to see everything we post.

**PROTIP:** Look for hidden areas within GamePro Online that reveal codes, tips, and more!

---

1. The first thing you see is the In the Spotlight area, which features a group of editors clustered around the central virtual-reality machine. GamePro's nine editors will all be creating their own Web pages in their own distinct styles for you to enjoy. Expect lots of humor, lots of game information, and lots of insight into just how bizarre this group is!

2. Click here to read News and Current Events. Like the Hot News section in our America Online area, fresh news stories about video games and the industry are posted here every weekday. GamePro will also introduce its own newsgroup here, like those on the USENET.

3. At this Message Board, you can communicate with other gamers by leaving new messages or reading those already posted.

4. Special Interest Groups (SIGs) are for those gamers who love the "Role-Player's Realm," "Sports Pages," "The Fighter's Edge," and "SWATPro" sections of GamePro magazine. New SIGs will be added regularly.

The titles continue to roll out for the PlayStation. Our man in Japan recently got the inside scoop on what's coming up for the 32-bit system.

By Nob Ogasawara and Major Mike

At the end of March in Tokyo, three PlayStation magazines and Sony Computer Entertainment (SCE) hosted a major exhibition of games by virtually all the PlayStation licensees. The Sony PlayStation Expo '96 showcased 78 publishers, excluding Square who had just announced Final Fantasy VII for the PSX (and, as of this writing, Tobal #1, a new PSX fighting game featuring characters designed by manga and anime artist Akira Toriyama of Dragon Ball and Chrono Trigger fame). Even without Square, however, the show proved to be a good indicator of what's in store for the PlayStation. More than 250 titles were shown, though most were very early versions. And the two-year-old show occupied nearly double the exhibit hall space of last year's debut expo.

With system sales estimated to have reached 2.5 million units in Japan, and given the support from licensees, the PlayStation looks ready to pull ahead of the competition. Let's see what games are going to help it get there.

**A Surprise from Warp**

Warp occupied the largest and most prominent booth, an elaborate mini theater that promoted its latest epic, Enemy Zero (E0). The game sees the return of Laura Harris from D in another virtuoso interactive movie performance about invisible aliens infiltrating a space transport ship. The impressive CG sequences are linked by Doom-like corridors in which the player has to rely on a sonar system to determine the whereabouts of the deadly invisible foes. With music and sound effects by top notch Hollywood artists joining breath-taking CG clips, this game weighs in as a four-disc set.

Warp's President lino conducted press conferences throughout the day promoting the game, but with a dual purpose in mind: He never mentioned the system E0 would be available on, except during the first press conference. There, lino blasted SCE's software distribution and censorship policies, and announced to the stunned media that the PlayStation version had been postponed indefinitely. E0 will debut this autumn as a Saturn game!

**More Polygonal Fighting Games**

Polygonal 3D fighting games were out in force, the most notable being the just-released Tekken 2, which is vastly superior to the arcade version. Another great-looking fighting game was Zoom's Zero Divide 2, which featured completely enhanced graphics and play response over the original. Taito announced the home version of Psychic Force, its new arcade fighting game. Shogakukan Production was showing a demo of Ranma 1/2 Battle Renaissence with the popular anime characters. Angel had its Sailor Moon SuperS fighting game with weird polygonal representations of the leggy anime characters, who resembled mannequins.

![Zero Divide 2, the sequel to last year's game (above), and Sunsoft's Galaxy Fight (left)](image)

On the topic of anime, Bandai offered up Gundam Ver. 2.0 which is identical to the first version but with added stages, CG and anime

Rated E for Everyone by the ESRB.
clips, and other goodies that should appeal to the game’s fans. Bandai also exhibited SD Gundam Crossover Galaxian, and Bandai Visual had a rough

Another popular anime series gets the PlayStation treatment – Ranma ½ Battle Renaissance.

version of its Macross Digital Mission VF-X, a 3D shooter. Full transformation scenes and CG sequences beefed up this game.

Bandai’s Gundam Ver. 2.0...

...and SD Gundam Crossover Galaxian

Namco’s Galaxian 3

Namco showed Galaxian 3, a point-and-shoot movie like Star Blade for up to four players. Taito announced it will be porting its new arcade Ray Storm, the sequel to the vertical scroller Ray Force with the lock-on laser system. Genki, the team responsible for the Kileak series (Sony Music Entertain-

The multiplayer Galaxian will be coming to PlayStation.

ment), discussed Beltlogger 9, a polygonal robot shooter, while Takara announced Votoms, a 3D action/shooter featuring characters and mechs from the dark anime series.

Takara also had a somewhat playable version of Cobra the Psychogun, a Doom-style shooter starring the anime space pirate. The company showed off a very good 3D racing game called Choro Q with Super Deformed race cars. The game has a good number of machines with upgrade options and over half a dozen courses, giving it a pretty good bang for the buck, relative to better-known racing games. Other notable racing games at the show were Mach Go Go Go (Speed Racer)

SNK had a partially complete version of King of Fighters ’95 running together with the Neo version of Samurai Shodown III. Capcom showed working versions of X-Men: Children of the Atom and Rockman X3 as well. Other standard fighters include Sunsoft’s Galaxy Fight, the port of the Neo-Geo game. Adventure games were also strongly evident (EO not withstanding), such as SME’s Kowloon’s Gate, Riverhill Soft’s OverBlood, and Banpresto’s Fist of the North Star.

SNK Joins The Fray

Capcom had X-Men: Children of the Atom ready for the PlayStation. The game will be released by Acclaim later this year in the states.

Games from puzzles and simulations to imported Psychosis titles were on hand to whet the appetites of the growing legions of game-hungry PlayStation owners. Now that PlayStation’s weakness in the RPG department has been erased by Square’s support, the wide variety of upcoming games paints a rosier future for Sony’s 32-bit system.

An advance sneak peek at what we saw on the very first day of the E3 show! Come along with Scary Larry as he reports firsthand on the Electronic Entertainment Expo in Los Angeles.

The big news at Nintendo was (of course) the Nintendo 64 and its upcoming lineup of games. Believe the hype... Shadows of the Empire from LucasArts looks and plays like one of the Star Wars movies... Another big company, Williams Entertainment, debuted Doom 64 and will have Cruisin' USA ready for the launch... Williams wasn't done yet, also announcing MK Trilogy, its take on the Mortal Kombat games for the Nintendo 64... The other big title shown was Killer Instinct 64.

Sony wants to make as big a splash in '96 as it did in '95. To do that, it's lined up quite an array of sequels... We saw Destruction Derby 2, Wipeout 2, Twisted Metal 2, and Warhawk 2, all from Sony... Williams does it again, making Open Ice for the PlayStation and revamping Robotron X, an arcade classic.

Sega's hard at work on new Sonic games for the Saturn and Genesis... Also at the show: Doom, Hexen, Bug Too, Contra '96, Virtua Fighter Kids, Virtua Cop 2... Sega also wants to push the fact that it has a great arcade lineup coming to the Saturn. This includes Fighting Vipers, which was at the show, and Virtua Fighter 3, which was privately shown.

We saw Donkey Kong Country 3: Dixie's Double Trouble... Hank Aaron showed up to sign some autographs at the Mindscape booth, as did Kevin Green at the Acclaim area, and Terry Bradshaw at Empire Interactive... Stan Lee, the man who made Marvel Comics, was at the Capcom booth where Marvel Super Heroes premiered... Peter Chung, creator of MTV's Aeon Flux, was at Viacom's booth for the debut of Aeon Flux for the PlayStation... Viacom also unveiled MTV's SlamScape, a cool-looking hovercraft action game.
Crash Bandicoot

Since our exclusive April preview, the most significant development with Crash Bandicoot is that Sony bought the rights to this title from Universal Interactive, which all but guarantees Crash's impending job as the PlayStation mascot. And like other mascots, Crash is on a quest to save his girlfriend (Tawna) from an evil doctor (Dr. Neo Cortex) as he travels through three islands, using jumping and spin attacks to fend off enemies. But Crash's most impressive features are hard to grasp from static pictures in a magazine. This game has smooth cameras that automatically switch views on the fly, slapstick cartoon-quality sound effects, and superb animation.—Tommy Glide

Red Asphalt

Driving Rock N' Roll Racing over to the PlayStation, Red Asphalt (the sequel) will deliver racing combat in futuristic worlds like Neo Tokyo, L.A. 2027, and even Hell. These early visuals don't give you any real gameplay screens, but they show off the six drivers, a few segments of the tracks, and five lethal vehicles. Remember how the original 16-bit soundtrack jammed with classics like Bad to the Bone and Born to Be Wild? Well, Interplay promises a major modern-rock band for Red Asphalt. As they are still negotiating at press time, however, they asked us not to give it away, give it awaayyy, now! (Oops.)—Tommy Glide
Iron Man and X-O Manowar team up for the first time to battle the evil Baron Zemo and Mistress Crescendo in Heavy Metal, a two-player-simultaneous slugfest sure to send pulse bolts up the spines of comic-book fans. This side-scrolling thriller enables players to shoot, fly, and fight their way through a superhero world of 2D sprites, rendered backgrounds, and object scaling. Alternative music rocks the background as you battle through multiple stages of pandemonium, trying to prevent the villains from resurrecting the Cosmic Cube, the most powerful object created by man.—Johnny Ballgame

AD&D: Ironblood

Set in a medieval fantasy world, AD&D: Ironblood is a 3D fighter in the vein of Toshinden. Paladins, dwarves, warlords, and wizards battle it out in what promises to be dark, menacing combat that features magic and weapons instead of martial arts. What sets Ironblood apart are its options: You can make terrain important to each character's power by bringing medieval objects into play, or you can make your combatant stronger by collecting items in the campaign mode.—Johnny Ballgame

Bugs Bunny in Double Trouble

What's up, doc? Bugs Bunny arrives on the Genesis in an action/adventure game aimed at younger players. Each level is based on a different Warner Brothers cartoon and features the likes of Daffy Duck and Elmer Fudd. When you defeat a boss, cartoon cinematics show you what happened in true WB style. All the character sprites are based on 3D models, and kids are sure to enjoy the simplistic nature of the gameplay.—Johnny Ballgame
Spy Hunter meets Syndicate in this high-speed, high-octane shooter. Eight vehicles, armed to the teeth with everything from machine guns to rockets, battle through eight levels of traffic jams, pileups, and surf. Two-player split-screen action enables you to make the battle personal, and a rotating 3D isometric view brings the battle to life.—Sir Garnabus

Shining Sword
PlayStation
American Laser Games breaks onto the PlayStation and breaks away from its typical full-motion video shooters like Mad Dog McCree. Shining Sword combines 3D fighting with elements of fantasy adventure. You play as either a minotaur, an undead lich, a priestess, or a half-human half-rat, battling more than 20 monsters in a quest for the sword.—Tommy Glide
**Pilotwings 64**

Nintendo 64

The sequel to the early hit SNES game, Pilotwings 64 challenges you to maneuver several aircraft through tricky obstacles and patterns, then nail the landing on a bull's-eye target. Pilots will also have to take down targets with missiles, and of course elemental forces, such as surging wind currents, pose additional threats. To conquer the courses, gamers can choose from six flyboys and various aircraft, including a rocket pack, hang glider, and gyrocopter. These fresh images show off snazzy 3D seascapes and landscapes, including an amusement park, Manhattan, the Statue of Liberty, and the Grand Canyon.

—Air Hendrix

---

**Project Overkill**

PlayStation  Saturn

Like Loaded, Konami’s foray into splatterfest action unloads mucho carnage on the 32-bit systems. Project Overkill’s 50 levels of vicious sci-fi action enlist you as a member of a death squad assigned to covertly slaughter enemy forces. Players choose from four lethal soldiers, each equipped with a slightly different machine gun, laser, grenade, and homing missile. The intense combat blends in just enough strategy (finding keys and such) to yield an enjoyable, gripping 3D-overhead shooter. Despite the entertainingly goopy gore, the graphics in this unfinished version hearken back to 16-bit days, and the controls for aiming felt skittish. Still, if Konami resolves these problems before the game ships, Project Overkill could equal or outshine Loaded.

—Air Hendrix

**Nights**

*Saturn*

Enter the dream world of Nights, where you battle nightmares as either a boy named Eliot or a girl named Claris. In this 360-degree, 3D flight-action game, fluid rotating camera angles follow the fast-paced adventure, and a variety of music, which ranges from orchestral to rock, sweeps through each world. Nights comes from the mind of Yuji Naka, the creator of Sonic the Hedgehog, so Sega is already promising a revolutionary experience with this game.

—Tommy Glide

**Hyper 3D Pinball**

*Saturn*

Hyper 3D Pinball offers six tables with names like Road King and Star Quest. They're loaded with plenty of ramps and bonuses (like multiballs) to shoot for. Neither of the two views—a scrolling top-down view and a non-scrolling traditional view—gives you the best look at the table. But there's a lot of pinball packed on this disc, and the early sounds are exemplary.

—Tommy Glide

**Sirens**

*PlayStation*

Looking for a moody, third-person action game with some 3D elements? Sirens drops you into a futuristic Los Angeles, and unfortunately the city hasn't gotten any safer. As Rieve Larson, you must resolve the conflict between good and evil forces on battlegrounds stretching from wastelands to underwater locales. From these early screens, Sirens looks like a souped-up Blackthorne for the PlayStation.

—Tommy Glide

**BallBlazer**

*PlayStation*

Return to that futuristic sports arena in BallBlazer, based on one of LucasArts' classic games. Now in real time with 3D and multiplayer enhancements, BallBlazer puts you in control of a pod from which you must shoot the ball into your opponent's goal. The graphics look really hot, so let's hope the classic gameplay can keep up.

—Tommy Glide

GAMEPRO 44 July 1996
The net generation.

V-Tennis™
“This is the best playing tennis game of all time... Don’t even stop to think, just buy V-Tennis, 96 out of 100!”
GameFan Magazine Feb. 96

Virtual Open Tennis™
“A recommended addition to your Saturn sports library”
GameFan Magazine Feb. 96

V-Tennis is “the best playing tennis game of all time” according to GameFan magazine. V-Tennis has all the power, speed and realism of clay, grass, carpet and hard court tennis... captured in incredible texture-mapped polygon graphics! 16 unique players! 10 camera views! Instant replay! In-depth stats from aces to net points! This supreme court comes to PlayStation!

Virtual Open Tennis brings total tennis to adrenaline-pumping, baseline-clipping, virtual-volleying, tiebreaking life on Sega Saturn! 10 unique players! 8 camera views! Instant replay! In-depth stats from service speed to slices! One to four players! Three modes of play! Pump up your polygons for the net generation!

V-Tennis and Virtual Open Tennis. Two intense tennis challenges. Two high-powered sports games.
Impact Racing

Impact Racing's drive-n-shoot gameplay will bring a wide grin to the face of anyone hooked on that classic arcade shooter, Road Blasters. In one of six armored cars souped up with lasers, mines, and other cool weapons, you take four laps around fairly easy tracks, gunning down opponents as you go. The action focuses on combat far more than on driving, which fosters a rowdy, arcade-style gameplay that's truly a blast. In this preview version, though, the thrills faded too quickly, raising questions about the game's replay value. At this point, Impact's graphics are pretty vanilla, but Funcom's reportedly touching them up for the final version.—Air Hendrix

Three Dirty Dwarves

Hordes of orcs have invaded the city of Neau Yorkus, and it's up to you to fend off them and their diabolical general. One gamer can alternate between the three scruffy dwarves, or three players can each control one as they slash through the orc armies. Bonus areas and more than 20 levels of action/adventure gameplay keep you busy in this off-kilter, cartoonish hackfest.—Air Hendrix

Deadly Skies

Drawn with respectable graphics, Deadly Skies presents a unique twist on aircraft shooters: head-to-head dogfights with special moves. Players fly planes like an F-14 Tomcat or MiG-29 and fight with moves like the Multi-Missile and Devil's Spin. Fortunately, Funcom's tuning up the flaccid gameplay that dragged down this preview version, so this intriguing prospect might just shape up.—Air Hendrix
Time Commando

Become a computer repairman from the future in this third-person action/adventure. A powerful computer virus has thrown you back in time, and, of course, you have to battle more than 80 historical enemies to get back to the present. Each of the 18 levels requires mastering a weapon of that time period as you club your way from the prehistoric age to 20th-century shootouts and beyond.—Tommy Glide

Developed by Adeline Software
Published by Activision
Available June
	60% COMPLETE

Shockwave Assault

Those spindly-legged aliens that plagued Earth on the 3DO and PlayStation have returned once more to challenge Saturn pilots. From your cockpit, you drive the aliens out of earthly locations like Egypt, Peru, and Los Angeles before vanquishing them from neighboring planets. These missions play almost exactly like the PlayStation version; the only real difference is grainier full-motion video on the Saturn. For a port of an aging cockpit shooter, however, this one still packs the fun.—Tommy Glide

Developed and published by Electronic Arts Studios
Available June
	60% COMPLETE

Slam Dragon

Originally previewed in the May issue as "Shokendo," Slam Dragon doesn't give you anything new with the same change. With a somehow compelling yet jerky series of moves, you fight as one of eight warriors. While the fighters have an original flair to them, Slam Dragon's late in development to be sporting such "white belt" graphics and sounds. It's unlikely this Dragon will pose much of a threat to even lukewarm fighters.—Tommy Glide

Developed by Pre-Stage Inc.
Published by Jaleco
Available June
	80% COMPLETE

Ultimate Mortal Kombat 3

They're baack! This time the ultimate kombatators take to the 3DO with all 19 characters, two bosses, and four brand-spankin' new backgrounds to complement the game's original nine. From a graphics standpoint, these early screens make the conversion look pretty impressive. However, we've yet to see how well it plays, and we're left to wonder if there'll be any of those loading-time problems with fatalities and morphs that plagued MK 3 for the PlayStation.—Tommy Glide

Developed by New Level
Published by Panasonic Interactive Media
Available September
	10% COMPLETE
Clayfighter III

Great grunting globs of clay! The third installment of this weird fighting series is about to make a smashing 32-bit debut. These early contenders look promising, with big-game veterans Boogerman and Earthworm Jim entering the clay fray. There are also many other new wacky characters like the Voodoo Hounddog, a giant severed hand, the not-so-ladylike Lady Liberty, and a new boss, Dr. Kiln.

And with new characters come plenty of new backgrounds, including a pool hall, the North Pole (complete with frozen Santa), a strange lab, and a disgusting barge that must be the blob's stage!

—Tommy Glide

Fade To Black

Conrad's back! The hero from the 16-bit hit Flashback returns in this 3D sequel, which has a feel a la Resident Evil. No more amnesia — now you've been imprisoned by the lizard-like Morphs, and must blast your way out of six huge levels.

Those who remember the original game will recognize the combination action/puzzle gameplay. The graphics in this nearly completed version are good with well-balanced sound effects and music. However, the camera is jumppier than you'd expect, and the controls aren't as intuitive as they should be. Although it packs some cool elements, this PC port may not be the next PlayStation sensation Flashback fans are hoping for.—Tommy Glide
**Blast Chamber**

PlayStation  Saturn

In Blast Chamber, four players race through 40 mazelike rooms in a rotating 3D cube that players can turn to throw each other off balance. Obstacles and traps spell potential death...as does the ticking time bomb strapped to your back!—Black Widow

By Activision

**MagZone**

PlayStation  PC CD

Antigravity racing goes 3D in MagZone. Gamers whip around in magnetic cars inside enormous 3D shapes. As teams struggle to control a magnetic ball and launch it into the opposing goal, they must maneuver through complex terrain that poses challenges like tunnels, ramps, jumps, and vertical walls.—Air Hendrix

By Trimark Interactive
Available October
Only the gang at Shiny knows what the game’s alphabet-soup name means, but graphically, MDK is a slick piece of work as these early pictures show. With its double-barreled action and strategy gameplay, MDK opens new territory for PC players drowning in Doom clones.

You play as Kurt Hectic, mankind’s last salvation in a future where Earth is enslaved by a man named Glut. With your dog, Bones, you undertake to destroy Glut’s eight heavily protected mining enclaves.

MDK takes you on a wild ride through four stages, including a faceoff against Glut and a freefall through outer space. You’re armed – literally – with a machine gun attached to your right appendage. Snap the machine gun onto your face, and it becomes a sniper gun that gives you a through-the-barrel view of the body parts as they fly off enemies. The gameplay will vary depending on your strategy, but switching between weapons and using strange inventions like the World’s Smallest Nuclear Explosion and catapults will be critical.

By Shiny Entertainment
Available Christmas ’96

Weapons Make The Man

You’re armed with a machine gun...literally.

Attach the machine gun to your face...

...and it becomes a long-range sniper gun.

The sniper gun’s through-the-barrel view is right on.
LucasArts unveils a trio of games that should rise to the top of the PC game slush pile and excite Star Wars followers. In Jedi Knight: Dark Forces II, Kyle Katarn's Star Wars saga continues in true Jedi fashion with classic conflicts between good and evil, and the past and the future. In this first-person action/adventure game, you strive to become a worthy Jedi by foiling seven Dark Jedi who are trying to unleash the powers of a secret Jedi burial ground. And you can share the Force with friends; Dark Forces II is a multiplayer game.

—Black Widow

By LucasArts Entertainment
Available First Quarter '97

X-Wing vs. TIE Fighter

X-Wing vs. TIE Fighter sets up the ultimate combat experience for the trilogy’s fans and for gamers seeking challenging multi-player dogfights in outer space. Blasting across the Star Wars galaxy in this outer-space shooter, you can fight for the Rebel Alliance or take a walk on the Dark Side with the Empire.—Black Widow

By LucasArts
Entertainment
Available Fourth Quarter '96

Afterlife

In Afterlife, the Pearly Gates can be made of whatever you want them to be. And Hell doesn’t need to be a hellhole if you imagine it otherwise. Afterlife casts a celestial and humorous light on strategy simulation games by letting you play God in the big guy’s house—and in his neighbor’s. You’re in charge of creating and maintaining the upkeep of both Heaven and Hell, monitoring the number of lost souls, and establishing enticements to grow your population in this amusing, unorthodox take on man’s most orthodox other-worldly beliefs.—Black Widow

By LucasArts Entertainment
Available now
Based on the popular series of sci-fi novels by Arthur C. Clarke, Rama’s dazzling Myst-style adventure gameplay may earn it a place among the top PC titles of the year. The story begins as you join a team of astronauts exploring a gigantic spaceship that suddenly entered our solar system. Once onboard, you encounter a bewildering array of exotic alien species – some friendly, some not – and you’re tasked with uncovering the ship’s mysteries.

From a first-person perspective, you solve puzzles, collect items, interact with aliens, and delve into your surroundings as you attempt to unravel the enjoyable complex plot. Spectacular rendered graphics and seamlessly integrated video sequences put the finishing touches on this promising prospect.—Air Hendrix

XBAND HITS PCs

After its widespread success in the 16-bit console market, Catapult Entertainment's taking XBAND to the PC market. With Windows 95, a 9600-baud (or higher) modem, and Internet access, a PC running XBAND software will enable gamers to go head-to-head in high-speed “twitch” gaming that, according to Catapult, should outperform the existing modem capabilities of many PC games. At press time, the XBAND PC supported Doom, Doom II, MechWarrior 2, Hexen, HardBall 5, Super Street Fighter II, and Locus. XBAND PC is due out this summer; its pricing scheme hadn't been determined at press time.—Air Hendrix

"THE FINAL ROUND"
Even though Virtua Fighter 3 is still a few months down the road, it already has the look of a champion fighting game. These gorgeous pix of VF 3 should wet your fighting appetite until the game is released.

Not only will VF 3 retain the uniqueness and excitement of the Virtua Fighter series, it will also feature many new elements that will create an even more distinctive fighting game. The biggest changes will be in the fighting style. AM2, Sega's ace design team in Japan, plans to make it as realistic as possible. Expect the high, floating jumps of previous versions to disappear. New attacks and counterattacks will be implemented, and the ability to fight after being knocked down is even being tossed around.

VF 3 might say good-bye to ring-outs, or stages may have walls, similar to Fighting Vipers. Improving on the wall stages in PV, VF 3 character will be able to perform moves and counterattacks using the walls. AM2 may also include foreign objects in the stages that can either be broken (à la KL 2) or used as weapons during a fight.

**Character Update**

In addition to the ten characters from VF 2, a female character and male character will be added, bringing the total to an even dozen. Aoi Umenokouji, the new female character, was born into a distinguished Kyoto family, and fights in a style that loosely resembles aikido.

AM2 is considering a pudgy male character, but the final decision has not yet been made. Although the cast will have new costumes, they will retain the popular elements from the previous versions of VF.

**Coming Soon**

GamePro will continue to bring you more coverage on VF 3 as it becomes available. So start saving those quarters now-you're going to need them.

--

**Model 3 Specs**

The specs alone on VF 3's Model 3 board, which makes VF 3's dazzling graphics possible, are a programmer's dream and a competitor's nightmare.

**Host CPU**

Main CPU: Power PC G5 603C

NIGHTMARES DO COME TRUE

SKELETON WARRIORS

How long can you go without sleep? Because if you even blink, Baron Dark’s diabolical dream will annihilate your world. And the human race is looking to you to reclaim the powerful Lightstar Crystal.

Not to mention his death squad of Skeleton Warriors.

These guys don’t have a forgiving bone in their bodies, so with over 20 levels of gruesome 3-D action, you may lose your mind in a sleepless hell. But if you’re defeated, it’s a sure bet you’ll be sleeping with the enemy. For eternity.

http://www.playmatetoes.com
GUNBLADE NY
By Bruised Lee

The city that never sleeps is under attack by terrorists. Now it’s up to you and your attack helicopter (GunBlade) to shoot, kill, and blow up anything that moves. It’s just another typical day in New York.

ESCAPE FROM NEW YORK

Hardcore armored androids have taken world leaders as hostages, but the solution is simple. Take one monster helicopter, two machine guns, and an endless supply of ammo and head out to eradicate any terrorists that stand in your way.

In GunBlade NY, gamers chose from two missions, each one made up of four scenes. The goal is to clear out either the United Nations headquarters or the entire island of Manhattan.

The Big Apple has never looked better (as a battlefield, that is). GB’s designers visited New York to re-create the city, so players will be able to recognize locations such as Times Square and Fifth Avenue. Dynamic cameras constantly change the angles of gameplay as the action heats up. You literally zoom down and around the building amidst 3D gunfire and explosions.

GB’s controls are very simple. You’re equipped with a machine gun that comes with a lifetime supply of bullets, and you don’t have to worry about reloading, which keeps the action fast. Unlike Virtua Cop, where the bad guys are preprogrammed to do the same thing each time you play, GB’s enemies have their own artificial intelligence, which enables them to react to how they’re being attacked and then counterattack.

Realistic sound effects as your gun eliminates even the toughest stairs, along with ear-piercing explosions, completely overshadow the faint music in the background. With all the fast-paced action that GB offers, music is the last thing you’ll pay attention to.

GUNBLADE IS RAZOR SHARP

GB is faster than a New York minute. If the superior 3D graphics don’t keep you on your toes, the enemies with minds of their own will. GB is a great spin-off on the Virtua Cop series. ☞
Some people just play their games.
Some people PLAY TO WIN.
Which type of player are you?

InterAct’s GAME SHARK™ gives you ultimate power over all your favorite games!
Even the most devastating blow has no effect with Infinite Health codes for STREET FIGHTER ALPHA™ and MK3™! Feel no pain!
You’ll have your foes outgunned in ALIEN TRILOGY™ and KRAZY IVAN™ with codes for Infinite Ammunition! Slaughter enemies by the thousands!
Cash is no object with Unlimited Money codes in ROAD RASH™ and X-COM UFO DEFENSE™! Buy a fully-loaded monster machine or build an empire and still have bucks to spare!

COMING THIS SUMMER – PS INTERCEPTOR
InterAct gives you more power to master your PlayStation with this ultimate control system, featuring FOUR incredible modes of play to conquer every game! Customized settings and auto-fire will keep your guns blazing as you dominate any flight game or shooter with smooth analog control. Tear your competition apart with up to fifteen programmable buttons for the most complex fighting moves! Built-in memory stores your programmed moves even when the system is turned off! Experience the most accurate turning sensation for driving games and enjoy hours of comfortable play with the ergonomic hand grip and stable base. No other stick can give you all these powerful options! The PS INTERCEPTOR is the last controller you’ll ever have to buy for your PlayStation system!

An accessory is the ultimate source for peripherals that let you dominate your PlayStation!

PS ARCADE
Bring the arcade experience home with this sleek joystick. Eight giant fire buttons, four auto-fire speeds, three slow motion speeds and a sturdy metal base and shaft give you ultimate control!

PS PROPAD
Dominate your favorite PlayStation titles with this eight-button upgrade pad offering four speeds of auto-fire, three slow motion speeds and extra-long cord!

MEMORY CARD PLUS
With the capacity to hold an incredible 120 game saves – EIGHT times that of other cards – you can store all your high scores, secret weapons, special pickups and more!

www.gameshark.com
Fighting game fans the world over hailed the first Tekken as an original, enjoyable fighting game with tons of moves, combos, and specials. But Virtua Fighter 2 came along that same year, spurring a serious debate about which game was better.

Now comes Tekken 2, and simply put, it blows away the competition. More moves, more characters, and more depth make this the king of fighting games. And with nothing more on the horizon for home systems (even Nintendo's KI 2 is no match for Tekken 2), this king should reign for some time.

Both the graphics and sound have been vastly improved. The moves are also more intricate, and now include counterattacks, linking moves (à la Killer Instinct), and multihit combos. This broad array of features makes Tekken 2 a great experience for the novice as well as the seasoned fighter.

Tekken 2's Practice Mode also establishes this game as a standout. Learn a combo, pull off special moves, even learn the counterattacks against a computer "dummy." If you've never played a fighting game before, you'll still be able to learn this one.

But if you're a fighting game fan who needs a challenge, Tekken 2 has it. Hidden characters and a plethora of moves still lay undiscovered in the game. But only dedicated practice and some serious asswhuppin' will reveal all that Tekken 2 has to offer. Are you up to it? We thought so.

**Protip:** Jun is one of the best at countering. She usually adds an arm or leg break to normal flip counters. Simultaneously hold (← LP LK) or (← RP RK).

**Protip:** Yoshimitsu has a dangerous, but showy, move. Tap RK, LK to thrust-kick your opponent into the air, then as they descend, do the Suicide by simultaneously lapping (↓ LP RK). Massive damage...minimum trouble.

**Protip:** Nina has a wicked short-range move. Tap →, →, LP to execute it.
**Graphics**: Tekken 2's polygonal rendering doesn't lose a thing in the translation from the arcade. Beautiful, moody backgrounds and smooth fluid movement make Tekken 2 as gorgeous as it is lethal.

**Control**: Can't seem to get the control down? Tekken 2's Practice Mode walks you through the ten-hit combos. When you pause the game, you can access a list of the fighters' special moves.

**Sound**: Each character has unique music, all well done. But the breaking bones are the real sonic stars. The sound effects are so crisp and clear, you'll wince. Nice effects from the fighters, too.

**Fun Factor**: Tekken 2 is every fighter's dream. Great moves, depth, tons of secrets... If you've played it for five minutes and don't want to own it, you're too jaded. It reigns over everything else so far, and will for the rest of the year.

---

**Law**: PROTIP: To execute Law's super move, simultaneously tap (L, RP).

**Jack 2**: PROTIP: To execute Jack 2's small - but damaging - three-hit combo, simultaneously hold ← and tap (LP, RP), then tap (LP, RP), (LP, RP) as the opponent is descending.

**Lei**: PROTIP: Simultaneously hold ← and tap (LP RK), then tap RK to do Lei's super move, which can leave you wide open for a counterattack. Initiate it when your opponent is on the ground. It has amazing reach.

**King**: PROTIP: There's a trick to getting down King's Achilles' Hold move. Motion →, ↑, then simultaneously tap (LK, RP).

**Michelle**: PROTIP: To do Heihachi's super move, hold ↓, then simultaneously tap (LP RK).

**Paul**: PROTIP: Here's an easy three-hit power combo. Tap ↓, ↑, RF, ↓, ↓, RF, then do the super move by holding left and simultaneously tapping (LP RK). Follow this with a quick RP, LP uppercut, then a foot sweep for a damaging combo.
The inevitable sequel to one of last year's biggest PlayStation sellers, Battle Arena Toshinden 2 offers more of the same. While this may please fans of the first Toshinden, gamers who didn't like the original won't be won over.

Toshinden 2 adds three new fighters: Tracy, a tonfa-toting policewoman; Chaos, a giddy, sickle-carrying former executive; and Gaia, one of the bosses from the previous game, now stripped of his armor. The best new characters are the bosses—especially the winged Uranus and the hidden boss, Vermillion.

Fighting fanatics will find little technique in Toshinden 2. The combos are very restricted; fighting is limited to an exchange of blows or special moves, which will disappoint those looking for another Street Fighter Alpha or Tekken 2.

**Graphics**
The fighters are cleaner than in the previous game, and some elements, like Vermillion's graveyard and the dark-to-light effect in Duke's stage, are a visual treat. Skip the lame live-action opener, though.

**Sound**
All the grunts, smacks, and victory chants are discernible, though most are spoken in foreign tongues. With jazzy and upbeat rock tunes, the music is also a plus.

**Control**
All the moves are easily executable, even the complex "desperation" and finishing moves. Configuring the top buttons to sidestep is especially helpful.

**Fun Factor**
So much for a deep fighter—there aren't many combos, just a plethora of special attacks. The three new fighters liven things up, but otherwise Toshinden 2 provides nothing terribly new.

**Bosses**

**Hidden Bosses**

PROTIP: When fighting Uranus, beware of her wings—they have reach, and she won't hesitate to bat you down with them.

PROTIP: You can chain special moves together so they're executed in rapid succession. For example, do Ellis' Flying Ball into a Flip Kick.

PROTIP: To grab an opponent for a throw, get in close, hold Away, and press △ or ○.

PROTIP: While running toward an opponent, press Attack to execute a special dashing attack.
TECNO SUPER BOWL™
FOR SONY PLAYSTATION™ & SEGA SATURN™

COMING IN SEPTEMBER

IT'S UN-BOWL-IEVABLE!
SUPER REFINED POLYGON GRAPHICS + INSTANT REPLAY + LIVE COMMENTARY + 3 DIFFERENT PLAYING PERSPECTIVES + DIFFERENT WEATHER CONDITIONS + UNLIMITED PLAYER TRADES + NEW PLAY BOOK SYSTEM AND NEW PLAYS + JERSEY NUMBERS ON ALL PLAYERS + EXTRA CONTROL FOR JUMPS, SPINS AND INTERCEPTIONS + SUPER SMOOTH GAME PLAY + UPDATED PLAYERS AND STATS + NEW CROWD NOISES + CREATE YOUR OWN DREAM TEAM + 30 REAL NFL TEAMS + REAL NFL PLAYERS + NEW TOURNAMENT MODE FOR YOU AND YOUR CLOSEST FRIENDS! COME SEPTEMBER, YOU WILL BOWL-IEVE!

Prepare for sword-swinging action as Prince Lightstar in this game based on the animated television series. Despite superb artwork, Skeleton Warriors' gameplay is standard side-scrolling fare (scroll right, boss; scroll right, boss), and you must wait at the edge of the screen before the game allows you to move onward. Even the basic 3D flight levels lack 32-bit polish. PlayStation owners have come to expect more, but Lightstar's quest is still an enjoyable one.

**PROTip:** Jump over Ursa when she rushes. Hit her a few times when she's dizzy, then run to the opposite side of the screen to avoid the falling boulders. Repeat this method to beat her.

**Graphics**

The sharp, rendered graphics create the illusion of 3D in this 2D game. The characters are large, which is a plus, but the bright explosions occasionally muddle the screen.

**Fun Factor**

4.0

While it has evolved little from 16-bit game design, Skeleton Warriors is fun nonetheless. Former side-scrolling swordsmen who want to bust skeleton heads, welcome back.

**Control**

4.0

Smooth, straightforward controls leave little to distract you. Your bike moves great in the flight levels, but it could have stood some tweaking.

**Sound**

4.0

The effects are topnotch, from the clean blast of your laser to the clatter of shattering skeletons. The epic music sends you bravely into battle despite the chilling roars of the bosses.

Sometimes all aspects of a game seem to fit so well together that you can't help but like it. Robo Pit takes a 3D game environment similar to Jumping Flash's and turns it into a one-on-one fighting arena for cutey robots. More environments and more simultaneous CPU enemies would have definitely made Robot Pit worth more than renting. Yet its addictive, lighthearted gameplay will sway some players to buy it nonetheless.

**PROTip:** Pick weapons you like and try to stick with them; your robot grows deadlier as it builds proficiency.

**Sound**

3.5

Effects like laser blasts and spring-loaded weapons are well done, even if they sound muted at times. Synthesizer tunes provide an upbeat background for the action.

**Control**

4.0

The various robots all move and jump fluidly, making for solid controls. Even with numerous weapons and special attacks, the game is easily learned.

**Fun Factor**

4.0

The gameplay is simple and slightly addictive. Players will enjoy the two-player Vs. mode and the option to customize their own robots.
PO'ed is a first-person shooter that doesn't have the grit of Doom or Alien Trilogy, but an interesting array of innovative features make it worth a shootout.

As the cook (and sole survivor) in a space transport, you try to fry a horde of invading sci-fi uglies. The enemy's aggressive A.I. pumps up the Fun Factor as weird creatures constantly hunt you down.

You'll have a blast with ten wicked weapons, especially the low-tech frying pan and bloody meat cleavers, plus a jet pack that enables you to fly into aerial combat. PO'ed does a nice job of tip-toeing between fierce and funny.

Stage-select cheat: Simultaneously press L1, L2, R1, R2, and Up at the main menu screen. Press O to start a new game. At the Difficulty screen, simultaneously press L1, L2, R1, R2, and Down, then release them. Pick a difficulty setting, and a level-select menu appears.

PROTIP: Before you run into Robot Maxes, be sure to have the missile cam.

PROTIP: The Waller Gatling gun, the pulse gun, and the BF90 are the best weapons when you're engaged in aerial combat.

PROTIP: The sounds feature sweet ammo effects. But they're nowhere near as effective at creating atmosphere as the eerie, scary audio in Doom and Alien Trilogy.

PROTIP: The nicely detailed monsters, such as the hilarious-looking Buttheads and the musclebound Arnie army, show noteworthy imagination, but they aren't scary.

Graphics

Sound

4.0

4.0

The sounds feature sweet ammo effects. But they're nowhere near as effective at creating atmosphere as the eerie, scary audio in Doom and Alien Trilogy.

Control

Fun Factor

4.0

4.0

4.0

A light-hearted attitude dampens the intensity level, but at least the relentless A.I. keeps you on your toes. Hardcore Doomers may consider this a fun weekend rental.

In each mission, Shellshock blends a different hip-hop track with rearing cannon fire and explosive effects. However, you'll tire of the commentator, 0-Tour, who often repeats himself.

Control

Sound

4.0

4.0

Rotating your turret while driving is challenging. Master it, and you'll be lethal. Selecting weapons and general movement are straightforward.

PROTIP: Target your enemies using your radar and cross hair before you can actually see them. You can destroy them from long-range without taking any damage.

Graphics

Enemy vehicles look great if you're fool enough to get close. While the terrain is always flat, the detailed surroundings make for a believable environment.

PROTIP: In the second mission, play hit-and-run around the exterior of the compound fence instead of charging straight in.

Shellshock embodies all the elements of a good tank game: It's simple to learn, but tough to master. Fans of the rolling-cannon genre will get plenty of targets for their money.

Following a very formulaic tank-game design, Shellshock has you battling enemy tanks, boats and helicopters from a first-person perspective. Apart from its hip-hop "flava," Shellshock doesn't add any surprises to this genre.

Each of the 25 missions puts you in a new environment, where good strategy and shooting are required. With solid 32-bit features, Shellshock will hook head-heads. If you're not crazy about tank games, you still might want to give it a roll.

The latest installment of one of the most popular fighting games in history gets a face-lift for the Saturn. Saturn owners left out in the cold when MK 3 hit the PlayStation can now gloat: Ultimate has arrived, and it offers more fighters, moves, fatalities, and secrets than MK 3.

Ultimate has four new fighters (Scorpion, Jade, Kitana, and Reptile), three hidden ones (the original Sub-Zero, Ermac, and Mileena), and four new stages. Some old characters were also upgraded: Kano has a new vertical ball and Stryker has a riot gun attack. Two new modes enhance the gameplay: A four-player, two-on-two match (each player picks two fighters—one falls, and the other jumps in), and an eight-player tournament.

If you liked the arcade version, you’ll like this translation: if you didn’t, there’s not much to sway your opinion—unless you like the fact that you can now play at home and not pay 50 cents a pop.

The Fatalities—the draw of the first game—are faithfully duplicated from the arcade. Strangely, the best ones (like Scorpion’s pack attack) leave something to your imagination by blacking out the screen at the moment of bloodletting. Other finishing moves, like the Animalities, are weak and poorly conceived (Kitana’s rabbit attack? Come on, guys!).

The real hook is the playability and brutality of the fights, and here UMK 3 holds up well. The moves are easily executed, and there are heavy-hitting combos and juggling. Matches against the computer is almost no fun, however; the AI usually counters with an unblockable maximum-hit standing combo, leaving your life meter drained and your controller in pieces.

The 32-bit systems are again bringing the arcades a little closer to home. For MK fans grounded to their TVs, this is as close to the arcade as you’re going to get.
PROTIP: Ermac's Telekinetic Lift is one of the most effective moves in the game. Whenever an opponent is knocked down, use it to launch them in the air for an uppercut or a roundhouse.

The rumored character from the first MK game now exists! Ermac is one of three hidden fighters, along with the old Sub-Zero.

PROTIP: Be careful when executing a combo against a computer opponent; if you miss a hit, they will retaliate with a maximum-hit standing combo.

PROTIP: When you win the Ultimate MK Tournament, pick the last "?" for your reward. It's the Supreme Demonstration, and it shows you all the finishing moves.

The Endurance Round returns! This time you fight up to three opponents in succession.

PROTIP: Noob Saibot blends into his background, making him almost invisible. Use characters with stun moves like Scorpion's Spear and Sub-Zero's Freeze to show his location.

PROTIP: Avoid fancy air-juggle and special-move combos. Standing, rapid-fire, button-tapping combos do as much, if not more, harm.
If you own a Saturn but looked longingly at Wipeout, it's finally here. PlayStation pros, however, will prefer their own turf after checking out the slightly inferior graphics, control, and gameplay.

The premise remains the same: Race against seven wickedly cool hovercrafts that flash around snazzy sci-fi landscapes. Along the way, you hit speed-booster pads and collect one-shot weapons (missiles, mines, and so on).

While fairly clean, Wipeout offers no improvements on the PlayStation version, and a few glaring errors crop up. This port doesn't quite maintain PlayStation-quality graphics and sounds, and worst of all, the easier gameplay doesn't live up to the game's reputation for intensity.

But if you have to go with the Saturn version, don't despair - the grass is greener on the other side, but it ain't exactly brown here. Racing fans will delight in the sheer joy of this slick combo of racing and combat.

**PROTIP:** Pointing your nose up on hills and down on descents is crucial to tight steering and top speed.

**PROTIP:** When dropping mines, slide sideways and spread 'em across the track to increase your chances of tagging an enemy.

**PROTIP:** Never rev your engine to the max at the start. For top acceleration, hold steady at about two-thirds power until the flag drops.

**PROTIP:** The tail brakes really swing your craft sideways, so allow space on the track to avoid collisions. With practice, you can take tight turns at high speeds by punching the gas after your craft swivels.

**PROTIP:** Locked-on missiles always connect, so try to nail opponents with them in tight moments, such as jumps or rough turns.

**Fun Factor**

- Far easier than the original, this version lacks Wipeout's trademark white-knuckle thrills. The gameplay's solid enough that Saturn owners will still find seriously fun action, though.

**Control**

- The loose feel to the steering makes Wipeout easier to pick up and play, but it interferes with tight maneuvering. Braking and shooting, however, respond smoothly.

**Graphics**

- Compared to the PlayStation version, the graphics are grainy and lack detail, as the cartoonish missile trails reveal. Still, its sleek, futuristic look isn't hard on the eyes.

**Sound**

- All the thumpin' tunes of the PlayStation version report for duty. The somewhat-flat effects, however, fizzles without the fierce edge that kicked it in the original.
WIN! The Ultimate Gaming Rig!! OVER $20,000.00 IN PRIZES!

You have the POWER. In this contest you don’t rely on the luck-of-the-draw. You determine if you win or not. You win by outsorcing others in a game of skill. Can you solve the puzzle below? Then you have what it takes. It looks simple, but it’s only the start. Each of five more puzzles get a little harder. But this time it’s all up to you. Stay in to the end with the highest score and the gear is yours. With whatever options you want. Do you have what it takes? Then play to win!

Computer Contest. Win a blazing fast computer with Pentium 166 MHz processor, 16 meg. ram, 1.2 Gig. hard drive, CD-ROM, 17" monitor, modem and more!

Video Game Contest. Play on the hi-tech cutting edge with this line-up: Sony PlayStation, Sega Saturn, Virtual Boy, 3DO, and Atari Jaguar. Get all five or trade the ones you don’t want for CASH! Bonus options include: 35" inch monitor, $1,000 in games, cash, accessories and more!

Media Rig Contest. The Ultimate Gaming Environment, 40 inch monitor, 130 watt receiver w/ Dolby Pro Logic Surround Sound, and all components shown. Win DSS Satellite Receiver as a BONUS OPTION! This rig will blow you away!!

We’re talkin’ GAMING HEAVEN!

Directions. Fill in the Mystery Word Grid with words going across that spell out the Mystery Word down the side. Hint: use the Mystery Word Clue.

In the future. There will be four more puzzles at $2.00 each and one tie-breaker at $1.00 which will be sent to you by mail. You will have 3 weeks to solve each puzzle. We don’t know how many will play but typically 55% will have the highest score possible score to Phase I, 45% to Phase II, 35% to Phase III, and 32% to Phase IV. The tie-breaker determines the winner. If players are still tied they will split the value of the grand prize they are playing for.

For Saturn owners who are fans of the Streets of Rage series, Sega has an immediate answer: Guardian Heroes. This fantasy beat-'em-up with some RPG elements is just as fun as Streets of Rage, packing lots of punches, special moves, and powerful spells.

What Guardian has that Streets didn't are multihit combos, linking moves, and six-player action. However, six-player gameplay is not recommended unless you want to see the action slow to a crawl. There are also colorful bosses, an intriguing (if somewhat long-winded) story line, and multiple paths that lead to several endings. Each player has super moves, so you'll want to play with each one, giving the game a high replay value.

It may not be a looker, but GH actually grows on you after a while. As much fun as any brawler, Guardian brings back the memories of the golden days of gaming. Unfortunately, it brings back the same old graphics and sound as well.

**Graphics**

Unfortunately, these poor, simpering graphics have no place on a next-gen machine. Colorful doesn't always mean clean, and there are plenty of jagged edges, pixelated fighters, and breakup.

**Sound**

Not bad, but not spectacular. You get a fairly funky score, some minor grunts, and some standard punches and smacks. Nothing stands out, and the game's lengthy dialogue should have been spoken, not written.

**Control**

Once you learn the special moves, the controls are second nature. It doesn't take much to slash your way through a village, and even the spells are a one-button deal.

**Fun Factor**

Want the best action RPG to date? This is what Golden Axe for the Saturn should have been. You'll play this one from Hero to eternity.

**Protip:** When you use the Han Maximum (tap ↓↓, then Attack) for Samuel Han, tap ↓ and Attack on your descent to fire down on your opponents.

**Protip:** Be on the lookout for mechanical foes. Once vanquished, they explode, nailing you with a 15- to 20-hit explosion.

**Protip:** Dashing (tap →→) before attacking will always deliver a more powerful blow.

**Protip:** When all else fails, use the Berserk command for your undead warrior.

**Protip:** The easiest way to the Sky Spirits is to take the path to the nearby small village, approach the castle from the town, and respond to the magician's query, "Was force the only option?" Then, go through the Dark Labyrinth, search Kanon's Lair, fight through Castle Town, and you're there.

**Protip:** Nicole Neal is useless. Her magic spells are mostly healing and barrier, so use her only when traveling in a party of four or more players.
Feel the Force!

The Star Wars universe comes alive in this exciting new customizable card game! Play as the Rebel Alliance and battle the Galactic forces in an epic duel of good vs. evil, or feel the hypnotic pull of the dark side and crush the imprudent Rebels under your Imperial heel.

Created in conjunction with the game’s designers, this Official Player’s Guide will take you to new levels of play as it provides all the strategies, tips and tricks you need to master this challenging and complex game. Inside you’ll find:

- Novice, Intermediate, and Advanced strategy tips
- Exciting new card combinations
- Secrets of the card’s designers
- An in-depth look at the design and creation

Fighting dinosaurs? The concept's almost as old as the dino themselves. If Primal Rage had been available at Saturn's launch, this game might have had a chance to be popular. But it's outdated and in no way stands up to other next-gen fighters like Tekken 2 or Virtua Fighter 2.

Everything else remains the same as it was on the earlier versions. Good graphics and good sound do not a hit make these days. This game is practically prehistoric.

**Primal Rage**
*(By Time Warner Interactive)*

**Creature Shock**
*(By Data East)*

$59.95  
Available now  
Shooter  
1 player

---

**Graphics**

The graphics are clean, better than the PSX version, and the intro scenes are wonderfully rendered. But some slowdown exists, and the game's missing frames of animation.

**Sound**

Great sound effects recreate the arcade version's. Lots of dino roars and flesh shredding, but nothing outstanding. A rippin' new soundtrack could have spiced this one up.

---

**Control**

Although the game uses four buttons, the controls feel stiff. Special moves are easy enough, but little depth means there's little to memorize.

---

**Fun Factor**

Blah. The game doesn't excite you enough with new characters or different gameplay. Rent it out of curiosity.

---

**Protip:**

Stay out of the corners. Good Rage players have corner combos that will take advantage of your temerity.

**Protip:**

To do a killer attack move as Armadillo, hold X and Y and motion (up, right, down, left).

---

Do you like a solid, multi-faceted corridor shooter that has some flying levels and interesting creatures? Did you like Cyberia? Then you'll like Creature Shock...kind of. A poor man's Cyberia, Creature Shock lacks in gameplay but it makes it up in creativity.

Unfortunately, there's no real Shock in this CD. You'll play for a weekend, and be glad to be done with it. Creature Shock may keep you mildly interested, but if you haven't yet bested Alien Trilogy, then hit that before you bury this.

**Protip:**

Red targets on enemies are weak spots.

**Protip:**

In the first level, save your smart bombs for the boss. But be careful when you launch them. Only a direct hit matters.

**Protip:**

Check the walls for hidden safes. Look for any irregularities in the walls.

---

Although imaginative, Creature Shock is still disappointing, with grainy graphics and frustrating load times. The cinematic cut scenes are inventive, but not clean.

**Sound**

Nothing stands out among the sounds. Some eerie sound effects in the corridor are offset by long interludes of...nothing.

---

Not as puzzle-intensive as Cyberia, but not as fun, either. Creature Shock needs more variety or some platform action to distill the boredom.
Hey, can you take a few minutes to answer some questions for us? Please fill out the following survey and fax, e-mail, or snail mail it (or a copy) back to GamePro by July 31, 1996. You'll be entered into a contest to win a free video game. Ten runners-up will win the strategy guide of their choice from Infotainment World Books.

By Scary Larry

There have been some addictive shooters this year, with Panzer I and Darius Caiden leading the ranks. In the Hunt isn't quite in their league. This game harkens back to the golden age of side-scrolling shooters, with fancy explosions, nearly impossible to beat bosses, and, unfortunately, plenty of slowdown.

In comparison to the PlayStation version, this one is slower, doesn't have minor graphical touches (like the sub turning sideways when it dives), and on the normal setting is a breeze to beat. The music and sound effects are solid, but boring.

Still, for Saturn owners who've drooled over the PlayStation version, it's a great shooter. Screen-filling bosses and impressive explosions make this a great rental. It's a good buy if you're feeling nostalgic.

By Scary Larry

This is one little piggy that shouldn't have gone to market. Golden Axe is a lame fighting game at its best, and at its worst, it's the reason Sega needs to keep its axe to the grindstone.

Semi-cool graphics fall apart once the game starts. Tepid moves highlight each character (culled from the original Golden Axe Beat-em-up), but there are no combos, and the game soon disintegrates into a hapless slapfight.

The sounds are standard, the special moves are anything but, and the game just doesn't hold water, even for novice fighters. Getting the moves to work is a matter of circumstance. Rent if you must, but don't expect to strike any gold with this Axe wipe.

By Scary Larry

Although the Alone in the Dark series (which gained popularity in PC circles) is probably what inspired the Resident Evil designers, this Alone sequel is not as fun or as well mechanized as RE, nor is it as scary. As a matter of fact, Resident Evil blows away this polygon punk.

The graphics illustrating this story of zombies, gangsters, and a kidnapped child are amazingly flat and lifeless. None of the realism or ingenuity that brings characters to life with polygons is apparent.

The sounds are unreal, but not in an otherworldly way. The effects used to illustrate head butts, for example, sound like someone coughing loudly.

The quirky controls don't help the less-than-appealing gameplay or the boring story line. This One-Eyed Jack will stand Alone...unrented on the shelf.

By Scary Larry

PROTIP: Shoot the guns from the body of this boss before the repair units come back to replace them. Then tackle the boss as it lands in water.

PROTIP: At the end of this stage, shoot upwards to dislodge blocks that will eventually destroy the boss below you.

PROTIP: For Milan Flare’s Love Lock, tap ← and Button C.

PROTIP: To do Keel’s Ice Cap, motion → ↓ ↑ →, and press any punch button.

PROTIP: Take out the first zombie lying on the ground: Wait until he gets up, head-but him, then take the Tommy gun, clip, and flask. Go to the house. You can’t get into the shack just yet.

PROTIP: Pick up everything you find. Only a few items are not needed in the game — everything else is vital.

All correct entries will be entered in a drawing. Entries must be postmarked no later than July 30, 1996.
Ya Gotta Have These!

Here in the middle of summer, we're talkin' baseball. We got our resident sports experts, Greasy Gus and Air Hendrix, to name their ten favorite 16-bit sports titles of all time. Their alphabetical list:

- FIFA '96 (Genesis)
- Greatest Heavyweights (Genesis)
- HardBall '95 (Genesis)
- Head-On Soccer (SNES)
- Ken Griffey Jr.'s Winning Run (SNES)
- Madden NFL '96 (SNES)
- NBA Jam T.E. (SNES)
- NHL '96 (Genesis)
- PGA Tour Golf III (Genesis)
- World Series Baseball '95 (Genesis)

Now we want to know which games you'd put in the Hall of Fame! Consider the sports games at left or any others you like, write down your top choice of the best 16-bit sports game ever, and get it to the following address by July 5:

Hall of Fame: Sports
GamePro Magazine
P.O. Box 5828
San Mateo, CA 94402

You can also e-mail us: the_mail.gamepro@ftw.com.
We'll publish the readers' list in an upcoming issue. Please, no fighting games, RPGs, puzzlers, or anything besides sports titles - we'll ask for votes on other genres soon!

16-Bit ProReviews

By Coach Kyle

TIME Killers

By Bro' Buzz

Bass Masters Classic

PROTIP: Upgrade lures according to season and water conditions. Buy the best reels and the strongest line, too.

PROTIP: Though you'll be tempted to rely on the vicious hack-n-slash arm moves, learn to use the various kicks.

bass are biting faster and more furiously than ever. The visuals have fishy flair. Fishermanfolk will dig the cool underwater gameplay view, which is reminiscent of lure commercials on cable TV. The fish graphics and animations are sharp, too. Nice bass.

There are a mess of bass fishing carts out there, but Bass Masters Classic Pro Edition is easily a keeper.
Ask The Pros

Can you please tell me the level-select code for Mickey Mania?

Justin Medrek
Hammondsport, NY

Mickey Mania is one of the best of the 16-bit Mickey Mouse games (and it's the only one with a level-select trick; see below). Other Mickey games worth playing: Castle of Illusion (Genesis), Great Circus Mystery (Genesis), Land of Illusion (Genesis), and Magical Quest (SNES).

Here's the level-select code for Mickey Mania for the SNES. At the Options screen, choose Sound Test. Set Music to Beat-stalk 1 and SFX to Extra Try. Put your cursor on Exit and hold L for about ten seconds until a sound effect signals that the trick has worked. Start the game, and you arrive at a level-select screen just before gameplay begins.

level-select screen is the last menu screen.

I have the first X-Men game for the Genesis, and though I've beaten the game many times, I've never been able to reset the computer at the end of Mojo's Crunch. How do you do it?

Todd Waterhouse
Norfolk, VA

When it tells you to reset your computer, reset your Genesis. That's the computer the game is referring to. By the way, here's Dr. Zombie's list of great X-Men games for the SNES or Genesis, in order:

1. X-Men (Genesis)
2. Wolverine: Adamantium Rage (Genesis)
4. X-Men: Mutant Apocalypse (SNES)
5. X-Men 2: Clone Wars (Genesis)

I was wondering why there is a door on the bottom of the SNES with a chip in it. Is there something like the Sega CD that can attach to the SNES?

J.T. Warner
Topeka, KS

Lots of readers have written to us over the years asking about the famous EXT port underneath the SNES. Nintendo never did make whatever it was that would have plugged in through that door. For a while everyone expected a SNES CD add-on to appear, or perhaps some kind of hookup with Project Reality (oops, the Ultra 64...uh, the Nintendo 64). As it turns out, Nintendo had considered creating a way for you to link your SNES to the Internet. That's right: SNES online! Unfortunately, those plans never came to fruition (although they may via the N64).

I'm having trouble with Toy Story. Do you know any level skips for it?

A.J. Hamernick
Sunnyvale, CA

Sega considers Toy Story one of its ten best Genesis games ever (Sonic 2 heads their list, followed closely by MK 2 and Sonic & Knuckles; Toy Story clocks in around number seven). Our editors didn't think it was that good, though the graphics rated a 5.0.

Here's the level-skip trick for the Genesis. At the title screen, hit Button A, B, Right, A, C, A, Down, A, B, Right, and A (which spells out ABRA CADABRA). If you enter the code correctly, you hear a laugh. During gameplay, hit Start to pause, then press Button A to jump to the next level.

In the SNES version, go to the right in the first level until you reach the bouncing ball. Jump from the ball to the bottom drawer of the dresser. Press and hold Down until the star in the top left corner starts to spin - you are now invincible. Once you've entered the invincibility code, pause the game and hit Select to skip to the next level.

Your Two Cents About 16-Bit

I didn't take you guys seriously when you said that Justice League Task Force for the Genesis was weak. I bought it anyway. The game looks cool, but the control is awful. The moves are either too hard or don't work at all. I've learned my lesson: GamePro reviewers are law!

LaRue James Binder
Los Angeles, CA

We gave that game a 3.0 Fun-Factor, and you dared us to doubt us? Foolish mortal.

Game Watch

This month's good news comes from EA Sports: Madden NFL '97 will be out for the SNES and Genesis during the '96 fall football season! In fact, according to Dave Dempsey, public relations manager for EA Sports, EA "will have nearly all our major franchise games, including Triple Play, Madden, NHL, NBA, FIFA, and College Football USA, updated and available this year." No more PGA games for the Genesis, though.

Meanwhile, here are this month's likely releases:

Kirby Super Deluxe by Nintendo (SNES)

Olympic Summer Games by T+HQ (SNES and Genesis)
PBA European Tour by T+HQ (SNES and Genesis)

Power Players of the Dark Ages By Titus (SNES)

Whizz by Titus (SNES)
Quick Hits

Psychic Detective
PlayStation

This funky detective game, which allows you to get into the minds of all the players, is a pretty good murder mystery. It's definitely for older players, though, with its tale of sex, intrigue, double-crosses, and more. Clean full-motion video (although mostly in a small-screen format), great sound, and more fun than Snowjob. (By Electronic Arts)

Starblade Alpha
PlayStation

We reviewed a 3DO version of this game over a year ago... and it hasn't changed a bit. The graphics vary between polygons and texture mapping, and the sound, although clear, never changes, though it's great when cranked up. This shooter is no more exciting than Darius Gaiden and a lot less appealing than Panzer I. (By Namco)

Braindead 13
3DO

Although we received a boxed copy of this game, it has the look and feel of a preview disc. The sound is glitchy and the controls unmanageable. The cartoonish graphics are the only highlight. Braindead 13 is nowhere near as good as Dragon's Lair or Space Ace, which it tries to emulate. (By ReadySoft)

Snowjob
3DO

Jagged graphics and slow gameplay rank Snowjob low on the fun scale. But if diggin' through an Internet mystery is your idea of a good time, give this game a shot. Although it's not as much fun as Psychic Detective, you could still have an enjoyable time playing it - but you have to devote a lot of time to it. (By Studio 3DO)

Criticom
Saturn

When this mediocre fighting game debuted on the PlayStation last season, we thought its slow gameplay and weak special moves were lame at best. They just got worse. The Saturn version has even slower gameplay, choppy, simple graphics, and no chance at being any fun. Criticom is the worst fighting game of the year. (By Vic Tokai)

Extreme Pinball
PlayStation

Neither as fast nor as polished as Last Gladiators for the Saturn, Extreme Pinball is strangely reminiscent of Rainer Pinball for the Jaguar or the old Time Cruise for the TG-16. Not a lot of 32-bit technology went into this standard game, and not a lot of fun comes out of it. (By Electronic Arts)

Romance of the Three Kingdoms IV
PlayStation

After Iron Storm, most war sims seem pretty bland. This continuation of the esteemed Romance series is standard, with few next-gen enhancements (some full-motion video), stodgy 16-bit graphics, and plenty of feudal gameplay. You must be patient, methodical, and wise to play RTK 4. It also helps to know your Chinese history. (By Koei)

NBA Shoot Out

PlayStation Anyone can play run-n-gun basketball, but to truly dominate the NBA, you have to understand b-ball strategy and set plays. This strategy guide shows you how to play Shoot Out like it's meant to be played.

By Johnny Ballgame

Hidden All-Star Game

Start a game, and at the Options screen, set the game on Exhibition and press X. At the Exhibition screen, press R1, L1, R1, L1, R2, L2, R2, L2 to play the '94-'95 All-Star game in Phoenix, or R1, R1, R2, R2, L1, L2, L1, L2 to play the game in San Antonio. The phrase "All Stars - Off" appears. Turn on the option to play in the All-Star game. The teams aren't chosen for you, so trade to build your own dream teams to battle it out in the All-Star arena.

General Strategy

To Press or Not To Press

One of the hardest defensive decisions you have to make is deciding when to switch defenses from half-court to full-court press. The full-court press speeds up the game and forces the offense to make mistakes that cause turnovers. It also, however, fatigues your players more quickly and, if your opponent plays it right, leaves openings downcourt caused by mismatches in offensive/defensive prowess.

The best time to switch defenses is right before the half with about two to three minutes left, and toward the end of the game if you're losing. On offense, if you're having trouble inbounding the ball because of the press, don't panic; call time out and move the ball to halfcourt.

As soon as you make a basket, switch to the man closest to the ball. Then press R2 to switch to the press and anticipate where the ball is going to be thrown. Watch the point guard and play the passing lane (the area between the ball and the man). If played right, you'll deflect the ball; press Turbo to grab it for a dunk.

You don't always have time to get in front of the guard, so if the pass gets by you, turn and go for the steal by pressing O. The most success comes when you play directly behind the player — when he turns around, attack the side the player is dribbling on.

You'll also cause problems for the offense if you cut off the point guard and prevent the ball from moving upcourt. Any time you can get the ball out of the point guard's hands, you have a better chance for a steal.

Whether or not you're using the full-court trap, one thing you must do is defend the area between the ball handler and the man he's trying to pass to. The passer will be frustrated and might even try and throw the ball out of court, which almost always leads to a turnover.

If you see defenders in your way, don't risk not scoring. Instead, fake like you're driving toward the basket and pull up for an easy jumper. As soon as you shoot,
move in to crash the boards, and if you make it, set up defensively to guard the inbound's receiver.

The best way to fool the defense and avoid steals is by using jump passes. Defenders will turn toward the basket to go for the rebounded shot, while you find the open man for an easy two.

Always try to block your opponent's shot. Even if you don't get a piece, you will at least distract them and throw off their timing.

Never pass blindly all the way downcourt; it will almost always be intercepted.

Wait for your center to post up, then jump like you're shooting a

most of the time, this tactic turns defenders around and you have an easy jumper or an open lane for a dunk.

Bring the ball upcourt with your point guard and draw the defense to the far end of the court.

Swing the ball to the near end by passing to your shooting guard, who's positioned behind the three-point line.

If the defense isn't fooled or doubles on the post, use a jump pass to kick the ball back out to your shooting guard, who can now take an open three-pointer or start the sequence over by passing the ball back inside.
Have the point guard take the ball to the weak side and pass to the shooting guard like you are setting up the strong-side play, but immediately pass the ball back to the point.

Feed the ball down low to the power forward, who’s posted up.

If he draws the double team from the center, pass the ball along the baseline to your open big man underneath the basket.

Two the easy way.

Pass the ball to the small forward on the far side of the court, then pass the ball into the post.

When the double-team comes, jump-pass the ball across the lane to the power forward.

This will lead to an open shot or a clear lane to the basket for a dunk.

Use your point guard to bring the ball up the near side of the court and jump-pass the ball to the post.

Your first option is to look across the lane to the center when the double-team comes.

But if the double-team comes from the top, your shooting guard will be open at the free-throw line for a jumper.

When you’re in the air for your jump shot, if the defense jumps out at you from the post, pass the ball back down low for a monster slam.

Have your point guard bring the ball up on the near side and wait for your shooting guard to get in position to form a triangle with your center in the post.

Pass the ball to the shooting guard and look for your center to get deeper position in the post.
Pass the ball in to the center; his first option is then to pass the ball across the lane to your forward. If he isn’t open, pass back to the shooting guard to start the sequence over.

When the center finally draws the double-team and the forward is open, jump-pass him the ball for two points.

Hi-Lo Post

Bring the ball up the near end of the court and wait for the center to post high by the top of the key.

Pass the ball to the center and look for the power forward to cut to the basket and call for an alley-oop. If he doesn’t make the cut, use a jump pass to get the ball to the small forward on the other side of the rim.

Drive to the hoop for two.

Bring the ball up the middle of the court and stop behind the three-point line. Pass the ball back out to the shooting guard positioned behind the three-point line for an open shot.

Three-Point Play (Strong)

Feed the ball into the post to draw a double team.

Kick the ball back out to the player whose defender left to double the post. You have an open look at the basket, so fire away for three.

Three-Point Play (Weak)

Use the three-point play to spread the defense and pass the ball to the weak-side player for an isolation play.

Take your man one-on-one to the basket for a little showtime.
World Cup Golf
By Sir Garnabus

PlayStation
World Cup tees off on the PlayStation with 64 golf legends at Dorado Beach. Sadly, few improvements were made to the feeble Saturn version.

World Cup offers seven modes, including Skins, Tournament, and Foursome Medal. Unfortunately, it offers only one course, and the controls are no better than the Saturn version's (see "Sports Pages," April). Confusing menus, inaccurate projections, and the absence of contour grids on the greens plague this game.

Some of the graphics are disappointing: Fly-bys lose the ball, the full-motion video is choppy, and a slight bluish tint invades the scenery. The impressive backgrounds and sounds, however, feature realistic surroundings, clear voiceover introductions, and CD-quality background music.

You're better off putting on the greens of PGA '96, but for the avid golf fan, World Cup at least offers a different look at the game.

Olympic Summer Games
By Bruised Lee

Genesis
Track-and-field events, including archery, the triple jump, and discus, make their way to your Genesis. Unfortunately, the realism and excitement of the Olympic games weren't included.

Olympic's graphics fall far short of winning any medals. The simplistic look of the ten events, along with the bland colors, make you feel like you're watching the agony of defeat. Wretched music and a shortage of sound effects don't help matters, either. The repetitive controls, which often consist of frantically tapping buttons, quickly wear out your fingers and your interest.

Thankfully, the summer games come around only once every four years, giving you plenty of time to prepare to boycott the sequel. But if you must play the Olympics, the SNES version fares better than this poor outing.

Olympic Summer Games
By Johnny Ballgame

Super NES
Olympic Summer Games takes track-and-field competition to new uninspired lows, offering nothing original to anxious fans of the Atlanta games.

You compete in ten events, including the 100-meter sprint, javelin, and pole vault. All the events are controlled so similarly, though, that once you master a few of them, you've mastered them all, which enables you to shatter every world record in no time.

Strictly old school, the graphics lack detail and imagination. There are no footprints to help you mark your spot in the high jump or even any opening or closing ceremonies. Even worse, there are hardly any sound effects during gameplay-only repetitious, annoying music that plays during almost every event.

If you buy this game you should be presented with a gold medal. Fool's gold, that is.

PROTIP: To increase your chances of hitting the skeet, wait for it to start its fall before shooting.

PROTIP: Use the "circle around the dot" feature to scope out the landscape's slopes before putting.

PROTIP: Play on Amateur difficulty until you get the hang of club selection and swing power.

PROTIP: If an event is giving you trouble, use the practice mode to master it.

PROTIP: Don't bother to move the controller up and down during the skeet shoot. Concentrate on moving right and left for the best results.

PROTIP: In the pole vault and high jump, practice until you know how high you can go without faulting, then pass to that level in the competition. This will save you from getting disqualified earlier than necessary.
**Striker '96**

*By Tommy Glide*

Striker '96 brings simple soccer to the PlayStation. This fast, arcade-style game plays fluidly, but it offers little more than 16-bit gameplay.

Take the pitch with any of 38 teams in tournament, friendly, league, or trophy matches. While there isn't much difference between arcade and sim modes, this quick-playing game handles well and is easy to pick up. Graphically, the smooth camera works the field, giving you good overhead position, but the sprites and animations have barely progressed past cartridge games. The sounds are average for 32-bit, though.

Neither boring nor a game you can really sink your teeth into, Striker has speed but lacks finesse.

---

**NFL Quarterback Club '96**

*By Johnny Ballgame*

QB Club '96 is worse than Neil O'Donnell in the clutch.

The many strong options, like season play, simulation, and the ability to switch QBs between teams, are overshadowed by sloppy gameplay and a poor A.I. (See Saturn ProReview, April). Although one-player games lack quality gameplay (you can run the same play all game and win), two-player competition packs enough punch for the average fan.

With colorful, realistic player graphics, this QB Club's cleaner than the Saturn version. Irritating screams dominate the sound on the field.

Despite the decent features and graphics, QB Club lacks solid, addicting gameplay. It isn't in the same league as GameDay.

---

**College Slam**

*By Tommy Glide*

If you've played NBA Jam T.E., in essence you've already played College Slam.

Slam trades the stars of the NBA for nameless college players, and it doesn't add much. Alley-oop dunks and player substitutions are the only new features in this two-on-two hoop-dupe.

Fortunately, Slam uses the same game engine as Jam, so the fast passing and furious dunking remain untarnished. Graphically and sonically, you get nearly identical sprites, animations, and sound effects as Jam.

If you're a freak for college ball, and you like arcade-style sports, this might be your ticket. But those who know the pros of NBA Jam won't be conned by this collegiate clone.

---

**Saturn**

*By Greasy Gus*

College Slam ain't exactly NBA Jam, but it's about as close as Siamese twins. Offering head-to-head, tournament, season, and semi-finals modes of play, Slam delivers rowdy two-on-two basketball with 44 college teams.

Once you accept that the graphics, sounds, and gameplay are serious rip-offs of NBA Jam, you can settle into a decent game of hoops where the game speed ("juice") can be multiplied up to four times faster than normal. Slam's new features include alley-oop and player substitutions, but the latter doesn't enhance the gameplay much.

If you're a fan of college ball, you might appreciate matching up your favorite teams. If you're not, shoot for the bucket marked NBA.
Long the king of 16-bit sports, EA Sports draws a bead on 32-bit baseball stardom with Triple Play '97 after fouling out on the hoops court.

Gameplay & Controls

Baseball nuts will absolutely love the remarkably comprehensive controls: ten pitches, three swings, two throws, two slides, a speed burst, and three batting stances. Triple Play may sound like a hardcore sim, but EA did a great job of balancing exhaustive attention to detail with wicked, arcade-paced action. Unfortunately, in this preview version, the loose steerable pitching interfered with a tight, strategic game, but EA has time to remedy that flaw before “the Show” begins.

Graphics & Sounds

Triple's games open with a gorgeously rendered stadium fly-by that'll raise your hackles in awe, and the graphics keep up the pace as the action begins. A vast selection of camera angles is complemented by fluid, realistic players, and phenomenal 3D stadiums. Spine-tingling sounds and commentary complete the at-the-park feel.

Developed and published
By EA Sports

80% COMPLETE

The Roster

Triple Play takes to the diamond on the heels of last year's well-received Genesis game with every pro player, team, and stadium. Up to eight players can swing for the fences in the usual modes (exhibition, season, playoffs, home run derby) or in an all-star game. Great stats are matched by trades, drafts, and the ability to create your own player and switch sides during a game.
The neck-to-neck race for this year's 32-bit pennant continues to heat up, and Pennant Race places strongly in the upper echelons of the pack.

**Graphics**

The spectacular stadiums shine with an incredible 3D luster when the camera tracks the ball as it rockets into the outfield. A huge Jumbotron that replays the action in real time doesn't hurt, either. The motion-captured players sport a smooth, hand-drawn look that some may find too cartoony, but Pennant Race looks great overall.

**The Roster**

Like Triple Play, Pennant Race scores with well-rounded features: all the major-league teams, players, and stadiums; all the standard modes; the ability to trade and create a player; and five cool camera angles. Baseball fans will delight in the detailed stats and the strategy option, which enables you to shift the positioning and depth of the infield and outfield. Sony also built in a few unique touches, such as switching stadiums during a game or putting any player at any position.

**Gameplay & Controls**

Each pitcher cranks out three pitches at three speeds, while batters sport the usual contact, normal, power, and bunt swings. Pennant's impressively smooth controls will enable baseball fans to hit the field with little practice. The gameplay delivers raucous, fast-paced fun, but some gamers may miss the depth that Triple Play offers. As both games are still unfinished, however, it's too early to make a definitive call.
In sharp contrast with its poor 16-bit counterparts, Frank Thomas is about to put the "Big Hurt" on its competition with a winning combination of arcade fun and statistical accuracy.

Big Hurt's fantastic features drill one over the fence with six play modes, more than 700 MLBPA superstars, 27 statistical categories, and the ability to create your own all-star team. Also, a quick-play option gives pitchers the advantage of needing only one strike for an out. Rosters are current with the '96 season, so you can play as rookies like Chan Ho Park and Derek Jeter.

Part of Big Hurt's beauty is that although it's a statistics-oriented game, it's relatively simple to pick up and play. Each pitcher realistically throws his three best pitches, and you have the ability to alter the speed and location. Batters hit hard-liners or lay down bunts, while fielders dive and jump for balls.

Big Hurt's graphics pull off a smooth double play: They're both eye-catching and effective. Acclaim used motion-capture technology to create a dynamic diamond filled with realistic movement, throws, and swings. Every major league stadium is 3D rendered, giving you the best seat in the house.
VR Baseball '96

Like Bottom of the 9th, VR Baseball swings for the fences in a world of Virtua Fighter-style polygonal graphics. Although some may find the blocky look somewhat unappealing, the allure of VR's fluid, graceful motion-captured movements and realistic 3D stadiums is undeniable. Each ballplayer even has his own real-life face! More importantly, the game mixes all the right features with a few intriguing standouts, such as the ability to play from any position and any camera angle. VR's batting order sports all the major-league teams, players, and stadiums; arcade- or sim-style gameplay; and exhibition and season modes.

—Air Hendrix

NFL Quarterback Club '97

NFL Quarterback Club '97 makes an all-out effort to correct the defects of seasons past, such as a wimpy A.I. and shoddy visual details (Steve Young passing right-handed, for instance). Club '97 has 500 new plays with 50 available as Hyper Audibles. Additionally, Iguana Software, the developer, created 30 new A.I. routines to handle the finer points of the game, such as pass coverage, pass patterns, and blocking assignments. In fact, the A.I. will read your offensive and defensive tendencies. Other great improvements include trades, an offensive view that shows both wide receivers, and easy-to-read jersey numbers. In championship-caliber football, details count. This year the Club seems to have 'em.—Bro' Buzz

Acclaim recruited former Jets QB Ken O'Brien for generic quarterback motion-capture work.
Olympic Summer Games

Modeled after the 1996 Centennial Olympics in Atlanta, Olympic Summer Games goes for the gold with 15 events, including pole vault, fencing, swimming, archery, sprints, jumping, javelin, weightlifting, shooting, and discus. Up to eight players can simultaneously compete in tournament, arcade, and challenge modes. The impressive graphics will capture your attention with motion-captured athletes and gorgeously rendered 3D gymnasiaums, stadiums, and pools. If U.S. Gold delivers tight gameplay, Summer Games could garner the top track-and-field honors.—Air Hendrix

Olympic Soccer

The next-gen soccer fields are getting as crowded as the next-gen baseball diamonds these days, and U.S. Gold's poised to enter the fray with Olympic Soccer. Thirty-two international teams battle for Olympic glory with special moves like banana kicks, bicycle kicks, fakes, diving headers, chest stops, and more. The four-player action goes down in tournament, challenge, and exhibition modes on rendered 3D fields with polygonal player graphics. Top soccer titles abound on the 32-bit systems, so unless Olympic Soccer plays like a dream, it'll fade as quickly as all the Olympics hoopla.

—Air Hendrix
Formula 1 World Championship  PlayStation

Loaded with impressive options and licenses (see “Sports Pages,” May), Formula 1 peels out with dauntingly tough white-knuckle racing. If the flashy feel of Ridge Racer didn’t satisfy you, even the preview version of this challenging sim would keep you glued to the road. Although the responsive controls are easy to learn, the mechanics and strategy of real-life F1 racing aren’t—and this game brings all that to life. The 17 tracks shine with beautifully detailed graphics and spine-tingling sounds.—Air Hendrix

**NBA Action**

NBA Action is the first NBA-licensed basketball game available for the Saturn, and unfortunately at this unfinished stage, it looks about as impressive as an air ball. NBA Action does provide solid features like Season, Playoff, and All-Star games, along with every NBA team. The problem, however, lies in the gameplay. Dunks slow down, and turnovers seem to happen for no reason. The tiny sprites make players indistinguishable; you can’t even tell Rodman from Pippen. It’s still too early to make the right call, but so far NBA Action seems like it may foul out.—*Johnny Ballgame*

**300 Games: Decathlon**

The flurry of Olympics-inspired track-and-field games continues on the 3DO. Playing in 3D stadiums, up to eight players can compete in four different foot races, two jumps, the pole vault, shot put, javelin, and discus. Gamers can build their own athlete, setting attributes like nationality, appearance, speed, and so on. The controls revolve around the standard button-pounding formula, but Studio 3DO promises to include a strategic element based on managing your athlete’s stamina and injuries, as well as realistic, motion-captured movements.—*Air Hendrix*

**ABC’s Monday Night Football**

ABC and Spectrum HoloByte formed OverTime Sports to bring ABC’s sports action to video games, so of course its first game, Monday Night Football, will star ABC announcers Al Michaels, Frank Gifford, and Dan Dierdorf. These extremely early images reveal little about the gameplay, but OT’s laid a solid foundation that includes all the real NFL teams, players, and stadiums from the ’96 season. Viewed from nine TV-style camera angles, the motion-captured polygonal players will look and perform like their real-life counterparts, and the sounds were recorded from on-field microphones during games.

—*Air Hendrix*
By General Scary Larry

Without a doubt, war sims are an obscure, faintly boring component of the RPG market, with tireless support from companies like Koei and SSI. Now Working Designs, known for their outstanding fantasy RPGs Lunar and Lunar II, have developed one of the most intriguing war sims to date. Did I mention fun, too? It is.

Storm Warning
The great thing about Iron Storm is that even a war sim novice can pop this CD in and start a game. Although knowledge of World War II fighting tactics is helpful, you can easily set up the campaigns so that you control all facets of the fighting, thus learning the strengths and weaknesses of your forces the easy way. You can also designate the commander for each country, making one friend France, another Belgium, and so on. You'll just have to hand the controller around a bit.

And there's plenty to control. You can send out over 500 different types of Allies and Axis war machinery, including Panzer tanks, Nakajima and Mustang dogfighters, subs, aircraft carriers, infantry, and long-range guns. In the Standard mode you just battle it out, but in the Campaign mode, you must supply the front lines, feed the troops, train special units, and more.

Control is a matter of knowing what everything in the menu does. Since it's turn-based combat, all your forces must be deployed before the next person starts his round (unless you select Done, thereby forfeiting your turn).

War Torn
The graphics are a mixture of stodgy board-based hex battles and exciting rendered cinematics. There's also plenty of WWII footage in the intro. After you set up troops to attack, there's a rendered scene of the two forces going at it that's both beautiful and frightening. After a while, you just want the fighting to cease.

The sounds are also up to the challenge of making this game as fun as it is serious. Battle music is interspersed with massive explosions, small arms fire, and artillery bombardment.

Iron Storm is the best war sim to date, surpassing Panzer General or PTO, and one of the most fun sims ever. There are no atheists in foxholes, and there's no glory in war, but Iron Storm does its best to educate while involving you in the conflicts that shaped this century.
**Role-Player's Realm**

**Blazing Dragons**

*By Sir Scary Larry*

Remember last season's funny pseudo-RPG, Discworld? Blazing Dragons is so similar to Discworld that someone should consult a copyright infringement lawyer... pronto.

### My Friend Flicker

You play as Flicker, a dragon who wants to compete in a tournament for the hand of his love, Blaze. But first he must be accepted by the Dragons of the Square Table (such as Sir Lounge-a-lot), and he must solve puzzles along the way, all done in point-and-click style. The game even has celebrity voices (Cheech and Chong's Cheech Marin and Harry Shearer of The Simpsons), though they're not the main characters.

Blazing Dragons doesn't always go for subtle bathroom humor, either—it accelerates the pace with jokes about condoms, constipation, and impotence.

### Dragon On

Good Saturday-morning cartoon-quality animation pervades the game, with some humorous moves thrown in. The icons are also easy to identify.

The sound is outstanding. The voiceovers are clearly steady, punctuated by exaggerated accents and lots of inoffensive music.

Control is all done with icons, just as in Discworld. Walking, talking, and picking up items are as easy as blowing smoke for these dragons.

Is it fun? It's funny, but the puzzles get exasperating. If you loved Discworld, you'll love Blazing Dragons. If you didn't, this won't light any fires for you.

### PROTIP:

Combine the mop, the candelabra from outside Flicker's room, and the stocking Flicker wore on his head to make the dishwasher.

### PROTIP:

Give the hair tonic to the bald woman outside Dr. Fraud's office, and take her hair when she cuts it off.

---

**Shining Wisdom**

*By Sir Scary Larry*

What is this mediocre 16-bit title doing on a next-gen system? Shining Wisdom does not deserve shelf space alongside Working Designs' other title, Iron Storm (see review, this issue). It looks, plays, and feels like a ten-year-old RPG, and except for the fancy rendered intro, there's no reason this couldn't have been made for the Genesis.

### Dull Shine

The storyline is as boring as the flaccid graphics. You play as Mars, a junior knight who wants to follow in his dead father's footsteps. After learning the Acceleration Skill (a useless running-and-attacking skill that's surprisingly hard to master) from his grandfather, he ventures out into the world to save a princess or two, and do battle with enemies in a too-cute-for-words Zelda-like action RPG.

### No Wisdom

You battle cartoonish pigs, ghosts, ants, and more as you slash your way through standard villages, castles, and dungeons. But nothing gets more exciting here than it did in Shining Force for the Genesis.

The sounds don't even warrant mention. Voiceovers should have been used for the extensive (and boring) conversations. The music is the standard coming-of-age-hero stuff.

This Wisdom should have been scrapped. There's nothing here that you haven't seen before. If you have a Saturn, then go with Mystaria, Iron Storm, or even Guardian Heroes before you take this CD for a spin.

### PROTIP:

Go to the main gate and see what the disturbance with the Hobbit Elder is about.
Last year's Discworld for the PSX was undoubtedly the funniest interactive adventure for a console system to date. Discworld used humor with a wizard/fantasy/ninja twist to guide players through an immensely complex yet insanely funny world.

Now Sony's done it again with Discworld 2. Debuting on the PlayStation and PC CD, Discworld 2 looks like another great time for Brincéwind, the hapless wizard whose voice is provided by Monty Python's Eric Idle.

There are more items to collect, more puzzles to figure out, and more dragons to deal with. Here are a few pictures to keep you until we see this game for the PlayStation and PC sometime this fall.

By Sir Scary Larry

By Sony Interactive
Available Fall '96
**Beyond the Beyond**  
Follow Flynn and his dragon, Steiner, as they battle through the very first role-playing game from Sony Computer Entertainment. It looks like another solid outing with colorful spells, formidable enemies, and a long, involved storyline. Now where’s Arc the Lad?

*Developed and published by Sony Computer Entertainment  
Available July*

---

**Carnage Heart**  
It’s 2073, and there’s a conflict on Jupiter being fought with cyber-warriors whom you control, design, and assemble. Why is this sim in “Role-Player’s Realm”? Because apparently it’s a battle sim, where you must fight strategically (like Iron Storm). Let’s hope it’s as good as the pictures indicate.

*Developed and published by Sony Computer Entertainment  
Available July*

---

**Legend of Oasis**  
The sequel to last year’s Beyond Oasis, Legend of Oasis looks better and adds two spirits to the game. The new game is also longer and more complex. Legend includes all the features that made the first game a winner, and it lets you shrink and expand your characters. Legend of Oasis should be fun, but for younger adventurers.

Available August*
Geno's here! The next ally in Mario's world finally shows up, along with an old friend: Yoshi! Part 3 of our walkthrough should take you right up to the next star.

By Scary Larry

Run, Forest, Run!

In the forest, you'll come across tough enemies like:

- **Amanita**
  - These spurious spores can do lots of damage, but regular hits will do them in.

- **Guerilla**
  - Watch out! When he's angry, the guerilla throws rocks... big Mario-crushing rocks!

- **Octolot**
  - This guy is tough. Make him first on your hit list, using a combination of magic and regular double hits.

- **Wiggler**
  - Use your magic to handle the slippery Wigglers.

Stop at Gaz's place and listen to his fabulous tales of Geno the Magician. Don't take the treasures in the house in the upper right corner of the village. Instead, hit the switch inside, then talk to the man outside, and he'll tell you how to get to Geno.

Did you remember to fit Mario and Mallow for some new threads? Don't leave town until you do. And try to keep some Froggie Juice on hand as well. Now head out to The Forest Maze.

Before pursuing Geno, follow the villagers' instructions. When you come upon the forest maze, go left...

...left again...

...straight...

...and right.
You'll end up at this tree root. Within, you'll find a trove of treasures, along with a Froggie Coin.

Now follow Geno as he scurries through the forest. If you lose sight of him, go to the left branch of the path and start over again.

Bowyer

If you tracked Geno correctly, you'll end up at Bowyer, an arrow-flying maniac. The key to fighting him is utilizing your players' individual strengths. Geno should use his Geno Beam (powered-up, it hits for 60 points of damage); Mario can use his Super Jump or Nok Nok Shell for a 30-40 points of damage per hit; and Mallow can heal the party with Froggie Juice and Honey Syrup.

First stop in Moleville is the Item Shop, where you'll find:

**Mallow Armor**

- Pants for Mario, Geno, or Mallow

**Knockout Power!** (Mario only)

- Fingers Shoot Bullets (Geno only)
- Scare Enemies with the Sound (Mallow only)
- Mario Armor
- Geno Armor
- Stronger Mushroom
- Stronger Syrup

After defeating Bowyer, you get your next star! Now it's off to the Pipe Vault, where there's a Goomba Thumping mini-game that awards cool prizes like Flower Tabs.

After the Pipe Vault, it's Yoshi time! Help Yoshi win the race so you can go into your next battle with Yoshi's help (in the form of Yoshi Cookies). Now you're off to Moleville.
After you're finished in the Item Shop, head into the mines and help find Dyna and Mite. You'll need the items, too, because you'll be facing...

**Magmite**

They don't respond to physical threats, so blast 'em with your magic.

**Sparky**

Use Mallow's Cymbals on Sparky for a 106-point hit.

**Bobomb**

These guys are kamikazes. They hit only once, but for massive damage. Take them out first.

**Cluster**

Use Geno's Beam for a sure hit against this enemy.

---

**Punchinello**

...which in this case happens to be Punchinello, one of the hardest bosses in the game. He'll start off by defending himself with...

...Bobombs, then he'll progress to tossing...

...Maxi-bombs, and finally...

...the Mezzo Bomb.

Once inside the mine, you find that you need a bomb to blast through the wall. Where to find a bomb? Good question. Go back until you find the Jumping Board. When you jump on it, you'll run into your old friend Croc. This time, though, he's meaner, and he throws enemies at you, so bring along plenty of Pick Me Ups and Able Juice.

To defeat Punchinello, use regular hits (double-timed), and save the Flower Power for Mallow's HP Rain. Punchinello sends bombs your way, but you can heal from the damage if you persevere.

Once you defeat Punchinello, he'll send this monster bomb after you. Don't fret...

---

...because now you have the third star!

---

**Mario's Wild Ride**

Mario takes a short ride after helping the moles out. You can come back and ride over and over again to help build your coins up! Brake when near the corners, and use the mushrooms to accelerate.

In the second section, you'll side-scroll through the mines. Jump to maximize your coinage, but remember that speed is more important than coins here.

In the last section, just try to pick up mushrooms and race for the exit. Save a couple of mushrooms for the last straightaway.

---

**Next Issue...**

the remaining stars!
**FIGHT!**

**Mortal Kombat 3** is hitting the Saturn, and that means more combos, fatalities, and fighters! Here’s the lowdown on the new kids on the block, including their special moves and some combos.

**By The Axe Grinder (Special thanks to Jason Steg)**

**Finish Him!**

**Babalties and Friendships**

To perform these two finishing moves, don’t use the Block button on the deciding round. You can be anywhere on-screen when doing a Babality.

**Animalities**

To perform one of these finishing moves, you must be on the third round and perform a Mercy. To execute a Mercy, hold Run and tap ↓, ↓, then release Run.

**Stage Fatalities**

To do a Stage Fatality, you must be in close to your opponent and be on the following stages: Hell Stage, The Subway, Shao Kahn Chamber, and The Bell Tower.

Street Fighter Alpha 2 expands upon the best 2D fighting game to date. While most of the basic skills from the original SFA (like air blocking, rolling on the ground, and super moves) remain the same, there are some improvements (newer, more animated backgrounds and more characters).

By Bruised Lee
(Special thanks to Ben and Dan)

Zangief

The enormous slab of muscle is back and better than ever. Although he doesn't have any new moves and plays similarly to his incarnation in Super Street Fighter Turbo, Zangief's new, slick animation makes him a more appealing fighter. His super moves pack a major punch.

Super Moves

**Flying Fist**
Motion ↓ → ↓ → ↓ → K

**Atomic Blaster**
When in close, rotate the joystick 360 degrees twice starting from any direction, and tap P

**Running Body Press**
Rotate the joystick 360 degrees starting from any direction, and tap K

**Double German Suplex**
When in close, rotate the joystick 360 degrees starting from any direction, and tap K

**Spinning Pile Driver**
When in close, rotate the joystick 360 degrees starting from any direction, and tap K

**Glowing Backhand**
Motion → ↓ ↓ P

**Spinning Lariat**
Tap (JP SP FP) or (SK FK RK)
SAKURA

Said to be Ryu’s biggest fan, Sakura looks more like Ryu’s little sister. She basically has all of Ryu’s moves, but her uppercut and Hurricane Kick have long, awkward arcs. This really changes the timing during a fight, especially for veteran Ryu players.

Super Moves

Vacuum Fireball
Motion ↓ ↓ ↓ ↓ → P

Vacuum Hurricane Kick
Motion ↓ ↓ ↓ K

Rising Uppercut Wave
Motion → ↓ ↓ ↓ ↓ → P

Fireball
Motion ↓ → P

Medium Fireball
Motion ↓ → P, P

Large Fireball
Motion ↓ → P, P, P

Uppercut
Motion → ↓ P

Hurricane Kick
Motion ↓ ← K

ROLENTO

A boss in the original Final Fight game, Rolento has been rejuvenated with most of his moves intact. He plays similarly to Fei Long and Vega – characters from previous SF entries. Most of his offensive moves are jump attacks.

Super Moves

Alpha Counters
Motion ← ← → K
Motion ← ← → P

Fire Raid
Motion ↓ ← → → K

Hanging Attack
Motion ↓ → ↓ → → → K

Baton Spin
Motion ↓ → → P

Backward Spin
Motion ↓ ← P, then tap P again to attack

Forward Spin
Tap (JP SP FP), then tap P again to attack

Knife Throw
Motion → ↓ K, then tap K to throw the knife

Wall Attack
Motion ↓ ← K, then tap K or P to attack

Note: This move can be chained up to three times.
Dhalsim also returns to the SF series. Now he can teleport in the air. However, his normal attacks have changed radically. Like Anakaris in Darkstalkers, his moves actually go through opponents, and don’t even register a blocking animation if they connect.

Gen can choose between two completely different fighting styles any time during a fight—an innovative first for a Capcom fighting game. However, Gen has only has a few special moves for his Mantis and Crane fighting styles. Gen is more an interesting character idea than he is a playable fighter.
**Adon**

**Jaguar Kick**
Motion ↓ ↘ K
Note: The Jaguar Kick can be performed in the air.

**Front Kick**
Tap (ثن FK)

Tap the indicated buttons or directions in sequence

**Charge**  
Hold the direction or button indicated for the time indicated

( )  
Execute commands in parentheses simultaneously

**Note:** All techniques are described under the assumption that your character is facing to the right. If they're facing left, reverse any Toward and Away commands.

**DASH AND RETREAT**

- Tap → to dash toward an opponent, or tap ← to retreat.  
  Note: Victor cannot dash toward an opponent.

**DASHING THROUGH**

- Some characters (Demetri, Ian Talbot, Hsein-Ko, Morrigan, Felicia, and Huitzil) can dash past an opponent and get behind them.

**HIT 'EM WHEN THEY'RE DOWN**

- When an opponent is knocked down, quickly tap (↑ K) to hit them while they're on the ground.

**GUARD REVERSALS**

- While blocking an opponent's attack, perform a Guard Reversal to immediately be on the offensive.

  Note: Anakaris and Pyron do not have Guard Reversals.

</table>
Area 51 is loaded with hidden stages and other goodies! Think you've found them all? Think again! Here's how to find some of the tougher hidden stages.

Note: Some of the hidden rooms differ depending on the serial number of the game. By Major Mike

Secret Room #1: X Marks the Spot

Immediately after the game starts, shoot the first ten hangar windows while you're outside on the tarmac.

Secret Room #2: Aircraft Hangar

This is the hardest secret room to get into, and there is only one entrance. The only way to get to this hidden room is with two players. In Wave 2, shoot the 15 windows on the right side of the hangar just after you enter. Use several views of the windows to make sure you tagged them all.

Secret Room #2: Tank Top

Shoot out the three emergency blue lights during the first lockdown. The lights are located by the red tractor truck (one to the left and two to the right). Shoot the one on the left when the camera quickly pans.

Secret Room #3: Head Quarters

After jumping into the helicopter at the end of the wave, shoot the 11 exploding boxes. Once you're in the secret room, you can score over 50,000 points.

Front Tarmac

This room houses 44 puzzle pieces. Shoot them all, and you reveal a feast for the eyes! With two players, you can score over 45,000 points in this room.

Wave #2: Aircraft Hangar

Once inside, you'll find 28 pieces, and you can score over 35,000 points.

Wave #3: Black Tarmac

This room also has an Easter egg: You can see the faces of the Area 51 development team if you shoot the faces of the statues. You can also rack up big points by shooting the alien statue.

Secret Room #8: Shake Your Boobs

Note: This secret room is only in the first 2137 production units released of the game.
When you enter the Administration Building, shoot the first exit sign and then the first three ceiling lights around it right after you cross the doorway into the first corridor.

During the lock down in this stage, shoot the 15 barrels the zombies lob your way.

This lets you into a room with baby aliens just waiting to be blown away. You can score over 15,000 points here.

Chow Palace is loaded with weapon power-ups: 17 grenades, two shotguns, and two machine guns. This is also the only place you can see the Stage 2 aliens (the intermediate bioform between the Stage 1 zombies and the full-blown Stage 3 Kronomorph alien).

Shoot all 24 objects in the pop-up section in this wave (it's easier to do if you have two players). Once you're inside, you get an extra life. Inside you'll also find a giant alien. You can run up your streak multiplier by shooting the alien, and there is no penalty for missing!
**Super NES (Game Genie)**

**Chrono Trigger**
- EEDD-7F5D: Start with a higher maximum HP
- 63DD-745D: Start with a higher maximum MP
- BDDD-74ED: Start with maximum power

PlayStation

Resident Evil

Get the Rocket Launcher and Change Characters' Clothes

Get the rocket launcher: To get the rocket launcher, finish the game as Jill or Chris in under three hours. After the credits roll, a rocket will launch into the air. Save the game to the memory card. Then start a new game using that data off the memory card. When you check Jill's inventory, there is a new weapon, the all-powerful rocket launcher. This will destroy zombies, Hunters, and other assorted monsters with one shot!

Change characters' clothes: First, you must finish the game and rescue your buddies in the process (Jill saves Chris and Barry; Chris saves Jill and Rebecca). After the credit sequence, a screen appears that says "You've Got the Special Key." Then save the game. Start the game you just saved, and when you go into the room with the giant mirror (you enter this room from the main hallway), you can unlock the door in the back. Now you can change your characters' clothes.

Arcade

Street Fighter Alpha 2

Chun-Li's Original Outfit and Secret Stages

Chun-Li's original outfit: To get the outfit Chun-Li wore in Super Street Fighter 2 Turbo, at the Player Select screen, press and hold Start and move the cursor over Chun-Li. Leave the cursor over Chun-Li for five seconds. Then press the following buttons for these colors:

- Any punch button: Blue
- All three punch buttons: Green
- Any kick button: Pink
- All three kick buttons: Black

Secret Stages:

Note: These codes can only be done in two-player mode.

To fight at the Grassy Area, at the Player Select screen, either player should press and hold Start. Then move the cursor over Sagat and keep it on him for five seconds. Go to any character, release Start, and press any button. You will fight on a grassy field like the one in Street Fighter II The Animated Movie.

Erin Caeden
Reno, NV

To fight at the Waterfall, at the Player Select screen, either player should press and hold Start. Then move the cursor over M. Bison and keep it on him for five seconds. Then go to any character, release Start, and press any button. You will fight at a waterfall.

Eric-Glen A. Mariano
Pearl City, HI
**Arcade**

**Ultimate Mortal Kombat 3**

**Play as Human Smoke**

For Player One: At the Select Your Fighter screen, pick Smoke and press High Punch, High Kick, Block, Run, and hold Away (left) with the joystick simultaneously until the match starts. Smoke will explode into human Smoke. He has the same moves as Scorpion.

For Player Two: Do the same as Player One, except press Toward (right) with the joystick.

Jeremy Bean
Rockwell City, IA

---

**Saturn**

**Night Warriors: Darkstalkers' Revenge**

**Appendix Mode**

At the title screen, select Options. Once in Options, highlight Configuration, and quickly press B, X, Down, A, and Y. A new option, Appendix, will appear below Configuration. Now you can change the number of rounds, color, and even full animation.

---

**PlayStation**

**NBA Shoot Out**

**All-Stars Arena**

Go into Exhibition mode and press X. This takes you to the Exhibition sub-menu. At this screen, press R1, L1, R1, L1, R2, L2, R2, L2. A new option will appear under Qtr. Length called All Stars. Turn it on and you can play in the All-Stars Arena.

Erik Gayoso
Annapolis, MD

---

**Super NES**

**ActRaiser 2**

**Special Passwords**

To see a credit sequence with the game's programmers, enter the following password: M1234 Sk1k LHSH

To fight the last boss from the first ActRaiser game, enter the following password: X0X0 YYY Yzzz

To go to the last stage of the game with 38 lives, enter the following password: NEWTVVY TVVX
Captured Quasar
Make Walls Vanish

This cheat keeps you from wasting ammunition by destroying walls. Pause the game at any time and press R Shift, L Shift, B, B, R Shift, L Shift, Up. Unpause the game, and the wall in front of you will briefly disappear. Walk on through.

PlayStation

The Need for Speed
Lost Vegas Track, Rally Mode, Monster Car and No-Mercy Mode

Lost Vegas track: Select Tournament and enter the following password: TSTSTSTST and press Start. When you cycle through the tracks at the Race Location screen, there will be a new track called Lost Vegas.

Note: The Lost Vegas track code must be entered for the following tricks to work.

Rally mode: After entering the Lost Vegas code, get out of Tournament mode and enter Time Trial, Head to Head, or Single Race. Press and hold L1 and R1 simultaneously at any track at the Race Location screen, and the name changes to Rally.

Descent

Turbo Mode, All Keys, Full Level Access, Mega-Wowie-Zowie, More Wowie-Zowie, Invincibility

To activate any of these codes, press the following buttons during gameplay, not when the game is paused. Words confirming each cheat will appear at the top of the screen after each one is entered.

Turbo mode: Press □, △, ○, □, ○, ×, □, ○, △, □, ×.

All keys: Press □, ×, ○, △, □, △, ×, △, □, △, ×.

Full level access (when you start a new game, you can go to any level): Press △, □, □, △, ○, □, □, △, ○, □, □.

Mega-Wowie-Zowie (get every weapon fully stocked): Press △, □, ○, ×, △, □, ×, △, □, ○, □.

More-Wowie-Zowie (all the weapons fully stocked, full level access, and ten lives): Press △, □, ×, □, □, △, ○, □, □, △, □, ○, ×.

Invincibility: Press □, △, ○, □, □, △, ○, □, □, △, □, ×.
**Saturn**

**Street Fighter Alpha**

**Tag-Team Match Against M. Bison**

Start a game and pick Arcade Mode. Player One should put the cursor on Ryu, hold down L and R, and press Up, Up. Release L and R and then press Up, Up. Then press X once, then Start twice. Player Two should put the cursor on Ken, hold down L and R, and press Up, Up. Release L and R and then press Up, Up. Then press Z once, then Start twice. You should be at Chun-Li's Great Wall stage, but before the fight begins you will be interrupted by M. Bison. Now both of you take him on.

**PlayStation**

**Doom**

**Secret Level Passwords**

Enter these passwords to enter the hidden levels.

- **The Military Base:** 6LC12PYTHK
  (Accessed from Level 3, Toxin Refinery)
- **Fortress of Mystery:** VZEH6K4YMP
  (Accessed from Level 15, Spawning Vats)
- **The Marshes:** NGRB67SZ1
  (Accessed from Level 29, Twilight Descends)
- **The Mansion:** 8RI3WDGDB
  (Accessed from Level 44, Suburbs)
- **Club Doom:** WYZZ8G5Z7Q
  (Accessed from Level 58, The Mansion)

**Super NES**

**Breath of Fire**

See Chun-Li

To see the famous Street Fighter character Chun-Li in this RPG, go to the town of Bleak. Once there, go see the man in the big house to the upper left of the town. He'll ask you to put money on the table. Do everything he says, and when he asks you to look behind you, say no two times, then yes on the third time. You will see Chun-Li practicing her thousand-kicks move.

**PlayStation**

**Goal Storm**

**Easter Island Heads**

At the title screen, press Up, Up, Down, Down, Left, Right, Left, Right, X, O. You'll hear the crowd roar. When you start the game, all your players will have stone Easter Island heads.

**Super NES**

**Cybernator**

**Napalm Gun**

Start a game, and on the first stage, go to the boss without shooting any enemies. When you get to the end of the stage, just shoot the boss - do not hit the side guns. When the boss is destroyed, and you start the next mission, cycle through your armaments. There is a new weapon, Napalm.
Super NES

Give 'N Go
Hidden Difficulty

At the title screen, press Up, Up, Down, Down, B, A. Then at the Mode Select screen, go into Options. Once there, go into Rules/Difficulty. Next to Level is a new setting, S. This is a super difficulty setting.

Sega CD

Wild Woody
Stage Travel, Fill Sketch Book, Refill Energy, Stage Select, and Restore Woody to Full Pencil Status

At the title screen, press and hold A and C on Controller One and Left and B on Controller Two. You will hear a strange sound. When you start a game, do any of the following on Controller Two to enable these cheats:
To go anywhere in the stage: Press and hold C.
To fill the sketch book: Press B repeatedly.
To refill energy: Press A.
To enable a stage select: Press Start.
To restore Woody to full pencil status after using sketch power-up: Press B.

PlayStation

Jumping Flash
World Select

At the title screen, put the cursor next to Game Start and press Up, Up, Down, Down, X, X, Left, Right, Left, Right, △, △. The box at the bottom of the screen turns red. Now when you start a game, press Right and you can go to any world in the game.

Saturn

Solar Eclipse
Secret Levels

To access these hidden levels, start a game and pause it. Then enter the following:
Horde Level: Press Right, Down, Down, Left, B, Up, Down.
Trench Level: Press Right, Right, Down, Down.
Fade to Black Level: Press X, Y, Z, Z, Y.
Chowder Level: Press Y, Down, Down, Up, Right, C.
