Greatest "quarter puller" ever offered on a coin-controlled phonograph is the button on the left-hand panel of the Constellation! The player drops his 25¢, pushes the "Hit Tune" button—and he hears the six most popular selections in the record magazine. It saves time... gives him the outstanding numbers... and *an extra play* free! Everyone likes it—but the extra quarters in the cash box will make *you* like it best of all.

CONTENTS COMPLETELY COPYRIGHTED 1948. All rights reserved. No publication of any material contained herein is allowed without written permission from the publisher.

ADVERTISING RATES on request. All advertising closes Wednesday at 5 P.M. preceding week of issue.

SUBSCRIPTION RATE \$15 per year any-

where in the U.S.A. and Canada. Special subscription allowing free classified advertisement each week, not to exceed three full lines, \$48 per year. Subscription rates for all foreign countries on request.

THE CASH BOX exclusively covers the coin machine industry, including operators, jobbers, distributors and manufacturers, and all those allied to automatic coin operated music equipment; automatic coin operated vending machines and service machines as well as all coin operated amusement equipment; the music and record business, recording artists and publishers of music; and all others in any fashion identified or allied to the coin

operated machines industry as well as all finance firms, banks and other financial institutions expressly interested in the financing of coin operated equipment of all types.

THE CASH BOX has been recognized by various associations of coin machine operators thruout the United States as their official weekly magazine.

The C.M.I. BLUE BOOK division of The Cash Box is an entirely separate medium, giving all prices of new and used machines of all kinds, continually reporting all market changes. The C.M.I. BLUE BOOK is officially recognized by many States as the "official price book of the coin machine industry."

THE CASH BOX BOOTH 77

AS ECONOMISTS ARGUE BOOM OR BUST COINMEN SEEK EQUIPMENT THAT WILL REVITALIZE BIZ AS DID PINBALLS IN '31 AND JUKE BOXES IN '34

NEW YORK—As economists throuout the nation continue to argue (and to present divers facts) that there will be a boom and, as others state, there will be a bust, for all tendencies in business today, these latter claim, point that way; coinmen throuout the country continue to eagerly (and even desperately, in some cases) seek for equipment which will revitalize their businesses just as did pinballs in 1931 and phonos (the modern automatic juke box) in 1934.

There is no longer any doubt in the minds of any connected with the industry that a change, and a radical change at that, is absolutely necessary to assure profitable continuance in the business of operating coin machines.

Some operators have continued on profitably, it is true, but, the greater majority will admit that 1947 hasn't been the profitable year they looked forward to at the last convention. They know now that something must come along to replace much of their present equipment and allow them to operate in areas where some of the present machines are not acceptable.

When the pinball machine entered into the industry it was located at random. There were no arguments regarding it until it became so prominent that it attracted the attention of both the press and the authorities in each community. Then the trouble started and, as per usual, it started with some politico seeking to get his name front-paged in the press of his community, and his first attack was against "this growing menace of pinball".

And just as pinball boomed in the very heart of one of the nation's worst depressions, so did a new type of automatic

phonograph, with an amplification unit and a long-life needle — the modern juke box.

This unit, too, grabbed great national (and, today, international) attention, and there was born another new era of prosperity for the entire industry.

At that time, because of the great depression in existence, manufacturers were able to procure components and raw materials at almost their own price, and they presented the juke box to the nation's operators at a sub-normal price, far below what it would have been quoted in normal times.

For a while it seemed as if the roll-down games would start the new boom. They entered into operation in such cities as New York and Los Angeles when these territories were declared closed for other types of amusement games. But, for some reason or other, as yet unknown, the enthusiasm to boom these into a great, new industry, fell by the wayside, and the rolldowns are now part of the amusement machine scene — they do not seem to be the "new product" which the trade seeks.

From long questioning of leading operators throuout the nation, it has been learned that one of the requisites for national popularity is low price. This was true of the first pinballs which entered into the market in 1931 at \$16.50 each to the operator. The first phonos, too,

were extremely low priced. In fact, below the \$200 mark.

Perhaps, then, the new product which all the trade seeks to popularize in city after city throuout the nation, will have to take advantage of the reverse business conditions being suffered by many manufacturers of components and raw materials, and will be presented to the market at a low price (what at least would be called a low price today) and would give many the opportunity of changing the entire operating picture.

It must be remembered that it isn't new blood which changes the operating scene. It is usually the old timer who, because he is the one who starts the new type products, attracts new blood which is financially capable of entering into this field.

There is no doubt, then, that there is, and will be, a continued search for the products which will mark the entrance of an entirely new operating era for the industry.

Those coin operated products are expected to be radically new and different, low priced and attractive, money-makers supreme, so that the entire industry will be able to place them wherever desired and attract, by this very placement, an entirely new element into the field, to revive it, to bring on progressiveness and to assure it a better future.

GREATER EFFICIENCY IS THEME FOR 1948

Coinmen Are Tightening Up Loose Ends. Pull Operations in Closer To Working Area. Many Changing Commission Basis. Believe Operating Will Be Best Part of Biz in '48. Convention May Decide Course For The Entire Year.

CHICAGO—This is being written as the CMI convention for 1948 prepares to open its doors to the nation's coin machine trade.

It is now a known fact thruout the business of operating coin machines that all are tightening up. That efficiency has become the theme for '48. That operations are being pulled in closer to the central working area, just as they were during the war, so that they can be better watched, better handled, more carefully guarded and that profits can be increased wherever possible.

It is also noteworthy, as word comes from Washington decrying the use of steel, copper, other raw materials and even components, that the great majority believe operating will be the best part of the coin machine business during 1948.

It is already known that word has leaked out from Washington whereby controllers of the nation's stockpile of raw materials may ask the manufacturers of coin operated machines to "voluntarily" cut down on the use of many critical raw materials, just as they asked the distillers of whiskey to "voluntarily" cut down on the use of precious grains.

Many, at the same time, and because of the above facts, believe that the CMI convention will point the way for the entire year of 1948. This is more factual than fictional. There is no doubt that what will be exhibited at this convention will have a great deal to do with the future

progress of the entire industry for this forthcoming year.

Distributors and jobbers as well as manufacturers have been crying that this convention split the year very badly for them. Some claim that three months of sales and profits were smashed.

Others believe that the convention was poorly timed and that the one and only thing which should have been done was to eliminate the exhibits and call this a "national meeting" instead.

For next year there are many who claim they will vociferously oppose any convention which will kick into their sales months and will, in fact, demand that exhibits be eliminated and that meetings only be conducted.

This is only repeated here because it definitely indicates a trend thruout the trade to fight harder than ever to continue business at a high pitch all during the year, regardless of season and regardless of weather.

But, it is important at this time for all engaged in the business of coin operated machines, to carefully study and note the trends which have occurred. The operators are "pulling in their horns", as the expression goes. They are only doing this because they are not being

told by the leaders of the trade what they can expect.

Therefore, as they switch over more and more to operating whatever they now have on their spots, they also plan to exact greater toll from their location owners by arranging for a better commission basis, by eliminating too far away service calls, by calling together the operators in each area and coming to some agreement whereby all can profit, and, further, by seeing to it that they only purchase equipment they "need", not equipment with which they will "venture", for profitable operations.

With greater efficiency as the theme for 1948, it then becomes apparent to all in the field that something must be done, and done quickly, to avert any future financial debacle on the part of those who are experimenting and working ahead to bring the field what it most needs for assured profitable operations.

It is, therefore, up to those who will exhibit at this 1948 convention to bring to the operator that spark of zestful enthusiasm, that zeal to work harder than ever, that belief that times are surely getting better for him, to again create the profitable era which most assuredly does face this field.

OBERSTEIN AND SACKS TEAM UP TO ARREST CANCER

Artist and repertoire chiefs Eli Oberstein of RCA-Victor, and Manie Sacks of Columbia Records, took time out from their respective duties to strike another blow in the music industry's fight against cancer at Frank Palumbo's famed C. R. Club in Philadelphia. Oberstein and Sacks are responsible for the flock of hit tunes their platteries have been grinding out. The proceeds from the phono pictured above were donated to the Damon Runyon Memorial Cancer Fund by Philly's phono op association president Jack Sheppard.

10 I'LL DANCE AT YOUR WEDDING
Into the big ten, with ops throughout the nation latching on to the bandwagon. Look for this one to hang around.

CA-15009—Peggy Lee
CO-37967—Ray Noble O.
DE-24266—Jeanie Leitt
ME-5090—Vic Damone
MG-10095—Helen Forrest
VI-20-2512—Tony Martin

Brother,
you're
all set!

We've got a pile of new hits that'll dazzle you!
We'll be right there with plenty of
new tunes on new platters
to keep those nickels jingling!

You've seen the RCA Victor stars riding at the crest of Billboard's "Honor Roll of Hits" in '47. You've seen more and more of the big names in juke popularity joining the RCA Victor roster.

...and look
at this gold mine!

With the public taking to revivals in a big way, RCA Victor has the golden masters that really mean big money this year... the greatest backlog of super-hits in the industry. More "Heartaches"... More "When You Were Sweet Sixteen's."

Here are some of the big stars whose biggest hits are on RCA Victor Records. Ask your distributor for the listing of current re-runs, and watch them pull in the dough for you in '48!

This year, RCA Victor is dealing from the top of a tremendous stack of swell new waxings. This year you can count on RCA Victor for a bigger share of your profits than ever before.

More than ever, "the stars who make the hits" will be the stars to bring you the nickels in '48!

● THE STARS WHO MAKE THE HITS ARE ON

RCA VICTOR RECORDS

THE CASH BOX

Record Reviews

"You Can't Tell Who's
Loving Who" (3:00)

"Serves Me Right" (2:52)
BUDDY JOHNSON ORCH.
(Decca 48060)

● Musical styling of orkster Buddy Johnson and a pair of sides for the race spots, with the maestro of "You Can't Tell Who's Loving Who" and "Serves Me Right" bouncing thru. Top deck with thrush Ella Johnson in the choir department rings true, as the canary pipes the cool lyrics in off beat set up mellow. Stuff is made for the quiet kind, with her tonsils glowing all the way. On the flip with "Serves Me Right," balladeer Arthur Prysock to the mike to spill the heavy sugar coated wordage. Beat is mellow and is suitable for the dance and listener crowd alike. Both sides are there for the asking.

"But Beautiful" (3:00)

"You Don't Have To Know
The Language" (3:01)
TEX BENEKE ORCH.
(Victor 20-2616)

● More Beneke music and the simple strains of "But Beautiful" seeping thru on this disk. With piper Garry Stevens to wail the charming wordage, and loads of reeds and sweet blending in the background, this deck rates heavily from these orbs. Garry's vocal treatment is plush and pleasant and should satisfy a load of phono fans. On the flip with "You Don't Have To Know The Language", maestro Tex grabs the lead to whistle, hum and sing his way along on this bit. Stuff is cute as it stands and should come in for some heavy play once its parent, the flicker "Road To Rio" breaks. Both sides rate your avid attention.

"The Undertaker Song" (2:40)

"Too Long" (2:42)
AL STUART
(Embassy 1002)

● More crazy wax antics, this time to the title of "The Undertaker Song". The stuff is so mad, it's bound to break any tavern owners ticker. Al Stuart for the hypo wordage, with his rendition ringing true all the way. Combo treatment shows as adequate, with the wordage itself grabbing the lead. On the flip with "Too Long" Al and the crew come back for more kicks hinging on the title. Wax is repetitious and wears a bit too long. Altho this side won't stop traffic, it nevertheless, might fill that extra spot in your machine. "The Undertaker Song" makes for some mighty mellow listening time.

"It's All Over But The Crying"
(2:59)

"I'll Make Up For Everything"
(3:01)
THE INK SPOTS
(Decca 24286)

● More soprano music flavored with some top notch harmony work spill from this rave combo, with the notes of "It's All Over But The Crying" echoing in splendid manner. It's the top vocal flavoring of The Ink Spots, with Bill Kenny to pitch the subdued tones of this cookie. Title gives off the pitch here with the group blending in tons of splendid rapture. The platter shows as some onion stuff and is suited for the shuffle crowd. On the flip with more melancholy music, the group give out with "I'll Make Up For Everything", to come thru with more stuff tagged juke box. The name value plus the wax itself should prove the duo as buffalo skins.

DISK O' THE WEEK

"Thoughtless" (3:00)

"I'll Dance At Your Wedding"
(3:02)
GUY LOMBARDO ORCH.
(Decca 24318)

GUY LOMBARDO

● The spark of a real big one is the story here. With this ditty booming in many sections of the nation, orkster Guy Lombardo sets the stage for a national hit bound to keep the phonos bouncing. It's "Thoughtless", with the sweet wordage being purred by balladeer Don Rodney. The choir boy's piping on this bit is flavored with loads of nostalgia, while Guy and his crew make with sweet tones. Lyrics of the cookie shine brightly and make for easy listening. On the flip with a current pop piece making headway on the phonos, Guy and the crew render "I'll Dance At Your Wedding." It's Rodney again in the wordage department, with the stuff resounding in top notch fashion. Latch on to "Thoughtless" for a whirlpool full of coin.

"Little Eva" (2:42)

"You Ain't So Such A Much" (2:50)
EARL BOSTIC SEXTETTE
(King 4186)

● Grabbing off loads of coin in the phonos throughout the nation with a pair of hit sides, orkster Earl Bostic steps out with more hot blues for those race spots. With Cousin Joe to wail the heavy, way down wordage, the pair stand as items for the machines. Top deck labeled "Little Eva" lags in stock race tempo with the vocal offered in howling refrain. On the backing with some hep material, the combo offer "You Ain't So Such A Much" in slow shuffle mood, with the odor of coin play hanging around. Both sides should do well—they rate some earnest listening.

"Thoughtless" (3:00)

"You Were Meant For Me" (2:59)
GORDON MacRAE
(Capitol 15027)

● You can keep your eyes peeled for this platter. Gordon MacRae, rapidly rising on the vocal scene comes thru for the ops with his rendition of this plug tune titled "Thoughtless". The soft setting behind the choir boy's pitch flavors this cookie immensely, with Gordon's pipes trilling true all the way. On the flip with the standard "You Were Meant For Me", Gordon picks 'em up in flowing mood to set the stage for some heavy coin play again. Both sides are tainted with loads of moola, with "Thoughtless" hogging the spotlight.

FIGURES SHOWN FOLLOWING
SONG TITLES, INDICATE PLAYING
TIME OF RECORD.

"You Are Never Away" (3:05)

"The Gentleman Is A Dope" (3:01)
CHARLIE SPIVAK ORCH.
(Victor 20-2600)

● Plug tune from the musical production "Allegro" and a shower of coin for ops throughout the nation — that's the story with the cookie. Maestro Charlie Spivak sends balladeer Tommy Mercer to the mike to spill the flowing passages, with the resounding notes spelling juke box throughout. Tommy's vocal work shines brilliantly and should set the stage for some healthy attention in his direction. Music moves about, with Charlie and his gang offering wonderful instrumentation. Backing offers chirp Irene Daye and the strains of "The Gentleman Is A Dope" seeping thru. Currently kicking up a storm in many sections, our gal's vocal will match with any around today. Top side gets feature billing.

"How Long Must I Wait For You"
(2:34)

"Barnyard Boogie" (2:50)
LOUIS JORDAN
(Decca 24300)

● No cracks in this wax with the brand Louis Jordan gives out with. The merry Tympany Five and another pair well loaded with possibilities, with the cookie labeled buffalo throughout. "How Long Must I Wait For You", shows maestro Louis and a choo choo story, with the title giving off the heavy story material. On the flip with a zany piece labeled "Barnyard Boogie", the group show their versatile style in this pancake full of stuff that makes our life go round. The disk echoes with the sounds of farm life throughout, with Jordan's tonsils pitching all the way. A cinch to clinch with the many fans Louis has.

"But Beautiful" (3:03)

"The One I Love" (3:00)
BING CROSBY
(Decca 24283)

● Bound to grab a big hunk of coin in a zillion spots throughout the nation is this latest offering by groaner Bing Crosby. By far one of the better pieces of wax he has turned out in quite some time, Bing really lets go on this piece titled "But Beautiful". From the forthcoming Paramount flicker "Road To Rio", the cookie should really let off some steam once the pic breaks locally. Bing's rendition sets you off in a soft easy going world while the Victor Young ork fill the air with loads of rapturous music. On the flip for a re-issue, it's Bing and the John Scott Trotter ork with "The One I Love". The side should be familiar to many an op since it drew a slew of coin many moons ago. Top deck for the jitney pieces.

"Corabelle" (2:58)

"But None Like You" (2:49)
SKITCH HENDERSON ORCH.
(Capitol 488)

● Pair of sides by the popular Skitch Henderson ork spill here with the light strings of "Corabelle" seeping thru in gay time. Skitch showers pipers Nancy Reed and Andy Roberts on this plaintive piece replete with western get-up in fine styling, while the band boys make merry in the background. On the flip for some heavy ballad material, piper Andy to the fore again with the soft glowing tones of "But None Like You". Wax weaves in slow tempo and gets some spice by the wonderful instrumentation provided. Where the crowd gathers for the brand of music Skitch puts out — this pairing will hold the gate.

Record Reviews

"Oooh! Looka There
Ain't She Pretty" (2:46)
"What Did He Say" (2:51)
THE CHARIOTEERS
(Columbia 38065)

● First rate harmony by this capable combo shows as an item phono ops should look into. The Charioteers up front to wail the cute lyrics of "Oooh! Looka There Ain't She Pretty" and "What Did He Say". Top side, currently kicking up a storm in many spots throughout the nation is spiked with loads of sugar, with the now familiar book getting a sendoff by the able Mitchell Ayres conducting. Wax moves along in mellow pacing, giving the group room to move about in. On the flip with the novelty piece waving around a comic strip fable, it's "What Did He Say" for the limelight. Loads of kicks here with the title acting as the vehicle. Both sides have heavy potential coin culling powers and rate a whirl.

"I Told Ya I Love Ya
Now Get Out" (2:48)
"If Anybody Can Steal
My Baby" (2:46)
WOODY HERMAN ORCH.
(Columbia 38047)

● Highly coated pipes of orkster-balladeer Woody Herman and the novelty wordage of "I Told Ya I Love Ya Now Get Out" show as a coin possibility here. With Woody spilling the cute lyrics in light happy tones that count and the band offering grade A musical backing the cookie shines brightly. You'll go for Woody just as well on the flip with "If Anybody Can Steal My Baby". It's more stuff done up royal in the novelty vein, with the maestro grabbing off the glory again. Where the Herman herd flocks, they'll hold still for this duo.

"Now Is The Hour" (3:01)
"I'll Never Say I Love You" (2:40)
KATE SMITH
(MGM 10125)

● Oh lawdy—is this bit an item for the machines. Especially suited for an armful of tavern spots, chanteuse Kate Smith lets go in bright tones to come up with "Now Is The Hour". Rapidly rising on the phono scene, Kate's rendition of this pleasing oldie is sure to set off a load of attention. Her smooth styling here, shows the touch of an old master. On the flip with some stuff for the kids that love to get up close to, Kate offers "I'll Never Say I Love You", and does so in first rate fashion for a prize hunk of wax. Stuff is slow and gets a dose of spice from the Jack Miller ork. Top deck a must in your machine—latch on!

"Old Time Religion" (2:46)
"One More Time" (2:53)
PHIL HARRIS ORCH.
(Victor 20-2614)

● Double tongue of Phil Harris and that quaint oldie always good for some coin, "Old Time Religion". Phil grabs the lead here, with a band vocal blending in the second chorus. Ditty weaves in fast tempo with the ork blasting the message in tight time. On the backside with "One More Time", it's more novelty stuff, with maestro Phil asking his gal for one more time. Needling is full of happy laughs and made of the stuff that adds up to a ton of coin play. Always a comer on wax in any location, this Harris pancake should keep his many fans in the right groove.

SLEEPER OF THE WEEK

"You Don't Have To Know
The Language" (2:57)

"My Gal Is Mine Once More"
(2:56)

JOHNNY MERCER
(Capitol 15025)

JOHNNY MERCER

● Don't hesitate one second with this cookie! Jam packed full of kicks and the stuff that adds up to a ton of coin play is this latest hit by the versatile Johnny Mercer. Labeled "You Don't Have To Know The Language", Johnny displays his top notch vocal talents in splendid Latin mood, while a vocal combo fill in behind. Wordage of the ditty stacks up high and should have oh so many phono fans laughing from dawn till dusk. Add another bouquet for the Paul Weston ork for some wonderful instrumental work here. On the flip with another novelty piece, Johnny and the gang come thru once more, with the tones of "My Gal Is Mine Once More" seeping thru. Dig the title and you've got the needle story here—throw in some Mercer and you've got a recipe that's hard to beat. The topside gets an extra special dose of buffalo since it's from the forthcoming "Road To Rio" flicker. "You Don't Have To Know The Language" will fit your machine like a glove.

"Experience" (2:59)

"Strangers In The Dark" (3:04)

BERYL DAVIS
(Victor 20-2685)

● One of her better waxings to date shows up here as an item phono ops should lend an ear to. It's Beryl Davis and "Experience", with the title itself offering some healthy tricks. Beryl's piping rates an orchid here—it is that good. With smooth tones of beautiful musical rapture spilling throughout, the thrush sends the sparkling wordage in first rate fashion. On the flip with "Strangers In The Dark", Beryl comes thru with some heavily-laden ballad material which may fill your phono needs. It's "Experience" for some added play in the phonos.

FIGURES SHOWN FOLLOWING
SONG TITLES, INDICATE PLAYING
TIME OF RECORD.

"If A Man Answers-Hang Up"
(2:39)

"It's Better That Way" (2:26)
JOHNNY CORVO
(Gem 1501)

● Pair of sides which ops might find as excellent filler material are these offered on this new indie label by Johnny Corvo and his Melody Men. With the titles of the duo indicating loads in store for the avid listener, Johnny utilizes his vocal talents in appreciable manner to send this pair at the ops. Instrumental backing here is adequate for the material provided, with the cute lyrics of the pair getting all the play and limelight. Both sides rate a whirl—they might be that extra punch for added coin play.

"Jeannine" (2:54)

"When I'm With You" (2:50)
WALLY GRIFFIN
(Metrotone 1007)

● More flavorful-teeming tones to which the star gazers can nestle close to are offered here by the rapidly rising Wally Griffin. You'll go for Wally (a la Russ Columbo) as he wails the fragrant wordage of "Jeannine", weaving in slow tempo adequately paced by the Chet Howard crew. On the flip for the soft sparkling wordage to "When I'm With You", Wally flourishes for some more rapturous musical moments, as he spills the highly sugar coated lyrics. Both sides are easily suited to the dance and listener crowd and should make for added coin play in the phonos.

"Rhode Island Is Famous For You"
(2:47)

"Mary Lou" (2:46)
THE PIED PIPERS
(Capitol 489)

● Brilliant show tune from the forthcoming musical production "Inside USA" has all it needs here to boom this tune right into the heart of the nation. With the sparkling wordage being offered in top notch tones by the Pied Pipers, the deck stacks up as a first rate performance, bound to catch a load of coin in the phonos. You'll go for the moving strains shown here, plus the smart phrasing the Pipers offer. On the flip with "Mary Lou", the combo once more display their fine style with this pleasing standard. Both sides ring true for a sleigh ride of juke box action.

"Now Is The Hour" (3:00)

"Lone Star Moon" (3:01)
SHEP FIELDS ORCH.
(Musicraft 532)

● Rippling rhythm of the Shep Fields ork and a pair of ditty's currently gaining wide attention in juke boxes throughout the land. With Toni Arden to spill the familiar wordage to the top deck labeled "Now Is The Hour", the platter takes on an air of beautiful simplicity. On the flip for the mellow beat of "Lone Star Moon", it's balladeer Bob Johnstone and a vocal group for the merry wordage offered here. Both sides show the Fields crew in top notch fashion—they rate your listening time.

MUSIC PUBS, DISKERS & ARTISTS FLOCK TO CMI CONVENTION — FORESEE HEAVY SALES POTENTIAL AT SHOW

NEW YORK—The greatest exodus the music industry has ever seen began this past week when music publishers, recording executives and artists started "pouring" into Chicago for the Fifteenth Annual Coin Machine Industry's Convention.

Never before in the history of the music industry have so many officials made preparations for their representation at this annual conclave.

Those record manufacturers who have display booths at the show have disclosed to *The Cash Box* that they will have a great number of their artists appear and guest with the many music operators during the convention.

Among the many music publishers who will appear at the show are Paul Cunningham, vice president of Broadway Music, Inc., Maurie Hartman representing Cherio and Rytvoc Music Publishers, the Chicago staff of Shapiro-Bernstein, Inc., and a host of others too numerous to mention.

Plattery officials point out that the CMI Convention will give them an opportunity to meet and greet the many music operators whom they have been doing business with over a period of years. One well noted recording execu-

tive recently stated; "The Coin Machine Industry's Convention not only allows the manufacturer of records to display his merchandise, but also allows for the manufacturer himself to secure a wider knowledge and insight of the automatic music industry.

"Very few people engaged in the business actually realize the sales potential of the industry", he continued.

"The market for records has grown by leaps and bounds and does not only deal with the modern juke box itself. The many forms of automatic music equipment, and along with that equipment, the vast sales market that exists would actually astound many marketing and sales executives."

Many in the industry avidly look forward to the new forms of music equipment which will undoubtedly emerge at the convention. Diskers have indicated that they expect this new equipment which concerns the very manufacture of records.

Music operators have been urged by their respective trade organizations to meet with the record manufacturer and discuss any and all problems the operator might have. Panel meetings among operators and diskers will be held at the show.

Thornton Gals Hypo "Pin Up Girl" Platter

CHICAGO—Novel method of record promotion was instituted here this past week when model major domo Walter Thornton flew into Chicago along with a bevy of his beautiful girls, to hypo the current "Pin Up Girl" platter.

Greeting Mr. Thornton and the girls at the Chicago Airport; Jack Buckley, vice president of Vitacoustic Records, Inc., bundles one of the gorgeous damsels in a blanket as a means of acquainting her with the "fair" Chicago weather.

The "Pin Up Girl" platter already has a host of recordings out with many more expected to be released shortly.

Mr. Thornton and the girls made the rounds in Chicago, guesting with many disc jockeys, juke box operators and plattery executives.

All-Star Performers

- Frank Sinatra ★ Dinah Shore ★ Harry James

BOOTLEG RECORDS

Tin Pan Alley Sizzles With Rumors Musicians Defying Petrillo Ban And Are Preparing To Make Bootleg Records Behind Closed Doors

NEW YORK — With the recording ban actually under way, Tin Pan Alley continues to sizzle louder than ever before regarding the possibility of bootleg recordings.

It is a common expression everywhere along music row that, "They're making records now and will continue to make them behind closed doors. Some of the nations leading musicians will suddenly appear under any but their right names."

Many in the trade have long agreed that this situation would take place. Music men point out that the "bread and butter musician" will have to continue to earn a living, and they say, that since personal appearance tours and engagements have fallen down at the box office, the musicians will turn to this form of increasing their weekly stipend.

As the bootleggers hit the market, the rumors are to the effect that large sums are in the offing for those musicians who do offer their services for a cutting session.

Many well noted musicians have openly stated their intense dislike of the many outgrowths of the ban, which they say, will set music back possibly ten and more years.

All seem to agree that the ban in itself actually is impairing progress in the entire industry.

Even the most careful students of various musical styles will be unable to detect the musicians in combination, it is claimed.

One well noted music student recently stated; "Of course the only tunes which will be recorded will be those which are standards or tunes that are unpublished. Very few people will be able to detect when the master recordings were made. The musicians need the recording money and they are going to take it just as long as it is offered."

BYRDE'S EYEVUEW
'ROUND THE WAX CIRCLE
 by
Byrde Gore

We're off to Chicago and the Fifteenth Annual Coin Machine Industry's Convention, with oh so many guys and gals hurriedly making plans for the huge exodus. It's a cinch for this show to break out at the seams and surpass all convention attendance. We've heard tell of so many music folk leaving for the Windy City, and actually expect Broadway, and Sunset and Vine to meet at State and Randolph. Operators, record manufacturers, music publishers and artists look for the show to cement many wonderful relations. The plattery heads expect to see some changes in the design and manufacture of the juke box and eagerly await the showing of these new machines. Artists of stage, screen and radio will be on hand to greet and entertain the huge gathering. At any rate we'll see you at the Hotel Sherman at *The Cash Box* display — Booth 77.

* * *

Orkster Eddy Howard, awarded two "Oscars" by *The Cash Box* in the Second Annual Music Poll, opened in a blaze of glory at the Century Room, Hotel Commodore this past week with a list of notables attending bound to set any house afire. Eddy's smooth styling really set the huge crowd roaring with his rendition of "Corabelle", "My Adobe Hacienda", "Now Is The Hour" and a zillion other hits. The stage performance and manner of presentation really fit the subdued atmosphere of the Century Room like a glove. Add to that the Eddy Howard format, and you have a show to beat.

* * *

Balladeer Johnny Lane, whose "My Guitar Is My Sweetheart" started him on the merry road to success dropped up to *The Cash Box* offices this past week in the midst of all the convention confusion. Johnny's initial dinking really set the stage for a load of coin play for many a music operator and boosted him in the limelight. Currently appearing at the Blue Mirror, Newark, N. J., Johnny disclosed that he has several top name spots in the offing, with one of the hep Broadway theatres possibly following. We heard his latest Regent cookie, and from all indications it should prove a powerful winner on juke boxes thruout the nation.

* * *

Sy House, the man that makes the figures up at Exclusive Records Dist. Co., New York discloses that the Eastern branch has racked up some mighty high marks in sales this past year . . . Oh lawdy, did Frankie Laine and Sam Donahue ever tear up Town Hall this past Saturday p. m. . . Frank Sinatra out with a two-sided disk with Pearl Bailey . . . Music op Dave Johnson of Bridgeport, Conn., the grandpappy of an eight pound bouncing gal . . . Orchids to George Morrison for some mighty fine work these past few weeks . . . Harmonicist Jerry Murad has written a book titled "How To Play The Harmonica" . . . Ann Cornell clicking big on Sterling's "Mad About You" . . . Oh whatta cookie — it's Esy Morales and "Jungle Fantasy" on Rainbow wax. Ya just gotta get next to the thing — thass all . . . We wonder if some bright (?) platter spinner's chatter is replacing the old horse and wagon . . . A Mooney money-maker if there ever was one, "I'm Looking Over A Four Leaf Clover" . . . and speaking of the ditty, we can understand why it's going so strongly — Henry Okum is handling the record exploitation.

JUKE BOX OPS' ASSNS EXPECTED TO COME CLOSER TOGETHER

Association Leaders Now Corresponding With Each Other. Will Hold First Big Meet During CMI Convention. Will Try To Create National Legislative Committee. Expect '48 To Be Tough Legislative Year. Will Also Call Meets During Year In Various Assn Cities. Look For Big Support.

NEW YORK — Thruout the nation, for some weeks now, there has been interesting correspondence between the leaders and attorneys of the various juke box ops' associations.

The essence of this correspondence regards meetings of the various organizations; first, at the Coin Machine Industries, Inc. convention at the Hotel Sherman and then, later, in various association cities thruout the nation.

The big discussions, according to advance reports, will center around the fact that 1948 is expected to be a very tough legislative year for the juke box industry.

It is a known fact, these men stated, that there will again be legislation introduced in Washington from various organizations in an effort to change the Copyright Act of 1909.

They also expect that some sort of legislative effort may be made by AFM in Washington because of the statement given out by Rep. Carroll D. Kearns of the Labor Committee who said that if the musicians would obtain royalties from the juke box industry Petrillo would probably halt the recording ban.

In addition, there is expected to be many new taxation programs directed at the juke box business by states, cities, towns and villages thruout the country. This has a great many of the music machine ops upset already.

ers that they are preparing to fight some of the taxes which will propose that a percentage of the gross receipts be taken for payment.

With these many problems facing the juke box industry leaders are being sought with frantic urgency. It is expected there will turn up at these various meetings coinmen who will be able to take care of many of these problems and will show the way to the industry.

Also part of the program, which will be presented at the various meets, will be a drive for a better percentage commission basis. Also a demand for the two minute recordings. And a hope that better representation will be had at all national tax and legislative hearings.

Such organization leaders as Morris Goldman of the Michigan phono ops, Jack Cohen of Ohio, Sol Kesselman of New Jersey, Ray Cunliffe of Illinois, George Miller of Oakland, Jack Shephard of Philadelphia, Jack Mulligan of Pittsburgh, H. K. Woods of Providence, E. Jay Bullock of Los Angeles, Cal., Choate of Montgomery, Ala., and almost everyone of the others (too numerous to mention here) including Al Denver and Sidney H. Levine of New York, are all

of the belief that the time is ripe for juke box organizations to get together into meetings to help the music operator to earn better profits.

These men claim that they are backed by some of the leading manufacturers of coin operated music equipment and that they feel all the manufacturers, as well as the distributors, will work closely with them, to make possible some sort of Committee to help guide and protect the industry while it is engaged in national legislation and tax matters.

As one of the nation's juke box leaders reports, "The operator cannot afford any further obstacles being placed in his path at this time. He now has his hands full trying to take care of the problems which are facing him to just earn a living from his present equipment.

"Should some of these legislative actions now being proposed become successful, it would mean the finish for a lot of operators and, to prevent this happening, we simply must throw a low of suspicions and jealousies aside, and come together so that we can be prepared for whatever eventualities we may have to face in the fighting which is before us already."

IT IS NOT SOLD ON NEWSSTANDS.**

They have reported in to various lead-

The Ten Top Tunes Netting Heaviest Play Compiled From Reports Submitted Weekly To The Cash Box By Leading Music Operators in New York City's Harlem

**1 I LOVE YOU
YES I DO**

Bull Moose Jackson
(King 4181)

What a dilly this thing is. Catching coin by the ton it is.

**2 I CAN'T GIVE YOU
ANYTHING BUT LOVE**

Rose Murphy
(Majestic 1204)

In fifth place last week, here it is up in the two spot. A smash cookie if there ever was one.

3 THE LORD'S PRAYER

Sarah Vaughn
(Musicraft 525)

Repeats its position of last week, with a zillion Vaughn fans latching on mighty fast.

4 IS IT TOO LATE

Savannah Churchill
(Manor 1093)

Top caliber of chirp Savannah Churchill has this thing among the top disks on the machines.

5 WHAT'LL I DO

King Cole Trio
(Capitol 15119)

On the bottom last week, the sensational rise of this ditty points to a lengthy stay.

**6 HASTINGS ST.
BOUNCE**

Paul Williams Sextet
(Savoy 659)

Moves up a few with ops hunting platters. Heavy play continues.

7 845 STOMP

Earl Bostic
(Gotham 154)

All the way on top last week, this platter drops to the seventh spot this week, with ops still buying like mad.

8 MAD LAD

Sir Charles
(Apollo 773)

In sixth place last week — into the eighth slot here. A mad cookie — mad for a load of coin.

**9 MERRY CHRISTMAS,
BABY**

Johnny Moore
(Exclusive 254)

Continues to whirl hot 'n heavy, altho the Xmas season is gone. Prove the attraction of this combo in a big way.

10 WRITE ME A LETTER

The Ravens
(National 9038)

In seventh place last week, here is this thing on bottom. Play still kicking around tho.

DISTRIBUTING COMPANY, INC.

National Disk Chief Sees Bright Future

A. B. Green, president of National Records announced last week that his company has a sufficient supply of masters on hand to withstand a record ban that might last from three to five years.

Aside from its several hundred masters in the vaults, many of them made during last month's frantic "under the wire" recording scuffle, National, according to Green, is in a better financial situation today than in its entire five year history. Partly responsible for the firm's present prosperity is the fact that during the past year it has produced three outstanding hits: Dusty Fletcher's "Open the Door, Richard", and The Ravens' "Ol' Man River" and "Summertime". Another reason for the independent company's firm financial footing is the fact that it maintains its own substantial pressing facilities in Phillipsburg, New Jersey, and, in addition to its own output, presses for several other labels.

In the month of December, National's extensive recording activity included sessions with twelve artists new to the label. Among the new artists added to National's talent roster were Una Mae Carlisle, Alan Gerard, Alan Login, Grace Smith, the Teddy Phillips orchestra, Ray Smith and Warren Evans.

... for your wonderful cooperation and understanding support.

CITY ZONE STATE

"Folk" and "Western" RECORD REVIEWS

**"Don't Telephone-
Don't Telegraph"**

"Blue As A Heartache"

TEX WILLIAMS

(Capitol 40081)

● Grabbing this featured spot this week is this peppy piece by the popular Tex Williams crew, with the novelty tones of "Don't Telephone-Don't Telegraph" coming out in gay time. You'll go for the cute wordage all wrapped up around the title, coupled with some wonderful instrumentation by the Williams boys. On the flip with some straight stuff, the gang step out and do "Blue As A Heartache", replete with the stuff that adds up to coin play. Dig the name value here and you've got a real cookie that can do the trick.

"Don't Get Around Much Anymore"

"How Many Times"

RODY ERICKSON

● Pair of sides ops might well use as excellent filler material are these offered in pleasing manner by Rody Erickson. Titled, "Don't Get Around Much Anymore" and "How Many Times?", the pair show in fair fashion. Top deck is offered in novelty vein, with the Ellington classic as the theme. Flip is offered straight, with the tone sounding in much better styling. Both sides are there for the asking—you take it from here.

(Black & White 10024)
"Indiana Waltz"

"I Guess I've Been Asleep"

ROME JOHNSON

(MGM 10130)

● Flavored with loads of nostalgia for a zillion hill spots, Rome Johnson and his Saddle Pals show with this pair titled "Indiana Waltz" and "I Guess I've Been Asleep". Top deck in straight waltz tempo, coupled with adequate string backing is a natural for the dance spots. On the back with more melancholy material, the crew show in fair manner with this side. We go for the waltz material to blend into the phonos.

"Mobile Boogie"

"Waitin' For That Train"

DELMORE BROTHERS

(King 680)

● Highly popular Delmore Brothers send this pair right at a zillion spots bound to grab this platter. It's "Mobile Boogie" and "Waitin' For That Train" that show as the coin cullers, with the top deck grabbing off the glory. String work shown here is first rate and should cause loads of attention to be showered upon the group. You'll go for this disk in a big way—latch on—but pronto!

Short Shots From the Hills and Plains

Bradley Kincaid, Roy Acuff, and Eddy Arnold are among the WSM stars who appeared on the hour long Freedom Theatre broadcast on January 5th as part of this station's salute to the Freedom Train. The show, first hour long musical documentary ever done by a single station in this country, was also carried by WNYC and WNYC-FM in New York.

Almost every star on WSM's Grand Ole Opry spent Christmas Day entertaining at the Thayer Veterans' Hospital in Nashville. In addition to appearing on a special hour long broadcast from the auditorium at the hospital many of the stars toured the hospital wards to give a personal word of greeting to the hospitalized vets.

WSM's Grand Ole Opry is featured in a story of the February edition of Radio Best. Pictures with the yarn include Minnie Pearl, Red Foley, the Duke of Paducah, Lonzo and Oscar, Ernest Tubb, and Rod Brasfield.

York Brothers, King recording stars, back on the Grand Ole Opry after several months of successful personal appearances in Michigan plan to return to that state in March at which time their agent, Eddie Johnson, has them booked for 38 straight weeks . . . Bill Monroe has personal appearance dates in January scheduled for Virginia and West Virginia . . . Roy Acuff's stage show takes him to Georgia and Florida between Grand Ole Opry broadcasts during January.

Scheduled for release late this month is King Record's newest popular album featuring the songs of "Lonesome Gal", Dayton, Ohio radio singer and platter spinner whose nightly shows over WING are among the most popular of their kind in the midwest. Identity of the

vocalist, who uses an intimate, personalized mike technique, has been kept secret by the station and the record company. Included in the album will be the following tunes: "Don't Blame Me", "Why Shouldn't I", "If I Love You", "I Could Write A Book", "Speak Low" and "But Not For Me". The sides were waxed in King's Cincinnati studios with musical background supplied by Ralph Lane on piano, Irving Spice, bass; Tony Luca, guitar, and John Shanahan, drums.

Eddy Arnold and Ray Wiggins guested on the CBS "We The People Show" last Jan. 13 . . . Bobby Gregory due with another MGM culler labeled "Never Hit Your Mother-in-Law" and "Lalapalooza" . . . Don Larkin's "Nighttime Frolic" on WAAT, drawing loads of listeners . . . Be sure and listen to Eddie McMullen's latest Crown platter "Two Time Polka" . . . Two minute disks really taking hold in the folk and western field. Several platteries have reported that they have cut (BP—Before Petrillo) many two minute platters. Folk artists avidly look for the short platters to boom their market in a big way, we hear.

With each and every new popular disk release, we find the proof of the pudding in our statement that the Hillbilly biz really is big time. A great many pop bands concur and have strongly stated their desires to their platteries. The results are shown in the flock of folk and western songs reaching the market each and every day. Altho there are several artists who shy away from the tag line, "cowboy" or "hillbilly", there are a like number who enthusiastically endorse this type of music. Folk music is truly indicative of the rural population of this nation, and the majority of our land actually is rural—believe it or not. More power to the folk and western artists—they certainly rate in our book!

Greetings to the C.M.I.

LINDEN, N. J.

CAPITOL ASSURES MUSIC OPS OF RECORDS DURING BAN

Possibly the major question of coin machine operators today is this:

"What effect will the Petrillo Recording Ban have on us?"

Because there are many aspects to this situation, and because there are many factors over which we have no control, we cannot give you a comprehensive answer to the question.

We can tell you this:

There definitely will be new, exciting coin-catching records on the market for many months to come!

For the past two and a half months, Capitol and other major recording companies have been recording all types of new material. Major companies are well prepared to continue their release schedules without interruption for better than two years.

And those release schedules include a great deal of all-new arrangements and songs. They include novelties, ballads, rhythm numbers, jazz and special material. They include records suitable for all types of coin machine locations.

Obviously, all of these records cannot and will not be released immediately. They will be released on a schedule designed to keep a steady flow of new sides on the market.

This means that operators will have new records on top tunes at all times. It means there will be exciting novelty records ready for your machines right through the recording ban. It means that your problem of keeping rave records on your machines has been solved by the

foresightedness of the major record manufacturing firms.

We are happy that we can face the months to come with the promise of continuing new material, for there are no restrictions on the pressing and distribution of the records.

Thus, as you gather for your convention, you may be assured that your problem of supply has been solved for you.

I wish to take this opportunity to congratulate your industry on the progressive job you have done in the past, and to offer my own best wishes for a highly successful convention.

GLENN WALLICHS
President, Capitol Records, Inc.

THE HOUR"**

"COME BACK TO SORRENTO"
NO. 110

Rollin' 'Round Randolph

The three big headliners now appearing in town continue to pack in the nite lifers, namely, Dorothy Shay, Victor Borge, and, Phil Regan. Miss Shay, now at the Stevens Hotel, has been acclaimed the new sweetheart of the Boulevard Room, singing her old favorites and introducing several new numbers that are worthy additions to her charming repertory. Victor Borge over at the Mayfair Room of the Blackstone continues to delight his audiences with his innocent humor, his musical satires, and his very individual type of entertainment. Handsome Phil Regan receives a tremendous ovation from the patrons visiting the Empire Room of the Palmer House. Phil lends his wonderful voice to the lilting Irish tunes as well as to any romantic ballad you want. If you enjoy listening to a beautiful voice with a charming personality, then Phil's your boy . . .

Skitch Henderson's ork now at the Stevens features his arrangement of "I'm A Comin' A Courtin' Corabelle", which he did for Capitol Records . . . Dinah Washington and Cootie Williams doing a co-star stint at the Savoy Ballroom on the south side . . . Dave Garro-way brings his jazz concert to the Opera House, January 30th, with Ella Fitzgerald and Illinois Jacquet and his all star ork . . . Duke Ellington's concert given at the Opera House this past Sunday proved to be a big success with the Duke going all the way Duke going all out in his self determined style of jazz . . . Lawrence Welk back again at the Trianon Ballroom with Leighton Noble doing honors at the Aragon. We hear that Teddy Phillips who will open at the Aragon very shortly has cut, "Yes Sir That's My Baby" and "By A Blooming Apple Tree" for National Records. Del Courtney will follow the Phillips ork into the Aragon come late February . . . Phil Levant, band leader, making plans to open up his own booking office . . . Freddy Slack and his ork going over big at the College Inn of the Sherman, while Nellie Lutcher continues on as a real gone gal . . . Art Kassel's orchestra pleasing the patrons over at the Blackhawk. Incidentally, all the distribs for Mercury Records are hepped up about Arts' recent release of his own composition "Oh What I Know About You", which looks like an overnight hit . . . Jack Owens waxing of "Melancholy" for Tower Records due to be released soon. Jack recently made a recording with his thirteen year old daughter on his own tune titled "You're My Darling" and Dick Bradley plans to split royalties between Jack and his offspring, who by the way did a terrific job on the song . . . "Melancholy", the new Bregman, Vocco & Conn number has also been cut by the Dinning Sisters for Mercury and according to Howard Mack the girls' manager, the number is really terrific . . . Sam tells us that Jerry Murad, leader of the "Cats", has written a book entitled "How To Play The Harmonica" and while in the east will confer with a Mr. Hohner of the Harmonica Factory about publishing it . . . Aristocrat Records has signed and sealed the Dick Hiorns hillbilly outfit. Dick, who was discovered by disc jockey Hy Shumway, station WJOB, Hammond, Ind., starred for a year and a half on the sustaining program "Hoosier Jubilee" and received more daily fan mail than any other artist at WJOB. All his friends are anxiously awaiting his first release on the Aristocrat label.

PHONO BIZ MEANS LARGE SALES

By JAMES W. MURRAY
Vice-President in Charge
of RCA Victor Record Activities

A comparison of *The Cash Box* Awards for 1947 with polls taken by other magazines and newspapers, reveals a startling similarity between the choices of individual coin machine operators and public preferences as reflected in best-selling records over the counters of retail record shops.

The conclusion is fairly obvious—the recording artists who rate tops with the operators are the people whose records are most in public demand.

The votes in *The Cash Box* poll for the "Best Record of 1947" listed such coin operator favorites as Perry Como's "I Wonder Who's Kissing Her Now," The Three Suns' version of "Peg O' My Heart," Charlie Spivak's "Linda," Sammy Kaye's "That's My Desire," Larry Green's "Near You," among others.

Each of these recordings showed up high on the list of the year's top popular retail record sellers, as reported in a year-end summary of a continuing study of best selling retail records made by an extremely reputable fact-finding agency.

In *The Cash Box* poll the votes for the "Best Orchestra of 1947" found Vaughn Monroe, Sammy Kaye, Freddy Martin, Louis Prima, Tex Beneke, Charlie Spivak, Count Basie, Tommy Dorsey and Phil Harris scoring heavily with the operators. The summary by the fact-finding agency listed the same bandleaders leading in the classification known as "The Year's Top Selling Bands Over Retail Counters."

Perry Como, who won *The Cash Box* nomination as the "Best Male Vocalist of 1947," showed up in the other polls as the year's top male vocalist.

This parallel is not entirely surprising, for juke boxes have long been regarded by the record industry as an important stimulus to the sale of records. It does reveal, however, that people of different age levels have similar tastes in popular music. It also reveals that the base of the popular record market is considerably broader than many surveys have indicated.

Today the factors contributing to the success of a hit are so numerous that it would be difficult to give any one aspect complete credit for a best selling record. Motion pictures, radio plugging, the record company's own promotion and exploitation, the imprint on large groups of people through coin machines, and the promotional activities of the music publishing house are just a few that come to mind. It is the cumulative effect of all of these avenues of promotion which results in creating new popular favorites on records.

"MODERN RECORDS ARE BASED AROUND JUKE BOX BUSINESS"

SAUL BIHARI

Vice-President, Modern Records, Inc.

The first thought and final theme of a recording session at the Modern Records plant in Hollywood is based and built completely around the juke box operator. This may seem just a little prejudiced, but Jules and Saul Bihari gained most of their knowledge of the record business through their own experience as juke box operators over a period of eight years, just before embarking on their venture into the record manufacturing field.

Actually knowing what it takes to draw a coin into a juke box slot and actually producing the same on records, calls for a combination of talent. However, the basis of all good recordings, which includes the manufacturing, promotion and actual sale

of the record, is the sincere and earnest endeavor to produce a record which is adaptable to public taste; and to have an inner knowledge and understanding of the people for whom the music is produced.

The constant demand for a good wearing quality in a recording is uppermost in mind and all emphasis are on this particular phase. So comes the rare quality of the true combination of music artistry, manufacturing and production of records.

The record outlook for Modern in 1948 is one to be watched. Altho a very young company, their rapid expansion and development in the competitive industry of record manufacturing has now gained them their share as one of the largest and most progressive independent recording companies of today.

Their backlog of recordings on such rising stars as Hadda Brooks, Johnny Moore's Three Blazers, Gene Phillips, Little Willie Jackson, and a full roster of other stars, hold some very outstanding recordings for the coming year.

Evidence of Modern's close cooperation with the automatic music industry is easily seen in the recent "Cash Box Second Annual Music Poll of the Automatic Music Industry." Hadda Brooks, one of the top female vocalists of the nation held a position of high merit throughout the entire poll, and the large amount of votes she accounted for certainly is evidence of our position in the field.

"VITACOUSTIC IS HERE TO STAY"

Jack Buckley
Vice-President
Vitacoustic Records, Inc.

Now that the "ban is here, and the hectic days of stockpile recording are out of the way, what is to be the future of the so-called independent record company? Is it at all possible to predict what may lie ahead of an organization such as our own?"

Despite those who take a dim view of the matter, Lloyd Garrett and I still believe that free enterprise continues to exist in our land. The small operator in almost any field who plans carefully, executes courageously and is ready to take any sensible risk, can still become a big operator.

The foregoing is stated without any mental reservations concerning the effect the recording ban may have; one way or the other, on the general sale of records. Whatever effect it has will be shared by all companies.

The success of "Peg O' My Heart" may have been pure luck—I won't argue that. Neither will I try to conceal the fact that Lloyd Garrett and I could have quit the record business months ago with a nice profit and no headaches.

But we elected to stay in the business, knowing that the last thing we could depend upon would be another break like "Peg."

Vitacoustic has selected a wide range of talent and music, invested far more than the profits from "Peg" in putting that talent and music on wax, because it believes that the future offers a sensible risk to any record company which doesn't make the mistake of depending on the ban to keep it in business.

The last side cut in Chicago before the ban took effect was cut for Vitacoustic at 12 midnight of December 31st. This last side brought the number of recently cut sides for our label to well over 250. Of interest to readers of *The Cash Box* is the fact that this and all sides which preceded were held as close to the two-minute time of "Peg" as possible. Obviously that means an investment big enough to demonstrate our intention of staying in the record business. We can't afford not to! And we have taken every possible precaution with the mechanical quality of our cuttings, in order to avoid jeopardizing our investment with shelved masters.

The future of any independent record company is going to rest with its actions in the immediate past. If it has planned carefully, executed firmly, and is prepared for sensible risks in its future merchandising operation, it has every chance of eventually coming out well ahead of wherever it may be today, recording ban or no recording ban. After all, the essence of free enterprise is the opportunity to grow by one's own efforts, and no laws have yet been passed to illegalize ingenuity, thinking and guts.

Phono Biz To Boom In '48

By MANNIE SACKS

Vice-President, Artists & Repertoire
Columbia Records, Inc.

The recording industry and the coin machine industry, interdependent as they are, face one of the biggest years in 1948. The post-war adjustments have been made; production schedules have settled down to a steady flow, the worst material shortages have dissipated, new labor has been recruited and new techniques taught. Distribution, with its wartime problems of transportation and packaging considerably reduced, has been built up to a much more efficient level. The extensive promotional facilities for records have been geared to distribution to a point never before achieved.

With our major problems cut to a minimum late 1947 saw the phonograph record come into its proper domain in the great industrial and cultural pattern of American life. More homes now have spinning turntables than ever before and as we all know, the disk jockey has become a new American institution, helping to make the music-lover more than ever aware of what a great entertainment feature the phonograph record can be.

The current controversy regarding the making of phonograph records can, and must be settled to the best interests of the industry and the musicians. Obviously, one cannot live without the other. We know that there are more and better musicians than there have ever been, that the standards of performance, both live and recorded, are higher than ever before and that the standards and tastes of the great consuming public have been elevated to a point where only the best performance can survive against competition. Certainly the coin machine industry deserves enormous credit for its contribution in perfecting the mechanical facilities for public record performance and in the discernment shown in the programming of records.

In many cases the first performance of a record is heard by the individual on the "juke box". His ultimate decision to request other performances of the record or to purchase it for his home use will result from this first hearing. Consequently, although it has been suggested that the "juke box" deprives the musician of certain professional rights, it is also true that it goes far to acquaint the public with the merit of records—the musician is thus involved in the welfare of the coin machine industry. He, himself, probably puts as many nickels in the slot as anyone else.

With more than enough high-quality records assured throughout 1948 and subsequent years, and considering the meticulous care with which these recordings were made in spite of the pressure of time; no one can help but be optimistic about the coming period. There will be a larger-than-ever selection of better-than-ever records on which will be heard the top performances of top tunes. Promotion, advertising, the whole merchandising projection of each record will be considerably aided by more advanced knowledge and planning of schedules so that from master to turntable a concerted, highly developed format will evolve. The coin machine industry certainly needs no greater assurance than this—that their field of endeavor will be progressively rewarding in 1948.

Major Distrib Lines Boom As Hits Continue

NEW YORK—Major Distributing Co., New York took on the outlook this past week of rapidly becoming the largest record distributor in this city.

Major, the distributing firm who garnered a slew of credit for their handling of the recent "Near You" click disk has continued to rack up peak sales with the many lines they now carry.

Ed Levy, president of the firm disclosed that he had signed a contract with ork leader Phil Spitalny, for the exclusive distribution of his Charm albums. The Spitalny organization is currently planning a wide advertising campaign.

Levy also announced several additions to his staff. Included were, George Schneider and Bill Barkowitz, formerly with Apollo Records, Lou Fagan Ernie Crickett and A. Camp, formerly with Runyon Sales Co., Mr. Camp is to handle the Connecticut territory.

Off-Air Recording Brings Legal Hassell

LOS ANGELES—Orchestra leader Roy Milton, through his attorney Dave Pollock, of this city, has brought suit against record manufacturer War Perkins, for allegedly recording Milton's band from an air check, and peddling the platters around the country.

As explained by Milton's attorney, Roy was forced to take this action against Perkins and the record manufacturing plant in order to protect his interest, foremost of which is an exclusive recording contract he has with prexy Art Rupe of Specialty Records.

Milton's suit represents the first growing out of the recording ban. Several members of the industry, upon hearing of the case stated, "Why anybody with a home recording set can do the same thing by just turning on the radio."

The amount of Milton's suit against Perkins and the pressing plant was not disclosed.

Select "Thoughtless"
As February Hit Tune**

**3000 ATTEND MONTHLY
HIT TUNE SHOW**

JACK COHEN

CLEVELAND, O.—Three thousand teenagers gathered here this past week at Chin's Golden Dragon Restaurant for the monthly Cleveland Hit Tune Party, co-sponsored by the Cleveland Phonograph Owners' Association and the Cleveland Press, to select the Hit Tune for February.

The tune selected in a closely contested ballot was "Thoughtless".

The recording will be placed in the number one spot in the more than 3000 phonographs throughout the Cleveland area, for the entire month of February.

Disc jockey Howie Lund, WJMO, disclosed that "Thoughtless" which originally started in the Cleveland area had been booming in the city for some time now.

Weeks ago songwriter Buddy Kaye dished out the tune, and when he found he could not sell it to a publishing house, he decided to record the song himself. Utilizing a three piece vocal combination he found in New York, Buddy cut, with the result being that the disk was a smash.

A great many recording companies have already issued the disk with several more platters scheduled for early release.

So. Dakota Ops Report On Disk Quality

Capitol Records Blasted

MOBRIDGE, S. D. — A comprehensive report on the quality of recordings out in the market was issued this past week by the South Dakota Phonograph Operators Association, with headquarters in this city.

The report, distributed to the entire membership specifically ruled out many of the recording companies and made many criticisms of same.

Altho the report singled out the major record companies, comment was also made concerning the independent recording companies.

In mentioning the durability of RCA-Victor Records, the report stated, "Vastly better than a few months ago with relations to wearing quality. They have the name bands that are among the 'musts' on your phonos."

A statement concerning MGM Records read:

"Formerly had but few of demanded artists for the jukes, now have substantially more, plus a long wearing hard finished platter that is nearly noise-free. Look for their late releases on Jimmy Dorsey, Frankie Masters, Carson Robinson and Bob Wills."

Altho only brief comment was offered concerning Decca Records, the statement by far was the most complimentary:

"Longest wearing platter of all, but try to get enough of those in the 'Top Song' group."

Their criticism on Capitol Records read:

"Have many demanded artists. Rapidly pushing to the front in American Folk and Cowboy Music—but what happened to their material? Formerly their records would go more than 100 plays on an average phono, now they are completely ruined after 50 plays. The price is high, and the top in each class is in short supply. We can't call on each location every day, or in cases, every week."

A preface points out that the report will reach people involved in the production of records, and the association states that they are sure that constructive criticism will offend no-one.

**Hawaii Phono Op
Reports Top Ten Tunes**

NEW YORK — A report on the top ten tunes, a weekly survey made by *The Cash Box* among music operators throughout the world, was received this past week from Honolulu, Hawaii.

The report shows that far flung Hawaii demands the latest recordings. It is almost a duplicate of those tunes receiving wide attention in this country.

The top ten tunes are published below:

1. Golden Earrings—Peggy Lee.
2. You Do—Margaret Whiting.
3. Civilization—Danny Kaye-Andrews Sisters.
4. I'll Dance At Your Wedding — Peggy Lee.
5. Serenade of the Bells—Jo Stafford.
6. Near You—Francis Craig.
7. Poppa Won't You Dance Me—Doris Day.
8. Ballerina—Vaughn Monroe.
9. When You Were Sweet Sixteen — Perry Como.
10. Those Things Money Can't Buy — King Cole Trio.

It is well to note that all tunes listed represent a fair majority of the major recording companies, and shows that the top recording artists are in heavy demand in Hawaii.

Listed as coming up were:

"The Best Things In Life Are Free", "Pass That Peace Pipe", "Your Red Wagon", "Lazy Countryside", and "A Fellow Needs A Girl".

Phono Biz Helps Promote Artists

By HARRY C. KRUSE
Vice-President In Charge of Sales
Decca Records, Inc.

1948 should be a big year for the coin machines industry which, in turn, should help the recording companies hit new highs in sales.

We at Decca, in particular, are well aware of the great service the operator performs in helping to promote records and stars. Sales to the coin machines are substantial to themselves, but more important are the trends that they create. It is interesting to note that operators favorites are generally tops in total record sales, and we at Decca realize that they help these tunes to the top.

The coin machine has become as much a part of the American scene as the hot dog and the bobby soxer. In a sense, it is a phenomenon of our time, permitting the individual to have stars perform his musical favorites at his bidding for a pittance. And, if he finds the performance satisfactory, he can repeat at will. This is truly a command performance—made possible by industry to the nation.

This is a great role in our musical life, bringing music to the people when they want it. For America is a singing and dancing land and the coin machine helps us spread our own vast musical culture.

In the coming year, Decca's forty-two branches will offer the same co-operation and service that they have in the past. Feel free to call on any Decca man at all times. Whenever and wherever we can be of service we are prepared to give it freely.

CATCHIEST LYRICS IN YEARS

GUYS — Undress me with their eyes.
They take one look and know me like a book.
I always try to wear a smile and be blase,
But I've a feeling that I'm in my lingerie.

SOME JOE — Gives me the double—o.
Then he's without the shadow of a doubt,
When down the avenue the wind begins to whirl
Oh, lordy, what I'd give to be a bloomer girl.

When Jerks
Give me the optic works,
I'm in my skin without a safety pin.
But, after all, I guess I really shoulda' care,
They always see a darn sight more than's really
there!

Folk Music To Boom In '48

By SIDNEY NATHAN

President, King Records Dist. Co.

It is with a considerable amount of caution that any of us in the music business attempt to predict what lies ahead in 1948. Many of the factors upon which we ordinarily would base any predictions are, at the present time, unknown.

Uppermost in the minds of all record manufacturers is, of course, the effect of the Petrillo Ban. While 1948 will not see any immediate change in the continuous release of King Red and Blue label records, we can only speculate as to whether the year will bring a settlement of the problem and if it does, what this settlement will entail.

The year just ended saw a greater swing toward folk music throughout the entire nation. King, as the nation's largest manufacturer of folk and hill-billy discs, was able to take a particularly favorable position as a result of this trend.

In 1948 we earnestly believe that this trend will continue. Folk artists have received resounding welcomes in the big cities — those traditional strongholds of those who have looked down their noses at our sort of music. We have been able to shatter those traditions.

There are, I believe, two principal reasons for the unexpected popularity of folk music in the metropolitan areas. First of all, there was a tremendous shifting of population during the war years — a shifting which brought thousands of rural citizens to the cities. As yet, a great number of these people have not returned to their original homes but are staying on in the urban centers. Their musical tastes, however, have remained the same as they were in their old homes.

Secondly, people of every background are finding in the simple melodies and lyrics of folk music relaxation from the cares of the day. Tired of the sophisticated lyrics of many popular tunes, people are finding the humor, pathos and sentiment of folk music just the thing to soothe their minds.

In 1948 we at King Records look forward to a continuation of the splendid cooperation that has existed between ourselves and the operators of the country's juke boxes. Last year in an article for *The Cash Box* I pointed out that we record manufacturers regard the operators as an essential cog in the wheel of production. The success of several of our numbers in 1947 can be attributed largely to the fine cooperation we received from members of the coin machine industry.

1948 will be a year, I believe, of major decisions in the music industry. 1948 will be a difficult year but with the help of the gentlemen of the coin machine industry I am certain that we will be able to ride out any difficulties which arise and emerge at the year's end in a far stronger position.

Vitacoustic In New Research Program; To Hypo Public Reaction

CHICAGO—"For the first time in the history of the musical recording industry, a system of pre-testing public reaction to phonograph records has been devised," it was announced this past week by Lloyd Garret, president of Vitacoustic Records, Inc.

"General as the practice of pre-testing may be in the food industry and others, this is the first time the scientific methods have been sought and worked out with reference to anything in the entertainment field," Garret added.

With the recording ban now in effect, and the temptation on the part of record manufacturers to treat the situation as a "windfall seller's market," one independent recording company will be practicing the reverse procedure — that of trying harder than ever to be particularly selective in its releases and give the public what it wants rather than what it chooses to give them.

Introducing this new technique is Vitacoustic Records, Inc., one of the foremost independent recording company's well-known to music circles for its first release of "Peg O' My Heart", as recorded by The Harmonicats, which it introduced during 1947 to the tune of almost two million sales.

At the request of persons affiliated with Vitacoustic, the research techniques have been devised exclusively for the plattery by Edward Whittlesey, Director of Public Relations for the University of Denver and president of Research Services, Inc., Denver, Colorado.

Whittlesey, who is a past vice-president of Western Reserve University, is prominent for having founded the Research Institute of America, the group now used for public opinion research by the United States Bureau of the Budget and other government bureaus.

French Diskery Resumes Recording Activity

The Paris affiliate of Polydor Records, Inc., The French Polydor Company, announce that they have completed installations of new recording facilities for production of master recordings and transcriptions. The Paris installations include the most advanced type of equipment imported from the United States for extended frequency range recordings in accordance with the latest standards. Their facilities have been installed in the Salle Pleyel and Salle Chopin, the largest, most modern concert halls in Paris.

The announcement from Polydor Paris further states that they have reopened their artist and recording departments under the management of Jacques Cagnetti. Production facilities, consisting of large pressing, plating and printing plants have been completely overhauled. This is the first time since 1940 that these plants, famed for the quality of their output, will be in full operation, producing pre-war high quality records for world markets.

"We're Working To Give You Unlimited Play"

By **ARTHUR TALMADGE**
Vice-President In Charge of
Advertising & Promotion

In the two short years that Mercury has been in operation we have the satisfying feeling that you made "quick-silver" with our platters.

It is a heartening thought when a record company can come from out of "nowhere" and by general agreement among the trade be accepted as the fifth ranking company in the field! Don't think for one moment that we're resting on our laurels. With three of the hottest recording artists in the business namely; Frankie Laine, Vic Damone and Ted Weems and such fast rising stars as Two Ton Baker, John Laurenz, Patti Page—not forgetting the good old standbys like Tiny Hill, Rex Allen, Albert Ammons, Dinah Washington, Eddie Vinson, Wally Fowler and Jan August, we can promise you continued profits from Mercury Records.

Our engineers are working night and day endeavoring to perfect a record that will give you unlimited plays. Until then the Mercury quality will stand on a par with the others.

Production wise, we are in great shape with plants located in California, Chicago, St. Louis and New Jersey, and we are in a position to supply the operators at all times.

We're still young, still growing and very ambitious—and here's the secret to our success, we're willing to listen to suggestions. Any time you have anything to say that will help you, let us know because in the long run it will help us. We need you and we know it, so let's make a buck together.

Getting Big Play!

TIPS on Coming TOPS

TOMORROW'S HITS

The information below is designed to help you secure more money-making records. It is culled from various parts of the Billboard Pop Chart to be published in the coming week, and sent to you in advance so you can place your orders ahead of the average record buyer. The "Coming Top" is sent to you because you helped make at least one of the various features of the Billboard Music Popularity Chart possible by returning your questionnaire last week.

TIP—Happy-type bars and grills with energetic, robust partons should like the **HELEN** polka on their juke boxes. The vitality packed dishing of this polka is by the Walt Dana ork (DANA 2002). Flipover is **HAPPY HARMONICA**.

Ask for catalogue of the entire Dana Polka and Polish line. It's loaded with sure-fire nickel grabbers.

Mercury Buys "Clover" Disking From Krantz

CHICAGO—Mercury Records Inc., this city, completed arrangements for the purchase of the master of the Uptown String Quartet's diskings of the current hit tune "I'm Looking Over A Four Leaf Clover".

The Krantz platter was responsible for the start of a wave of phenomenal juke box play and peak sheet music sales.

Angle here is that in announcing the Krantz record for sale, the indie platter in their advertising featured a majority of Mercury Record Distributors, laying way for alleged reports that the platter, in some manner, was Mercury's property all the while.

Apollo Adds Distribs

NEW YORK—Apollo Records, in addition to waxing an unprecedented number of sides during the past weeks, has continued its all-out drive lining up record distributors in virtually every section of the country, and announces five new appointments.

Latest distributor named by the Apollo diskery is Roberts Record Distributing in St. Louis, under the direction of Robert Hausfater.

Other firms newly named include F & F Enterprises in Fayetteville, North Carolina, under A. B. Fleischman; M&M Distributing of Green Bay, Wisconsin, under E. J. Merar; Ross & Company of Denver, managed by Max Ross; and Hit Records in Oklahoma City, headed by William Parsons.

Ravens On Temp Lay-Off Due To Illness

NEW YORK—The Ravens, popular male vocal combination who gained nationwide attention thru a series of click disks, served notice this past week to the management of Small's Paradise, local nite-spot, that they would sever their contract agreements with them due to a serious stomach ulcer condition of Jimmy Ricks, the headlining bass singer with the act.

Word from The Ravens has it that Jimmy will be out for a period of two weeks. The cause of his illness was laid to overwork and improper diet.

The act was scheduled for a four week contract. They are scheduled to open at the Adams Theatre, Newark, January 22.

Confidence In Phono Industry Is Essential

By **LEON RENE**
President, Exclusive Records, Inc.

Prior to entering into the record business my profession was song writing. I composed a number of successful songs including "I Lost My Sugar in Salt Lake City," "When the Swallows Come Back to Capistrano," "Sleepy Time Down South," and "Someone's Rocking My Dreamboat." Therefore my viewpoint of the record business may be different from others in the industry. Having had great difficulty in placing my songs with publishers, I took it upon myself to create a demand for them through the medium of phonograph records. I found that a songwriter capable of writing hit songs must have the feel of the pulse of the public. He must be abreast of the times, original, and able to forecast what the public will accept. These same requisites are a great asset in operating a record company. As president of Exclusive Records I have applied these principles to the development of my company.

I have attempted to select recording artists whom I felt would have public acceptance. By combining the artist with the proper song and arrangement, I was able to establish the... ally kno... our c... m...

MIRACLE RECORDS

Diskers Propose Information Pool For Entire Industry

NEW YORK—A proposal has been made by several record manufacturers that the entire industry jointly agree to a "pooling" of information concerning the record manufacturing output, and other statistical information which would help the entire industry to possibly foresee sales trends.

Those proposing the arrangement point out that other industries including the steel, automotive, office machines and many others, have pooled this information with vast benefits being reaped from same. Altho the industry itself is highly competitive, advocates point out a central agency, possibly even a Federal group such as the United States Department of Commerce could hold the information.

At present there is no central agency which holds bulk information as to the record industry's bulk manufacturing possibilities, nor figures pertaining to its sales in past years. Altho this information might be obtained from the many recording companies themselves, many in the business point out that unless an agency of the type described above were appointed to secure these data, the recording companies figures would not be accurate and true.

Information could be broken down into groups — children's pop, light pop, classical etc.

Disk Men Foresee Industry Cooperation

By HY SIEGEL

President, Apollo Records, Inc.

Relations between record manufacturers and coin machine men will be brought into sharp focus at this year's CMI convention, and outside interests will observe that the relationship is closer than ever before.

Coin men and record manufacturers are entering into a crisis together, and jointly they have armed for the current threat against the welfare and very life of their industry. As a result, coin men and record manufacturers look forward to a year of brisk business and increased patronage by a music conscious public.

More music was played during the past year than in the history of the country, but profits to coin men were not correspondingly increased. One job of record manufacturers this year is to help bring those profits into balance with expenses and gross business of the coin industry. Apollo, for instance, already has responded to the requests of coin men that two-minute disks be manufactured.

The present high standard of our shellac disks is being constantly improved. We know, durability means dollars in the coin man's pocket, just as Big consumer "play" recordings keep the location owner happy; and when these two close associates are prospering, our benefits as record manufacturers similarly follow toward industry-wide prosperity. This points again to the importance, in our closely allied field, of all interests working together.

In view of the recording ban, we should like to assure coin men and record dealers that Apollo, like so many companies, has built a giant backlog and is prepared to make releases of new and different recordings on our established schedules for several years ahead. Should the ban last one month, or two years, or indefinitely, we are prepared to service you.

In behalf of Apollo Records, our officers and directors, sales department, distributors, branch offices and recording artists; we want to extend appreciation for our wonderful association with the coin industry this past year, and to express our well wishes for the industry's greater and greater success in the future.

Finally, our thanks to CASH BOX, "THE OPERATOR'S FRIEND," which has proved to be a real friend to record manufacturers as well.

MGM Proud Of Juke Box Biz

By FRANK B. WALKER

General Manager, M-G-M Records

With the beginning of a New Year, almost everyone looks into a mythical crystal ball and comes up with a prediction. Looking into ours, the prospects for the coming year seem extremely hopeful for the Record Industry. This past year has been the biggest in the history of the Record Business, and I feel that with continued effort and cooperation, 1948 will see even bigger events for both coin-operators and record manufacturers.

M-G-M RECORDS first year in business was a good one. Our distributors all over the country tell us that coin-operators generally have cooperated with them, beyond our expectation, in the merchandising of our still new product. We are grateful for this and hope that this cooperation will continue through the coming year. Last year, in *The Cash Box*, we pledged cooperation with Coin Operators, and I would like to take this opportunity to say that in 1948 we will continue to do our utmost to further this policy.

We will attempt, particularly, 3-way exploitation among coin-machines, movies and records. It is reported that this type of tie-in was beneficial in the past year; we intend to strive for even closer ties in the coming year. For 1948 we expect to strengthen and increase our production of movie music in order to achieve added promotion from movie, exploitation, thus increasing both our sales and coin-machine take.

As a relatively new company, we are proud that our records have been so well received by coin machines. To further their acceptance, our plans for the coming year include the addition of new stars to our talent roster. Among others in the offing are such names as: MGM's glamorous singing star, lovely Lena Horne; Rhumba King Noro Morales; and Betty Garrett, comedy sensation of "CALL ME MISTER", currently under contract to MGM Pictures.

"You just gotta get next to this cookie — they'll play, hum and sing this piece in any spot in the land . . . Mindy's tonsils gilded with silver . . . rates like a spade flush . . ."

ASCAP PRESENTS OLD BILL TO CONGRESS

ASCAP Reintroduces Rep. Frank Fellows' Bill, H. R. 2570, in Congress in Effort to Force Juke Boxes to Pay Royalties to Publishers. Claim This is Not Now Covered by Present Copyright Law. Big Battle Looms Ahead for Entire Industry.

NEW YORK—ASCAP (American Society of Composers, Authors and Publishers) sent one of the members of their Board of Directors, Johnny O'Connor, to Washington this past week to lay the groundwork for the re-introduction of Rep. Frank Fellows' (R., Me.) Bill, R. W. 2570, which was one of the bills fought against by the juke box industry last year.

According to ASCAP leaders, this bill asks that the "publishers of the music" receive royalties from the nation's juke boxes. And, they claim, this does not in any fashion go against any of the wording in the present Copyright Act of 1909.

The further claim is that this bill was lost in the shuffle last year when the battle was on between ASCAP and NAPA regarding H. R. 1269 for he artists to be covered for the "style" of the music they played.

This year ASCAP is of the belief that it can force the juke box industry to pay it royalties under Fellows' Bill (H.R. 2570) and that the interpretation of this move by the Sub-Committee of the Committee on the Judiciary, in front of whom they, as well as the juke box people, will have to appear, will be in agreement with them.

For sometime now the nation's juke box leaders have been awaiting ASCAP's move. All realized that this powerful organization would not give up after the defeat suffered this past year, for the goal of royalties is so great that there would have to be a new bill of some sort introduced.

It is surprising to the average coin operated phono leader that ASCAP again chose to reintroduce an old bill. (This was, by the way, the surprise bill sprung on the members of the coin machine industry at the first hearing of the Sub-Committee of the Committee on the Judiciary.)

The juke box people had come down prepared to listen to and to fight H. R. 1269 and H. R. 1270. Suddenly, even before the hearings started, Rep. Frank Fellows of Maine stood up and introduced H. R. 2570, his own bill, and read it aloud at the hearing. It not only came as a surprise, but, also as a shock to those coin machine people present.

There was, therefore, three bills to be fought this last year. H. R. 1269, H. R. 1270 and also H. R. 2570.

Now ASCAP again introduces the H. R. 2570 and it is believed, among those who think that they know the moves being made, that this is only a "rider" to another, and even more powerful bill, which ASCAP will attempt to present.

The leaders in the field also look to the other music organizations to produce bills and to have these ready for whatever first hearing will be called.

It is also noted that ASCAP has been "needled" into presenting a bill by the International Congress of Performing

Rights Societies which lambasted ASCAP in Washington a few years ago for not forcing juke boxes to pay publishers royalties on their songs.

There is no longer any doubt that there is again a tough battle before the entire juke box industry and it is the hope of the organization leaders thruout the nation that this year representation will not only be under one banner, and

also under one head, but, that it will be of such extent as to bring power to those who will speak for the trade.

The manufacturers, distributors and operators of coin operated phonographs are deeply involved in the reintroduction of this bill. They will have to again be on their toes and also be present in Washington at each and everyone of the hearings which may be called.

AUTOMATIC MERCHANTS' SECTION

January 24, 1948

Elmer F. Pierson

Elected President of NAMA (National Automatic Merchandising Assn.) for 1948, succeeding Robert Z. Greene. Pierson is President of The Venda Company, Kansas City, Mo. He is a Kansas City civic leader and a director of the National Assn. of Manufacturers. Venda are nationally known for their change-maker and are considered one of the largest manufacturers of bottled beverage dispensers.

"The Dawn of a New Era in Automatic Selling"

LION *Cold-Carbonated* BEVERAGE VENDER

Serves 1200 drinks from a single servicing

- Serves 1,200 drinks (9 ounces in 10½ oz. cup*) per service of syrup and cups.

*Cups of other sizes may be vended, if desired.

- Requires only 2 ft. by 2½ ft. floor space.
- Every drink freshly prepared.
- Every drink perfectly blended, highly carbonated, ice-cold.
- Simple, speedy installation opens new locations.
- Simple, trouble-free mechanism insures lowest operating cost.
- Extreme accessibility speeds up routine service.
- Quick delivery of drink increases profits.
- Smooth, streamlined, sanitary appearance attracts patronage.
- Construction complies with strictest sanitation and safety regulations.

BIG YEAR AHEAD FOR VENDORS

Merchandiser Boom Continues as More Automatic Coinmen Seek to Enter Vendor Field. Fear that Steel Shortage May Again Hold Up Production. Many Mfrs. Report Large Orders Already Placed.

NEW YORK — Already apparent everywhere in the coin machine industry is the fact that the boom, which started in a big way with the NAMA meeting at the Palmer House in Chicago this past December, has grown with leaps and bounds, and now more and more coinmen from everywhere in the nation predict that this will prove the most outstanding division of the field for 1948.

Many vending machine manufacturers report that they have, "some of the largest orders ever placed on hand", and the general statements are to the effect that they are being called upon by coinmen to deliver machines as rapidly as possible, for many automatic merchants have already signed locations for the machines for which they deposited money at the show, and during direct visits to the plants of the merchandiser factories.

One fear is most outstanding in the trade. That the manufacturers may not be able to go on ahead with the production plans which they have already set up in view of the great steel scarcity.

As one noted automatic merchant said, "Just as in the years since the end of the war, we have been held back from expanding our operations only because of one factor — that the vending machine manufacturers haven't been able to get the steel, other raw materials and components necessary to produce the equipment we have ordered.

"This", he continued, "is the one and only thing which can hold up the boom already under way in the vendor business and which can also halt the entire industry from obtaining equipment sorely needed to take care of locations demanding new machines."

It is also noteworthy that some of the largest vending machine manufacturers have been forced to in-

crease the price of their machines from time to time while in the midst of production.

One factory reported that they simply could not offer their merchandise at the price which they had originally quoted buyers and were forced to send a letter in this regard to the trade. This resulted in cancellations of many of their orders.

Most important, tho, is the fact that the commitments which have been made by buyers have been well spread thruout every division of the automatic merchandiser industry.

There is also no doubt that as the boom continues to grow and to spread further into the nation's hinterlands that more manufacturers will spring up from among those who now find themselves handicapped in their own field.

It is reported, as an example, that some of the nation's largest manufacturers, in radio, auto and other industries, including aviation, are planning to enter into the vending machine manufacturing field. Some coinmen are enthused over these reports for they foresee an entirely new and better era for the operator because of this.

But, what has grasped the imagination of all in the coin machine industry, is the sudden turn to the vending machine business and the fact that it is growing stronger every day.

It seems, therefore, that the predictions made by many of the trade's leaders will be more than ever held up during the coming months.

Also of interest to all in the automatic merchandiser field is the great

return of the service machines. Not only scales, but changemakers, shoe-shining machines and many others have entered the business.

There is no doubt that these, too, will be getting unusually good orders and the field, then, is bound to go ahead to equal the 3,800,000 machine mark which was predicted by Robert Z. Greene of Rowe Mfg. Co., Inc., former president of NAMA.

Additional information concerning standard parts and supplies will be listed in the future. Manufacturers desiring such listing are requested to contact *The Cash Box* immediately.

THE SOUNDEST — MOST PROFITABLE MUSIC OPERATION OF 1947

Was

THE

TEL-O-MATIC ROBOT

*You've Never Seen A More Amazing
Sound System. It's Almost Human*

Here's a golden chance for wide awake music operators and distributors to be FIRST in the richest market open to the finest development in Sound Engineering.

The Tel-O-Matic Robot has EVERYTHING — 40 selection phonograph for music programs — radio for special broadcasts — public address system for paging, commercial announcements, etc. — amplifier powerful enough to drive any number of speakers in any type of location — a complete daily program can be inserted at one time — there's no other equipment like it! No engineering as fine!

The market for the Robot is as wide as the industry and commerce of America. Factories . . . Stadiums . . . Department Stores . . . Hospitals . . . Offices . . . Funeral Homes . . . Industrial Cafeterias, etc.

Welcome to Open House at Jennings

Meet your friends and talk shop while you eat some prize barbecued beef or home style baked ham.

Have a friendly drink while you look over the famous Jennings line. The greatest name in coin operated machines for more than forty years invites you to get all the facts and figures on the 1948 plan for operators while you're in Chicago.

Ask about free transportation schedule at Booth 10, or ride the Lake Street "L" to Kostner Ave.

\$50⁰⁰

THE NEW Music Box

\$25⁰⁰

Buckley gave Music Operators the **FIRST** practical and profitable music box at the **LOWEST PRICE**. Today, Buckley leads the field by offering a **NEW** music box of advanced design and perfection at a **NEW LOW PRICE**.

Quality of material and workmanship have not been sacrificed. This sensational low price is the result of economies realized in large quantity production.

The new Buckley Music Box is genuinely chrome plated, with beautiful red dial plates and attractively illuminated. Equipped with positive nationally known slug rejector and double capacity cash box. Complete program of selections always in full view. Buckley's exclusive features of construction, combined with outstanding beauty and eye appeal makes this the outstanding remote control music box . . . equally popular for wall or bar installation.

TRACK ODDS

BUCKLEY TRACK ODDS has long been recognized as the only seven-coin race horse console that would stand up month after month—year after year—and out-earn all other coin machines. Buckley operators know this to be a fact. Experience has proved that no other machine can even come in a close second from the standpoint of earnings. Every day new operators are finding out that the new **BUCKLEY TRACK ODDS** are even more profitable to operate than they hoped for.

Thank You...

For A Job Well Done

By Ray T. Moloney

National Chairman, Coin Machine Industries, Inc., Division
Damon Runyon Memorial Cancer Fund

There is very little which I can say at this time — except 'thanks'.

Thanks for the marvelous support, which you and you and you have given to the Damon Runyon Memorial Cancer Fund Drive of Coin Machine Industries, Inc.

This has been the happiest position I've ever held in all my career in the coin machine industry.

I've been thrilled by the way you and you and you came into the drive; wholeheartedly; unselfishly; unseekingly; to give dollars on dollars, running into the thousands, for this great, grand, unselfish effort to bring about a cure for cancer.

It has been one of the biggest joys of my life to sit in this office and to receive letters from you from all over the nation telling me how pleased you were to be able to donate, as an individual, and as part of your industry, to this great cause.

There is no longer any doubt in the minds of the peoples of this nation, over 25,000,000 of them reached every broadcast by Walter Winchell, and the millions on millions of others reached by the press, telling of your generosity, of your grand support, for one of the greatest efforts ever attempted by any peoples at any-time in the history of this great nation.

You've got a right to feel proud. A very great right.

We, all of us, at Coin Machine Industries, Inc., all the Board of Directors, all the various officers, all who participated in the Damon Runyon Memorial Cancer Fund Drive, every-

one of us, want to take this opportunity to — thank you.

And we thank you — humbly — sincerely — gratefully — for what glory you brought to this industry.

I know that if I live to be a hundred I'll never feel better, never feel greater, than I feel today — because of the grand support which you and you and you gave all of us here at Coin Machine Industries, Inc. to put over this drive.

Not only the money that was turned over to Walter Winchell, but, the fact that you entered into the grand spirit of this drive in the memory of so great a man, and gave so unselfishly, so willingly, and so wholeheartedly, and didn't hesitate.

It was how you gave — not what you gave.

It was that warm, intimate touch which you combined with your donation. That feeling of, "I want to give, because I believe in this great fight against this murderous cancer", which has won for you a reputation which will live and live and live.

I know, today, that as happy as I am you, too, are happy. That you, too, realize this was something that came right from the heart. That this was just what you wanted to do. That you believed in this great Damon Runyon Memorial Cancer Fund Drive and that, because of you and you and you — there is no doubt that people will be able to some day overcome and cure this cancer plague.

Please, once again, accept my humble, my praiseworthy, my sincere thanks, in behalf of myself, my co-workers, and all of the industry.

Thank you, again, again and again.

Working Together

By Dave Gottlieb

President, D. Gottlieb & Co., Chicago

As I leave the presidency of Coin Machine Industries, Inc., after so many years, I feel that I must tell you something that comes right from my heart.

It was you, all of you, who made possible the grand and glorious success of this great organization. And — this was done by our 'working together'.

It was our cooperating, our working together, which created the Public Relations Bureau that is now doing such a grand job for all of us in this industry.

It was our working together, adopting each other's suggestions, trying our best, all of us here at Coin Machine Industries, Inc., to do what you wanted and needed us to do, that helped bring into being the Tax and Legal Department.

It was our working together which brought about such great success for the Damon Runyon Memorial Cancer Fund Drive — far outshading anything done by any other industry.

It was also our working together which helped to bring you the outstanding products which are today winning such praise.

And — only by working together — in the future — can we assure ourselves a greater, grander, bigger and more prosperous industry.

This is my appeal — to you — all of you —

as I leave the presidency of Coin Machine Industries, Inc. — that we shall all continue to work together.

Work with the men who will be in charge of running this organization — for then — you will be working for your own betterment — for your own future — for your own success.

This is the one phrase which I like to feel is part of all of us — part of us so sincerely that it has become engraved into our consciousness — 'working together'.

Let us, then, continue to work together. To do each other as much good as we possibly can for, by doing each other good, we do everyone good, and when we do everyone good, we do each other good. That's only simple logic.

And, as long as we work together, we shall be able to recommend to each other the things we should today to help all of us for tomorrow.

The great products which are being built today by the manufacturers of this industry are the result of all of us working together.

Greater products will be built tomorrow — if we continue to work together.

Greater profits will be earned — if we work together.

This is the theme for this year of 1948, and for all the years to come — let us, all of us, work together.

Maybe — A Simple Thing — Like A Screwdriver — Is All You Need — To Lick 1948's Problems!

By J. Raymond Bacon
Vice-President and General Manager
O. D. Jennings & Co., Chicago

Looking into the old crystal ball at the beginning of a new year, and trying to forecast what is going to take place during the next 366 days, is a hazardous proposition.

The old world seems to be whirling along so fast today that by the time you get through predicting depression, or prosperity, you've already lived through the period and are starting on the next cycle.

The fellow who tries to foretell the picture for a whole year at one bite, is almost as bad off as the one who does all his planning as he opens the office door each morning.

I lean toward the "take it as it comes" philosophy, like the fellow from Kentucky, as told to me by his brother. I heard his story on a 150 mile bus trip through Kentucky recently.

You know how everyone gets to know everyone else in a bus and, after about two rest stops and a lunch stop, my seat companion was pouring out the story of his brother.

It seems that the boy had been in the "Battle of the Bulge" and had been hit twice, once in the head and the other time in the leg. They put a silver plate in his head and gave him a complete artificial leg.

The first day that he was back in the old home town, he walked down Main Street with his brother. He pushed all help aside as they started down the first curb, only to fall flat on his face.

This didn't seem to bother him too much

though, because he whipped off the artificial leg, took a screw driver from his pocket, and after making a few adjustments, grinned, "It will be all right now."

You see, he recognized the trouble, and like most American kids, had enough mechanical flair to be able to fix the trouble — right on the spot.

There will be certain well defined sign posts at each step of the way in 1948. The first one point toward another whopper of a year in the Coin Machine Industry.

Operators all over the country are enthusiastically responding to suggestions of how to improve their routes with new equipment, how to cover territory completely, and how to arrange equipment to the best advantage.

This sign points toward better planning and an exchange of ideas beginning with the Coin Machine Show.

All the way through 1948 there are going to be other signs that point in given directions.

If we're smart, we'll do what the injured soldier did about his artificial leg, when it acted up.

We'll stop right where we are and ask ourselves, "What is the trouble — what is my problem — which way shall I go?"

When we discover the problem; we have gone a long way. Then we can dig down in our pockets and get the screw driver of experience and, like the army man, remedy the trouble — on the spot.

Let's Look Ahead

By **R. R. (Rudy) Greenbaum**

Vice-President and Sales Manager

Aireon Mfg. Corp., Kansas City, Kans.

Let's look ahead — for just a little way — and see what is in store for the modern music operator of America.

These have been particularly trying times for the music operator as high equipment costs and high operating costs have almost eliminated profits.

Some efforts have been made to increase the play from 5c to 10c which, in certain instances, have been successful but, by and large, this increase has not been accepted by the public.

Attempts have been made to make more equitable commission arrangements with locations. This effort is commendable, although for one reason or another, the operators have not been as successful in applying these fundamentally sound principles as they could have been.

There has been an extreme reluctance, on the part of all operators, to make more capital investments in personal routes because of the high price of phonograph equipment, plus the high operating costs, which have precluded normally profitable operation.

Now let's look ahead, and see what is in store for music operators of America.

First of all, I predict all manufacturers will be obliged to find ways and means, through the development of new products and new techniques, to substantially lower the price of all music equipment to operators.

Furthermore, I predict music operators through 1948 will be able to buy good, new, sound equipment for half the price they formerly paid.

Many manufacturers say that this is undoubtedly one of the major stumbling blocks to the music operator of America.

I predict that operators will, by the very nature of the economic structure, be sounder and better investments than ever before.

I predict that more men of wealth and financial background will come to see quickly the advantages of phono-

graph operations and their large proportionate income rates for capital invested.

I foresee a greater demand for new equipment as the result of lowered prices and lower operating costs which will occur through new techniques developed by the operators themselves.

Furthermore, it is my opinion that operators will learn how to advantageously diversify operations, and to re-schedule collections and service so as to create the greatest economy.

This industry, the music industry, is just coming of age. A golden era of operation is certainly foreseeable during 1948. And for many years to come.

Some skeptics and pessimists will disagree with what I say. This is only natural. There are two sides to every question. But there will always be pessimists who do not have progressive ideas, or progressive thoughts, and planning.

Those of the manufacturers, who take the initiative in creating the type of equipment that can be profitably operated, will be those who reap the harvest; and to whom the music operators of America will be eternally grateful.

Those who fail to heed the all too clear warning, that high priced equipment must be lowered, as well as the high cost of distribution and operation, will inevitably fall by the wayside.

Yes, I foresee a golden future for music operators. Not only in 1948 and 1949, but, for the succeeding years of 1950, 1951 and 1952.

Do I think there is going to be a depression? Frankly, I don't. Not now or in the next few foreseeable years.

Do I think music operators will prosper? Yes, I do. Because the manufacturers will be obliged to build equipment at a price operators can and will profitably operate.

Why Combination Television-Juke Boxes?

By Al Bloom

President, Speedway Products, Inc., New York

In those cities where television broadcasts are regularly on the air many taverns have purchased receivers with the result that during television broadcasts, the juke boxes remain idle. And the juke box operators' incomes have shown a considerable decline.

As more stations open up, and programs improve, it appears that juke box income will gradually decrease still further, to a point where it will become unprofitable to operate, unless something is done to overcome this condition.

What is more logical than a combination coin operated television — juke box?

Not only will this prevent a decline in income, but it will produce considerably larger income than has ever before been enjoyed.

It is almost a year since we first suggested this to the juke box trade. Since then a few attempts have been made to capitalize on this idea.

We realized at the beginning of our experiments that the idea of a combination "telejuke", altho sensational, was not enough in itself, unless certain fundamental requirements were fully provided for.

What are these fundamental requirements?

1st—That the machine must be a fully self service one and mechanically simplified, so that anyone can operate it without previous knowledge or instruction.

2nd—Television, being comparatively a new art, the servicing of which juke box operators, and even radio men, are not familiar, a simplified service system must be provided.

3rd—The machine must be priced within a limit that will enable operators to get back their investment, with a profit, within a reasonable length of time.

4th—It must be offered to locations on a commission basis that they will find attractive, but, which still leave the operator a proper return on his investment.

How have we met these requirements?

1st—The television and juke box are push button operated. Push a button to select a tele-station. Deposit a coin, and the picture appears instantly. Select a record, push the button, deposit a coin, and you have recorded music. And you can change from tele to juke box, or vice-versa, as long as the coins deposited have not been expended.

2nd—Television has four fundamental circuits. 1) Power supply. 2) High voltage. 3) Sound. 4) Vision. 'Tele-juke' must be made with each of these units in separate housings. In the event of a break down, the defective unit is removed and replaced in a matter of seconds. It is taken to the operator's shop and repaired at leisure.

3rd—Our 'Tele-Juke' is sold to the operators for approximately \$1,100 complete. Including a standard 24 record key-board juke box mechanism.

This price being only a few dollars more than the cost of a new juke box — makes 'Tele-Juke' a particularly attractive buy.

4th—We are advocating that 'Tele-Juke' be placed only in locations that will sign a two year contract which permits the operator to take \$15 off the top, and divide the balance 50 — 50. This is the kind of deal operators have been wanting for a long time. It is the kind of deal they must have if they want to stay in business.

With a juke box, even a new one, these deals have formerly been hard to get. But, with 'Tele-Juke' it is much easier. Here's why: as television comes to various cities, progressive location owners start buying receivers to draw trade.

Their competitors are then forced into television to keep from losing trade. All locations are then faced with the necessity of investing from \$1000. to \$2500 for a satisfactory receiver.

From the foregoing, the operator can see that we have definitely met the fundamental requirements of successful 'Tele-Juke' operation. But there is one other question which is constantly being asked, and regarding which we feel the operators should be enlightened.

Will the public play coin operated television when free television is offered elsewhere?

The answer is — yes. Positively, yes. Broadly speaking taverns have two classes of customers. Those who are very free with their money, and those who watch their pennies.

Since television, the penny pinchers have been attracted to taverns. But, they are apt to buy one glass of beer, take up room, and stay all night. This customer will not pay for television and he will not play the juke box either. He's of no value to any tavern. Any tavern owner will confirm this statement.

Now, lets take the free spender. He is the same fellow that will get into conversation with a stranger, and within ten minutes will be buying drinks for his newly found friend.

He is the same fellow who wants to impress his girl friend with his liberality and keeps playing the juke box.

He is the same fellow who wants everyone to think he is a 'big shot', and spends money like there was no limit to his bank roll, to create this impression.

He is the fellow who is going to support the 'Tele-Juke', and there are enough like him to keep operators and tavern owners contented.

Edelman Shows 2 New Games

DETROIT, MICH.—I. Edelman, Edelman Amusement Devices, this city, will be on hand at the CMI show at Booths 15 and 16 to tell the convention visitors all about his two new amusement games.

Edelman is introducing his "Flash Bowler", a bowling game that incorporates many new features, plus the already established money making features which he had used in his previous game. In addition, Edelman's "Tin Pan Alley", a roll down game, will be on the floor.

"Our many years of experience in the operating field" states Edelman "makes it possible for us to turn out

games that meet the requirements of the man on the firing line as regards to its construction and money making capabilities. 'Flash Bowler' includes among the special features: a free ball return when the player scores in the 10,000 pocket (this is optional); high scoring; beautiful cabinet and the finest materials for all parts of the machine. 'Tin Pan Alley', the roll down game, is a fast action playing game that can be operated in any territory."

Edelman reported that his firm is making immediate deliveries, and all orders taken at the show, will be given immediate attention.

The NEW Scintillating MUSIC MASTER

Modernize your present equipment by converting your mechanism in our distinctive mirror cabinets.

Tailor Music for your locations by giving them a mirror scene that fits his particular type of atmosphere.

Munves Displays Arcade Equip.

NEW YORK—Mike Munves, who has been supplying coinmen with arcade machines for over 38 years, once again will be on hand at the CMI show with a complete display of equipment at Booths 163 and 165.

Munves reports he will duplicate the set-up as pictured above, which appeared at the recent Parkmen Show.

In addition to handling the products of all the manufacturers, Munves has been the distributor for many of the leading arcade factories in the eastern territory. It is his boast that he sells a single machine or a complete arcade, even to the extent of drawing up blue prints for building construction and strategical display of equipment.

Harry Lozowick Killed In Crash

NEWARK, N. J.—Harry Lozowick, well known operator in this city, was killed in an automobile accident this past Friday, January 9, while driving in Irvington, N. J.

Harry is the father of Bert Lane of Atlantic-Seaboard New York Corporation and was a partner with his son-in-law, Sam Waldor, in the ABC Distributing Company.

Lozowick, was one of the real old-timers in the business, beginning with the operation of pin games in the early 30's.

Art Sauve Trains Trick Horses In Spare Time

DETROIT, MICH. — A. P. (Art) Sauve, one of Detroit's leading distributors, has an interesting and absorbing avocation. A horse-lover all his life, Sauve spends his spare time raising and training fine horses on his farm near Detroit.

"Blue Dare" is Sauve's favorite trick horse. Dubbed his "talking-horse" by his owner, "Blue Dare" answers questions by shaking his head "no" and nodding his head "yes". Sauve says, "If you ask him if he's a Democrat, he shakes his head "no" — if you ask if he's a Republican, he nods his head "yes".

The trick horse shakes hands by

raising his front foot, will kneel down for Art to mount, takes a bow for company, and rises up on his hind legs as do the movie cowboy horses. According to Sauve, he is also a master at the art of osculation.

"Blue Dare" is a five-gaited, Kentucky-bred horse, and Art states "the best part of the whole thing is that I have taught him all his tricks myself."

Aireon Announces New Line Of Phonos & Accessories For 1948

Will Be On Display At Morrison Hotel — New Price Range And Finance Plan Ready

KANSAS CITY, KANS.—R. R. (Rudy) Greenbaum, vice president and general sales manager, Aireon Manufacturing Corporation, this city, announced that his firm had developed a sensationally low priced line of automatic phonographs and accessories for 1948, and the complete line will be on display the week of the CMI convention at the Morrison Hotel in Chicago.

"Many new features never before achieved in music machine equipment have been perfected and put into the line" stated Greenbaum. "Many new improvements have been added and a most unusual line of accessory and remote equipment has been developed. A new phonograph line with vari-colored plastics and varied wood in mahogany, imported from foreign countries, has been developed. The new phonograph weighs less than 250 pounds. It is compact and small in size. New lighting features have been instituted with only one light bulb in the entire phonograph. This feature will reduce the actual electrical consumption by as much as 75c in an average location.

"A new sensational General Electric

variable reluctance pickup has been added to the line" continued Greenbaum. "This is the first time this pickup, with lasting stylus, has been put into a phonograph. The reluctance pickup with neither crystal cartridge or magnetic pickup is something new and increases the records' wear by as much as 75%."

A new merchandise plan has been devised by Aireon. "This plan for operators" stated Greenbaum "is known as the 'Aireon 400 Club', and is founded on actual national averages and is found to be the only successful plan possible for successful operation of automatic phonographs for operators. Membership in the 'Club' costs the operator absolutely nothing and enhances his ability to make profit and pay for new equipment out of actual collections."

Greenbaum also reported that a new 5-10-25c wall box, the smallest in history, is now being offered to the operators at extremely low price.

"In addition to the many new features added to the Aireon line for the benefit of operators" concluded Rudy "we are offering the equipment at an economical price, and a new sensational finance plan. All details will be given the operators at the show.

"Lady Robin Hood" Is New Gottlieb & Co. Pinball Game

CHICAGO—Dave Gottlieb, president of D. Gottlieb & Co., this city announces the release of their new pin game "Lady Robin Hood", which will be displayed at the company's exhibit at the CMI show at booths 2, 3 and 4.

"Lady Robin Hood" is the second Gottlieb game to feature "Flipper Bumpers", said to be a Gottlieb originated play idea, which has captured the imagination of the industry. As in the first flipper game, "Humpty Dumpty", the newest release has a playing field dominated by the appeal of flipper bumpers which are player-controlled by means of button controls on each side of the cabinet.

"Player interest," claims Gottlieb "has been heightened by such additional features as: a new, elaborately colorful theme in backboard light-up action; complete sequence scoring achieved by striking bumpers to spell out the word 'Target'; a combination Free Play and high score pocket; a flashing step-up Target Bumper which increases Free Play and High Score Bonuses.

"After having seen what Flipper Bumper action in 'Humpty Dumpty' did for pin game operating" continued Gottlieb "distributor enthusiasm for 'Lady Robin Hood' is at fever pitch. We have geared our production facilities to operate at the highest possible rate of speed commensurate with top quality construction."

"Advance orders for 'Lady Robin Hood' predicted Nate Gottlieb "indicate that this game will be a sell-out in even less time than was 'Humpty Dumpty'."

THE LONG AWAITED
CUSTOMER CONTROLLED

SPEEDWAY

Telejuke

COIN OPERATED
COMBINATION

TELEVISION and JUKE BOX

Featuring **PUSH BUTTON SELECTION**
BUILT AS ONE UNIT — with joint amplifier, speaker and coin chute.

Anyone can play a juke box. Anyone can play Speedway's Telejuke. They simply press a button for which ever television station or record is desired and deposit a coin. The picture comes on the screen instantly, in perfect, sharp focus or the record plays as in customary Juke Box operation.

It's a "natural"! A tremendously profitable combination that enables you to get the "front" money you must have to survive.

Completely practical and made for coin-operated, self-service, public use, Speedway's Telejuke features many brand-new, revolutionary "firsts" such as . . . push-button television tuning (simple enough for a ten year old child to operate) . . . television unit built in 4 replaceable sections for instant servicing . . . synchronized timers for both sections so that play can be switched from television to phono and vice versa without depositing additional coins.

Nat Cohn, Modern Music Sales Co. Booms Aireon Phono Line

NAT COHN

NEW YORK — Nat Cohn of Modern Music Sales Co., this city, one of the nation's leading juke box distributors, announced this past week that his firm had been appointed regional distributors for Aireon Manufacturing Corp., Kansas City, Kans., and that they would distribute the new phonos and accessories of this firm thruout this entire territory.

Nat is of the belief that the new deal which Aireon is making the operators on their new phono is bound to start an entirely new and better era for operators. He also claims that, "This is just what the music operator has needed and has been waiting for all this time."

He said, "There is no longer any doubt that the high price of music equipment has been much responsible for cutting down on sales because the operator just hasn't been able to meet his payments

and see a decent return on his investment.

"He has had to", Cohn continued, "wherever possible, cut out the buying of new machines. Even tho he didn't want to do so. He realized", he says, "that he needed new equipment, but, he just couldn't amortize the cost and, therefore, he was faced with the fact that he must get equipment at a lower price, with smaller payments, to assure him obtaining new machines and being able to continue in business."

Cohn explains that the new Aireon merchandising plan allows the operator to pay for the machines he purchases, or for the wall and bar boxes he buys, over an extended period of time, with exceptionally low payments of only \$4 per week.

"This", Nat Cohn says, "is one kind of payment the operator can meet. He can pay \$4 per week. But, he can't make high payments."

Nat also said, "We were the pioneers in automatic phonograph distribution in this area and we know just about what every single operator can afford to pay. We believe that the present Aireon deal is the best in the nation. It has opened a new method for the music operators to enjoy real profits. I can foresee one of the busiest years in history for our firm and", he continued, "if advance orders are any indication, we already are on the way to setting a new post-war mark for music machine sales."

1948 New And Important Era

By ALBERT A. SILBERMAN
Gen. Sales Mgr., Adams-Fairfax Corp.

The year 1948 will usher in a new and very important era in the Coin Machine industry generally, and the automatic merchandising business in particular. There will be drastic adjustments on an overall basis especially in the financial structure of many distributors and in the operational scope of a large number of operators.

The considered opinions expressed herein come as a result of long discussions with important distributors and operators in every section of the country. The writer has made two complete and comprehensive tours of the entire United States in 1947, during which time he has had the opportunity of observing conditions at first hand and discussing the many vexing problems facing distributors and operators at great length and in complete detail.

The "lush" period is over. There is complete unanimity of opinion on this point. Resistance to high priced equipment is steadily growing and the undeniable fact must be squarely faced that "storm warning" signals are aloft all over the country. Sound business reasoning dictates a policy of liquidating slow moving and other excessive inventory, as well as clearance of old and accumulated stock, parts, etc., which constitutes a "drag" or carrying charge against a business. Distributors and jobbers are demonstrating real business acumen by clearing valuable space, hitherto piled high with antiquated and obsolete equipment and using it for productive purposes. All unnecessary expense is being eliminated and there is a general awakening to the important need of adequate working capital. In most cases, the tightening up of credit has worked hardships on both distributors and operators and until a distributor or jobber has found new sources of financing, he must be in a position financially, to carry the operators paper himself or face the alternative of losing business.

Coin men in all phases of the industry are now properly looking for ways and means to augment their volume, and accordingly, distributors, jobbers and operators in every city of the United States, with very few exceptions, have taken on one or more vending machine lines. In practically all cases they report that vending equipment has brought much new blood into the industry and that these sales are now and will continue to be a welcome stimulant to the business.

Many operators of pin games, consoles, phonos, roll downs, etc., report that they have supplemented their incomes thru' the addition of merchandise vending machines to their established routes and that the arrangement is both pleasant and profitable since it does not interfere or otherwise compete with their games or other equipment but rather gives the location a more diversified service.

With each passing year, as the coin machine industry grows in stature, scope and accomplishment, it is inevitable, that it will bring in consistent measure new and complex problems which will seri-

Cancer Fund Check To Be Presented To Winchell At Show

CHICAGO — Altho contributions for the CMI Damon Runyon Memorial Fund for Cancer Research has slowed down considerably during the past few weeks, it is expected that the goal of \$250,000 which the industry set for itself will be met. At the present tabulation, there is close to \$200,000 on hand.

The coinmen who have been expending their energies toward the accomplishment of the quota, are confident that the needed amount will be on hand when the balance of the money is handed to Walter Winchell on the night of the banquet, January 22.

Coin Machine Industries has turned over a check to Winchell amounting to \$120,000. James Mangan, director of the Public Relations Bureau for CMI, reports that a souvenir book containing the names of all the coinmen contributing to the Runyon Fund will be available at showtime.

Michigan Studies Television Tax

LANSING, MICH. — Michigan's fiscal experts, harried by budget requests exceeding by many millions the appropriations for the current year, are examining the possibility of placing an "amusement tax" on television sets in bars, taverns and hotels.

They are regarding with interest the recent action of Pennsylvania in issuing television licenses to liquor dispensers at \$120 a year and to beer locations at \$60.

The legislatures figure virtually every bar and grill will have a television set eventually, and expect that nearly \$800,000 a year could be acquired in this manner. The figures list 324 hotels, 4,023 restaurants and 573 clubs with liquor licenses, and 131 hotels and 2,958 taverns dispensing wine and beer.

Rock-Ola Maine Showing Big Success

PORTLAND, ME. — E. S. Libby, president of Maine Automatic Music Company, this city played host to over fifty music machine operators at the recent showing of the Rock-Ola "Magic-Glo" phonograph at the Graymore Hotel.

Libby, whose firm is exclusive distributors for Rock-Ola for Maine, New Hampshire and Vermont, reported that the operators hailed the many major improvements in the new model.

Mrs. E. S. Libby, general manager of the firm, who has been associated with the coin machine business for many years, and is considered one of the few women expert executives, stated "Mr. Libby and myself were highly pleased with the wonderful turnout of operators and their mechanics for the showing at the Graymore Hotel. The weather was so bad, with snow many feet high on the roads, we were amazed that some of our customers could get through. When they looked over the 'Magic-Glo', they reported it was well worth their efforts."

Pictured to the right is Mr. and Mrs. Libby alongside the new Rock-Ola phonograph.

THRU THE COIN CHUTE

CHICAGO CHATTER

Had a nice long chat with Dick Hood of H. C. Evans & Co. who is just back from a Florida vacation. Dick doesn't have much time for the boys who wail and weep when things slow up a bit. "That's the time to roll up your sleeves and get in there and really punch", says Dick, "Good times and better conditions are coming", he opines. It sure does a person good to hear Dick talk. We need more people like him in this business . . . The carpenters are blasting away over at Coven Distrib. Co., doing lots of remodeling. Offices being shifted around to make room for expansion of showrooms. In talking to Ben Coven about the convention, he informed us that he would be at the Bally booths where he hopes to meet all his many friends . . . Lee S. Jones of P & S Machine Co. very busy sawing, hammering, and packing his new equipment to haul over to the Sherman. Lee tells us, "The new innovation in these games will prove sensational."

* * *

Visited with Lindy Force of AMI who is fully recovered from his recent operation and feeling full of vim and vinegar once again. Lindy is very happy over the announcement he expects to release on the termination of the trusteeship of AMI. Lindy tells us that he is looking forward to a big year in the music field and expects to sell many of the new forty selection wall boxes during 1948 . . . Ted Kruse of Amusematic Corp. seen rushing around getting materials ready for display at the show and expecting to do a terrific selling job on their new game . . . Ted Rubinstein over at Marvel Mfg. Co. donning overalls and giving the boys in the shop a helping hand in filling the orders for their games. Ted informs us that their latest game will be on display at the show. He has named it "Gold Mine", and it may prove to be just that, he hopes.

* * *

Bert Davidson of Filben Corp. making plans to show the new Filben Mirrocle Music line at the Morrison Penthouse during the week of the show. Bert invites all music ops up to see this new equipment and enjoy a bit of refreshments . . . Among a series of parties and banquets to be held in town this week, Rock-Ola is planning a humdinger for all their distributors, according to Art Weinand. The plant will be open for tours by visiting ops and distributors during convention week. We highly recommended you pay a visit. This big plant is an eye-opener and well worth the trip.

* * *

Noticed the boys working over at the Genco display booth making sure that everything is set for the opening day of the show. They were putting up trimmings, getting their new game set up, and rushing around to check on a number of last minute details. We hear that Genco will have a few surprises at the show but are keeping them securely under wraps until show time . . . Harry Williams of Williams Mfg. Co. has come up with a new game called "Sunny" and from a description given us by Fulton Moore, sales manager, it sounds terrific. It features astronomic scoring, bonus scores, free games, and just about everything needed to make it a sensational hit.

* * *

J. R. Bacon of the O. D. Jennings & Co. informs us that in addition to their display at the Sherman Hotel, the firm will also hold open house at the plant during the week of the show. All operators are invited out for a tour of the factory. Special limousine service is an added accommodation from the Sherman to the plant and back to the hotel again. The busses will operate from 10 A.M. to 5 P.M. daily. That's what we call service deluxe . . . According to information received from Gwen Desplenter

of CMI's Public Relations Bureau between 10,000 and 12,000 coinmen are expected in town to attend the convention. All available hotel space has been completely taken, with many last minute requests still pouring in. Gwen reports that the latest count in the Damon Runyon Cancer Fund Drive reveals that the sum collected up to date amounts to \$197,029.09. Jim Mangan tells us that when the count is completed and all the returns are in, they expect to have hit their goal of \$250,000.00.

* * *

Vince Murphy and Jimmy Johnson of Globe Distrib. Co. all set to display their new improved coin counter and separator and hope to take lots of nice orders. Vince is very enthusiastic about the future in the coin machine biz and looks for a good year in 1948 . . . Dropped around to Chicago Coin and saw their new five ball game, "Bermuda", and can understand now why we have been hearing such nice things said about it. Sam Wolberg promises some new and sensational revelations at the show and hopes that the ops will get over to their booth to take a look . . . Gil Kitt and partner Ralph Sheffield of Empire Coin giving their staff a pep talk for the coming show and preparing to display all of their games and vending lines. The boys expect to sell lots and lots of equipment and will have their entire sales force on duty during the four days of the show.

* * *

Ray Moloney and the execs at Bally Mfg. Co. expecting a one hundred per cent turnout of their distributors during the convention and planning a number of parties and gatherings at the Bally suite as has been their custom in past years. On exhibit at the Bally booths will be all of their current games and equipment, plus several of their new games which will be unveiled at the show. "Dapper" Tommy Callaghan, the famed sleuth, now heading the music division at Bally, expects to be on hand at the show to meet the many coinmen friends he has made while touring the country. Herb Jones is working the telephone overtime these days, calling all over the country getting coinmen to mail their last minute contributions for the CMI Cancer Drive to him now in time for the banquet Thursday night.

* * *

Just talked to Billy DeSelm over at United who predicts that their new games, which will be displayed at the convention, will steal the show. Billy tells us that the United factory will hold open house at the plant for distributors and visiting ops . . . Al Sebring of Bell Products in a deep huddle with Harry Salat and hoping to hit the jackpot in taking orders for their new electrically operated coin changer and manually operated junior coin changer. Al has high hopes of selling lots of equipment at the show . . . Al Stern of World Wide Distributors has been one busy man these past few weeks, traveling throughout his territory, calling on ops and taking some nice orders on games and other equipment. Al has a well earned reputation of being a super salesman and can really turn on the selling power when he wants to. Al plans to spend quite a bit of time at the show where he hopes to meet his many, many friends.

* * *

Harry Brown of American Amusement anxiously looking forward to covering the show and contacting his many coinmen friends again . . . George Ponsler nervously chasing here and there getting his booth ready, extending the glad hand to his many friends, pushing the sales of his new rolldown, "Pro-Score", and taking many nice orders. All in all George is a very busy man . . . Here's hoping that each and everyone of you will have a swell time and will long remember this convention as one of the biggest and best ever held.

THRU THE COIN CHUTE

EASTERN FLASHES

The only subject of conversation this week has been the Coin Machine Convention. Everybody was either taking a train or plane, or making last minute rushes to the railroad or La Guardia Airport to catch some means of transportation. As is usually the case, many coinmen who hadn't planned on attending the show, changed their minds the last moment — and then had to do all kinds of tricks. The first problem was how to get to Chicago, and then when they get there, where'll they sleep. The telephone wires at this office were busy continually with requests from our friends, asking if we could help out. We did our best, but the Chicago hotel situation was practically impossible to break thru. However, if we know our coin machine friends, they'll all get to Chicago, and when they get there they'll get sleeping accommodations. Many of the boys left early in the week, particularly those who have to see that their equipment is on hand at the Sherman Hotel for exhibit. Others left in order to be able to call on the factories in advance of the general gathering, which will start Sunday, January 18.

* * *

Barney (Shugy) Sugerman, Abe Green and Jack Mitnick and their staff left early for the show as they are anxious to get their display set up. They are showing the Tel-O-Matic Robot music system on the exhibit floor . . . When Shugy returns he will complete arrangements for the Bar Mitzvah (confirmation) of his son Nathan, who celebrates his thirteenth birthday on Saturday, February 14. There'll be big doings at the Clinton Manor on that day . . . Al Goldenberg, Jomal Music, makes last minute arrangements and flies out to the show — his first . . . Phil Mason and Dave Lowy, Dave Lowy Company, report they expect to do big things at the show in lining up some of the factories as distributors . . . Maxie Green, New Deal Distributing, will attend the show for the first time in about ten years. Maxie is a dynamo and should make some good deals for his firm.

* * *

Al Bloom, Speedway Products Company, will let the coinmen of the nation take a look at his new combination television-juke box, which will be on display at the Morrison Hotel the entire week of the show. Bloom has worked out a practical machine, and in addition has an operating plan for the operators . . . Bill Rabkin, International Mutoscope Corporation, will have a few pleasant surprises to show the visitors at the show. The Muto exhibit will feature the Photomatic, Voice-O-Graph, the Mutoscope, and several new amusement machines. On hand to assist Rabkin will be Herbert Klein, sales manager, Frank Swan, head of the service de-

partment, and Ben Herz, engineer . . . Max Levine, Scientific Machine Corporation, together with his associate Fred Hailparn, will show the trade something new in amusement machines.

* * *

Nat Cohn, Modern Music Sales Corporation, will probably be one of the busiest distributors attending the convention. Nat just announced the acquisition of the Aireon phono line. In addition, he heads the newly organized Gem Record Company, which has a half dozen records ready to pop . . . Lou Wolcher, the popular San Francisco distributor, in town most of the week, leaves for the convention from the big city . . . Ben Becker, Ben Becker Sales Company, Bally's regional sales representative, practically living on a train or plane these days. Ben spent most of the week in upper New York State, returned to the city for a few days, and then out to Chicago . . . Hymie Rosenberg, H. Rosenberg Company, placidly waits until the last moment, then grabs a plane . . . The Rock-Ola contingent (Dave Stern, Harry Pearl, Tom Burke and Irv Orenstein of Seacoast Distributors) leave some days early to be on hand at the Rock-Ola factory . . . Sammy Stern, Scott-Crosse Company, Philadelphia, Pa. (Rock-Ola distrib. there) left a full week ahead . . . Dave Rosen and his entire crew from David Rosen Company, Philadelphia, will be on hand at their booth to greet their friends and customers.

* * *

Mike Munves, in Chicago, a few days ahead of time, sets up his booth of arcade equipment . . . The trade shocked and saddened by the death of Harry Lozowick of ABC Distributing Co., Newark, N. J., who was killed in an auto accident on January 9. Harry is the father of Bert Lane of Atlantic-Seaboard New York Corporation. Bert was undecided whether or not he would attend the convention, but Meyer Parkoff, Harry Schneider, Joe Fishman and George Hurwich of the firm will be on hand. We understand Harry Rosen sent a last minute message that he may not be able to leave Miami Beach, Fla. for the show . . . Al Denver and Sidney Levine of the Automatic Music Operators Association, expect to accomplish a great deal at this show . . . Murray Weiner and Bill Weiner of the U-Need-A Vendors, will show their new electric cig machine.

* * *

THAT'S ALL FOR NOW — WE'RE OFF TO THE CONVENTION. DROP IN AT BOOTH 77 — the LUCKY DOUBLE. WE'LL BE SEEING YOU.

* * *

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

"On to the Big Show", is the password all along coinrow here with coinmen on their way, as this is being written, and many of them already in the Windy City and others, who were lucky enough to get the big non-stop planes, planning to leave at the last minute. It sure looks like California will be represented with glowing colors at the CMI Convention and everyone will meet with everyone once again for a grand and glorious time as well as see all the new machines and the new ideas which will be presented at the Sherman Hotel. (And since you guys and gals will be reading this as the Show will be on be sure to call around at BOOTH 77—*The Cash Box*—and pass along some of the info which you have so that we can complete this column in plenty of time for the Post-Convention issue.)

* * *

In this man's town, Elky Ray, Gold Coast Coin Machine Exch., is walking around with a big smile and an air of expectancy. He's expecting a sample of Dave Gottlieb's latest five-ball creation, "Lady Robin Hood". And from what Elky tells us he believes that it's going to have 'em all talking and (even more important) buying . . . Jack Ryan over at Sicking, Inc. tells us that the response to Chicago Coin's great new five-ball, "Bermuda", is extremely gratifying. "The boys are coming around for more and still more", says Jack, "and we're trying to complete all orders just as fast as we possibly can" . . . Charlie Fulcher (L. A. Manager for Mills Sales Co., Ltd.) just returned from a trip down to San Diego and reports that he "took plenty of orders for the great Mills Constellation phono". Charlie says that more and more music ops are going big for the Constellation with the "six hits for two-bits" idea bringing the quarters into the boxes in bigger numbers than ever before.

* * *

Charley Robinson rushed right off to Chi (early) to attend the show and to learn away in advance about thisa and thata and what can be expected to be seen here and there in Chicago. In the meantime, Al Bettelman is holding down the fort here in his usual capable and efficient manner. By the way, Al has just returned from a 9,000 mile circuit of the Western states and is getting some rest at least . . . M. C. (Bill) Williams of Williams Distributing Co. reports that he has just heard from son, Harry, who heads the well known Williams Manufacturing Co. in Chicago, that the trip back to Chi in Harry's new Beechcraft Bonanza plane was absolutely uneventful. Smooth as skimming over ice and that he landed at Chi's Municipal Airport in record time. In the meantime, Bill, winkingly, tells us that he's "gonna have something really terrific" for the ops hereabouts.

* * *

M. S. (Bill) Wolf tells us that he's selling more and ever more of the new AMI's and that he's got a real surprise up his sleeve for all the boys who buy this machine with something they have all wanted. "And", says Bill, "we're not the only ones, out here on the West Coast, who are selling AMI phonos. In fact", he claims, "from what we hear AMI's are selling all over the nation with ops turning to this grand phono" . . . Wm. (Bud) Parr and Fred Gaunt of General Music Sales Co. are busier than the proverbial beavers with their new distributorship—the '48 Magic-Glo Rock-Ola phono—which is bringing the music boys from all around this territory into their showrooms to look it over and place their orders. And many a guy calling on Bud to compliment him on obtaining this well known music line of merchandise. And Bud saying, "Brother, you ain't seen nothin' yet, we're only just gettin' started."

* * *

Say, that Len Micon is somethin'. The way that boy and his Pacific Coast Distribs are moving out those Genco "Bing-A-Rolls" is really something to write home about. Len is doing a really terrific job and has orders away in advance of every shipment he gets . . . Over at SCAMOA our good friend, E. Jay Bullock is reported on his way

to Chi to meet with all big automatic music leaders and discuss many national problems. (By the way, Jay, just thought of something. Whatever did become of that idea of using the "U. S. Marine's Hymn" recording in juke boxes thruout this area to encourage enlistments in this grand Corps? We remember away back in December when that Marine Captain spoke before the assn meeting and told the boys all about it and also the fact that many a former U. S. Marine would plunk a nickel into the juke box just to hear it again.)

* * *

Looks like W. R. (Bill) Hoppel's prediction that Southern California would become "rolldown headquarters for the U.S.A." has come true. As a prophet, Bill has won his laurels with this prediction. And now that you're at the show, Bill, howza about a few more predictions for the forthcoming big year ahead? . . . Say, we haven't had a chance to meet with the ops who called around Coinrow this past week. But, we can tell you that you'll meet plenty of them at the CMI show—so just keep your eyes open . . . That brings me to this prediction made by one of the boys—just watch Southern California lead the nation all over again right back to a big boom in coinbiz with new ideas and new methods.

* * *

And now—on to the big music people who help make this part of the world such a grand place to live. Saul Bihari of Modern Records who is in New York right now completing the installation of the firm's own offices there long distances that everything is going great and that they're just about ready to "bust wide open" with their official opening day. In the meantime Saul seems to be battling the phone company in N.Y.C. for telephones to be installed quick and has his hands full, he says. John Blackburn, former distrib head for Exclusive Records, has now joined Modern's sales staff and will be joining Saul in New York in the very near future . . . Mercury Record Sales Co. have just remodeled their new distribution offices and have also set up a complete bookkeeping department. With such stars as Vic Damone and Frankie Laine and some of the other greats this firm has they expect business to be better than better this '48. Mike Kurlan, manager of these offices, advises that all bills will emanate from his offices from now on.

* * *

Art Rupe of Specialty Records, who is no mean ad and publicity man himself, is so busy that he has just hired himself a Public Relations man. We haven't been able as yet to catch his name. In the meantime, Art let us listen to the forthcoming new Roy Milton release and it sure does look like Specialty hit the jackpot this time. The new platter is "Keep A Dollar In Your Pocket" backed with "My Blue Heaven"—don't miss it . . . Leon Rene, President of Exclusive Records, all smiles as he notes Johnny Moore and His Three Blazers recording of "Merry Xmas Baby" hitting the top of all columns everywhere in the country. Looks like Exclusive just picks 'em and picks 'em right everytime . . . Eve Stanley, publicity gal for Capitol Records, all smiles over the many nice wires from fans all over the country praising their new baritone star, Gordon McRae.

* * *

Say, I've simply gotta take a paragraph here to tell you all about one of the swellest guys I know. Bill Leyden of KMPC. Here's a disc jockey as is a disc jockey. A guy that simply keeps people HAPPY when he's on the air. Bill's got that way about his announcements which is getting more and more and more people to tune him in each and every day. And, he's making home folks who've moved out here to the land of sunshine, kinda like to know that someone on the air sorta remembers their home towns. Bill is simply jammed with mail and phone calls from people hereabouts who thank him for mentioning their home town which he brings them from *The Cash Box* "Regional Record Reports". And Bill also does a real honey of a job with *The Cash Box* polls, using each and everyone of them to give all the indie record makers the greatest of grand plugs on his airtime.

THRU THE COIN CHUTE

MINNEAPOLIS ST. LOUIS

Weather in the Twin Cities certainly took a change about this week as the thermometer has dipped below zero, and the temperature today is 14° below zero. North Dakota Operators are still having difficulty in getting out on their routes due to snow storms, and are unable to make their regular trips.

Frank Ray of the Dakota Amusement Company, Dickinson, North Dakota stopped off in Minneapolis for a few days to call on several distributors . . . Gabby Cluseau of Grand Rapids, Minnesota drove into Minneapolis from

the freezing North to warm up a little. Not much change in temperature . . . Carl Schumacher of St. Cloud, Minnesota also in Minneapolis on business . . . Charlie Sersen of St. Cloud, Minnesota also spent Monday, January 12th in Minneapolis.

Charlie Gumm of Bloomer, Wisconsin, former operator in that territory is again toying with the idea of going into the music business . . . Leo Zelinco of Lakefield, Minnesota, in town for a few days on business . . . Harold Lieberman, of the Acme Novelty Company, Minneapolis, Minnesota back, at his desk, after a two month vacation in Los Angeles, California . . . Bennie Friedman of the Silent Sales Company, Minneapolis, also in Minneapolis, left for Los Angeles with his wife, to spend several weeks there. (What Lucky People!).

Emil Siriani of Eau Claire, Wisconsin drove into Minneapolis Tuesday to take care of a little business . . . Lawrence E. Sieg of Augusta, Wisconsin, also in Minneapolis just for the day. Lawrence has really done a bang-up job since his discharge from the U.S. Army, and has upped his Phonograph Route from 12 pieces to 32 pieces, and is still expanding . . . We just heard that Jim Rooney of Chippewa Falls, Wisconsin slipped and broke his leg, but is coming along very nicely . . . M. A. Cayo, of Chippewa Falls, Wisconsin, in town with his son just for the day.

The Hy-G Music Company, distributors for the D. Gottlieb Company, announces that they have had the greatest sales in their history on the Humpty Dumpty Machine. A sample of the Lady Robin Hood is now on the floor and they expect it to outdo the Humpty Dumpty sales . . . Mr. and Mrs. Jack Harrison of Crosby, Minnesota was in town for a few days visiting relatives . . . We heard recently that Gil Hanson of St. Peter, Minnesota expects to sell his Appliance Store and spend all his time on his route.

Mrs. Birkemeyer of Litchfield, Minnesota, in town with a very nice Californian suntan . . . Morris Berger of the N. W. Sales Company, Duluth, Minnesota, in Minneapolis for the day on business . . . Mart Kallsen, of Worthington, Minnesota, in bed for several days with a very bad cold.

The coin machine fraternity proved a little optimistic in hoping that a full train of St. Louisan's would wend its way to Chicagoland this week, but anyhow there'll be a full car, reports Chairman Abe Jeffers who made the arrangements. Some rough and rugged cardplay is anticipated en route, with Abe himself gunning for a few ops who had Lady Luck with them last year.

We dropped in at Olive Novelty Company to find Ben Axelrod anxiously trying to find a new telephone girl and fill dozens of customers' orders at the same time. Olive made the mistake of putting out one of Gottlieb's new Lady Robin Hood games as a sample, and was immediately swamped with orders which Ben says will knock heck out of his promised 3-week delivery. Prominent on the Axelrod-Haneklau salesfloor were a bunch of pre-war games, tested and ready for the routes, which were selling off rapidly. "We'll be reconditioning Violano Virtuoso next!" Ben grinned.

Another secretary-less distributor is Del Veatch of VP Distributing Company, who is combing the bushes for a girl who can absorb the intricacies of coindom and run a typev riter as well. Del was anticipating a visit from Gordon Harley, of Williams Manufacturing, who was due to fly down Jan. 13th to talk over some new game test.

Visitors who started off the year with big orders here and there included Freddie Voucher, Festus, Mo, Freddie Weale from Farina, Illinois, and Leo Leiwicke from Washington, Mo. Also dropping in were Connie Confer from NBC Distributing, Lemay, Mo, Eddie Bogart from Mid Town Service, Lemay, and Curley Wells from Decatur, Illinois. Despite the usual gloomy outlook on operating costs, most ops appear ready to grab anything good in the pinball market.

Carl Trippe of Ideal Novelty has announced formation of a partnership with Dale Riemer of Missouri Tavern Supply down in Springfield, Mo. Dale is going to the CMI Show with his portly partner, to celebrate the affair.

After a year and a half of waiting, Illinois Amusement Company over in Belleville announces they've grabbed a new half-ton Chevvy pickup. "Another week, and we'd have been carrying phonographs on our backs" growled George Schmidt, major domo.

Jimmy Oppenlander, Ideal's topnotch bookkeeper, tried to keep his confining illness a secret — but it's out. Mumps!

A lot of St. Louis' front line coinmen are becoming photo-minded. Included are Bill Overbeck, whose flash camera goes everywhere with him, Carl Trippe with his movie equipment, and Joe Kelly, with "professional stuff" at every opportunity. The trio asked for and drew camera supplies for Christmas gifts.

One noticeable fact loomed up this week—everybody's junking all obsolete equipment built before the war.
