THE EGM DIFFERENCE

As I sit back on Halloween night to assemble my monthly collection of gaming thoughts, I can't help but look back and where we've been in the last year. Being the last issue of 1991, I've convinced myself that there would be no better place to catalogue the achievements that the video game hobby has made in the past twelve months. By the same token, I've also decided to share some of my personal observations related to where the industry seems to be heading in 1992.

First and foremost, 1991 saw the first real explosion of 16-Bit interest, spurred on largely by Nintendo and the long-awaited release of their Super Nintendo Entertainment System. Coinciding with this unveiling, Sega promptly dropped their price below the \$150 mark, while NEC chopped the price of the Turbo down to half of what it was when originally introduced.

The appearance of 16-Bitters on the scene, combined with a general lack of initiative by most 8-Bit licenseese, delivered the first nail in the coffin of the NES. Although there are still 30 million units in play, you can't help but wonder how many of the tried and true Nintendo users who had the cash and the broad interest in gaming to support the more obscure titles haven't already moved up to one 16-Bit system or the other. Sure, the NES still has plenty of life in it, but witness the actions of Nintendo themselves (releasing one game for the holiday season) and you only reinforce the idea that a handful of softs will continue to power the vast majority of the systems.

Last year also saw handheld gaming peak with the delivery of the Sega Game Gear. Now sharing shelf space with the likes of the Nintendo GameBoy and Atari Lynx, the variety of games and hardware configurations open to the player have never been greater.

We also got to meet some revolutionary game characters in 1991! Although we had all met Mario before, his latest adventure in 16-Bit provided a variety of all-new thrills. And don't forget Sonic the Hedgehog! His wayward manner and ultra-crisp graphics gave Sega the recognition that the company and its hardware have deserved for so long.

Where are we going in 1992 and beyond? CD games seem the natural progression, but not without some hitches. It's difficult for game companies to put the \$500,000 commitment behind a top quality CD-ROM or CD-I production (as opposed to \$100,000-\$150,000 for the average cartridge game) when the potential market is 1/100th the size the base of cart users. Price is also a factor, since most CD game players now range \$300.00 and up.

No matter what the new innovations are, or what the hot new character of 1992 may be, you can rest assured that EGM will be there covering it first! With a staff of avid game players, like you, we have the ability to spot the trends and hot new games of tomorrow, today. That's the EGM difference.

Street Fighter 2 is coming to the S-NES next summer!

(Ed. Well guys, there is good news all around! Capcom has confirmed that they are working on Street Fighter 2 for the Super NES. While a specific release date Shorewood, WI

This letter that I am enclosing comes from Sega and specifically states that the Genesis is not compatible with the Mega-CD. Can you check into this and tell all your read-

vour readers!

Sega's new Mega-CD is coming out in Japan in early December at a retail price of about \$370.

(Ed. Work continues on the tweaking of the software that will be built in to the Mega CD. For a detailed update of this super peripheral, be sure to check out our exclusive look at what is happening inside the top secret R & D labs of Sega of Japan. This is our Behind the Screens interview starting on page 115.

As to whether the Japanese and U.S. Mega CD-ROM units will be the same, officials at Sega still will not confirm or deny any system compatibility. We believe that, electronically, the systems will be the same but. since the U.S. unit doesn't exist vet in final form, there is no way to be 100% positive. Of course SOA will not admit that both CD-ROM units are the same because as soon as they do, players will buy the Japanese units and this is money that SOA will never see. If you really can't wait for the U.S. system. at least get a guarantee that if the systems are different, you can trade it in for a U.S. unit from the store you bought it from. Also remember that the CD unit is mechanical, and it, sooner or later, will need repair. Who will fix it? Not SOA.)

As for new games, Sega's first title (not Sim Earth) will be Woodstock: Funky Horror Band, It's another RPG. heavy in Japanese text. Earnest Evans still looks like the best CD to buy when the system comes out in December.)

STREET FIGHTER 2 FOR S-NES

My favorite arcade game is Capcom's Street Fighter 2. From what I see this is the hottest game in L.A. Can you tell me if there are any plans to bring it to a home system, and which system will it be?

Brad Laporte Los Angeles, CA

Your arcade coverage is starting to improve. You are reporting on coinops monthly rather than just whenever there is a show. Great job as nobody devotes enough space to the arcade games. What is this "official coverage" that you claimed to have in vour November issue?

Robert McMillon Denver, CO

Sushi-X talked about Street Fighter 2 coming to the Super Nintendo a couple of issues ago. Is this true, and when will it come out? Will there be a Street Fighter 3?

Sheldon Kohara Honokaa, HI

Hey, I've got a great idea. Your video game coverage is great as I like all the pictures you show. How about doing that for some of the hot arcade titles. How about a special section on Street Fighter 2 which shows all the special moves for each character? Then put in tips and strategies for beating the game.

Brian Bozarth Hockessin, DE isn't set vet. June 1992 has been mentioned. It will be a 2 player game and, depending on cost, there might be a special 6 button controller released for this super soft!

There will be a Street Fighter 3 but not for a while. The next martial arts game (at least for the Japanese market) coming from Capcom is Captain Commando. Terry Aki in Japan tells us that Capcom is working on new 32 bit arcade hardware and SF3 may be the first game for that system.

Also, make sure that you check out our new arcade section! We are working very close with the AAMA, and you will be seeing some very intense Arcade-Files in the coming months. We have upgraded our computer systems again, and we now can make maps and strategy guides of arcade games, just like we can with the video games!

What better game to start it off with than Street Fighter 2! We have 8 pages of all the moves and strategies to this awesome game!)

MEGA-CD UPDATE...

I like the way you have monthly updates on Sega's Mega-CD just as you did when the Super NES (Famicom) was being introduced. What is the latest info on this hot system? My biggest concern is if the Japanese unit will be the same as the U.S. system. I want to buy one in December but not if the U.S. one is different.

1992 AWARDS???

I wonder if you guys forgot something. Last year your 1991 Buyer's Guide came out as your October issue. I just got the October 1991 issue and there wasn't any mention of your yearly awards? Did you forget to do them? Or did you quit doing them because the companies gave you too much heat for the 'worst' awards? I hope not, as you guys do the only honest awards around. By the way, if you did do them, who won the best game and best system awards?

D.J. Thomas Houston, TX

Who won best game of 1991? Was it Nintendo's Super Mario 4 or Sega's Sonic the Hedgehog?

(Ed. Not to worry D.J.! This year we did something different. Because there were so many new games this holiday season we just didn't have the space in EGM (even at 250+ pages each) to slip in a buyer's guide. Instead, check the newsstands as the awards, fact-files and reviews are now in their own 'extra' issue. This way everything is expanded and covered in the detail that you would expect from EGM. As to who won the best game of the year, and the best system of the year.....They're either Nintendo or Seqa products.)

SLOW S-NES...

I am curious to know why Nintendo decided to put a slow processor in its S-NES. I would have thought that a lot less effort would have been needed had they based their system around an 80386 or 68000 series processor. I recently purchased the system and the game UN Squadron. The slowdown in the sprites was terrible. How can they fix what they have?

Doug Erickson Chehalis, WA (Ed. You're not the only one who is wondering what's going on. We are getting a lot of letters like yours questioning Nintendo's wisdom. Of course they will never admit there is a problem, and it may be something that game programmers will be able to work out once they become more familiar with the system.

As food for though though, the system was designed in Japan, and the typical Japanese player likes the RPG (Dragonquest, Final Fantasy etc.) game the best. The arcade type shooters, on the other hand, are way down on the popularity list. Could the player's preference have had any influence on the design of the machine?)

MONDU'S SLAUGHTER SPORT?

A couple of months ago I heard Mondu's Fight Palace by Activision was put on hold. Last month I saw an ad for Slaughter Sport by Razorsoft. This game sure looks like the old Mondu game. Is it?

> Mark Dormitorio Carson, CA

Mondu's Fight Palace (left) and Slaughter Sport (right).

(Ed. As you can see by the pictures, Slaughter Sport does have some things in common with the old Tongue of the Fatman/Mondu's Fight Palace from Activision. Razorsoft did go back in and make changes which affected the length of the game, number of moves and spells though.)

NEC NEWS...

I am a proud owner of the Turbo-Grafx 16 and over the past 6 months I have noticed that there has been a lot of talk about all of the other systems upgrading their products. Sega has their Mega-CD and Nintendo has their Super NES. Why isn't NEC doing anything to improve their system? While I am happy with what it can do now, I am concerned that the Turbo may be left in the dust next year. Is there anything new happening with the Turbo?

Tim Bassinger Boise, ID

(Ed. We have to admit that NEC of America has been rather quiet about the future while Japan seems to be getting all the new products. Word has leaked out though that next year they will bring out the Super System Card, Version 3.0 to upgrade the memory of their CD-ROM drive. Perhaps more importantly though, is the fact that NEC of Japan is making NID (their interactive CD with data compression) a reality! A working prototype was shown at the International Electronics Show in Tokyo. Expect U.S. NEC to start talking about this at the January CES.

The new Super System Card, Version 3.0 coming to the U.S. soon!

Super NES - Square Final Fantasy 2

Type:RPG Release: Nov. Levels: NA Difficulty:Hard

Fans of the original Final Fantasy will be pleased to know that the sequel is out for their Super NES. The King of Baron is ordering his minions to steal crystals from innocent people to use for his evil purposes. Take the part of Cecil, the commander of the Red Wings squadron and for justice against your evil King of Baron. The Kingdom of Baron is depending on Cecil to stoo the evil King.

Final Fantasy 2 can best be described in one word-epic! It's a well-known fact that I'm not into RPGs, but this earl has got something for awone. You get incredible animations, sizzling sound and music and a game that its so involved, so intense, it has to be experienced!

Square has just redefined what the ultimate RPG should be like. With spectacular Mode 7 elfects, outstanding graphics and a quest unequalled in a video game, the latest in the F series really makes use of all the Super NES has to offer. Easily the best made to date!

I'm not into RPGs on any system, but this one isn't that bad. The graphics are pretty cod, especially when you are flying over the land in your air-ship. The music is incredible and sounds like an orchestra is inside your SNES. If you like these type of games you'll like it, I'm not thrilled.

This is a totally awesome RPG. The storyline is actually coherent and the plot moves along with a dombination of speaking sequences and battles. Sure, therefa plent of the old build up your abulties and move up a level play, but within a framework like this, how can you go wrong! Tasty game!

Super NES - Nintendo SimCity

Type:RPG Release: Nov. Levels: NA Difficulty:Avg.

So you've wanted to build a city all your life, now is your chance with SimCity for the Supen NES. However, you don't just build the city, you also run it. Everything in town is at your disposal, but you must make sure everything is in working order. Build houses, power plants, and police departments, but watch out! King Koopa might stroll through town destroying everything in his path!

Sim City is an interesting game that takes a lot of planning and strategy to succeed an Like Testfs, Sim City requires forethought and the constant realization that one wrong step can spell catastrophe down the line. Not really my cup of tea, but an interesting change of pace.

No special effects here as this game is pure cerebral this a simulation, and what it sets out to de, it does perfectly. Every aspect of urbary planning is built in and the interaction between physical and cultural phenomena is straight out of the textbook. Nothing has been overlooked!

This is a great adaptation of the computer game. The graphics and sounds are clean and the game play is almost perfect. This game may not be as interse as other SNES titles but it does have interesting game play that will keep your attention for a long time.

Sim City is sure to keep older game players and those who are into advanced puzzles like the Rublik's Cube entertained for hours. Personally, I'd just as soon have salt rubbed in my eyes. This game is slow and tedious and you can't even nuke the city when you get bored! Jeez!

The game of the future is here today!

- High-speed futuristic action/adventure.
- Graphics with full 16-bit power.
- Stereo sound with fresh effects.

Hop in your boat and set sail for some serious fishing action. The Blue Marlin by Hot - B contains all the excitement of deep-sea fishing. Pick your lure and set the line. Struggle as you try to reel in an 800 pound blue marlin, or try for a white shark. There are many different fish and even more areas to fish from. Fans of deep-sea fishing will be pleased to know that The Blue Marlin is on its way.

This game, like its predecessor offers some of the most enjoyable fun you'll find on the NES. The game's not filled with wird graphic or intense action, but it does provide one of the most realistic aports simulations you can find in a video game. A challenging and addictive game!

This is a decent fishing simulation. Games have come a long ways since the older games where all you had to do is drop a line into the water and you'll catch anything. This version requires skill, patience and even a bit of luck if you want to eatch the trophy sized fish.

This is a fishing game for the NES. A pretty unique concept for a video game. The graphics are decent and the sound is average for an 8-Bit cart. The gamelley is very good, but I found that driving my coat around in circles find lish carr get repetitive. Great if you liked Black Bass.

While Blue Marlin isn't going to win any awards for being the most overwhelming game, it does manage to dish up enough of a good time to make it stand out from a crowd of me-too titles. Not for everyone, but Blue Marlin, like Black Bass, is addictive and fun.

Nintendo - Hi Tech Expression Tom & Jerry

Type:Action Release: Now Levels: NA Difficulty:Avg.

One of the original cartoon comedy teams, Tom and Jerry, now have their own game in which to live out their cat and mouse hijinks. You control Jerry as he searches for his nephew Tuffy. Tom has kidnapped Tuffy and locked him in the attic. Jerry must fight his way up to the attic and save his little nephew before Tom does something worse. Tom and Jerry has the fun of the cartoon in a video game!

I was deeply disappointed by this game. With the Tom and Jerry characters and their history of antics, you would think that a variety of great play mechanics would be created around their familiar storyline. Unfortunately, you get yet another scroller with little originality in play.

This is a fun cart to play. If you enjoyed the type of action found in Rescue Rangers then form and Jerry is right for you as this game combines the right bend of action and challenge. Good an-imations, decent game play and lots of fun for players of all ages.

I need a Geetar string! Sorry but this game just isn't complete without Jerry's uncle Pecos. Anyway, the graphics and sounds in this cart were only average in the cart were only average to over the game play is very good and offers some challenge. Nor an outstanding cart, but not that bad either.

What fun could have been had by Tom and Jerry. Instead of cool graphics and a variety of play techniques, this game offers up only a few original themes and incorporates them into game play that has been done over affe over again. This one falls way short in my book.

Nintendo - Ultra Pirates

Type: RPG Release: Nov. Levels: N/A Difficulty:Hard

Take to the high seas, matel Ultra's Pirates lets you become the swashbuckling captain of a pirate ship. Your mission has you looting towns and attacking other ships on your journey. You can explore many different towns to increase your booty. Cruise around the high seas looking for ships to loot as well as the towns. Ultra's Pirates lets anyone become a famous captain of a pirate ship. Ave Ave, Captain!

Although Pirates is daring enough to try new things with the NES, the lack of action and the repetitive nature that's found in most of the game play just slows down what could have otherwise been an enjoyable diversion. The whole package just comes apart in the end.

I can't get too excited about floating around, out on the sea. The ship to ship battles are OK but there just isn't enough action. It's a fair simulation however it moves too slow and it was hard to keep my interest. For military battle fane only. Too dry.

Pirates was a fun game to get into for awhile. The graphics are OK, and the sounds could be a little better. The concept behind the game is erignal and can be involving. The game gets repetitive after awhile and will only appeal to computer game players.

I'll admit that Pirates is not the type of game that I get into, but giving it credit, the game does take some unique play meditanics and roll them together inte a cohesive game. The action does get too repetitive, however, and overallamy feal excitement is seldom found.

Genesis - Ballistic Mike Ditka Power Football Type: Sports Release: Dec. Levels: NA Difficulty:Avg.

Mike Ditka Power Football is the latest in the Ballistic series of sports games. Mike Ditka employs some interesting features, like the perspective view down the field and an enlarged view of the players throughout the game. In Mike Ditka, you can choose from many different plays from the selection screen. After choosing your play, head onto the field for some rough and tumble football action, the Mike Ditka way.

Although this is a fine job of rendering the football field as well as developing the actual plays, the thing they forgot to do was include the game play. The overall execution of this game ties to mirror the stunning qualities of Madden, but unfortunately comes up for a loss in every dept.

Mike Ditka ought to review the products that he puts his name on. His football game is not the best Genesis can our there but it does have a good-variety of plays to choose from. The action just doesn't get as interes as the others and it's at best only average.

I think that Ditka is a great guy and a good license for a football game, but this is a sad riport of John Madden. This graphics are choppy and the music is repetitive and, annoying. There are anumber of different plays to choose from, but with Madden 92 coming out, save your pennies.

This game sure tries to look like another Genesis football game, but the game play is no where near the same league. Ditks Football has some nice looks but poverall the game controls, plays and interacts with such a painful level of inadequacy. Loouldn't even finish a game.

Genesis - Tengen RoadBlasters

Type:Driving Release: Nov. Levels: 50 Difficulty:Avg.

Take to the road in the most dangerous race known. Tengen's home version has all the features of the arcade original. The roads are dangerous, with mine fields buried in the roads, turrets shooting at you, and other cars out to get you. The only thing that can save you is the special weapons and the much needed fuel globes. The arcade classic is now brought home for all Genesis players to enjoy!

Road Blasters has finally appeared on several formats and although I don't like to make direct comparisons, this is clearly the best executed and most fun of all the versions. This game makes excellent use of the Genesis to produce dazzling graphics and a great game!

You can't go wrong with an arcade hit that looks and plays as good as this one does. The overall theme of the coin-op has been retained while adding some price visual touches that make the game stand out even more. Great challenge and or lot of interaction highlight this fine game.

Road Blasters is a cool game for the Genesis. The graphics and sounds are almost identical to the coin-op. The only complain! I have is that the game doesn't control as good as it should. The power ups are all there and they've even managed to squeeze in all 50 levels.

Road Blasters has always been a favorite of mine in the arcade, so after some trifly disappointing home versions I was very happy to see this game arriver. Not only are the graphics as smooth as they get on the Genesis, the play mechanics and overall execution were too notch!

Genesis - Sega Quackshot

Type:Action Release: Nov. Levels: 9+ Difficulty:Avg.

Donald Duck is in search of treasure once again, this time for King Garuzia's Great Duck treasure. Donald's journey leads him to nine different lands, with his mischievous cousins, Huey, Dewey, and Louie. You're equipped with a plunger pistol that will allow you to sneak past enemies with a single blast, or use the plungers to scale the walls. Saga has turned another cartoon favorite into an action packed game!

Quack Shot is the best of the Disney games so far, featuring not only the best all-around graphics, but also the best play technique! It's your standard side-spotler no be true, but there are so many more options available to Domaid-that this game simply rises above similar efforts.

Quack Shot is one spectacular game. It has the same great game play as the original Mickey and that was one hald ast to follow. Donald animates very well and the game doesn't get too difficult for the younger players. Great backgrounds!

I don't have anything against Donald, but Mickey's is just a much cooler hero. The graphics in this cart are very good, and the variety of the levels is also nice. The game play needs a little work as it tends to get repetitive after many levels. The music is kind of weak.

The only real problem I had with Quack Shot was the common nature of the game's goals which seldom change. The presentation is rendered nicely and the challenge, while a bit on the tame side, mover lets up to the point of becoming boring. Keep 'em comin' Segal

This is the year of Super NES. The year some of the best RPG players may go down in flames. Because this year

you will enter the world of Drakkhen.

You've confronted many monsters before. But never fire-breathing beasts of such scorching realism. Over 50 giants and winged beasts in spellbinding 3-D. You've journeyed in other mystical lands. But none with scrolling,

360° landscapes with panoramic views. Horizons change from day to night before your very eyes. In your quest to restore world peace,

you will learn many powerful spells. Prepare for battle by collecting weapons and magical objects. But nothing will prepare you for the special effects, the eye-popping

graphics, the stereo digital sound experience. Drakkhen. It's the Super NES game of the year. The role playing challenge of a lifetime.

TurboGrafx - NEC Raiden Trad

Type:Shooter Release: Nov. Levels: 8 Difficulty:Avg.

The Earth's defense forces are quickly being wiped off the face of the planet. Hop in your fighter and set out to save the Earth from total disaster. The alien forces are tough, but you have many different weapons at your disposal, including lasers, spread-missile launchers, and the super bombs. So get ready for action in NEC's first 6 meg card in Raiden Trad. The Earth is depending on you!

Shooters are my specialty and RaiDen is a winner. The Turbo version captures all of the frantic intensity of the coin-op, with close to perfect graphitis and game play. The selection of weapons is implemented well and the general-round progression is executed on target!

Raiden for the Turbo is one fine vertical scrolling shooter. The action gets intense after a few levels and will challenge even the best of players. Great power-ups and weapons make this an equal to the older Blazing Lazers.

One of the most intense arcade games ever made is now one of the most intense Turbo shockers. Same cool weapons, same vicious end bosses, and the same nonstop action that made the coin-op so good. The graphics are good, but the sound leaves a little to be desired

This is an all-out blast-a-thon where only one side survives. The sheer volume of tagers and will balanced selection or power-ups and end Bosses make Aaulon a classics candidate. The graphics and sound are both top north, and the game only wears thin after extended play.

Game Boy - Electronic Arts Jordan vs. Bird

Type:Sports Release: Nov. Levels: NA Difficulty:Avg.

Go one-on one with the NBA's top basketball players in Electronic Arts' Jordan vs. Bird. Choose to play as Michael Jordan or Larry Bird and go head-to-head in a grueling matchup or choose to enter the slam dunk competition and slam your way to the excitement of some real dunking action. For some half-court action on the small screen, tie those sneakers tight and get ready for some half-court basketball action!

This GameBoy sports title has possibilities, but never takes them anywhere. The graphics and sounds are strictly average and the overall appeal is further diminished due to a lack of real control of between the SameBoy pad and the on-screen players.

Jordon vs. Bird is not to be considered the best basketball game made for the GameBoy The action moves somewhat slow for GB standards and the computer opponent is slow but still unfair at times. This car will deliver some B-ball thrills to hardcore fan.

If you saw this cart, you wouldn't want to be like Mike. The graphics are slow and choppy and the game control is notresponsive enough for an intense game, and the sounds are only average. Having two superstar licensees on your sports game does not make it a winner.

Don't bother with this game unless you're really into basketball hardcore. The graphics, sounds and game play are all lacking in one important area or another and the general appeal of the game is so immed that even with head-to-head pray you feel like you're missing something.

Lynx - Atari Stun Runner

Type:Action Release: Nov. Levels: NA Difficulty:Avg.

Take the part of the Stun Runner on a mission like you've never seen before. The Lynx version has the same look and feel of the popular arcade version. Race your way through seemingly endless tunnels to reach your final objective. Scale the walls on high speed turns to keep your speed. Use your lasers to blast obstacles out of your path, but if you happen to miss your target, be thankful for shields.

This game is a very good translation of the coin-op with many of the update problems that plit gued Hard Drivin' now personed. The action and overall theme is not that exciting, however, and despite some truly incredible small screen graphics, I lost interest in Stun Runner fast.

Stun Runner is a good rendition of a futuristic type driving game. The countdown tiner adds ofallenge as does all of the enemy craft that appear in your wey. There certainly are enough levels but the difficulty doesn't substantially increase as you get deeper into the game.

Stun Runner is one of my favorite arcade games and now it's one of my favorite Lynx games. Cool scaling and ultra fast game play makes this one of the most intense carts for the Lynx Excellent digitized voices semplement this already superior game.

If you're into the wicked visual style and action of the arcade Stun Runner, then the Lynx won't disappoint. It's as close as you can get, although there are some areas that don't come off autit as well. If flying down a tube and wasting opponents turns you on, look no further.

GAMING GOSSIP

...Update on Sonic the Hedgehog 2...Contra 4 Preview...Batman 2 on 16-Bit...Lynx Upgrades to Jaguar... ...Sony Begins CD Development...Nintendo 8-Bit Tape Driver...Super NES Delays...

...Get ready for light speed all you little Quartermaniacs! The Q-Mann has returned with two scoops of the hottest gossip from behind developer lines. Try to keep control of your joysticks, kiddies, because this time I've got some real treats in store for all my faithful gaming gurus...The Q-Meister has just obtained some super secret info on the hush-hush sequel to Sega's mega-hit. Sonic the Hedgehog! Sonic the Hedgehog 2, rumored to be sub-titled Escape From Ring Zone, will hit mid-summer as a totally blown-out CD-ROM extravaganza! Sonic loses his cool in a variety of worlds filled with rotation! Our renegade anti-hero even scales the second time out, thanks to the advanced processors employed by the Mega CD-ROM. In certain parts of the game, Sonic will grow in size as he collects special objects! Can't wait to do the Mega Sonic Smash!...In other Mega CD news, Sega is rumored to be readying several of their all-time classics for a compilation disc of the ten best Genesis titles ever made! No details on price, but you can expect to see the disc appear around the same time the machine hits next year...

...Rumors are flying that Sony is getting ready to duke it out with Nintendo over the big N's decision to skip the Sony shop and fly into the CD-I format with competitor Phillips. Although the Play Station has yet to see the light of day, both Sony and Phillips recently unveiled their own CD-I formats in Japan and the U.S. The jury's still out on the Sony unit, but the Phillips driver, which hit with a handful of game titles, is finding few players because of its high price tag! Sorry Sony, but the Q-Mann thinks you scored a direct hit by going solo!...Don't worry guys, Martin's going for the pizza in Vegas! Keep the fish outta my pie!...In the latest of Quartermann's Jaguar coups, yours truly has learned that Atari's super 64-Bit system of tomorrow will reportedly be able to perform yet another stunning feat! With the help of a special adapter, the Jaguar will let Lynx owners play their hand-held softs on the big screen! This is going to be great when Atari finally decides to release their latest super charged console...

...In hot game news, the Quartermann has managed to get the straight scoop on a number of super secret projects now in the works! Among the super softs you'll be playing in the months to come include Contra 4 for the Super NES, the 16-Bit update to the all-out champ of shoot-em-out combat! Also on the Super NES schedule is Batman-Return of the Joker from Sunsoft! Set to go head-to-head with Konami and Sega for 16-Bit Batman battles, the dark knight veterans have some special surprises in store for Super NES owners...Now the big news on the Sega 16-Bit front is a great new game that you'll never see called Uncle Al's Bigtop Fun! The latest gaming super hero, Uncle Al uses his super powers to smash little men with bow ties into oblivion! A great showpiece from VaporWare!...Don't hold your breath, more Super NES titles are being delayed...

...New hardware in development behind closed doors includes the long-awaited 8-Bit upgrade for the NES! Instead of a CD storage device, however, the developers have chosen audio tape - with games coming round by round from your tape player to the game system! This is an idea that's too wild, too cool and way too late...Another peripheral upgrade comes from the import market, where a special Game Gear/Master System translator cartridge has appeared from the Frenchies! Plug the translator into your Game Gear and plug your Master System carts into the buffer for some way-out 8-Bit fury! The Quartermann gives a big thumbs up to the idea of a convertor and a big thumbs down to Sega for not bringing it out themselves...Back to the home front, the Q-Minator has learned of a special add-on that will speed your Super NES along at a zippy 33 MHz (up from the super slow 3.58MHz). While this device has yet to be seen in action, those in the know have told Quartermann that the artificial slow-mo that fills games like Super R-Type disappears when this powerful peripheral is put into action. More to come...

...Other news to use comes from NEC, who have a secret plan up their sleeve to convert you to the Turbo...Get set for a jammin' variety of movies to games next summer! Among the future hits now in development are Lethal Weapon 3, Robocop 3 and even possibly an Aliens title! Can't wait, 'till next time I remain...

SONY UNVEILS PLAY STATION TECHNOLOGY AT INTERNATIONAL ELECTRONICS SHOW

Sony of Japan has just introduced their new CD-ROM drive at the 1991 International Electronics Show. This trade show was held in Tokyo during the first week of October. Set up much like our Consumer Electronics Show, this is the time when all of the manufacturers of electronic products in Japan have the chance to demonstrate the newest advances in technology.

One area which received considerable attention from the majority of the major hardware companies is the development of new video storage and retrieval devices.

Sony, in particular, unveiled an early version of the technology which will be incorporated into their CD-ROM drive. Officially called the Play Station, this CD-ROM system will ultimately be combined with Nintendo's Super Famicom for use in the home. Sony envisions that this combination, while opening up the doors for companies to create software for an ultimate game system, will have other broader uses which are best called multi-media. Up till now the video game format was limited to just simple games due to cartridge memory (12

The first batch of CD software will be educational related rather than entertainment based.

megabit), but with the CD's huge capacity (4,000+ memory megabit), massive amounts of text can be stored on a CD. For example Sony states that all 26 volumes (32,000 entries) of the Compton's Family Encyclopedia will fit on one CD! Other discs that Sony plans on bringing out include the Software Toolworks World Atlas, Microsoft's Bookshelf 1991 edition (a dictionary, thesaurus, world almanac and book of facts), languages of the world, National Geographic's Mammals of the World, Mixed-Up Mother Goose and a music sampler. There also will be games. however specific titles were not announced at the show. Sony is now signing up companies to prepare new software for it's upcoming Play Station.

As to specifications on the Play Station CD-ROM, the information is slowly trickling in from our sources in Japan. As best as we can tell, the Play Station CD-ROM will not have the advanced biaxial rotation and scaling features as found on Sega's Mega CD-ROM, rather it will be configured more on the lines of a dependable mass storage device. It is quick, clocking in at a minuscule 1/3 of a second!

We thought the Sega unit was fast, but that now is a 'slow' 1 second. As to memory buffer size, Sony is currently listing theirs at only 64 kbits. We believe, however, that before they put their system into production, this number will be increased to the 2 - 4 megabit range.

On the down side Sony does have to solve the problem of not having the software support from Nintendo

and many of its licensees, but they will have the advantage of getting their Super NES compatible CD-

MAJOR HARDWARE MANUFACTURERS SHOW NEW CD-I COMPATIBLE MACHINES

Besides Sony, there were several other companies which had prototype CD-ROM hardware in various stages of development at the International Electronics Show in Tokyo. Of those which had units on display, almost all of the companies have chosen to adopt the CD-I format as the standard, and at least for the present,

this Interactive format seems to be the one which has the best chance to be the world standard for video media storage.

Phillips, the company which developed the CD-I format, was there with it's model CDI-910. This is the unit which currently is in production here in the states.

The CDI-910, and all of the other units which will be CD-I compatible, will be able to play all 3" and 5", CD-Audio discs, CD+Graphics discs and visuals, Photo CD discs (Kodak) and CD-ROM-XA "bridge" discs. The latter format is the one which will 'cross over' into the video game media and the one which Nintendo has announced that they will use to develop their CD-I video games. Besides by being able to play all of the current audio CD formats and sizes, the

Note the PC Engine controller in the new NEC CD-ROM unit.

NEC surprised the industry with a working prototype of their new data compression CD technology.

CDI-910 does come with enough built in memory to efficiently handle any software currently in existence or in development. On board the system there is 8 megabits of RAM plus 64 kbits of non-volatile RAM. This is in addition to 4 megabits of built-in ROM!

With specs like these it isn't too surprising that major electronic companies like Panasonic, Sanyo and Victor (JVC) have decided to back the CD-I format. Both Sanyo and Panasonic had prototype systems under glass at the show. To further advance the new CD-I format, a consortium of software developers has already organized to promote the new media.

On the software side, there are a few discs already out in the stores although none are video game oriented entertainment discs. Treasures of the Smithsonian, A Visit to Sesame Street, ABC Sports Golf,

Cartoon Jukebox and Time Life Photography are a few of the currently available discs. Nintendo intends to bring to the CD-I format discs which will utilize the popular video game characters - Mario and Zelda. Golgo 13 is another title that is to be converted and enhanced to the CD-I format

CD-I aside, one of the big surprises of the show was a new

working CD-ROM technology by NEC. Tentatively called CD-ROM Multi Media Player, (MMP-1) this system was not compatible with CD-I, or any other known CD format, however, it is a working version of the NID (New Interactive Display) technology that NEC showed at the Summer CES. To this end NEC has decided

to continue with digital data compression in order to pack even more data on to the standard 5" CD disc. This NEC feels is necessary as their multi-media goal is to have full motion video rather than just still

frames. With

Both Sanyo (left) and Panasonic (right) had CD-I units on display.

their data compression, NEC can pack in 60 minutes of broadcast quality full motion video rather than just a few seconds without data compression. The NEC unit was fully operational, and an RPG was playable as the MMP-1 has an input port for the PC Engine controller.

Some of the new CD-I titles planned include a visual history of F-1 racing, a tour guide of Hawaii, Golgo 13 and a video Mahjong disk.

Real Pilots Don't Just Play F-15 Strike Eagle, They Help Design It

Meet "Major Wild Bill" Stealey:

"Life for a fighter pilot is that gut-wrenching adrenalin rush you get when going supersonic with heat-seeking missiles hot on your tail, pulling into a hard turn while warning displays light up the cockpit — and as an Air Force Academy grad with over 4,000 hours of military flight, lought to know Heal pilots know that feeling, and real pilots also know that F-15 Strike Eagle is the only NES™ game to deliver the authentic doglighting experience, because F-15 is designed by real pilots, and real military simulation experts. Find out for yourself. Play F-15 Strike Eagle and see what real dogfighting is all about."

Football so real, it even comes with a mouthpiece.

Any video game can give you a taste of real football. But only one serves up a whole mouthful. New, Joe Montana II Sportstalk Football™ from Sega Genesis.™ The first sports video game with an ongoing play by play announcer's voice.

Now you can get complete cover-"Dumped at the twenty." "Signals for

age of all the hard-hitting action. Instantly. Just like real, professional football on TV. "The blitz is on." the fair catch." Our man behind the microphone tells you when the second-

ary is closing in, where a receiver's open, when there's a man in motion. And delivers a truckload of halftime recaps and stats.

And like real football on TV, you get the big picture, too. During a play, the game automatically zooms into a dazzling close-up. You see every diving catch, pulverizing tackle and explosive charge up the middle. You even get instant replays.

Battle your way through a 28 team league to the championship. Play on the same side as your buddy-

you're the quarterback, he's the receiver. Call your strategy with over 50 plays—in snow or rain. On grass or artificial turf. You get all the excitement, all the bone jarring intensity of the game itself. Plus a whole lot more.

So remember, if you want real football action, the name of the game is Joe Montana II Sportstalk Football: Anything else is all talk.

Capcom / GameBoy ROCKMAN WORLD 2

While in Japan last September, our editors spotted Capcom's newest Game Boy soft. Change the name from Rockman to Mega Man and you have the Capcom US Spring release! This scaled down version of Rockman 2 contains four of Dr. Wily's robots, Clashman, Airman, Woodman, and Metalman. Just like in the previous games, whenever you defeat an end boss you will obtain his power-up abilities! You can still get assistance from Rush, and Rockman even has the slide move in this excellent translation of the original, scaled down for the GameBoy!

The world of the Airman is a deadly battle in the skies!

Sega / Mega CD-ROM **WOODSTOCK: FUNKY ROCKY HORROR BAND**

Sega's heavy duty RPG's - Dark Wizard and Three Eves won't be ready till next year. What players will get from them in December is a cute RPG where an alien rock and roll band crash lands on Earth. They can't leave until they find all 6 of their band instruments. Music is the key in this game as the type and length of tune you play determines how strong your magic is.

Oh, Oh...Captain, there's a guidance system malfunction!

THE CAST OF CHARACTERS:

We've crashed! Where are we? What planet are we on?

Captain, we can fix our ship but we have to find our band instruments before we are able to take off. They must be somewhere on this planet!

Some of the people of Earth will help the aliens in their auest to find their lost instruments.

The Future's A Blast!

It's the year 2029 and humanity faces certain extinction! An alien force led by their Supreme Commander Vile Malmort is positioned to destroy the Earth.

The President has little time to act. He assembles the greatest scientists from around the globe to stop this menace. From their laboratory came mankind's last hope- the members of S.C.A.T.

The Special Cybernetic Attack Team has one goal; the utter destruction of the alien fleet. "They've sent an armada to conquer us. We've sent two warriors from S.C.A.T... It should be a fair fight."

Konami /Super Famicom AXELAY

Another 'secret project' we ran across in Japan was a new super shooter from the experts at Konami. This one is going to make up for all that was lacking in Gradius 3 as it contains even more intense shooting action. Expect to see the very best the Super Famicom can do as now the programmers have had time to figure out the system! The game was in a very preliminary alpha version but what we saw was equal to an arcade machine. The power ups are designed like those in the Gradius series but the weapons are all new and much more powerful. The backgrounds are unbelievably detailed and even exceed those found in Super R-Type. The end bosses are full screen and even when the action gets intense there is not a trace of flicker. The U.S. Konami has not decided whether this shooter will appear on these shores, but we hope they take a long hard look at the ultimate in shooters!

PICK YOUR PATH THROUGH THE PLANETS

2 PLAYER OPTION

"So you're the new hot shot pilot for the Galactic Federation, aye? Well lend an ear rookie and learn a few things from a veteran galactic gunner.

First of all, those Silver Hawk warships you'll be flying aren't toys. They are sleek shifty, state of the art battle cruisers with a load of firepower. You'll need every bit of it too! That evil tyrant, Belser, and his metal monster spacecrafts, will fire weapons you've never seen before. And if your maneuvers are any slower than light-speed, you'll be nothin' but space sparks.

Our only chance to save the planet Darius and restore order in the galaxy, is by keeping

our pilots alive. I've seen plenty of good pilots go by the wayside because they hit the panic button as soon as they got a glimpse of those oversized monster ships. In other words, keep your composure kid. It's also a darn good idea to fly your missions with a good buddy. After all, any good pilot can use a

trusty wingman.

SUPER NINTENDO

it sounds like they're calling your number. I hope we get a chance to talk again. Good luck, rookie!"

NEC Avenue/PC Engine SPACE FANTASY ZONE

What do you get when you combine the cuteness of the little Opa-Opa from Fantasy Zone with the spectacular first person type perspective action/shooter Space Harrier? NEC Avenue (the branch of NEC which is responsible for doing the 'translations' from other systems to the PC Engine) is showing us a new version of Fantasy Zone which is exciting and very challenging. Spectacular backgrounds and explosive action help make this a must have game for all who want to put their lightning-guick reflexes to a test. The Buy Shop (Weponalds - a spoof on McDonalds) is more of the cuteness that NEC Avenue is known for! Of special importance are the huge bosses that

don't seem to die very easily.

AYRTON SENNA'S SUPER MONACO GP 2

EGM has just learned from its sources that Sega recently hired the 1991 world champion Formula One race driver - Mr. Ayrton Senna as the development supervisor for Sega's newest racing game - Ayrton Senna's Super Monaco GP 2.

This new super simulation will be programmed for the Genesis, Sega Master System 2, Game Gear and Mega Drive game systems. The 16 bit versions and the Master System cart will be released in March 1992. The Game Gear version will come out in July 1992.

Here's the scoop. The 16 bit version will be 8 meg plus a battery. The Master System and Game Gear versions will be 2 megabit carts. The 16 courses in the 1991 F1 GP Series will be programmed in as will a few extra courses designed by Mr. Senna himself. The battery backup will allow the player to save their best records and positions in various races for continuation of play at a later point in time. More next issue!

LEMMINGS Sunsoft/SuperNES

Take a bunch of mindless rodents, give them a bunch of tools for survival and what do you get? Lemmings! This cute game involves little rodents with green hair that can't survive without your help. You must protect the lemmings by leading them away from the danger and by using the icons at the bottom of the screen to have the lemmings perform different functions such as digging, building, climbing, and others. Having trouble? Just nuke them all!

Lead the lemmings through 125 levels of pure insanity! Don't let them fall through the floor or drown in the water! You need a specific percentage of lemmings to make it to their home or you won't be able to continue to the next level. Their survival depends on you!

SUPER OFF ROAD

Tradewest/Super NES

Drive in one of the toughest races you will ever experience! Super Off Road will test your driving skills with some of the nastiest bad boys to ever drive a 4 x 4 truck. Wind through bumpy mud tracks in a road race to the finish. Collect Nitros to boost your power and put you ahead of your opponents. When you win a race you can increase your top speed, get better tires, buy more Nitros and many other parts so you can win the next race with ease. The more races you win, the more credits you get toward purchases that will increase the power of your truck. Try to get either first, second, or third place or you will not qualify for the next races. It's racing action at its best, so gear up for the long haulf Just like the great arcade version!

As you race, try to lap the other players. Use your Nitros wisely, as they can only be used once.

PAPERBOY 2

Software Toolworks/Super NES

Paperboy is back and this time he has even more obstacles to deal with. These include haunted houses with gargoyles that shoot at you, forts that shoot cannons, baby carriages, tire rolling men, and plenty of other humorous displays. You can choose to be a paperboy or a papergirl. Deliver the papers to the people on your route and be a menace to the people who are non-subscribers. Get big points for throwing the papers in the mailboxes. You also get points for breaking windows and hitting people who get in your way. Make sure that you deliver papers to the subscribers on your route or you will take the risk of getting fired! Try not to crash too many times because that will also get you canned. Avoid your obstacles and make it through the week to advance to other streets.

Do you really want to hit that car? The guy underneath it wouldn't appreciate it very much!

Expect more challenges and more variety, with left and right sidewalks in this version. Go through a massive obstacle course in order to make your way through the neighborhood.

WORLD LEAGUE SOCCER

Software Toolworks/Super NES

He kicks and he scores! A soccer game has made its way on to the Super NES. Choose your team from the list of countries and then go at it with some of the best players you will ever come across. Watch your goalie as he dives for the ball and listen to the crowd roar as you cause a foul by tripping another player. Watch the map in the corner of your screen to see where the ball, players, and goals are so you can be sure to be on top of the ball at all times. Play exhibition games or go for the tournaments and play against the best of the best. Great challenge awaits you, so get your gear together and go for the goal!

Fouling the other team will give them the ball, so stay close to your opponents, but try not to trip them. Great overhead views put you in the middle of the action!

TERMINATOR 2 JUDGMENT DAY BROCKBUSTER MOVIE!

YOU'LL BE BRCK!

It is the future and THEY have won. Now it's up to you to save mankind either on your NES or Game Boy systems.

Led by the computer cunning of Sky-Net, the Cyberdyne network of Terminators has spread across the world, laying waste to the planet and the people that opposed it. Only through the leadership of one brave rebel.

John Connor, will mankind become victorious in combat and topple the machines. As Sky-Net collapses, they send a new Terminator, a T-1000, made of liquid metal, back in time to eliminate a young John Connor before Sky-

Net computers are even invented. If the Terminators succeed in stopping John Connor, in the present or the future, the

machines will reign supreme. Based on the blockbuster

movie, Terminator 2™: Judgment Day® from LJN brings all

of the incredible sights and sounds to your NES and puts you in control. Fighting against the robots in the future wasteland, you control the T-800 on its guest to stop the T-1000 and save John Connor. Combining state-of-the-art graphics with an intense array of weapons and action. Terminator 2: Judgment Day captures the excitement of the movie and lets you determine the future of mankind!

SAVE MANKIND!

Take control of the blockbuster movie of the year! Start the game as John Connor; your mission: break into the Cyberdyne labs and steal a Cyberdyne Model 800 Terminator. Reprogram the T-800 and send it back in time to save yourself from the nearly indestructible T-1000, a liquid metal monster bent on destroying the future of mankind. After saving John from a truck driven by the T-1000, you need to rescue John's mother, Sarah, from a psychiatric facility nearby. Then, when the gang's all together again, make plans to destroy the Cyderdyne research labs! With any

luck, the Terminators will

cease to exist, and the world

will be safe for mankind once

In order to pass the Skynet defenses, you need to destroy the shield power generators. These generators must be destroyed in the correct order or the reactor core will undergo a massive meltdown. Go from largest to smallest, as shown in the map above and below.

Of course, no maniacal entity would leave its facilities unguarded! The Skynet computer has posted hundreds of Cyberdyne T-101 cyborgs to stop you from getting to the main lab. Inside, you may find a T-800 and reprogram it to protect John Connor in the past. Good Luck!

THE ROCKETEER IGS/Super NES

From the silver screen to the small screen and to your Super NES, the Rocketeer is coming! Play the role of the Rocketeer in this game of action and

suspense as you fly against airplanes, have a shooting match in a hangar, avoid men with parachutes, and much more. Your girlfriend is depending on you.

MOTOR CITY PATROL

Matchbox/Nintendo

Crime is growing in the city. Hardened and dangerous criminals are running rampant. Robbers and speeders are all over the city and it seems like nothing will stop them from breaking the law. It's time to call in the Motor City Patrol. Get in your squad car and hit the streets because you have got a quota to meet. Stop the speeders from causing havoc all over the city. Pull them over and get points to meet your quota. The criminals are driving red cars, so be sure to turn on your siren and pull them over before they escape the city. The more criminals that escape, the more demerits you will get and the more chance you have of getting fired!

Patrol the city and search for lawbreakers. Each day you will have a quota that you will have to meet. If you catch a large number of criminals, you will get credits that will allow you to make enhancements to your police car.

THE NEWEST EXCITING CHALLENGES!

THE BATTLE OF MIGHT AND MAGIC OVER A DOOMED WORLD

The peaceful kingdom of Baljing has fallen into the hands of the dark sorcerer, Zabbaong. The people cry in despair and cringe in fear of Zabbaong's foul forces. However, a valiant hero has been summoned by Baljing's protector, the Dragon Spirit, to do battle with Zabbaong and his armies. This mighty warrior, with the ability to change into a dragon and battle the enemy forces from the air, must overcome the wicked warlock and his horrendous hordes and bring peace once again to this oppressed land. The journey is fraught with peril....the path packed with danger. Only a warrior of uncommon bravery and resourcefulness will overcome Zabbaong and his foul minions. Only one, such as....the Dragon Fighter!

The classic fairy tale is back....with all new enchantment and a new twistfill.

Snow White's beloved prince has been captured by the evil Lord Maliss, the evil brother of Snow White's equally evil stepmother, the wicked queen. Helping Snow White rescue the prince are the magical Seven Dwarfelles, the female cousins of the original Seven Dwarfelles, the female cousins of the original Seven Dwares. Guide Snow White along her perilous journey through Lord Maliss' sinister kingdom to save the prince as he once saved her. Turn about is fair play....and FUN play!

The Story

The year is 1999. Strange phenomena began to take place on the surface of the earth. Earthquakes and volcanic eruptions became rampant, altering the ecological balance of the planet. Scientists of the world were summoned to discuss the possible reasons and repercussions if such phenomena were to continue. It was decided to mobilize a team of scientists and experts to explore the causes of the phenomena. The Marine Corp was recruited to provide the crew, and an underground Vector Zilus Research, the VZR, otherwise known as the "Wurm."

TOP SECRET VIDEO GAME TRICKS, CODES AND STRAVEGIES

SUPER R-TYPE

(Irem/Super NES)

Weapon Select & Full Power-Up - With this awesome trick you can fully power-up the weapon of your choice complete with droid and two bits! Begin this trick at the title screen by pressing DOWN, R, RIGHT, DOWN, RIGHT, RIGHT, DOWN, RIGHT, DOWN, DOWN. You will hear a noise like the start chime, then press START to begin the game. After the game has started, pause it, and hit

R, RIGHT, DOWN, Y, DOWN, RIGHT, DOWN, LEFT, RIGHT, DOWN, RIGHT, RIGHT, and then press the buttons for the laser & missile of your choice. You MUST select a laser FIRST, AND THEN a missile. After you have done this, unpause and take out the enemy! You can use this trick with every new life! (You can also use this trick with the level select printed in EGM #28.)

TOEJAM AND EARL

(Sega/Genesis)

Hidden Level - In Toejam and Earl, it is possible to get to an island with pretty hula girls inviting you in for a hot bath, and a lemonade stand to provide you with an extra life! To do it, get to the bottom, left of the island, activate either the lcarus Wings, or the Inner Tube to get over the water. Then go through (or over) the water and you'll find a hidden island. Fall through the hole in the center of the island, and you'll be in the Hidden level.

Here is the power-up island. This will help you on your quest.

JAPOR JRAIL

That's All Your Enemies Will See.

It's 1999. A terrorist group called DAGGER is holding the entire planet hostage, under threat of using nuclear bombs to destroy the world's great cities. Your elite Special Forces air unit,

There is a

Zip past the multiple levels of Marvel Land with this trick!

MARVEL LAND

(Sega/Genesis) Stage Select - To blow your way through the multiple levels of Marvel Land, try these secret codes! When in Normal Mode, simply enter the password screen and use the code ARDE. If you want to play in the Digest Mode you should input the code GIL AND KI. Once this is done you will be transported to a level select screen where you are offered the round of your choice!

> Jacob Rohrer Stockton, CA

SUPER MARIO WORLD

(Nintendo/Super NES) Change The Music - It is possible to change the music when you reach the "SPECIAL" screen show above! To do this vou must first get to the special screen and, instead of going into a world, simply let the music play out. After waiting for a few minutes. vou'll notice that the tune changes! See if you can quess what familiar music that starts playing on the SPECIAL screen.

Return of the Swordsman

(Nintendo/Super NES)

Start off with a fresh new game.

Next, pick out your land for expansion.

After you let go of the LEFT button - WHOAH!

Before you let go of the LEFT button. . .

Start laying down all those fire and police stations and railroad tracks.

Hang loose until
December comes
with your tax report.

LEFT button exit the tax report screen and then reenter it.

Change all the payrolls to 100%, then exit.

EVER PLAYED A PREHISTORIC PINBALL GAME?

idn't think so. That's why Dinoland is such a crazy, zany game! Join DINO-Bunz and his friends on a wild, prehistoric adventure — pinball style! DINO's heroic adventures begin when he must protect his sweetheart, Meeshell, from gigantic, vicious and carnivorous dinosaurs. Not to mention those flying pterodactyl beasties! Dinoland is simple to play, yet filled with lots of pinball action and great scenery. If you're a dinosaur lover, then Dinoland will amuse you. If you're a pinball lover, then you'll flip over it.

BEHIND THE SCREENS AT SEGA OF JAPAN

"THE MAKING OF MEGA-CD GAMES" - PART 2

The Sega Mega CD-ROM is perhaps the most technically advanced system to come out in years. Although it was formally introduced in June, there still is a lot of mystery surrounding this phenomenal peripheral, it's capabilities and the software that will be coming out for it. To get the whole story, EGM has contacted the key people in the world - the ones who would know the inside story on the Mega CD-ROM. To bring you up to date:

Last month we interviewed the developers and programmers at Micronet - one of Sega's Mega CD licensees.

This month it's the main person at Sega of Japan who was instrumental in the actual development of the Mega CD-ROM.

And look for the third in the series, coming in the February issue, - an interview with the people at Sega of America who will be responsible for the systems that you and I will play!

SEGA OF JAPAN
While in Tokyo, the editors of EGM

Mr. Tomio Takami, Manager, Consumer Products Research and Development Labs, and a preproduction sample of the Mega CD-ROM.

contacted Sega of Japan hoping to be able to ask a few questions about their new CD-ROM. As luck would have it, we not only were able to get our questions answered, but we also were

allowed to have an exclusive interview with the key person - Mr. Tomio Takami, responsible for the creation and development of the Mega CD-ROM. In addition, Sega of Japan granted us a sneak peek at what is going on in the main Research and Development lab at Sega!

MEGA CD-ROM

Mr. Takami states that work first began on the Mega CD-ROM almost two years ago. At that time the goal was to produce a unit that was equal in performance to the PC Engine CD-ROM and sell for about 20,000 ¥ (\$150). Price was to be a major factor and, also, since the PC Engine CD-ROM had only 0.5 Megabit of memory, a Sega CD-ROM with 1 Megabit could be produced at that price. However, after learning more about the PC Engine CD-ROM

the Sega engineers noticed that there were faults with that system.

Access time was quite slow and because the internal memory was small, the CD-ROM had to load in more data about every minute. This was a problem that had to be fixed in Seqa's unit.

The second improvement that

Sega wanted to make was to add hardware scaling and rotation as this was a desirable function found on their arcade games but lacking on their Mega Drive. This would involve adding another chip and also increase the cost of production. Still, it was a feature that had to go in in order to keep their system as technologically advanced as possible.

However, even with another chip set to do the massive amounts of extra scaling and rotation calculations, the main Mega Drive CPU was slowing down. This led to the addition of a separate CPU in the CD-ROM to allow the combo unit to do two things at once. Since they had to add another processor, Sega opted for a new state-of-the-art 68000 chip that would run at a speedy 12.5 MHz.

With the unit nearing completion, Sega learned that NEC/Hudson was working on a memory upgrade to their CD-ROM. Hearing that the new memory was to be in the 2 to 4 Megabit range for the PC Engine upgrade, Sega decided to increase theirs to 6 megabit.

With all the changes, it was no surprise that the price was far from the original \$150. Now it was closer to \$370. After doing some market research Sega learned that while the game players considered \$370 to be a lot of money, the majority of the serious players would still buy the CD-ROM because of the added features.

MEGA-CD SOFTWARE

No matter how technologically advanced a system may be, without good software to back it up, the

Sega's first CD-ROM game: Woodstock - Funky Horror Band, is a quest/RPG game.

system will not sell. This is especially important in Sega's case Mr. Takami states, because of the high price of the new system. Unfortu-

Sega's second title, another RPG, will be 3 x 3 Eyes.

nately, because the system is coming out so soon, the game developers and programmers haven't had sufficient time to learn the new system. Fortunately RPG's are the most popular games in Japan and they do not require a lot of special effects to make a good game. The main problem is time, as CD software requires considerably more effort than a normal cartridge based game. Mr. Takami states that Sega's third RPG title - Dark Wizard has an in-house staff of 10 people not including the animators, voice actors and musicians. Even then, it will take 1 1/2 years to do the game. In contrast, Phantasy Star 3 took a smaller staff only 10 months to finish.

Besides Sega there are about 40 companies which have signed up to do Mega CD-ROM software. These include Namco, Taito, Sunsoft, Game Arts, Treco, JVC and Koei. Since the CD-ROM format is considered by Nintendo as a noncompetitive system, Nintendo licensees like Koei, are able to make Mega CD-ROM games.

Besides Sega's Woodstock: Funky Horror Band, five other CD games will be coming out in December when the system gets to the stores. They include Earnest Evans (action) by Wolf Team, Lunar (RPG) by Game Arts, Nostalgia (mystery) by Sur de Wave, Heavy Nova (action) by Micronet and a Nobunaga war simulation by Game Arts.

As the programmers become familiar with the new system then

more ambitious efforts including some of Sega's arcade titles will start to appear. Sega has Power Drift scheduled for a CD release in April or May and Sonic the Hedgehog 2 for some time later in 1992. JVC plans to enhance Prince of Persia and this cart is scheduled for release in spring.

As to game prices, Mr. Takami says that the cost of making the CD is somewhat lower than a cartridge but the cost of development and programming is much higher. He does not believe that the new CD softs will be significantly cheaper than the current price of

The arcade classic - Power Drift will be coming to the Mega CD-ROM system in late spring.

cartridge based games.

Even with it's lofty price tag, Sega's Mega CD-ROM is a good example of what a company can do given enough time and technology. The Mega CD goes beyond just being another peripheral. When added to the game system it not only expands the memory capability, but it dramatically improves the overall performance of the Mega Drive/Genesis. This is going to be one hot machine when it makes its appearance in the U.S. next year!

Heavy Nova by Micronet will be one of the first action games out for the Mega CD-ROM.

TIPS FOR STREET FIGHTERS IN TRAINING

- 1. Basic/Defense: Lear to block high or low quickly, calmly and accurately. If you react spastically, your character will jump by accident. Get used to how the joystick works. Imagine the joystick is your character. For instance, push it to the upper right diagonal your character will jump up to the right. When your character gets reversed and is on the other side of the screen, remember that the moves are the same but directly reversed on the joystick layout!
- Control Combinations: Street Fighter II requires numerous joystick movements in combination with precise timing using the attack buttons. All special techniques and some of the more special moves are accomplished by pressing the attack button at the completion of the joystick motion! Early button presses mean missed moves.
- 3. Throws and Grabs: To succeed in Street Fighter II, you must master the Grab and Throw techniques. To grab or throw, your character must be within its throwing range. Then, just the joystick file for right and then press the throw button to grab and toss the opponent in the desired direction. Dhalsim and Honda have the longest regular throwing range, roughly two inces, while Zangiel's special Screw Driver Attack is even further—more than three inches! Of course, Zangiel's move is much more difficult to execute and master! Sometimes, you can purposely take a hit just to throw the opponent.
- 4. Counters: Learn the moves that counter the opponents attack the most efficiently and have the least chance of causing damage to you! For example, if Ryu jumps over Ken's head. Ken could try to counter Ryu by performing a Dragon Punch, or maybe even a simple Fierce Punch would do the trick while being the least riskiest.

5. Special Attacks: Learn the special attacks each character possesses by practicing them repeatedly. Learn timing, as well as where and when to perform the special attacks. For example, bad timing for Ken or Ryu using a Fireball or Dragon Punch means bad news because you'll leave them vulnerable to a devastating attack! Characters like Guile, Honda and Blanka all require you to charge up energy before you can attempt their special attacks by moving the joystick in certain directions. You can work on charging energy while trying other moves like jumping, low kicks and punches. Using this approach, you can make Guile throw Sonic Boomerangs one after the other. Blanka will have enough energy to do the rolling attack te nor more times in one roll! The jovstick technique for both Guile's and

Blanka's special moves are the same.

- 6. Cheap Shots: Even though making cheap shots might not fit your Street Fighter II morals, many other players will not hesitate to use these tactics to finish off characters (including your own!). Cheap shots are very difficult to escape and be very frustrating, especially after losing repeatedly because of them. In order to escape an opponent's trickery, you must first learn how to perform them yourself! After you can manage your own cheap shot creations, you'll quickly understand how to time them effectively and nail your opponents to the ground! Although you may loose all your friends while practicing on them, think of the satisfaction you'll det when that tough opponent est a test of their own medicine!
- 7. New Combo's: Try to learn new combinations that other players don't think of using; most players use and expect the same old techniques. Even a rookle player can take out the local champ with some well time fine we combos!

8. Know The Enemy: Having trouble with that pesky Blanka? Well, then start practicing using him! By learning how to play tough to beat opponents, you can learn their weak points and exploit them when they are on the receiving end of your firsts!

The Makers of Smash T.V. Have Created a New Arcade Game That Lives Up to Its Name!

Orcus is an awesome end

boss that you'll meet about

one fourth of the way through

Total Carnage.

In 1999, after a major world war, a country in the Kookistan desert begins to cause trouble in that corner of the world. Reporters and camera crews from all of the major networks rush to the scene and are sending back stories of incredible terror and destruction. Just as

Candy Blitzen, ace reporter for BNN is about to leak the cause of the trouble. she is captured on live television. It's time for the Doomsday Squad!

That's the story behind Total Carnage, the new megaarcade game from Midway. With game play that's similar to

Smash T.V., Total Carnage offers more gut-wrenching action than any other quarter muncher out there! The Doomsday Squad, the heroes of this intense game are Major Mayhem and Captain Carnage. Even with their skills and the vast supply of weapons available to them, it'll be a tough job to rescue the reporters and topple General Akhboob from his seat of power.

Like Smash T.V., Total Carnage uses two joysticks for movement and firing. However, you also have a button that lets you drop bombs with a devastating effect. Also like Smash T.V., there are bonus items

PROTECTIVE COVER

While football may hold second place to baseball as the video sport of choice, but that in no way diminishes the important niche that the game fills. Owners of 8-Bit systems were never given a wide gambit of different football titles to choose from and most of those that did appear, with the possible exception of Tecmo's highly playable Tecmo Bowl, fell way short in both graphic presentation as well as interaction

With the advent of 16-Bit game systems like the Genesis and Super NES, however, a broad variety of gridiron game carts will soon appear. Each of these titles take advantage of the obvious superiority in graphics and animation that the higher end system have to offer, not to mention the incredible audio effects like speech that 8-Bit units could only dream about

With the football season in full swing and the Super Bowl approaching. Electronic Gaming Monthly has wrestled up the best that this new breed has to offer! In the following pages you'll see some of the hottest pigskin play that you can find on a home system, including special previews of John Madden '92, the update to one of last year's best sports games by Electronic Arts, and incredible first efforts on the Super NES!

ALL-NEW TYPES OF GAME PLAY!

With the extra abilities that 16-Bit systems provide, the new generation of video football games provide an

unparalleled level of quality. In addition to the intense graphics, new football carts such as Joe Montana 2 and Mike Ditka Power Football each use new play techniques and original programming to enhance the realism and overall interaction that the games provide.

REAL SOUNDS. **REAL VOICE**

One of the most remarkable new achievements in sports video games can be found in Joe Montana 2. the seguel to the well-received football face-off of last year. Montana, which is being released in tandem on the Genesis and Game Gear, takes the 16-Bitter to all-new heights with a feature that includes an actual playby-play sportscaster following the flow of the action! No matter what your on-screen characters do. the Montana 2 cartridge is right there with crystalclear calls!

In Madden '92, Electronic Arts

has improved graphics and play!

Joe Montana 2 uses multiple perspectives and real voice!

INTENSE **GAME PLAY**

From the new Madden to the new Montana, video football games have reached an all-new level of sophistication. Judging from the new entries we received, including Super Tecmo Bowl - a game with graphics and play so good it beats most of its 16-Bit competition, we think you'll agree that the sport of football has never looked better

The graphics and play of Super Tecmo Bowl rival the 16-Bitters!

Where monsters finally face the music!

You'd expect a great role playing game to have plenty of monsters and creatures for you to conquer. You'd expect the band of six hardy adventurers you create to have magical powers and weapons to wield in battle. But only The Bard's Tale brings you the unexpected—the awesome weapon of magical music! Though each of your team has unique skills, the Bard's songs have devastating effects on your fearsome foes. Dragons, spiders, trolls, and orcs face the music each time they encounter your freedom fighters. Hone your skills in magic and combat as you search for gold through the incredible maze of the city's 16 levels of dungeons and catacombs. Destroy the monsters with magic and music. Let The Bard's Tale begin!

4th DOWN AND GOAL TO GO!

It's the thrill of Football all over again - this time on the Super NESI John Madden Football for the Nintendo 16-Bitter represents the first sports title for that platform by the Electronic Arts Sports Network. Judging by this first entry, EA should have an equally successful foray into the Super NES sports genre!

With hard hitting action and a wide variety of plays, Madden allows you to grab a friend and take on the baddest teams in the NFL. Or, if you want to play solo, the computer will offer up a formidable opposition. With digitized voices and an instant replay feature, this cart takes the Madden play mechanics and adds even more! From an instant replay feature that allows you to play, fast-foward, rewind, pause, and frame advance the game "footage", to a demo feature that lets you sit back a watch the action unfold! Choose from preseason, regular season or playoff options. Pick your playfield (Turf or grass), alter weather conditions (fair, mud, or snow), and take control of your favorite football teams

Madden for the Super NES takes advantage of many advanced Nintendo 16-Bit functions!

ALL-NEW REALISM!

Expanding on the excellent leaps in execution and play mechanics that were originally introduced to the Sega Genesis, John Madden Football for the Super NES takes these concepts even further with realistic

graphics, sound effects and play! From the roar of the crowd to the wide array of visual presentations that the Super NES has to offer, this game takes football to a whole new level! Field kick offs, block punts and throw for the bomb in John Madden Football!

IKSTAKIT REPLAYI

Using mode 7, the instant replay feature scales back to repeat...

and adds a special "control box" to the play window, superimposed over the action...

...then you can control the "film" by playing in reverse or even frame by frame!

Let the computer select if today would be a nice day for a game or not!

Alter the field conditions by selecting between natural and artificial turf!

The weather will affect the movement, control and overall team abilities!

If you pick the playoff option, you can go right into a chart 3 screens wide, that helps you see the pattern of teams that are on their way to the super bowl. This one is not yet been started, but it will soon be filled with teams battling for the title of Super Bowl champions. You pick your team and then another will face you.

PLAV BV PLAV!!

Yes, that's right, Joe Montana is back for his second stab at 16-Bit football in Joe Montana II: Sports Talk Football

As the name implies, this game uses an extensive array of real speech to further support the game play. While playing, the announcer keeps you appraised of the on-field action with a steady stream of real voice play by play. Everything is included in this exciting new video football, with complete phrases and a halftime "talk" show accompanying the detailed gridiron gladiators!

More conventional features include animated cinema displays of the crowd and referee, and even a cameo appearance by Sonic!

An intricate option screen also allows you to select the field, manage players and, if you don't like the commentary, turn off the voice.

With the added realism afforded by the real voices and scaled play, Joe Montana 2 comes off looking, and sounding, great!

At the start of play a more panoramic view of the field is used...

One of the more advanced features of Joe Montana 2 is the pseudo-scaling and zoom. When a player approaches or is near the football, the screen shifts to show you a close-up of the action. This provides a better view of the game play and creates a more realistic view of the game!

...until the ball is introduced into play and the screen isolates the action!

John Madden Football™'92. It doesn't get

any tougher than this.

Madden '92 delivers the most guts in football. Twenty-eight updated pro teams, plus a new All-Madden squad. The latest plays, schemes, and formations including the Run and Shoot, a fistful of new Madden plays

And the tough got even tougher in Madden'92. Now your competition adjusts to your playcalling. Call a play once too often, and you'll get planted in the turf. Permanently. It's the most intense football action you can get. And action always speaks louder than words.

So Madden '92 is flat-out the most realistic game this side of Sunday afternoon. Each team roster is packed with 35 men, each man rated on six different attributes. Some are more durable: others, better on grass; others, better in mud. Play to their strengths, and you'll make it to the playoffs.

Coach Madden's drafted a whole new game this year including the Run and Shoot, 3-4 defenses, and much more.

部型型 Besides calling the shots, you have more moves than a cheerleader. Take vour running back, for example. You control every spin, hurdle, cut back, dive, you name it. Use the "oomph" button to steamroll for a first down. If you don't like what you see at the line of scrimmage, you can audible. You even choose the weather.

Watch the momentum shift after the guarterback sneak to the hospital.

TAKE JOE ON THE GO...

Available: Spring '92

Football games appear to be on the rise and their is no better way to enjoy fast paced football action then the portable way with Joe Montana Football for the Sega Game Gear.

This translation of the popular console title employs many of the same features found in the original Joe Montana, but has been scaled down in scope to accommodate the smaller proportions of the Game Gear display.

The game starts with a coin toss and your decision of fielding options. The team selection screen is completely menu driven and allows your choice of many different franchises, each with their own style of play.

While it does have some rough edges, Joe Montana is a great addition to the Sega line-up of games for the ever expanding Game Gear hand-held.

In the play select screen, pick from a variety of options!

The graphics of the field and players are rendered with detail!

Whether you run or pass, Joe keeps you in the game!

TEAM SELECTION!

The team selection screen allows you to choose the from the available teams that you wish to play as and against. The game allows you to choose from many different types of offense and defense by providing specific characteristics to each team.

COIN TOSS!

Play begins with the coin toss! Pick either heads or tails to determine whether vou will elect to receive or kick at the start of the game. Highly detailed graphics are used to represent the coin as it spins and ultimately falls on one side! There are a number of special touches such as these scattered throughout Joe Montana Football for the Game Gear, providing many unique features not found in most football entries!

INTERMISSIONS!

Joe Montana, in addition to presenting a challenging game of ball, supplements the action with some nicely drawn and animated intermission sequences after each score and at the end of play!

FOOTBALL FRENZY

(SNK / NEO GEO)

Without a doubt this is the best looking football game ever seen on a home video game system. Incredible sights and even better digitized voices call the plays. For 1 or 2 players.

ANATROM BOL

their NES title. While it no longer has the 4-player mode, it does boast improved graphics and sounds.

BO JACKSON (THO / GameBoy)

Bo knows football, and baseball in this two-in-one cart. Featuring vertical scrolling game play and a coin toss. This cart also has an optional baseball game for a nice change of pace.

N.F.L. FOOTBALL (Lynx / Atgri)

This official NFL game has the real players that football fans love. Cool scaling of the field and a large playbook give you the realism of football on the go. Link up with another player for twice the fun.

THE DRAG IS BACK!!!!!

Simon Belmont has invaded the 16-bit market. That's right he's coming to you on the Super NES in with 16-bit graphics and sound. Every one hundred years the force of good start to weaken and the forces of evil become stronger and stronger. Also every one hundred years the power of dracula grows more and more. Each time he returns he is stronger then the last and that time is soon to come. It has been one hundred years since Simon Belmont defeated Dracula and saved Transylvania from sheer destruction. However, once again Transylvania is in danger. Dracula is back and he is out to get revenge against the Belmont family. The towns people now look to a new and more powerful Belmont to seek out and destroy Dracula. You, with your whip in hand, must seek out and destroy this evil and once again bring peace back to Transylvania.

ANGIENT WEAPONRY!

This version of Castlevania is like the others in that you will be aided by ancient weaponry along the way, however you can only carry one weapon at a time. This weaponry is most helpful against the bosses and sometimes they will be needed in the main level of action. In order to use these weapons you need to collect hearts. For every heart you can shoot out one of your weapons, and in order to collect hearts you need to look in the candles.

Dear Program Designer.

Great job on the Chessmaster 2100! Your advertising is correct. It is, I think, the finest chess program in the world.

Because you obviously are so interested in designing a first-class product that entertains and satisfies the user as well as to simply play great cheess, I am offering a few minor suggestions for improvements to the next generation of the program. They are changes that I, as a regular user, would appreciate.

- Please add a setting for a polite voice that only speaks to announce checks and checkmate, or perhaps after a moune say. "Your turn."
- move, say, "Your turn."

 2. Allow a player to select a Chessmaster opponent based
- on approximate rating.

 I was pleased to discover the Chessmaster will sacrifice a piece to gain position. This is as close to artificial intelligence as my PC has ever come.

Dear Folks

I have been using "Mavis Beacon Teaches Typing" for about a month now on my C-64.

The reason for starting was that I am a student with a large workload. After this time my ability to type all letters has improved 100% (and symbols should get better with practice!)

My success prompts me to tell you all that the program runs just fine (no bugs, etc.) on my C-64 as on an IBM (I've got both). Thanks for the best typing tutor-machine or human, that I've ever had!

Dear Mr. Palmerton,

I am writing in acknowledgement of receipt of your letter and the copy of Chessmaster 2100 and I simply wish to thank you for same.

It works fine and I am thrilled with this Chess Game.

Thanks again.

Introly take time to write a letter to any company unless the season of the season of

Most software houses seem to promote Quicken when you ask them what is available. I think you need to convince Egghead that Dollars & Sense is an excellent program and probably better than Quicken.

You might consider supporting CheckFree checking with Dollars & Sense. That is one selling point that other programs have. To whom it may concern;

I have used Microsoft Works for over two years. But, after trying your Toolworks Office Manager, I have discarded Microsoft Works and now use Office Manager instead.

I use three different personal computers: (1) an IBM PS/2 with dual 3.5-inch floppy disk drives at my office, (2) a Tandy 1000SX with a 20 megabyte hard disk at home, and (3) a Tandy 1100FD notebook with a single 3.5 inch floppy disk drive write on the qo.

I have found that by putting the Toolworks writer, filer, and cate program on separate 3.5-inch floopy disks, the Toolworks Office Manager can easily run on all three of these machines. I cannot say the same about Microsoft Works. The insert functions have been a great help in transporting my Works files into Office Manager.

I have been so happy with the Toolworks Office Manager, that I had to write. Thanks for a great product.

THE MIRACLE PIANO TEACHING SYSTEM

"It makes learning to play a positive joy"

"[It] will start a revolution in computers"

"A superb value for the money"

- Gareth Powell The Sydney Morning Herald

DO YOU WANT TO BE A ROCK AND ROLL STAR?

"More than enough for

Ever wanted to crank out a few tunes on a keyboard, but didn't

know how? Well, if you own a Nintendo Entertainment System, a Super NES, an Amiga computer, or a PC compatible, you can pick up a Miracle keyboard and start learning to play the piano in mere minutes!

To start, just plug the Miracle into your NES or Super NES joystick port. Place the included Miracle

program cartridge into the cartridge slot and get ready! Within hours, you will perform numerous one and two-handed melodies effortlessly!

You can choose from 128 instrument sounds and effects to emulate, including the piano, guitar,

organ, saxophone. and many others. The keyboard has built-in stereo speakers. a foot

pedal, and even stereo headphones for private listening.

You will learn how to properly place your fingers, how to sit, and

> how to read musical notation! Since the keyboard is compatible completely with MIDI tech

nology, it may stand alone as a separate unit. It can be plugged into your favorite stereo system to enjoy the full effect of stereo

sound.

Each lesson is customized to fit you specific needs. It will analyze your performance and give you pointers on how

to improve. The options are limitless! Maybe it really does take a Miracle to be a rock and roll star ...

KEYBOARD

The keyboard consists of 49 full-size, velocity-sensitive keys. Each of the 128 digitized instruments and sound effects are reproduced faithfully every single time.

NES INTERFACE

By connecting the Miracle to the NES (and soon the Super NES, PC compatibles, and AMIGA computers) you can visualize the beautiful tunes you are hearing.

ONSCREEN TUTOR

The Miracle guides you step by step through each lesson! It even gives you pointers and encouraging words of advice. Follow the instructions carefully.

INTERACTIVE VIDEO

With the video interface, learning to play the piano is fun! Play in the shooting gallery and other outstanding interactive keyboard games created to help you learn!

NUMEROUS OPTIONS

If you want to take a break from the lessons, you may, at any time, go to the options screen and listen to any piece of music available with the program!

UNCHALLENGED QUALITY

Fully MIDI (Musical Instrument Digital Interface) compatible, built in 4" speakers, 128 digital sounds, sustain footpedal, 49 full size velocity keys, need we say more?

DO YOU REALLY WANT TO BE A ROCK AND ROLL STAR?

REALLY?

Okay! Run to the store and put your name down on the Miracle

Piano Teaching System!These systems are guaranteed to be the hottest items to hit the store shelves since the Nintendo itself!

No other accessory even comes close! The Miracle should price out at just under \$400, a real bar-

gain considering the price of piano tutors nowadays. The Miracle won't last long in stores, and a waiting list is already forming.

Besides, a stand alone keyboards can easily cost three times that amount, and it can't interface with the Nintendo Entertainment System. The Miracle keyboard will emulate 128 dif-

ferent instruments
and sound
effects,
so no
in stru-

ment is out of your reach! With the Miracle's interactive Nintendo hook up, you will be guided step by

very adveces of music

with or without accompaniment.

*www.mmin

Take one look at the high quality keys (all 49 of them) and you'll be impressed! This is the reason to buy a Nintendo Entertainment System! Of course, the Miracle will be available in nearly every

format varying from the new Super Nintendo Entertainment System to the powerful PC compatible systems. The Miracle will

also run on the Mac computers and stand alone. Can any other keyboard accomplish this bold feat? I think not!

So, if you really want to be a rock and roll star, the Miracle is the right learning tool for you!

The Miracle will take a beginner and turn them into a winner!

PAPERBOY DELIVERS!!

Paperboy® , perhaps one of the hottest arcade coin ops in history, is coming to the Super Nintendo Entertainment System! Super NES Paperboy® 2 brings the true arcade

experience home and even adds some new twists and turns! Instead of just going up a oneway street, you get to turn corners and move freely about the screen! Of course, you can't backtrack, but you're so good, you

Paperboy 2 on the 16-bit Super NES is even better than the arcade! All new obstacles, bonuses, and clean graphics are all improved over the coin op original.

PAPERBOY® 2 ON THE SMALL SCREEN!

This awesome arcade classic has made into nearly every home video game format possible, and the Game Boy is no exception! On the small screen, Paperboy 2comes off very well. In fact, the game has incredible control and graphics, something not found on many Game Boy titles. All of the original hazards and power ups are present, even the bonus rounds! Try to increase your subscribers, vandalize non-customers, and even stop burdars for really big points!

EXTRA, EXTRA!

THE SUPER NES!

CHESSMASTER

CHECK MATE!

Brace yourselves. The Chessmaster, the most challenging chess program ever created, is on its way to the Super Nintendo Entertainment System! The Chessmaster is the perfect title for the chess enthusiast. The Chessmaster is the perfect teacher and the most relentless opponent with over 150,000 classic openings. 16 levels of play (ranging from Newcomer to Grandmaster) and a special option that gives you hints in a tight situation. The Chessmaster will even let you watch while the computer computes each well-planned move! If you know nothing about chess, this is the way to learn. The Chessmaster will also play itself so you can get a feel for how a standard chess match progresses and matures. You can watch the action in either a 3D or 2D perspective, turn the board 90 degrees in any direction, and view the War Room, an area that displays the captured pieces and a thinking window! Hurry, The Chessmaster is waiting for your next move..

TWO PERSPECTIVES!

Only The Chessmaster has two different perspectives to choose from. Use 3D for the first person view, or choose the 2D perspective for the classical overhead view.

AWESOME GRAPHICS!

The Chessmaster takes advantage of the Super Nintendo's incredible 16-bit graphics to the fullest Choose from numerous richly designed pieces. Rotate the board to fit your personal needs. View the game from two perspectives. The Chessmaster is full of rich, lively colors bursting from the screen! You can pick from either classical pieces or fantasy characters drawn vividly and clearly.

BLITZKRIEG

One of the most powerful strategies ever to cross the board is Blitzkrieg. Blitzkrieg is German for "short war" and it couldn't be more aptly named. No other strategy forces checkmate in four (that's right, count 'em) moves! Of course, seasoned players know how to avoid this subtle trap, but sometimes you can catch your opponent off guard. This strategy works best as the white player. Here's the basic moves in a nutshell:

1) First, open with the pawn above vour King, Move out two spaces. creates an opening for the Queen and

White Bishop. Your opponent will ideally move his pawn up two spaces to block your pawn.

2) Second, take your Bishop and move it diagonally 3 spaces. This will con-

centrate your Bishop on the weak Kina's just pawn, above the Black This Bishop.

pawn is the key to your victory.

3) Third, move your gueen diagonally either 2 or 4 spaces. The first choice sets the Queen just below the weak pawn. The second choice puts the

Queen on a diagonal path to the pawn. The only way your opponent can protect the pawn

is to block the Queen and Bishop. 4) Finally, use your Queen to take the

pawn! Your Bishop protects you from being taken by the Black King. Since the Black King was the only piece protecting the weak

pawn, the King is trapped with no avenue for escape or rescue! Check-

mate! The basic idea behind Blitzkried is to exploit your opponent's weaknesses whenever possible. Try other variations of this strategy at any point.

GOAL!

Sports titles are among the first to appear on the Super NES, and World League Soccer is among the first of them. Take the action down field as you race to your opponent's goal for a one on one confrontation! Some of the best scaling and animation effects are seen here on the Super NES. World

EXTRA. EXTRA!

Read all about it! Paperboy 2 is available for the Super NES! For all of you who enjoyed the coin-op original, this sequel of sorts is guaranteed to please you! The graphics are, of course, superb, and the levels are harder! First, you must choose whether you want to be a paper boy or a paper girl. Then, pick your route! Easy Street is definitely the choice for the novice player, but even Easy Street is challenging! No longer are you limited to straight up and down streets. Now, your route has twists and turns, and more dangers then ever before! Keep an eve out for gargoyles with extremely bad breath! Or how about that paranoid dude who outfitted his house with can-

R. MARINE

DRILL

A very powerful weapon used to get

through barriers!

DIVE

This weapon seeks out the enemy, but it is very weak.

R. IET

Ride his back to get past areas with no where to stand!

RRIGHT

This freezes the enemies on the screen but doesn't effect the hosses!

TOAD

Shoots a shell in the air that breaks into a deadly rain!

PHARAOH

Hold down the attack button to power it up!

SKULL

This defensive item will create a shield of skulls around you!

WIRE

Search the domain of Diveman to locate this enhancement!

RING

Fire to unleash a special boomerang weapon that returns!

R. COIL

Jump on him and he will shoot you high into the in the air.

BALLOON

Find this weapon when your searching for Pharaoh Man.

Begin your battles with Ring Man!

This level holds many surprises - explore!

This may be a little difficult at first, but once you master the play technique required to pass the Ring Man enemies you should have no problem at all! Don't take any of the platforms for granted, however, because they might just move out from under you! If this happens, run to either end of the platform - using the slide to speed your way if necessary!

The enemies at the beginning of this level will strike at you from below so be especially careful! Watch your step in this tricky area and also make sure that you jump occasionally when walking in the sand or else the quicksand will start to pull you under! Use your

Mega blast to defeat Pharaoh Man at the conclusion of the round by being wary of his special Mega beam!

TOAD MAR

The rain in this level will slow Mega Man down. That makes it very easy for the enemies above to hit you. Be sure to activate the skulls when you arrive here! Also. don't stand in the water that is on the platforms because the water will carry Mega Man to the right side of the platform and into some deadly spikes!

This is another useful level to come prepared with the skull! During this round you have to run under falling rocks. Be sure to have the skull power-up activated against the rocks that fall from above and don't jump too high because the ceilings are covered with drill bits.

n n

The new enemies that you meet in this round are quite difficult to best. Don't be fooled by the skeletons!

Although they will fall apart when shot, they will quickly come back to life! The only way to defeat these undead nasties is to fully power-up

vour blaster and let 'em have it! One shot does the trick!

SKULL MA

Look out for the multiple hazards here!

Stav away from the Hoovers or its curtains!

DUST MAN At the beginning of this

level, you are going to have to make several jumps. Don't rush right into these jumps, however, because when you must move all the way to the edge until upcoming enemy appears! When he pops up, shoot him and then jump very quickly. The boss is going to try to suck you up with his vacuum so watch out!

Battle your way underwater to Dive Man!

until you have the

Rush Marine because almost the entire battle will take place underwater! The Rush Marine will help you with better control underwater! Be sure, however, that you have enough energy in the Rush Marine to take on the Boss or you'll find yourself in a Mega-sized load of underwater trouble!

Don't try this level

MAIN FORTRESS!!

After beating all eight robot Bosses, you'll enter the main fortress of the mastermind behind the robot rebellion! Prepare to meet the deadliest enemy Mega Man has ever faced and learn the true story of your identity!

SECRET FORTRESS!

Don't think that the battle is over after beating the fortress! An even greater secret awaits!

HOLE IN ONE!

You've seen him bashing blocks, tormenting turtles, killing Koopas and playing doctor, but now and then Mario likes to take some time off and relax with a round of golf. However, this version is much more detailed than other NES versions, and you will find the layout of the holes extremely challenging and worthy of any pro. Take on the best courses in the world and go up against computer players who play like they have been taught by the professionals.

Some features that set this cart above other golf games are the three dimensional perspective screen shots that appear when the ball is near the hole, a choice of a full set of clubs, and adjustments which allow you to control the speed of your swing and the angle at which you want to hit the ball.

These course will give up very few birdies and then only to the experienced players. Definitely a game which you'll come back for more and more!

The three dimensional views are excellent!

The sandtraps are hazards to be avoided!

THE SIMPSONS" BARTYS. WORLD MAIT GROENING

NO PROBLEMO DUDES

Get set, because the folks at Acclaim have come out of nowhere with a brand new Simpsons' adventure! In a multi-format puzzle/adventure contest, you must control Bart Simpson, the small dude with an attitude, who's amazingly made it to the finals of a special Krusty the Klown art contest! The winner receives an all-expenses paid trip around the world courtesy of nuclear power-plant owner Montgomery Burns! While the success of Bart's stick figure por-

trait of Krusty as the winning entry remains questionable, Mr. Burns must fork over the dough to get the Simpson clan around the world as promised. Mr. Burns realizes, however, that a loophole exists in the contest that requires him to send his old foes the Simpsons', but nothing says he must bring them back! Use your puzzle solving and action game skills to overcome Mr. Burns and his relatives in multiple locations around the world!

PRACTICE MODE

This is the classic shell game. Find Krusty's head under one of the shells to receive special bonus points!

Play a game of concentration! Match up the faces of the Simpsons' cast! Miss three times and it's over!

Level one starts by familiarizing you with the basics of play! Level one contains each the puzzle games as well as an action segment filled with

secret items! A special secret awaits on the ship, where you must fall straight down to reach your baby sister Maggie! Touch her and you'll get a special bonus

LEVEL 2

This level can be very tricky, but it's simple when you know what to do. First find Marge and then wait until she throws tennis balls at you. Bounce

them off your head into the Krusty statue. After the statue falls, go and find it. After this, jump to the top and move to the right to get to the level qoal!

LEVEL 3

The game starts to heat up in level three now that there are two action sequences and one less puzzle. Enter the ancient pyramids and continue

to venture ahead until you encounter the Sphinx! In addition you must battle the Sphinx of Krusty and change into Bartman to safely exist the round!

WE HAVE

Experience all the thrills of a space shuttle mission without leaving the comforts of your living room! Absolute Entertainment has gone and programmed some of the actual U.S. Space Agency projects like rescuing a Soviet cosmonaut, recover and repair an SDI satellite and even building a U.S. Space Station.

Space Shuttle features 6 exciting missions, each with all the realism that Absolute is known for. Go. through the preflight checks, get advice from real digitized voices from the mission control staff, and blast off on your mission. Best of all, as detailed as the missions are, you aren't required to memorize pages upon pages of documentation. All of the major controls are displayed on the shuttle guidance system window but like the real thing, it will take time to master the controls and to be able to maneuver the shuttle like a real astronaut.

Space Shuffle Project

Space Shuttle features a password option to let you start the game on the last mission you finished. Note the detail of the shuttle's cockpit. The layout mirrors the real thing and adds to the realism of the game.

Mission 1 requires you to place a satellite in orbit.

Mission 2 has you building a space station in orbit.

The results if you succeed!

And the results if you happen to fail!

TURTLES FIGHT WITH HONOR!!!

Konami returns to the 8-Bit action/adventure market with a vengeance, packaged as Teenage Mutant Ninja Turtles 3! Packed with a variety of new features, TMNT 3 combines several of the proven features of the first two Turtles games, while throwing in new elements as well! Ranging from the Super Spin Kick to body slams, TMNT 3 is packed with awesome game play!

While the Turtles are enjoying a peaceful vacation, celebrating the defeat of the evil Shredder, the awesome foursome are rushed to the scene of a kidnapping! Poor April, the mutant's trusty cohort in crime-fighting, has been whisked away by Shredder and his evil minions! It's up to you to rescue her and get rid of the Foot Clan!

OOOOOOOUUUUUUUUUCH!

Konami has given the Turtles even more personality than their previous two adventures! By adding a variety of graphics, not only the enemies, but the Turtles themselves, must endure a variety of animated dangerseach rendered in comedic detail! The Turtles must avoid being electrocuted, torched, smashed, pummeled, and shell-shocked. Death isn't the only thing that brings out the best in the Turtles. Leave the controller idle for a few moments and the boredom starts to show!

Like TMNT 2, you can choose from one of the four Turtles at the beginning of the game. Each Turtle has different strengths and weaknesses. Leonardo has twin swords and is well balanced in all areas. Raphael is armed with sais and the fastest of the bunch. Michelangelo comes equipped with nunchakus and is tough and fast, while Donatello is the strongest but suffers from being a bit slower than his compatriots!

Get ready to kick some major ninja butt. This level is packed
with a number of pesky Foot Clan soldiers
ready to do you in. Your first battle in

ready to do you in. Your first battle in this game will take place on the beaches of Key West. After you fight your way past the sandy beaches, you'll move on to the piers where Rocksteady is waiting! He might know where to find April and the Shredder! The best way to defeat the enemies here is to use your weapon to

TURTLE POWER!

The Turtles have been hard at work training in the martial arts since their last encounter with Shredder. Fortunately, they've picked up several new moves that will come in handy when dealing with Shredder's henchmen! Team up in two-player mode for even more damage!

HANG TEN!

Get those surf boards out and get ready to catch some major waves. Structured in somewhat the same manner as the skateboarding sequence from TMNT 2, this level is fast-paced and requires toned reflexes. Enemies will attack from front and back, so don't be surprised if you have to use a jumpkick or two. Halfway through this level a huge submarine surfaces to reveal even more deadly dangers! Watch out for flames and surprise attacks from the Foot Clan when you walk across the Submarine and

be sure to take the thugs out as soon as they appear! No time for a pizza break here boy, so get kickin!!

THE FUTURE OF THE GALAXY IS IN YOUR HANDS!!

Finally, a coin-op that most thought would be impossible to translate into the tiny brains of our home systems has found its way onto the Sega Genesis system. Capturing some of the most spectacular graphics (albeit minus the crystal-clear scrolling of the arcade version) of the quarter sucking original, Galaxy Force 2 is an 8-banger extraordinaire, with some fast paced shooting

action and a myriad of weaponry that almost makes the odds even!

Launch your attack against the galaxy's latest threat - the Rounth Empire. These representatives of galactic evil have imprisoned star systems across the universe and, you guessed it, they now have their sights set on your home worlds in the Junos sector! With the fate of your people

POWER-UP

Obtain these special icons and your shooting power will increase. Be careful though, it only last for a little while.

CHOOSE YOUR PLAN OF ATTACK!!

At the beginning of the game you get to pick from five separate launching points or levels. After you pick this first level and beat it, you will automatically be transported to the next round of combat. After you eliminate the alien scourge, your on-board computer will kick on the

hyper thrusters for a final confrontation in deep space. Make sure that you have enough energy when you go into hyperspace because it's impossible to re-energize!

Pick the hardest level first so you'll have more power for the outer space fight!

YOU LIVE AND DYE BY THE AMOUNT OF ENERGY YOU HAVE!

You start the game with 1200 energy and once you enter combat this will begin to dwindle away. When you get hit by an enemy, you don't die, but instead lose energy. When you have no more

energy the battle is lost and the game is over.
The only way to replenish your energy is by getting a certain amount of points as well as successfully destroy a designated number of aliens!

NISSION 5 CLERR

resting squarely on your shoulders, you must take to the stars and take out the enemy - one at a time!

The alien force massed against you is ominous in every sense of the word. From light snub fighters to heavy battle cruisers, the alien armada unleashed by the Rounth has only one directive: the total annihilation of the Junos people!

Each of the game's six levels of play presents an entirely new cast of enemy attackers as well as a separate backdrop for the action. Ranging from outer space to the lower atmosphere of your home worlds, these 16-Bit backgrounds present few dangers but are sometimes cool to look at. Don't get your mind off the war for too long, however, or you may find yourself (and what's rest of your fighter) floating home.

With little word of the advancing army, the greatest scientists of Junos put the finishing touches on your prototype fighter. Equipped with a dual pulse cannon and computer-aided missile systems, this new fighter was to be the pride of the Galaxy Force. Now pushed into active duty, you must not only take advantage of the incredible weapons of war at your disposal, but also special defensive systems that include a hybrid armored hull and plasma-based deflection screens. Both in combat and while traversing the corridors leading you safely out of each level of play, this shield will take that would send your ship across the universe in pieces. But look out, because once your deflector screens go down you're a sitting duck and one wrong move means the end of your flying days!

Although the Genesis version of Galaxy Force falls way short in the areas of motion control and scaling, not to mention a liberal loss of the detail that was so intricate in both the tunnel sequences and actual enemies, this lack of visual pizzazz doesn't destroy the overall enjoyment of the game. True, it's your basic first-person shooter, but the special features and interesting risk incentives combine with the all-out intensity of the action to give you a good idea what an all-out interstellar war would probably be like.

If you were a fan of the arcade title, don't miss your chance to give Galaxy Force 2 a spin at home. As long as you don't try to directly compare the complexity of the graphics and presentation, you'll probably find yourself enjoying the ride!

KILLING ENEMIES

The best form of attack in this game is the homing missiles. You can only shoot one group of missiles at a time, but you can select the number of rockets to be unleashed in each group. To unload multiple missiles, however, you must lock onto multiple targets. Once you're locked on you can hit your missile button once more to fire at these targets!

SHIELD

You begin your battles with a fully energized shield. As your craft takes additional damage, this energy is lost and, unfortunately, you can't get it back.

TIGHT SPOTS!

There are many places in this game where you have to be an ace pilot to get by without getting hit. Keep your eyes peeled and watch out for the tight spots!

SCENE 1

This is the easiest level. so you may want to save it for last. It is very important to have a lot of energy when you enter the canal on the conclusion of this round because it is very long and as soon as you come out there is a special control panel that must be destroyed! Try to shoot as many enemies that you can to replenish vour energy cells - if you fail to you may not have enough power to best the next level of play!

SCENE 2

This level has by far the coolest graphics. The fire effects in this round are completely awesome. Don't let vourself get caught by all the good looks, however, because you're going to need sharp reflexes to take out the enemies. If you lose your targeting of the alien attackers your power will disappear in no time! Also, look out for the fire that shoots out from below, it leaves you with little time to react!

SCENE 3

At the beginning of this level immediately hit the ground and take out the multiple enemy targets residing there to build up your energy. Also there are plants that will shoot at you from the ground. When they attack, target them with missiles and let 'em have it! Remember that the part that is bomb ed will come back, giving you the option of bombing it again! Use this technique to rack up a ton of energy upon completion.

SCENE 4

This is the longest of the game's six levels, however the high volume of targets will award you with a generous energy bonus at the conclusion of the round. You may find that when you're flying, crystals pop up in front of your position. You must avoid obstacles such as these because they are indestructable! The easiest way to maneuver around these dangers is to stick to the closest side of the screen.

SCENE 5

Undoubtedly the hardest of the five planets on which you can begin your battles. This is the best place to start since there are fewer opponents and, consequently, less energy to collect. Keep your sights honed and blast any alien that wanders by! Be careful in the canal, because the extra rock formations make the corridors some of the most trecherous in the game! Once you start bouncing off the walls vou're history!

SCENE 6-HYPER SPACE

The backgrounds in this level can be extremely deceiving. The patterns will often give the alien army protection and allow their weapon blasts to blend in with the surroundings. With a variety of dangers to avoid, including poles and enemy fighters, and with no way to power-up your shields, the odds are definitely against you.

Maintain a steady trigger!

I'LL BE BACK...!

It is a world where mankind has no future. In the year 1997 the computers of Sky-Net looked to humanity as its only threat and devised the ultimate killing machine to destroy us all-The Terminators.

Following the plot and storyline of the classic movie, you assume the role of Kyle Reese, sent back in time by the leader of the human resistance, John Conner. You must overcome the Terminator terror of the future and take on the police and a lone Terminator in the past to keep Sarah Conner, the mother of John, alive.

Combining highly detailed action sequences using digitized graphics, incredible sound and voice tracks from the movie and game play that is sorely lacking on the Genesis, The Terminator successfully incorporates high action with adventure overtones. Toss in some digitized cinema displays from the movie to push the plot along and you get a solid action entry for the Genesis library!

In the first level you must fight your way through the maze of Sky-Net in search of the hidden time displacement equipment. Blow up Sky-Net's reactor and time warp to the past!

LEVEL 2 - FIND AND RESCUE SARAH!

In this level hit the streets of L.A. in search of Sarah. Blow away the thugs com-

ing at you as well as the cops hunting you down! Locate Sarah before she's captured!

LEVEL 3 - THE POLICE STATION

Having made it to the police station, you must find your way through the endless maze of corridors.

Throughout the game you can acquire new weapons and enhancements to aid you in your battle against the machines. Both in the future and in the present there are several types of firepower that can be collected.

THE STORY UNFOLDS AS YOU PROGRESS THROUGH THE GAME

Battle of the 'bots!

If you're into robotics, and you're into fighting games, then this is the one for you. Heavy Nova utilizes a new type of character for a Genesis fighting game... a robot. Boasting 8 meg power, and smooth graphics, it seems like your inside the game, watching the action take place. The countless fighting moves roll out very realistically, and count for a lot of the excitement in the game. Another addition is the one on one boss battles, in which the bosses use different fighting techniques than you, for an even wider variety of moves. Your missions throughout the game are really just training for the robot, so be alert. There are enemies large and small, and there are also many obstacles to overcome. After each boss battle, you learn a few new fighting techniques. There is also an impressive cinema display before the title screen appears.

MANY IMPRESSIVELY EXECUTED FIGHT MOVES!

...AND THE MEEK SHALL INHERIT THE EARTH...

After years of waiting, the longawaited CD smasher has finally arrived!! Based off of the classic grade-B giant bug films like Them and the hit PC game It Came From The Desert, Cinemaware's last title is now in NEC's hands and they are using their CD-ROM. power to the max! Though it has some ties with the Amiga version. this one is different - with a more involved plot, a larger cast of characters, and more places to go, not to mention live voice and perfect animation! You are cast as a young, 18 year old boy who is just trying to make it in a small rural town that was used for nuclear testing. Now the radiation has caused a genetic mutation, creating collosal ants that threaten humanity!

A TIME OF RECKONING. . .

It was a time when the human race was reaching its peak of technology - the construction of the atom bomb. Now, the bomb is being tested in a far away place near the tumbleweed towns of Lovelock and Borax. One of the chief pioneers of this testing was Dr. Horton T. Pandbourne, who has studied the effects of the blast for several years. Unfortunately, his records have helped him discover that the radiation from the blast can cause genetic mutation of living tissue. All of this was unaccepted by the scientific community and Dr. Pangbourne was called a crack-pot and a failure for stating that the biological system of the area could be dramatically changed by the intense radiation. Relieved of his post, the Doc now spends his time with a well-equipped lab to keep on studying the effects.

To this day, Lovelock was slowly slipping into a dark state of depression. Littered with suicides, theft, domestic beating, and murder, Lovelock is turning out to be the epitemy of a fatalistic urban nightmare. The citizens, police, and others are ill-willed and are at the last depths of their sanity. Even the town is known as "The Atomic City" and even the buildings have names like the Atomic Lunch Cafe, or the Ground Zero Drive-In. This town is the prime example of the Atomic Ade.

Enter Buzz Lincoln, an 18 year old loner who's mother is a chain smoker and his father is a complete wimp. With his girlfriend Prissy at his side and his Harley Davidson motorcycle under him, he tries to make the best of his life, working for Dr. Pangbourne as an assistant. But all that was to change.

A new terror has just arrived -a terror beyond imagination, scope, and sanity. Only the Doc was able to foresee such an event. The radiation has caused a female queen ant fo grow to massive proportions. As the huge mutants began tunneling under Lovelock, they started capturing humans and the queen - called "Antmind" - conditioned them into mindless slaves. Not only that, but she replaced them with synthetic replicas of the ones they captured on the surface. Their ultimate goal - to construct another. A-bomb to destroy Lovelock, and to repopulate the world with a new order - The civilization of the insect world. The war has just begun!

Light Boy is Bound to Attract Attention

HO! HO!... OH!!! My Vic Tokai LIGHT BOY makes Game Boy playing unbelievable! LIGHT BOY has been my number one request this year,

keeping my elves busy until I took off tonight. The LCD screen is so much easier to see, because LIGHT BOY magnifies the screen 1.5 times. LIGHT BOY even comes with batteries and has replaceable lights that make it a great holiday gift (not to mention the ideal stocking stuffer). It's no wonder LIGHT BOY is bound to attract attention.

In the abandoned town of Borax, you will find Clay, Marina, and Man O' Steel. This is where you can find most of the useful char-

acters. Look on the outskirts of the town for some major focusing points of the game.

There are two sections to Lovelock the buildings within and the surrounding structures. Be sure to check all of them to make sure that you don't miss any vital clues and items!

Be careful of the antmind. She will use nightmares to lure you to her.

Borax is now a ghost town, and there are only three buildings left, but there are three other places of interest outside of the town that are sure to harbor surprises!

Check out The Atomic Cafe where Prissy works, also present is the police, Sonny's slug a bug, and your home.

There are many places you can find like the Mine shaft, the Sand Flat, and the Barbecue pass. These terrains will lead you to differ-

ent scenes and maybe even to some ants!

MEET THE ENTIRE CAST OF DESERT-DWELLING CIVILIANS.

THE MAIN CHARACTERS

Buzz Lincoln - The hero of the game and a loner.
Dr. Horton T. Pangbourne - A scientist that will help you analyze your findings.

THE BORAX CHARACTERS

Clay - A black, blind, wheelchair-ridden saxophone player that has an understanding of the desert Marina - A dashing young girl that will help Buzz feel better when stressed out.

Man O'Steel - A macho ex-surfer that will help you build up you stamina in the ongoing fight.

THE LOVELOCK CIVILIANS

Sheriff of Lovelock - Will become hostile if any coments are made about Lovelocks problems. Lud - Owner of an ammo supply store and will sell to anyone for any reason.

Sonny - Is in charge of pest control and is after the hand of Buzz's girlfriend!

Prissy O'Donnell - Buzz's girlfriend who is very curious about Buzz's actions.

Buzz's Mother - This woman will hound you constantly and dominates Buzz's father.
Buzz's Father - By nature, a wimp. He will offer

you pessimistic information and ideas.
Foundry Supervisor - He can help you with his

ability to make anything out of steel!
Power Station Manager - A drunk that is very host

Power Station Manager - A drunk that is very host tile towards Buzz.

Nicole O'Donnell - Prissy's younger sister. She has some connection with the Antmind. Carl Meadows - A newscaster for channel 14 and

is very obnoxious. Has a strange parrot. Buzz's Fantasy Girl - This is the ideal girl that Buzz visualizes. Do not fall for her, for she is

just a projected image from the Antmind to tempt you.

Keeping It Portable Was Tough...Until Now.

Expanding your Game Boy system does not mean giving up portability; not now. The rugged Light Boy *GAME KEEPER* is a durable and practically designed hard-shell case for everything you will need to get the most out of your Game Boy system.

With special compartments for your Game Boy, Light Boy, Rechargeable Battery Pack, Six Game Paks, Game Link, and Ear Phones, the Light Boy *GAME KEEPER* allows for on-the-go action. A port is even provided to allow the cord for the battery pack to pass through to Game Boy. If you have a battery pack, you can keep it inside the *GAME KEEPER* and still provide the power to keep your Game Boy going on the outside.

Never again will you have to sacrifice power for portability.

THE SPACE HARRIER RETURNS

When Space Harrier 2 came out for the Genesis, it had the technology and blow-you-away graphics that Sega always delivers. That level of sophistication may seem less than average today, but the gaming gurus at Sega have managed to renew the Harrier attack on the small screen in their latest GG title, Space Harrier

With all of it's fast game play, and big Bosses, Space Harrier on the portable Game Gear comes close to duplicating the action of the arcade. The enemy characters attack with lightning speed, approaching in different formations while a variety of obstacles wiz by! Don't be fooled by the small screen, because Space Harrier packs plenty of firepower!

Most of the enemy characters are back!

Defeat the Harrier armies in the air!

FIND A PATTERN

If you really want a hint to help you fight your way through the game, just move around in a counterclockwise circle to avoid enemy fire and defeat Bosses.

Don't be fooled! Some obstacles can be destroyed. while others. like the bigger tree to the right, won't go away!

PASSWORD FEATURE

If you die anytime after the first level, you can input a password to get you back to it without having to play through the whole game.

GO INTO BATTLE AGAINST THE "SHRED HEAD"

In their second foray onto the GameBoy screen, the Teenage Mutant Ninja Turtles are back and they mean business! The streets of N.Y are once again in chaos, with a strange force attempting to take command of the population. The cops have no leads and with each new act of crime the people are demanding that something be done to stop the terror!

Although the police are in the dark, a quartet of subterrainian super heroes have a pretty good idea of who's behind all the commotion. These four mean and green ninja machines must use their individual martial arts skills to wrestle control of the streets away from The Shredder's army of thugs and restore a new peace to the people of New York!

CHOOSE YOUR TURTLE!!

At the start of each level you can pick which weapons and skills you wish to possess by picking your favorite turtle! When vou lose a life vou can pick from the remaining turtles. If you continue you resume play from the last level.

RAPHAEL

DONATELLO

FREE ONE OF YOUR TURTLE FRIENDS!

Don't worry if you lose a life because it's easy to return the turtles to safety. If you complete a level and you are missing one of the turtles, you will play a res-

cue game instead of a bonus game. You'll be given the chance to best a robot guard and save one of the turtles from its captors

SELECT PLEASE

"BONDS BAVIE"

THE BONUS GAMES!

Every time you finish a level you can play a bonus game! To make it to the special play areas, however, you must have all four turtles alive after the Boss is beaten. While all the bonus games are essentially the same, the structure is different. You have a certain amount of time to collect as many

pizzas as possible. Move fast, or the pizza will disappear before you know it! Bonus points as well as additional life are awarded based on the number of pies collected during the time period. Master this technique because the quicker your actions the more life and points you get!

PIZZA! PIZZA! PIZZA!

Everybody knows that pizza is the turtles' favorite food, including the people at Konamil That could explain why pizza is the food that gives the turtles back their power. You get pizza from some of the foot

soldiers and sometimes even Splinter might leave a slice behind. A whole pizza gives you back more life then only the one slice, but no matter what toppings are used, don't pass it up!

ACT 1

Although the first level of Turtles 2 is easy than the following rounds by comparison, it still presents some

unique challenges!
As you approach the
conclusion of Act 1,
however, the game will
get more difficult.
Explore the sewers
when the manholes
come off for Pizza and
beware of Rocksteady.

ACT 2

Take to the streets in the second level of action! Get ready to do some major shreddin' on your skateboard

to get past Shredder's goons! Use your jump kick against the flying scooters and look out for Beebop at the end of the round! He can't wait to get his hands on your shel!!

ACT 3

This is one of the longest levels in the game, so be sure you've got your entire clan just in case you run

into a few snags! This is also a good level to search on since many of the Foot can be caught with Pizza! Krang is waiting for you at the end of Act 3 so be prepared!

You're well on your way to finding the Shredder by the time you reach Act 4. Avoid the boulders in the begin-

ning of the round by ducking when they bounce and jumping when they roll. In addition to facing the first time, you'll also face off against an angry allen out to stop you!

ACT 5

If you start to think you're losing your mind in a maze at the beginning of Act 5, don't worry! All you

have to do to escape Shredder's trap is to move constantly to the left without falling. Not only will you fight a Rock Soldier here, but you'll battle the evil Baxter as well!

THE TECHNODROME!

Blast your way behind enemy lines and take out General Traage, Krang, and The Shredder in the last level of the game!

BLAST THE BYDO INTO OBLIVION!

It's time to get serious! No more messing around now that the Bydo have brought out the heavy artillery. Pilot the R-9 against a massive battle cruiser and destroy it's inner core before moving on to the complex Bydo Mining Zone that changes form to trap pesky starships. Once you've made it past the mining obstacles. you finally enter into the Bydo Empire Recycling Factory where you can put an end to the Bydo war machine. Finally, blast your way into the Bydo Lair and come face to face with the maniacal Bydo Emperor himself. It's not a pretty sight, but you must destroy him to save the earth. Blow out the game at the Pro level for the "real" ending!

Fly inside the ship and blast the main reactor core. You must destroy all three sections with your Super Plasma Blast.

Watch out for the pink lasers that come from the right. Also beware of shots from behind!

Use your bit units to get rid of the guns below and watch ou for the lasers from the right.

Stay at the top of this section until the walls are in place. Any other

path leads to death.

This Boss will scroll to the right at highs speeds. Watch out for the walls and blast him in the eye for best results.

Destroy the last engine and the ship will open up. Go inside to destroy the core.

If you stay in the lower left hand corner of the screen you will be safe from any harm. Don't shoot at the giant death snakes or you might be crushed.

tal marine tal marine a division tal and a marine tal and

After the safe spot disappears, the screen will fill with mines and giant creatures. Try to destroy all of the creatures that come from the right. Be careful as many of the enemies will come from behind. Keep fighting, you're almost there!

Attach the Force Droid to the rear of your ship before going into this sec-

you are clear, attach it to the front again and continue the battle.

This mini-Boss appears at the top of the screen and shoots a strong laser! The only way

to avoid it is to go to the bottom and then fly up through the rings after the main beam disappears.

ロンストライかアレストライかアレスト

This Boss is extremely similar to the 4th Boss in the original R-Type. To damage it you must shoot it in the red eyes.. When the pieces separate, try to use a Super Plasma Blast. Watch out for the lasers, your Force will not absorb them.

You can release the captured R-9's with a Super Plasma Blast. Launch the Force into the Boss when he opens up and hide in the lower left hand corner of the area to finish off the last reminentsof the Bydo evil!
